Accreditation Notice
The Thomas Jefferson University's Doctor of Pharmacy program is accredited by the Accreditation Council for Pharmacy Education, 135 South LaSalle Street, Suite 4100, Chicago, Il 60503. Phone: (312)664-3575. Fax: (312)664-4652. Web address: http://www.acpe-accredit.org

Notice of Equal Opportunity
Thomas Jefferson University is committed to providing equal educational and employment opportunities for all persons without regard to race, color, national or ethnic origin, marital status, religion, sex, sexual orientation, gender identity, age, disability, veteran's status or any other protected characteristic. The consideration of factors unrelated to a person’s ability, qualifications and performance is inconsistent with this policy. Any person having inquiries or complaints concerning Thomas Jefferson University’s compliance with Title VI, Title IX, the Age Discrimination Act of 1975, the Americans with Disabilities Act, or Section 504 of the Rehabilitation Act is directed to contact their Student Affairs Dean or Human Resources – Employee Relations, who have been designated by Thomas Jefferson University to coordinate the institution’s efforts to comply with the these laws. Any person may also contact the Assistant Secretary for Civil Rights, U.S. Department of Education, Washington, D.C. 20202, or the Director, U.S. Department of Education, Office for Civil Rights, Region Three, Philadelphia, Pennsylvania, regarding the University’s compliance with the equal opportunity laws.

Required Background Check
Students who are offered admission to Jefferson are required to pass a criminal background check and child abuse clearance. In addition, once matriculated, they must pass a criminal background check and child abuse clearance annually. Some clinical sites may require students to be fingerprinted and/or drug tested. The Office of Admissions will provide you with the appropriate information to complete these requirements.

Clinical rotation and fieldwork sites that require a criminal background check, child abuse clearance and/or fingerprinting may deny a student’s participation in the clinical experience, rotation or fieldwork because of a felony or misdemeanor conviction or a record of child abuse. Clinical sites may also deny participation in clinical experiences for other reasons, including but not limited to failure of a required drug test, or inability to produce an appropriate health clearance. As participation in clinical experiences, rotations or fieldwork is a required part of the curriculum and a requirement for graduation, denial of participation by a clinical site may result in delay of graduation or the inability to graduate from the program.

Regardless of whether or not a student graduates from Jefferson, individuals who have been convicted of a felony or misdemeanor may be denied certification or licensure as a health professional. Information regarding individual eligibility may be obtained from the appropriate credentialing bodies.

Thomas Jefferson University reserves the right to amend any regulations, fees, conditions and courses described herein as circumstances may require without prior notice to persons who might thereby be affected. The provisions of this handbook are not and may not be regarded as contractual between the School and the students or its employees.
Annual Health Insurance Matriculation Requirement

As an academic health center, Jefferson requires all matriculated students to have health insurance, and to complete the enrollment/waiver process for each academic year.* If you have health insurance through another provider, it must meet the stated minimum requirements to qualify for a waiver. If you do not have coverage through another provider that meets the minimum requirements, then you must enroll in the school-sponsored student health insurance plan. Once enrolled, the plan will be in effect for the entire academic year. You may only terminate the insurance coverage if you have a qualifying life change event.

*Dates may vary by academic program.

2014-15 Minimum Requirements

In order to qualify for a waiver,

1. A student’s insurance plan must be one of the following:
   - An employer-based plan through a parent, spouse, or own employment.
   - An individual plan purchased through a government exchange or directly through a carrier at the Gold (80%) or Platinum (90%) level.
   - A plan provided via Medicaid or Veterans Affairs.

2. If the plan originates outside of the Philadelphia area, the student must have the ability to access providers in the areas of their current residence, without disruption to their academic responsibilities, while attending Thomas Jefferson University.

The University reserves the right to audit all waivers in order to ensure compliance with the minimum requirements. Please be sure to retain a copy of your insurance policy as you may be asked to provide this documentation.

