GENERAL INFORMATION

OFFICE OF ADMISSIONS

The Office of Admissions of Sidney Kimmel Medical College is located in the Curtis Building, 1015 Walnut Street, Suite 110. 215-955-6983, fax: 215-503-8877, SKMC.Admissions@jefferson.edu, Jefferson.edu/SKMCA admissions.

INFORMATION FOR ADMITTED STUDENTS: MATRICULATION REQUIREMENTS

Please visit Jefferson.edu/SKMCA admitted students. (check for updates)

TECHNICAL STANDARDS ATTESTATION

As a requirement for admissions, promotion and graduation, a candidate for the MD degree at Sidney Kimmel Medical College must possess the abilities and skills to meet the technical standards. Jefferson.edu/academics/colleges-schools-institutes/skmc/admissions/applying.html

FINANCIAL AID

For information concerning financial aid contact the Office of Financial Aid located in the Curtis Building, 1015 Walnut Street, Suite 115 at 215-955-2867, financial.aid@jefferson.edu, Jefferson.edu/financialaid.

UNIVERSITY HEALTH INSURANCE

Information about the health insurance and annual rates are made available to accepted students and current students on the Thomas Jefferson University Student Health Insurance Plan (SHIP), as well as on the Sidney Kimmel Medical College Student Affairs Canvas page. Annual renewal rates will be able July 1, 2024. Jefferson.edu/academics/colleges-schools-institutes/skmc/admissions/admitted-students.html

UNIVERSITY REGISTRAR

Questions relating to your academic scheduling should be directed to the Office of the University Registrar, 1015 Walnut Street, Suite 115, 215-503-8734, university.registrar@jefferson.edu, Jefferson.edu/registrar.

OFFICE OF INTERNATIONAL AFFAIRS

International students please contact 215-503-4335 or oia@jefferson.edu, Jefferson.edu/international_affairs.

CAMPUS HOUSING

Tours can be arranged on the day of your interview by contacting University Housing directly. Contact the Office of Residential Life at 215-955-8913 or university.housing@jefferson.edu, Jefferson.edu/university/housing.

STUDENT AFFAIRS

The Office of Student Affairs, providing student support and career counseling, is located in room 116 College Building, 1025 Walnut Street, 215-503-6988. Staffed by Drs. Charles Pohl, Kristin DeSimone, Leonard Levine, Wayne Bond Lau and Stefanie Russo. Jefferson.edu/university/skmc/student-resources/student-affairs.html

DIVERSITY & INCLUSION

The mission of this office is to strengthen existing diversity and to increase communication among the various groups on campus and the community at-large. 215-503-6764 or Jefferson.edu/diversity.

OFFICE OF STUDENT LIFE AND ENGAGEMENT

For a complete listing of Student Organizations please access Jefferson.edu/SOS.

EMPLOYMENT

For students and spouses of students, Jefferson has an in-house temporary employment placement service. Many of these temporary opportunities become permanent positions. For those interested, contact Jenifer DiCampli, Coordinator of Temporary Services at 215-503-8367 or e-mail jenifer.dicampli@jefferson.edu for an application.

The logo for Sidney Kimmel Medical College is a light blue shield shape. Inside the shield, the text "Sidney Kimmel Medical College" is written in a dark blue serif font.

Medical College

COMMITTEE ON ADMISSIONS

THE SIDNEY KIMMEL MEDICAL COLLEGE'S COMMITTEE ON ADMISSIONS IS A COMMITTEE WITH A COMMUNITY MISSION.

The students, faculty and admissions team are excited to welcome you to your interview day at Sidney Kimmel Medical College. Our medical college and university are unique – built on a foundation of service to others that spans nearly two centuries. Perhaps it's even one of the reasons you chose us. Our commitment to the wellbeing of others is evident from the moment you begin your studies at Jefferson.

