

Life Care Planning Graduate Certificate

The Life Care Planning Graduate Certificate at Jefferson College of Rehabilitation Sciences (JCRS) equips interdisciplinary professionals with the knowledge and skills to effectively develop and utilize Life Care Plans (LCPs).

If you are a physician, nurse, therapist, social worker, special educator, rehabilitation counselor or other related provider, this certificate is for you.

Program Overview

- Duration: 12 months
- 9 Graduate Credit Hours
- Format: Online
- Prerequisites: Minimum degree required by your professional discipline (bachelor's, master's, or clinical doctorate) in health, special education, social work, vocational rehabilitation, or a related field.

Program Details

- Comprehensive Curriculum: Our rigorous coursework covers standards of practice in Life care planning, chronic conditions germane to life care planning, forensic life care planning, and the business of life care planning. Completion of the certificate requires writing a life care plan.

- Flexible Learning: Access course materials, readings, resources, and videos via our user-friendly online platform, Canvas.

Tuition Rate

New Tuition Rate: \$600 per credit (total cost \$5400)

Curriculum Highlights

- Four courses:
 1. JCRS 730: Introduction to Life Care Planning
 2. JCRS 731: Catastrophic and Chronic Conditions
 3. JCRS 732: Specialty Topics In LCP
 4. JCRS 733: Practicum in LCP (write LCP)

Career Opportunities

Become a certified life care planner.

- Jefferson's LCP certificate program is an approved training program by the International Commission on Health Care Certification (ICHCC). Upon completion of Jefferson's program, you will meet the training requirements to sit for ICHCC certification in Life Care Planning.