For complete information on this requirement please visit www.jefferson.edu/studenthealthinsurance

INTRODUCTION TO
THOMAS JEFFERSON UNIVERSITY (TJU) AND
THE JEFFERSON SCHOOL OF PHARMACY (JSP)
MESSAGE FROM THE DEAN

On behalf of the Faculty and Staff of the Jefferson School of Pharmacy (JSP), I would like to welcome you to the 2014 -2015 academic year at the Jefferson School of Pharmacy and Thomas Jefferson University. This is truly an exciting time to be part of Thomas Jefferson University. While the Jefferson School of Pharmacy (JSP) was sorry to see the Class of 2014 leave, we are very proud and excited for each them as they have embarked on exciting career paths which have included residencies, fellowships, community pharmacy, hospital pharmacy and long term care pharmacy practice across the U.S.. In July, Thomas Jefferson University received an impressive full cycle accreditation from the Middle States Commission on Higher Education with many very positive comments. Over the past year, under the new leadership of Dr. Stephen Klasko, the Jefferson enterprise has been restructured to build an organization where research and education are truly synergistic with patient care. This new model is built upon a commitment to innovation, creativity, entrepreneurship and partnerships will provide unprecedented professional growth opportunities for Jefferson students.

This Student Handbook is just one of several tools designed to assist you while at Jefferson. Within it you will find important information regarding resources available to you at Jefferson as well as policies and procedures that provide the framework for the Jefferson community. As a Jefferson student it is your responsibility to understand and adhere to JSP and TJU policies therefore, I urge you to review this Handbook carefully and keep it handy as a resource throughout the year. In addition to a culture focused on learning, advancement of the health sciences, and excellence in patient care, you will find that values including civility, respect and courtesy also define the Jefferson community. Embracing and exemplifying these values will go far in defining your success, satisfaction, and respect as a member of the health care team. Simple actions such as the following basic courtesies will be very important in setting you on a course for success at Jefferson and for your entire career.

- Greet people when you encounter them on campus, even those you do not know.
- Remember that while e-mail and texting are a quick and informal means of communication, messages still require courtesy and respect, particularly when writing to people you do not know.
- Respond to invitations and keep appointments you make.
- Thank or acknowledge people who do something for you.
- Try not to be the first person on the elevator or through the door. Hold the door for others. Curb your backpacks in the elevators. Be especially aware that many visitors on campus may be patients or their family – please assist them in any way you can and be compassionate.
- Be aware of the impact of your language. Language begets culture and ours is defined by civility and respect.
- Pick up trash and dispose of it properly – we are all part of this community and appearances send an important message about who we are and our values.
- Turn off your cell phone, take out your earbuds, and be present and engaged in class and at University events. Ensure that your laptops and tablets only display course-related material during class. Paying attention signals respect and also earns it.
- Take responsibility for your mistakes. Mistakes are inevitable but the true measure of character is how you respond to your own mistakes.
- Read carefully, accept and uphold the Code of Conduct in this Handbook.

We are honored that you have chosen to become part of the Jefferson community. Be assured that the highest priority of our Faculty and Staff is your success at Jefferson. We are all committed to providing you support and guidance throughout your tenure at Jefferson and are confident that it will be a rewarding foundation for your professional careers. We are all excited to have this opportunity to share our experience and our passion for pharmacy practice and research with you.

Lastly, we value your feedback and sincerely hope that you will assist us in improving the academic program and the Jefferson community for future students. Please let us know if there is additional information that would be helpful in future additions of this Handbook. We also invite and appreciate your
August 7, 2014

feedback both through the formal evaluation processes as well as through informal recommendations regarding how we can enhance this experience for you and your colleagues.

Best wishes for a very successful year.

Thomas Jefferson University Mission and Vision

All of us at Jefferson are committed to educating professionals in a variety of disciplines who will form and lead the integrated healthcare delivery and research teams of tomorrow. Our mission, vision, and values guide our University in all that we do.

Our Mission
Health is All We Do

Our Vision
We will reimagine health, health education and discovery to create unparalleled value.

Our Values
- **Innovation**: We renew, change or create ideas, services, technologies and/or ways of doing things that provide organizational value.
- **Service Excellence**: We provide exceptional service to our customers, including students, patients, families and fellow employees.
- **Collaboration**: We work effectively with others across the Jefferson community to achieve a common purpose and create value
- **Ownership**: We take responsibility for achieving excellent results.
- **Respect**: We demonstrate a consistently open-minded and compassionate approach to all.
- **Empowerment**: We take action to control work and decision making to affect positive outcomes.