This year, an important area of focus for the Committee on Admissions, our university and our health system is to do all that we can to support suicide prevention programs. Research has shown that nearly half of the people who die by suicide interact with the healthcare system in the month before their death. This suggests that there are key opportunities for healthcare professionals to recognize the warning signs of mental illness and intervene. As a future clinician, you play an important role.

In May of 2023, the PEW Charitable Trusts' Zero Suicide Institute launched a Suicide Care Initiative that includes a consortium of hospital systems in the United States and Puerto Rico. Thomas Jefferson University Hospital Inc., as represented by the Jefferson Center for Injury Research and Prevention, is a member of this consortium. Participating hospitals will collaborate and share information on ways health systems and clinicians can create comprehensive screening and assessment tools that effectively identify those in need of support. You can learn more about Pew's Suicide Care Initiative by visiting Pewtrusts.org and search zero suicide.

This year, the Committee on Admissions will recognize the important and long-standing work of Stanton B. Miller, MD, MPH, the executive director of the Jefferson Center for Injury Research and Prevention and clinical associate professor of Surgery, Emergency Medicine, and Population Health. Dr. Miller is also Editor-in-Chief of *Evanescent*, a literary medicine journal dedicated to the stories of healthcare professionals, patients and the community.

In addition to recognizing Dr. Miller's work, Jefferson will also be sharing updates with students and faculty on how the Jefferson Center for Injury Research and Prevention and its work with Pew's Suicide Care Initiative are improving the way healthcare systems treat and support those struggling with mental illness.

We welcome you to follow the important work of the center. Future students will have the opportunity to participate in a variety of projects with the Jefferson Center for Injury Research and Prevention. We also encourage you to share this information with others who may want to learn more and support the center. If you have questions about the Center, you can connect with Dr. Miller at: stanton.miller@jefferson.edu

The Sidney Kimmel Medical College Committee on Admissions
SKMC.Admissions@Jefferson.edu

MISSION STATEMENT

Sidney Kimmel Medical College is committed to educating physicians who will shape and lead integrated healthcare delivery and research teams of tomorrow; discovering new knowledge that will define the future of clinical care through investigation from the laboratory to the bedside, and into the community. Our physicians will set the standard for quality, compassionate and efficient patient care for our community and for the nation. We recognize that a diverse community is imperative to achieving excellence in patient care, education and research. As we carry out our mission, we are committed to the highest standards of professionalism and aspire to be a community of discovery, learning and inclusion.

THE CORE VALUES OF SIDNEY KIMMEL MEDICAL COLLEGE

At Sidney Kimmel Medical College of Thomas Jefferson University, we are committed to the highest principles of professionalism. We aspire to be a community that is not only academically and fiscally successful, but also a community of discovery, learning, caring and sharing. The core values of the College guide the actions of our faculty, students and administrative teams.

Our word is our bond.

(Integrity)

We respect each other and all with whom we come into contact.

(Respect)

We contribute to society's intellectual, cultural, and spiritual well-being to the highest possible extent.

(Social Responsibility)

We recognize that diversity and excellence go hand-in-hand, enhancing our education and patient care and welcome our ability to interact with other people.

(Diversity)

We care about and attempt to ameliorate the suffering and pain of illness; we care about and attempt to ameliorate the trials and tribulations of the Jefferson family.

(Compassion)

We are committed to excellence and the life-long pursuit of new knowledge and personal and professional growth.

(Excellence)

We aspire to do the right thing, for the right reason, even if it involves pain or sacrifice.

(Altruism)

We are committed to each other and to those we serve. We work together to achieve our mission and goals.

(Collaboration)

We are committed to the prudent use of the resources made available to us by the hard work of the faculty, the tuition of our learners, the support of the public, and the philanthropic giving that sustains us and helps us grow.

(Stewardship)

Sidney Kimmel Medical College

INTERVIEW DAY

HISTORY

1824

Sidney Kimmel Medical College at Thomas Jefferson University was founded as Jefferson Medical College by Philadelphia physician George McClellan, MD, in partnership with Jefferson College of Canonsburg, PA.

