

Pathways to Housing

Homelessness Case Management and Medical Care

Provides homes and comprehensive wrap-around services for people who have **experienced chronic homelessness and suffer from serious mental illness, substance use disorder, and/or multiple other disabilities**. In partnership with the Thomas Jefferson University Department of Family and Community Medicine and Project HOME's Stephen Klein Wellness Center, Pathways provides services to improve access to physical and behavioral health services.

- primary medical care
- psychiatric services
- behavioral health services
- nurse care management
- peer-led outreach
- care coordination
- assistance with applying for health insurance benefits.