Our Commitment to Diversity
Thomas Jefferson University has a long and proud history of contributing to the national healthcare workforce. We aspire to create a diverse and inclusive environment, knowing that the creative energy and innovative insights that result from diversity are vital for the intellectual rigor and social fabric of the University. It is also requisite for a highly effective healthcare workforce of the future. As a scholarly community, the University welcomes people of all racial, ethnic, cultural, socio-economic, national and international backgrounds, diversity of thought, pedagogy, religion, age, sexual orientation, gender/gender identity, political affiliation and disability.
MISSION OF THE JEFFERSON SCHOOL OF PHARMACY

The mission of the Jefferson School of Pharmacy (JSP) is to prepare its students for careers in the profession of pharmacy. Through the provision of a learner-centered, interdisciplinary curriculum, our students will develop the requisite knowledge, skills, and attitudes to provide excellent patient-centered and population-based care. Consistent with the mission of Thomas Jefferson University, we strive to develop in our students a sense of social, personal and professional responsibility.

VISION OF THE JEFFERSON SCHOOL OF PHARMACY

The JSP will consistently demonstrate its ability to provide a superb environment that fosters collaborative relationships with health care practitioners and scientists that result in the advancement of patient care and safety, educational methodologies, and research. It will be recognized as a premier organization that advances the profession of pharmacy through our graduates and our faculty.

- Our graduates will be recognized for their: ability to provide outstanding patient-centered and population-based care; leadership skills; cultural competency; social responsibility; and commitment to maintaining professional competence throughout their careers.
- Our faculty will be recognized for their: strong commitment to the advancement of pharmacy and graduate education, patient care, and research; leadership in the professional societies and educational organizations; and strong commitment to the improvement of our community through service initiatives.

JEFFERSON SCHOOL OF PHARMACY
CORE VALUES

The JSP is committed to:

- maintaining a culture that fosters integrity, respect, social responsibility, diversity, and compassion;
- a learner-centered educational environment that recognizes the importance of lifelong learning;
- meeting the diverse needs of and fostering positive morale among our students, faculty and staff;
- preparing and encouraging our students to pursue postgraduate education and training programs;
- the continued professional development and mentoring of our students, faculty and staff;
- the development of leadership skills among students, faculty and staff;
- a research-rich environment that stimulates the advancement of science, patient care and safety, and educational effectiveness; and,
- maintaining an ongoing assessment program that results in the continuous improvement of our educational program, research endeavors, and infrastructure in an effort to support our mission and vision.
Pharmacists’ Patient Care Process

The goal of high quality, cost-effective and accessible health care for patients is achieved through team-based patient-centered care. Pharmacists are essential members of the health care team. The profession of pharmacy is continuing its evolution from a principal focus on medication product distribution to expanded clinically-oriented patient care services. As a result of this professional evolution, the importance of, and need for, a consistent process of care in the delivery of patient care services has been increasingly recognized by the profession at large.

Pharmacists have unique training and expertise in the appropriate use of medications and provide a wide array of patient care services in many different practice settings. These services reduce adverse drug events, improve patient safety, and optimize medication use and health outcomes. Pharmacists contribute to improving patients’ health by providing patient care services as authorized under their scope of practice and facilitated by collaborative practice agreements. The foundation for the pharmacist’s patient care process is embedded within the pharmaceutical care model developed by Hepler and Strand in the 1990s. However, there is variability in how this process is taught and practiced. To promote consistency across the profession, national pharmacy associations used a consensus-based approach to articulate the patient care process for pharmacists to use as a framework for delivering patient care in any practice setting.

The pharmacists’ patient care process described in this document was developed by examining a number of key source documents on pharmaceutical care and medication therapy management. Patient care process components in each of these resources were catalogued and compared to create the following process that encompasses a contemporary and comprehensive approach to patient-centered care that is delivered in collaboration with other members of the health care team.
Jefferson School of Pharmacy Organizational Chart
ADMISSIONS
OFFICE OF ADMISSIONS
Edison Building, Suite 100
(215) 503-8890

HOURS
Monday- Friday 8:30 am– 5:30 pm

The Office of Admissions coordinates the recruitment and enrollment of students to the following Jefferson Schools: Health Professions, Nursing, Pharmacy and Population Health.