1839

Jefferson Medical College parted ways with Jefferson College and began operating under its own charter.

1877

Jefferson opened its first hospital, becoming the second medical school in the country to have an associated hospital.

1958

Jefferson's expansion continued; Foerderer Pavilion opened.

1978

The Gibbon Building of the hospital opened.

2017

Thomas Jefferson University merged with Philadelphia University to form a professional university that dedicates itself to collaborative, transdisciplinary and interprofessional approaches to learning.

1826

Pennsylvania legislature passed a bill recognizing Jefferson Medical College, allowing the College to award medical degrees.

1856

Dr. Samuel Gross (class of 1828), considered one of the finest surgeons of his time, returned to Jefferson to lead the Department of Surgery and founded the Jefferson Medical College Alumni Association.

1898–1907

Due to Jefferson's clinical success the hospital expanded with three new buildings within nine years.

1969

Thomas Jefferson University was established and added nursing, health professions and graduate studies to its academic programs.

2014

The Sidney Kimmel Foundation made a \$110 million gift to Jefferson Medical College – the largest single gift in the history of Thomas Jefferson University. Through this gift the college was renamed the Sidney Kimmel Medical College at Thomas Jefferson University. The funds support endowment programs to benefit student scholarships, faculty retention, campus facilities, clinical instruction and technology.

TODAY (CONTINUED)

TODAY

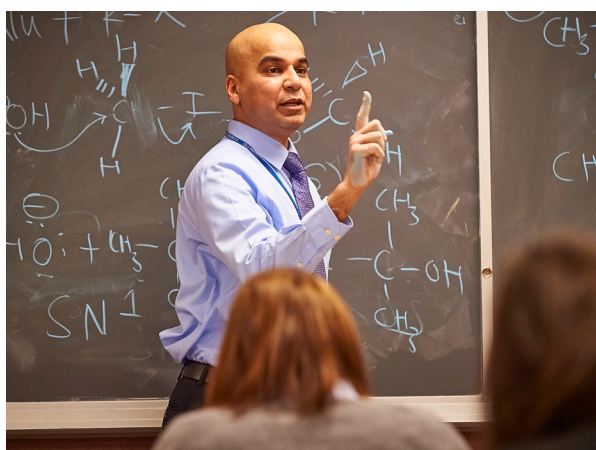

Thomas Jefferson University includes 10 colleges and 3 schools in diverse disciplines: College of Architecture and the Built Environment; College of Health Professions; College of Humanities and Sciences; College of Life Sciences; College of Nursing; College of Pharmacy; College of Population Health; College of Rehabilitation Sciences; College of Design, Engineering and Commerce – School of Business and School of Design and Engineering; Graduate School of Biomedical Sciences; and Sidney Kimmel Medical College. More than 8,400 students are educated each year across Jefferson. Sidney Kimmel Medical College is the largest private medical school in the country.

As one of the oldest institutions of higher education in the nation, Jefferson emphasizes the attainment of clinical excellence in its educational programs. It encourages the student body and faculty to commit themselves to lifelong intellectual pursuits.

Sidney Kimmel Medical College at Thomas Jefferson University is committed to maintaining quality as the hallmark of excellent medical practice and as the cornerstone of the future, both in education and in the provision of health care.

The University also continues to develop high quality research programs to enrich education and patient care.

U.S. News & World Report ranks current clinical practice and research among the nation's best in many specialties.

JeffMD: A CURRICULUM FOR CLINICAL EXCELLENCE

As a student in the Class of 2028, you will contribute to Sidney Kimmel Medical College's proud tradition of excellence. You will have many opportunities to develop as a leader in your profession — in clinical settings, research labs and community service. JeffMD, Sidney Kimmel Medical College's curriculum, will support you by giving you sound fundamentals, combined with elements you can customize to your interests. You will find strong integration of clinical experience and science instruction throughout your four years here.

