

how to
Update your Jefferson
Web Site
via FileDeployer

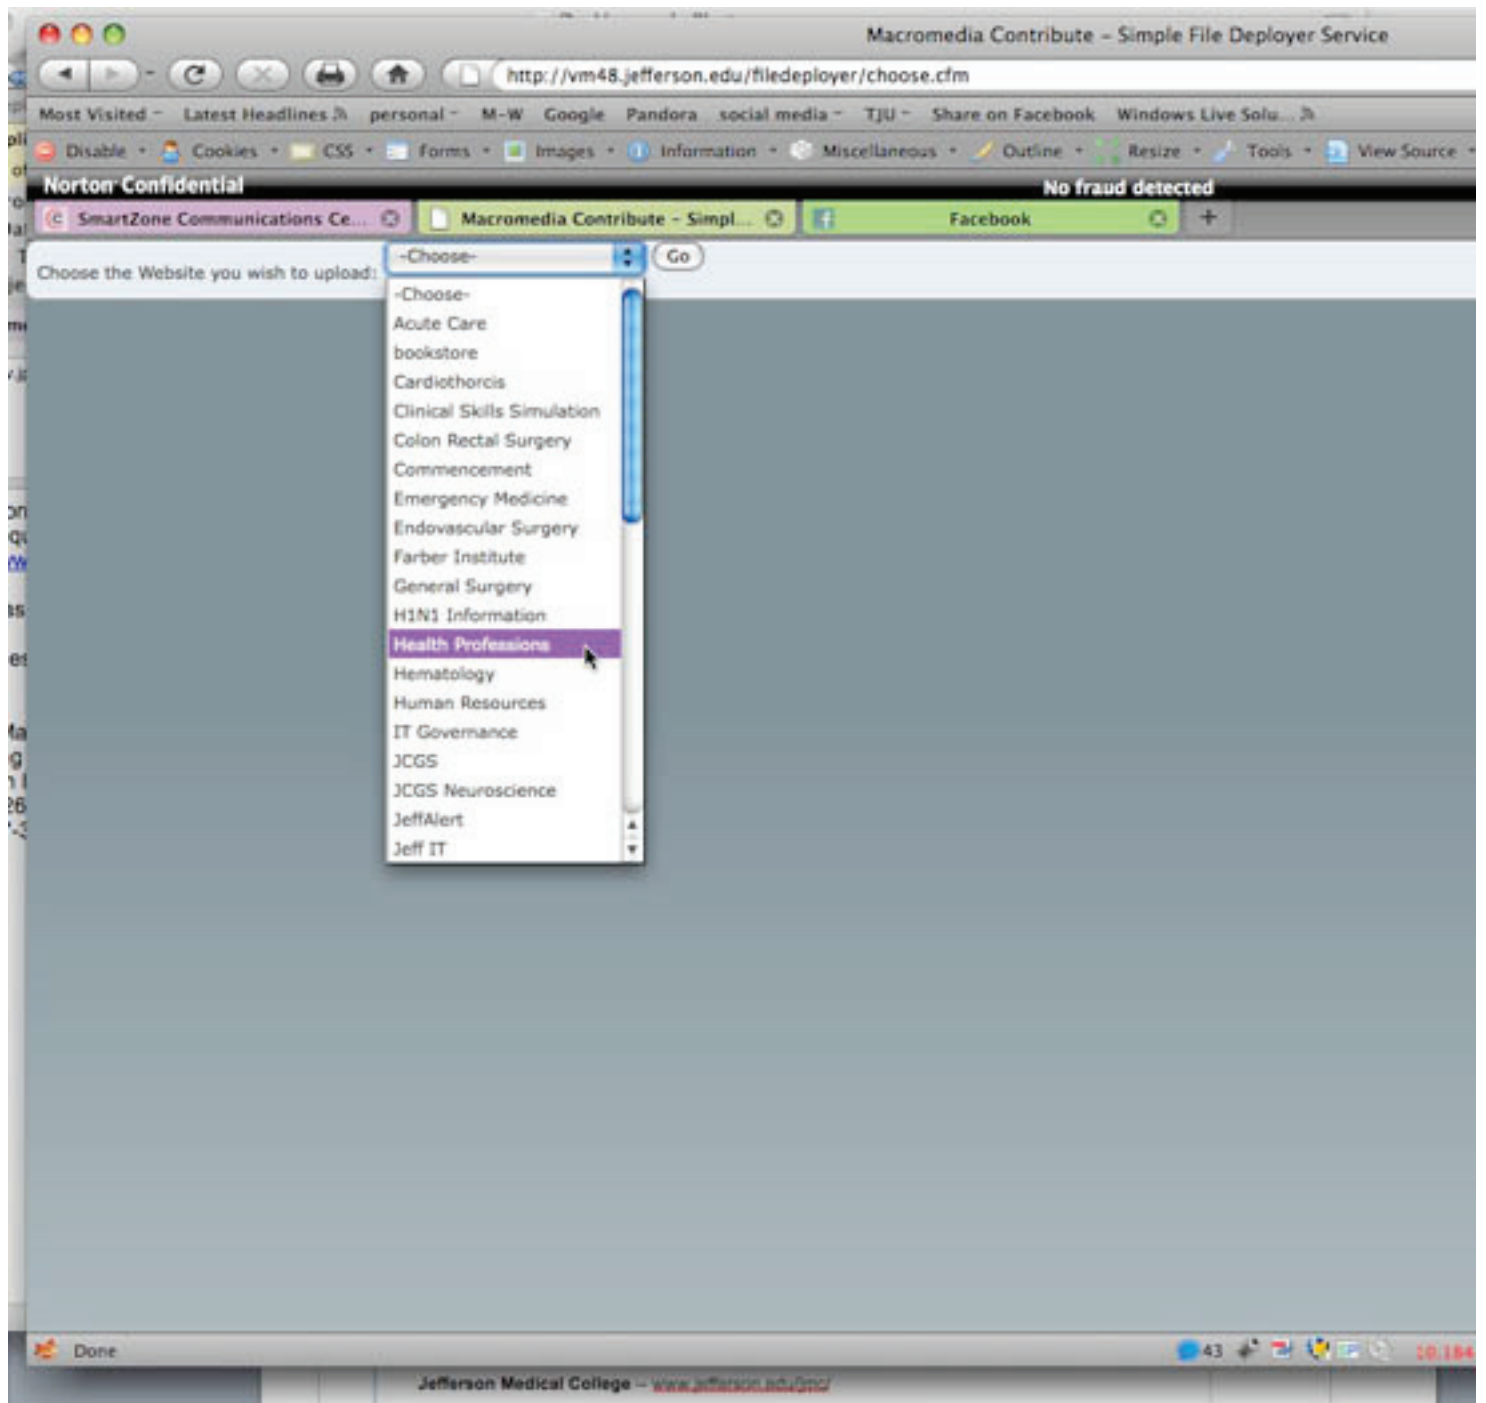

1. Type 'http://vm48.jefferson.edu/filedeployer/' in your URL address bar of your browser.

Note: You must be on the TJU network (on-campus) to access vm48.

2. Select the site which you want to upload documents for from the drop-down menu.

Click on GO to display a list of all updated files on vm48.

3. Select the file you wish to deploy to www by checking that file and click on 'Deploy'.

If a warning dialog appears, approve the deployment.