SERVICES AVAILABLE
- Admission counseling
- Transcript review
- On campus events
- Off campus recruitment

For detailed information about the Office of Admissions and its services, visit their website: http://www.jefferson.edu/admissions-schools/admissions.html

STAFF
Interim Co-Director of Admission   Donald Sharples
Interim Co-Director of Admission   Sarah McNabb
Associate Director of Admission    Niki Kelley
Assistant Director of Admission    Jennifer Raab
Assistant Director of Admission    Tammi Wrice

ALUMNI AFFAIRS
OFFICE OF ALUMNI RELATIONS
Edison Building, Suite 1700
(215) 955-7750

HOURS
Monday–Friday 8:00 am–5:00 pm

The Jefferson Alumni Association supports Jefferson University by fostering lifelong engagement with alumni, students and faculty.

Students can view school news, learning centers, Jefferson publications and alumni spotlights on our website at Advancement.Jefferson.edu/Alumni. Visit the website to see profiles of Jefferson graduates that highlight their career achievements and follow us on Twitter @JeffersonAlumni to receive announcements. Students can also network and meet with alumni on campus when they participate in open houses, orientations, panels and open networking events.

Graduates immediately become a member of the Jefferson Alumni Association. Visit Advancement.Jefferson.edu/Alumni to register for your online alumni community, and join our Thomas Jefferson University Alumni Office LinkedIn group. Stay connected to learn about networking, educational or mentorship opportunities and career and library services. Register in your online alumni community to take advantage of features such as updating contact information, class notes and a class directory. Registering will also allow you to access benefits, attend events and expand your network to include the entire Jefferson alumni family.

CAREER DEVELOPMENT
CAREER DEVELOPMENT CENTER
Edison Building, Suite 1100
(215) 503-5805
www.jefferson.edu/career_services
https://jefferson-csm.symplicity.com/

HOURS
Monday–Friday 8:00 am–5:00 pm

The mission of the Career Development Center is to provide comprehensive career services that empower students, alumni and postdoctoral fellows of JGSBS, JSHP, JSN, JSP, and JSPH to develop personally rewarding careers in the healthcare industry. To achieve this mission, we:
Educate job seekers to effectively present themselves as candidates for employment such that the skills learned can be replicated throughout one’s professional career;
Create partnerships with employers, alumni, faculty, staff, administrators, and the greater community that provide career development opportunities for students;
Provide resources and information to constituents regarding employment market trends and contemporary issues in hiring;
Promote ethical practices by all parties involved in the job-search and hiring process.

SERVICES AVAILABLE
- Individual Career Counseling
- Career Planning Workshops and Webinars
- Mock Interviews
- Resume, CV and Cover Letter Assistance
- Career Fairs, on-campus and regionally
- Job Listings and Employer Contacts
- Alumni Mentorship Database
- Networking Opportunities
- Symplicity, the on-line Career Management System exclusively for Jefferson students and alumni

university.housing@jefferson.edu

HOURS
Monday-Friday 9:00 am-5:00 pm

The Department of Housing and Residence Life supports the mission of the University by fostering inclusive communities that encourage interprofessional activity and engagement by providing on campus
housing, as well as excellent customer service to the Jefferson community. We strive to collaborate with all partners across the university to enhance the on campus experience. Residents are our first priority. We seek to encourage the social and personal development of each resident by providing experiences which create an atmosphere conducive to academic success and lifelong learning.

The Department of Housing and Residence Life is responsible for assigning on-campus student housing, coordinating building services, and providing support for the students living on campus. DHRL oversees the University’s two apartment-style residence halls, Barringer and Orlovitz, and one community-style residence hall, Martin. The Barringer and Orlovitz Residence Halls are managed by a private property management group, Philadelphia Management Company (PMC). Each of the residence hall’s front desks are staffed 24 hours a day/7 days a week by the Front Desk Clerk Staff. The constant front desk coverage provides an additional resource for student support while also enhancing the safety and security of the residence halls.