Mission

To educate physicians who will serve, lead and discover.

Values

Put the patient first | Foster respect and humility | Insist on integrity and personal responsibility
Develop a passion for learning, collaborative practice and continuous reflection

BENEFITS OF JeffMD

A patient-centered perspective. Faculty and team members will constantly ask you to examine the doctor you are becoming through a patient's lenses:

"What do my patients need me to know, and how do they want me to act?"

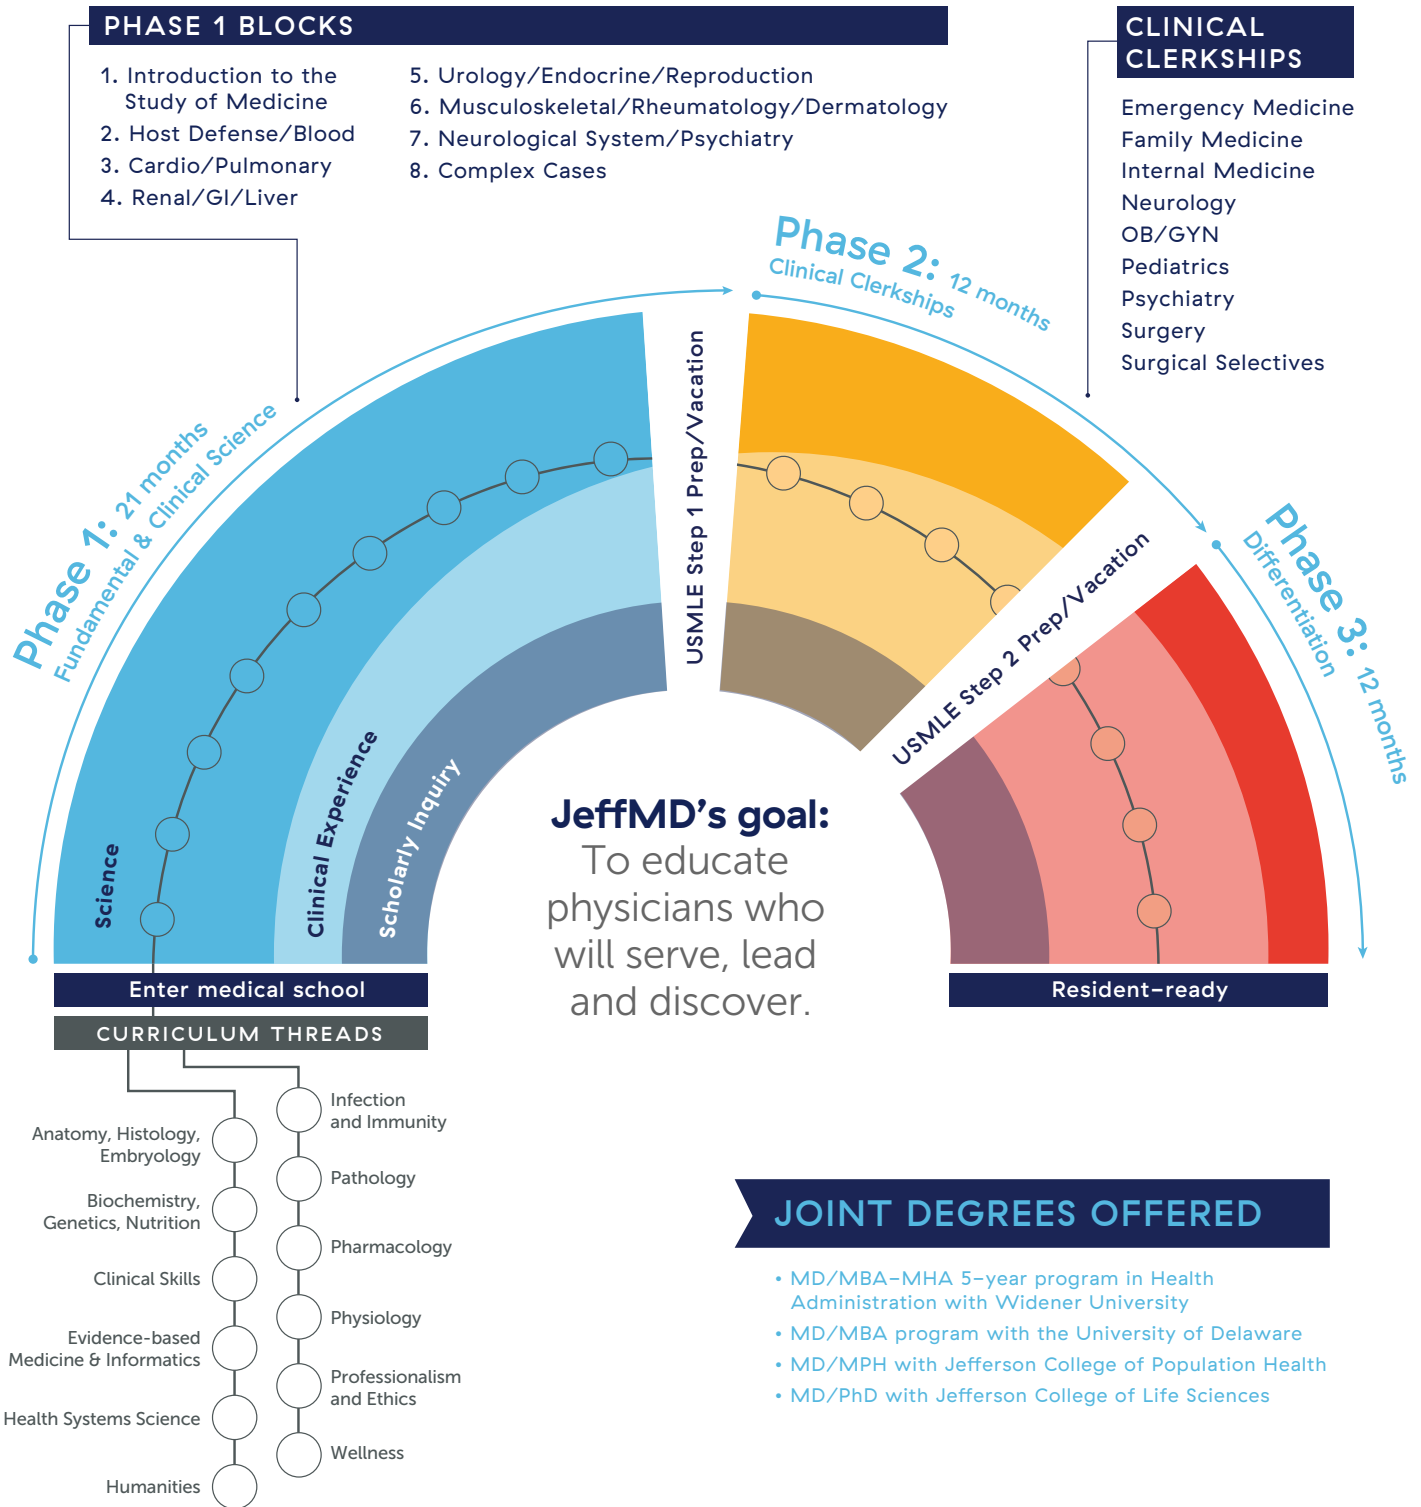

Early clinical experience. Soon after matriculation, you will find yourself in contact with patients, developing clinical skills and knowledge while contributing to patient care in ways both meaningful and appropriate to your early stage in medical school. As your knowledge and skills grow, so will your involvement in patient care.