The department’s Residence Life program seeks to enhance the student’s on-campus living experience through a variety of interactions and programming opportunities. The Residence Life staff is comprised of twelve (12) Resident Assistants and the Assistant Director of Residence Life; all who live in the residence halls. Staff members participate in a rotating on-call cycle, 24 hours a day, 7 days a week to respond to any student concerns, facilities issues or other emergencies in the residence halls.

**INTERNATIONAL STUDENT SERVICES**
OFFICE OF INTERNATIONAL AFFAIRS
Jefferson Alumni Hall, Room M-70
(215) 503-4335/4024
[www.jefferson.edu/international_affairs](http://www.jefferson.edu/international_affairs)

The University sets a high priority on the exchange of ideas related to education, research and patient care with members of the international community. We welcome people from other countries to study, work and engage in research at Jefferson and encourage students to study abroad.
OIA assists departments that want to bring international students to Jefferson, serves as the central resource for international students, provides support for the University’s international initiatives, and assists those who wish to study or do research abroad.

The Office works closely with all University divisions to coordinate the immigration requirements and orientation of our international students and other visitors.

Practical information on the process of settling in the area, local public transportation, housing, tax responsibilities and cultural and historic sites is available to new international students. The OIA website includes forms, updates and a great deal of useful information.

LIBRARY AND CENTER FOR TEACHING AND LEARNING
SCOTT MEMORIAL LIBRARY & CENTER FOR TEACHING AND LEARNING
CTL & Scott Library Jefferson Alumni Hall Classrooms
1020 Walnut Street 1020 Locust Street, M13 and 311
Philadelphia, PA 19107 Philadelphia, PA 19107
http://library.jefferson.edu/

CTL & Scott Library Administration (215) 503-8848
Scott Library Service Desk (215) 503-6994
Jefferson Alumni Hall Classrooms (215) 503-7563
CTL Writing Center (215) 503-0441

The Center for Teaching and Learning serves as a central location for faculty, staff, and students to access teaching and learning services at Jefferson. The Scott Memorial Library (SML) is the largest component of the CTL and a campus hub for access to print and non-print resources, study space, and learning technologies.

All floors of the Scott Memorial Library are open to the Jefferson community 24 hours a day, 7 days a week. The Service Desk on the second floor is staffed 100 hours per week. The Library’s collection reflects the University’s focus on health care, health care education, health research, and the history of the health sciences. It includes approximately 80,000 books and bound print journals; over 5,000 electronic journal subscriptions; 1,000 plus e-books; the University Archives; and significant holdings of rare books dating to the 15th century.

A large collection of study resources--such as skeletons, bone boxes, videos, and other course materials--is available from the second floor Service Desk. The library also manages the computer classrooms (M13 and 311 JAH and 306/307 Scott), a video editing suite that includes Articulate Storyline, Camtasia, and Captivate software (M12 JAH), the 10 small-group collaboration suites (2nd floor Scott), 6 private study rooms (3rd floor Scott), and the computers available throughout the library.

The Center for Teaching and Learning offers additional student services to help you excel:

- **Manuscript & Poster Presentation:** Writing Center staff are available to help you prepare papers for journal publication or posters for presentations at meetings and conferences.

- **Public Speaking:** CTL staff provide one-on-one coaching and professional speaking support. You can also record practice presentations for self-evaluation and refinement.
PHOTO ID CENTER
JEFFERSON BOOKSTORE
1009 Chestnut Street
(215) 955-7942
http://www.jefferson.edu/university/customer_service/id-center.html

HOURS
Monday–Friday 7:00 am–5:30 pm
Saturday 9:00 am – 1:00 pm
The store is closed on Sunday and all University holidays.

SERVICES AVAILABLE
Photo identification cards are issued to all new students within one week prior to the start of classes. Photos for identification cards are taken at Orientation for all new students. Each student must present a valid government-issued photo ID i.e. passport, driver's license, military ID, for photo verification purposes at the time that they have their picture taken.