Contextual learning. A constant interplay among foundational science, development of clinical skills and knowledge, and definition of a professional persona will create context and relevance for new learning.

Scholarly Inquiry. Independent projects, which you will be able to shape with input from a faculty mentor, will hone your critical thinking skills. During time built into your schedule, you might choose to focus on clinical and individual research, medical education, population health, healthcare systems, health policy, humanities, design or digital health.

A range of instructional formats. You will do much of your learning in small groups that give teams responsibility for problem-solving. Lectures, simulation, individual study and reflection will also remain as essential elements of the instructional portfolio.

Living in Philadelphia

Thomas Jefferson University is located in the heart of Philadelphia, the nation's fifth largest city. Whether you are a sports fan, a foodie, history buff, or love visual and performing arts, there is something for everyone in Philadelphia.

Culture and Arts

Lining the Avenue of the Arts on Broad Street are countless theaters and performing arts centers, just a short walk from Jefferson. The Kimmel Center and the Academy of the Arts are just two of many performance venues in Philadelphia.

There are also dozens of museums in Philadelphia. In addition to the Philadelphia Museum of Art, Philadelphia is also home to the Rodin Museum, the Mutter Museum of Medical Oddities, and the Franklin Institute museum.

Dining

Philly is famous for its cheesesteaks and soft pretzels, but there is an abundance of other great dining opportunities throughout the city. All of the following are within walking distance of Jefferson's campus if you would like to try some Philadelphia food during your visit:

Reading Terminal Market

51 N. 12th Street

Italian Market

919 S. 9th Street

Giorgio on Pine (Italian)

1328 Pine Street

Moriarty's (Irish Pub)

1116 Walnut Street

Knead Bagels (Sandwiches)

725 Walnut Street

Lolita (Mexican)

106 S. 13th Street

El Vez (Mexican)

121 S. 13th Street

Bud & Marilyn's (American Classics)

1234 Locust Street

Little Nonna's (Italian)

1234 Locust Street

Famous 4th Street Deli

700 S. 4th Street

Zahav (Israeli)

237 St. James Place

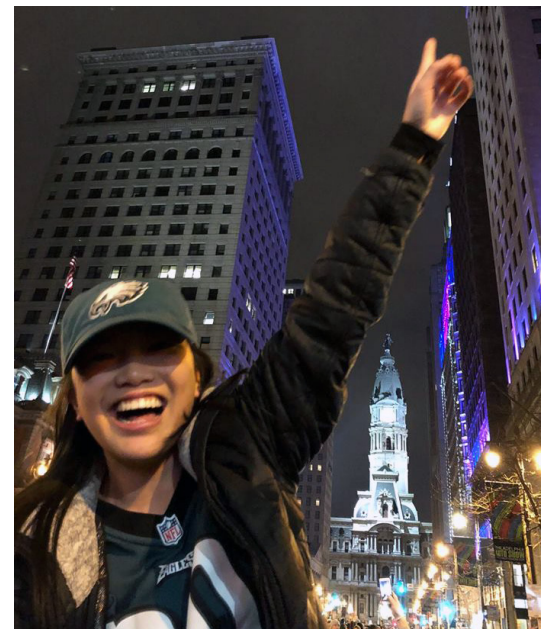

Barbuzzo (Mediterranean)

110 S. 13th Street

Barra Rossa Ristorante

(Italian/Pizza)

929 Walnut Street

Sidney Kimmel Medical College

INTERVIEW DAY

COMMUNITY OUTREACH AND OTHER ACTIVITIES

JEFFHOPE

JeffHOPE (Health, Opportunity, Prevention and Education) is the largest student-run free clinic nationally by number of members, number of patients treated and by operating budget. Under the guidance of Jefferson's Department of Family and Community Medicine, we hold weekly clinics at four homeless shelters and one needle exchange program in Philadelphia. Our mission is to address the psychosocial needs of our patients, and empower them with the knowledge, resources and support to engage them in long-term professional healthcare. This can mean connecting patients to social services, collaborating with them in managing chronic health conditions, or simply being a source of support they can count on each week. Our secondary mission is to educate healthcare students and professionals about the social and medical issues surrounding homelessness. The men, women, and children we see are often facing several challenges aside from their temporary or chronic homelessness, such as medical or mental illness, food insecurity, job insecurity or domestic violence, to name a few. JeffHOPE teaches us about our community, about people, and plays an immeasurably valuable role in shaping us into capable and caring physicians.