The Photo ID Center provides the Jefferson Community with the Jefferson ID Card allowing convenient, effective, and secure access to all card related services. These services include personal identification, facilities access and access monitoring, Commuter Services transactions (parking and transit), discount ticket sales, and student printing at the Scott Memorial Library.

Identification cards must be displayed at all times on campus and in hospital facilities. The initial ID card is provided at no charge. If a student’s identification card is lost or damaged, replacement cards can be obtained from the Photo ID Center. A replacement fee of $15.00 will be charged for any card that replaces the initial card.

The Department of Campus Security works closely with the officers of the Philadelphia Police Department and places a high priority on your personal safety. In accordance with campus security regulations, we operate a sexual assault victim program. We also conduct numerous presentations on specific security issues for both students and employees. Here are some of the many resources we maintain for your safety and well-being in most Jefferson facilities:

- Multiple emergency phones throughout campus
- Automated front and fire door locking devices
- Central dispatch for on-campus emergencies
- Closed-circuit TV and alarm monitoring
- Sexual Assault Victim Program
- 24-hour-a-day front-desk staffing
- Student-Employee Identification Badges
- Victim’s Assistance Counselor

The full text of our policies is available to you in the Department of Security’s administration offices, 1600 Edison.

ADVISORY COMMITTEES
Two Advisory Committees work with the Office of Student Life and Engagement and Jeff-IBC Wellness Center staff to recommend programs, services, additional equipment and policies and procedures which assist in the governance of the offices and facility. The Student Life and Engagement Advisory Committee serves to recommend and plan events, programs, and co-curricular classes for the Jefferson campus community. The Committee also reviews and approves proposals for new student organizations from all Colleges and Schools and provides financial assistance to student organizations through an annual budget process. The Wellness Center Advisory Committee serves to recommend policies for governing the fitness and recreation facility, to recommend recreational and wellness programming, and to recommend fees to support activities and programs that are funded by Wellness Center memberships.

Student representatives from each College and School serve on both Committees. Anyone interested in serving on a Committee or needing additional information may contact the Office of Student Life and Engagement.

STUDENT PERSONAL COUNSELING CENTER (SPCC)
DEPARTMENT OF PSYCHIATRY AND HUMAN BEHAVIOR
833 Chestnut Street, Suite 230
Philadelphia, PA 19107
(215) 503-2817 or (215) 955-HELP
www.jefferson.edu/spcc

HOURS
Monday–Friday 9:00 am–5:00 pm
The SPCC offers crisis consultation, individual counseling, couples counseling, group therapy, wellness programs and psychiatric consultation for students. There are many concerns that may lead a student to seek counseling including stress, anxiety, depressed mood, relationship problems, and academic issues. The SPCC staff encourages students to come in and talk even if they are not sure that counseling is what they need.

All Thomas Jefferson University students are eligible for three visits without charge at the SPCC. Some students may resolve their concerns during the initial three sessions and decide that no further sessions are required. Some students decide to see a SPCC counselor on an ongoing basis. For students who desire or need ongoing support, SPCC counselors are in network with a limited number of insurance providers.

Students interested in making an appointment should call and leave a confidential voicemail with their name and contact number. A SPCC counselor will conduct a brief and confidential telephone screen to gather some basic information that will allow for a timely matching of services, based upon a student’s individual needs. All information shared during counseling is confidential. No one outside the SPCC may have access to the specifics of counseling sessions without the prior written permission of the student, except in situations where there is a threat or danger to life.

Urgent Situations: SPCC counselors and psychiatrists are available for in-person crisis intervention between 9:00 a.m. and 5:00 p.m. After hours, all students experiencing an emergency should call 911 or go to the nearest emergency room. On-campus students should go to the Thomas Jefferson University Hospital Emergency Room, located in the Main Hospital Building at 10th and Sansom (215-955-6060) and ask to speak to the Psychiatry Resident On-Call. Dr. Nobleza is also available after hours for urgent phone consultations for students by calling the SPCC phone number at 215-503-2817 and then dialing ‘1’ and then ‘0.’