PUENTES DE SALUD

The purpose of this organization is to ensure the health and wellness of South Philadelphia's rapidly growing Latino immigrant community. It serves to educate future generations of community advocates, health care providers, educators and leaders by providing opportunities for responsible and respectful community engagement. Puentes de Salud believes that a comprehensive strategy to promote wellness in any community must also target the social determinants of health. This organization offers Jefferson students in all disciplines the opportunity to engage in this community.

REFUGEE HEALTH PARTNERS

The goal of Refugee Health Partners is to improve and advocate for the health and well-being of the refugee population in Philadelphia. Over the past four years, Refugee Health Partners has sought to work closely with all populations and age groups of the refugee community. Through different projects such as student-run health clinics, health fairs, and health education classes, Refugee Health Partners empowers refugees to be active participants in their own community and their own healthcare. Refugee Health Partners aims to work within the community to train future health professionals to practice competent and conscious refugee care.

CHINATOWN CLINIC

Every Wednesday night beginning at 5:30, Jefferson students volunteer at Holy Redeemer Chinese Catholic Church in Philadelphia's Chinatown neighborhood. Free medical services, such as flu shots are provided to patients facing language and cultural barriers which makes accessing health services difficult. "The clinic's mission is to try to help as many people as we can," says Dr. Wayne Bond Lau. "We see anywhere from 35 to 45 people in the span of about four hours."

JEFF CARES FOR KIDS

This organization gives students opportunities to work with children with disabilities, both through direct interaction and shadowing experts in the field. Activities include volunteering at the HMS School for Children with Cerebral Palsy and at the Variety Club after-school program for children with intellectual disabilities, and shadowing at Jefferson and the Cerebral Palsy Clinic at the A.I. duPont Hospital for Children.

JEFFERSON CHAMBER ORCHESTRA

The Jefferson Chamber Orchestra plays chamber music for both public and private audiences. The Chamber Orchestra has performed for weddings, cocktail parties, receptions and private parties including the Sidney Kimmel Medical College White Coat Ceremony and Alumni Weekend. The group performs together at least four times over the course of the year and have performed as part of the Dean's Concert Series.

JEFFLGBTQ

JeffLGBTQ serves as an educational resource, support, and outreach group, and as a social/professional networking organization for sexual and gender minorities including gay, lesbian, bisexual, transgender and queer students. JeffLGBTQ is open to all students regardless of sexual orientation or gender identity. JeffLGBTQ coordinates educational events and hosts speakers to increase awareness within the Jefferson community regarding LGBTQ life and health disparities.

STUDENT NATIONAL MEDICAL ASSOCIATION

Student National Medical Association (SNMA) is committed to supporting current and future underrepresented minority medical students, addressing the needs of underserved communities, and increasing the number of clinically excellent, culturally competent and socially conscious physicians. SNMA programs are designed to serve the health needs of underserved communities and communities of color.

VETERANS HEALTH INITIATIVE

Veterans Health Initiative (IHV) focuses on addressing the gap in medical education pertaining to the Veteran population and their unique healthcare needs by advocating for awareness of the Veteran population in Philadelphia, advancing medical student knowledge regarding their health needs, and arming students with tools to use in the clinical setting. Typical events hosted by VHI include speakers, panel discussions with Veterans, community engagement events, clinical learning experiences, and others.