Psychologist Shawn Blue, PsyD

STUDENT SURVEYS
THE OFFICE OF INSTITUTIONAL RESEARCH

The Office of Institutional Research (OIR) was established in response to a national assessment that identified the importance of developing a strong research base in the allied health professions. OIR takes on a broad role in program evaluation and outcomes assessment at Thomas Jefferson University and conducts the longitudinal study of student and alumni satisfaction.

Both while you are a student at Jefferson and when you become and alumni, you will receive periodic questionnaires. Their purpose is to assist the schools with program evaluation and development and are part of the requirements to maintain accreditation. We value your perceptions and insights about your experience at Jefferson and want to incorporate your views in our evaluation to help improve TJU for current and future students.

- Please keep your address current in Banner while a student at Jefferson and with Alumni Affairs upon graduation.
- Please respond honestly to the questionnaire, knowing that results are not tied to your identity.
- Share ideas about areas not included in the questionnaire that you believe are important in the remarks section.
- Remember this questionnaire gives you the opportunity to demonstrate your commitment to accountability and is required by many accrediting agencies.

UNIVERSITY HEALTH SERVICES
833 Chestnut Street, Suite 205
(215) 955-6835
Jefferson students can take advantage of a wide range of medical and health services right on campus. Tuition and fees cover basic health care. Laboratory, emergency room visits, X-ray and specialist referral charges are billed to your insurance. Students are personally responsible for fees not covered by their health insurance. Jefferson’s Emergency Department is available for urgent medical problems when our office is closed.

Here are some of the basic services we provide:

- General medical care and advice
- Immunizations: free annual flu vaccine – required of all students with direct patient contact.
- Mandatory annual tuberculosis screening
- Exposure protocol for students exposed to blood borne pathogens
- Referrals to specialists

JSP PROGRAM OF STUDY

Prerequisite Course Requirements
Students must have successfully completed a minimum of 68 credits of prepharmacy coursework prior to beginning the Doctor of Pharmacy program at JSP. The following basic science and math courses are required: Anatomy and Physiology I and II, Biology I and II, Calculus I, Chemistry I and II, Organic Chemistry I and II, Physics I and II, and Microbiology (including a laboratory component). These courses must have been completed within 5 years of admission to JSP. Students are also required to have completed a College Composition course, 9 credit hours of Social Science coursework, and 9 credit hours of coursework in the Humanities.

Curriculum Goals
The curriculum at JSP will prepare its graduates to provide patient-centered and population-based care that ensures optimal health outcomes. It will also prepare its graduates to practice in diverse patient care environments and to become valued members of the health care team. Its graduates will embrace the need for life-long, self-directed learning.

Curriculum Objectives
The JSP curriculum goals will be met by:
- Identification of the key curricular outcomes to be achieved by our students;
- Vertical integration of the necessary knowledge, attitudes, and skills necessary for achieving the key curricular outcomes throughout the curriculum;
- Ensuring that students know the curricular outcomes and have an understanding of the relationship between knowledge, attitudes, and skills and these outcomes;
- Consistent incorporation of active learning throughout the curriculum via modes that may include, but are not limited to, the use of educational technology, small group discussions, learning communities, and online coursework and discussions;
- Development of interprofessional educational coursework in the classroom and experiential settings;
- Creation of introductory and advanced pharmacy practice experiences in a variety of patient care settings;
- Utilization of end-of-year performance assessments throughout the curriculum;
- Development of student portfolios to aid in their professional development; and
- Incorporation of assessment into the School's planning process for providing continuous curricular revision and development.

Fourth Year – P4

Advanced Pharmacy Practice Experiences (APPEs): 4 Core (Community Pharmacy - PHRM630, Hospital Pharmacy – PHRM64-, Ambulatory Care Pharmacy – PHRM650, Direct Inpatient Care Pharmacy – PHRM660 ) ; 2 Elective (Direct Patient Care – PHRM670, Indirect Patient Care – PHRM680) [6 X 6 weeks each x 40 hours/week = 1440 hours] 36 credits

Total Curriculum Credits = 140 (141 for the class of 2017 and beyond)

* = Without regard to semester; IPPE = Introductory Pharmacy Practice Experience

** = Required course for the class of 2017 and beyond resulting in a 19 credit load in the P2 Fall semester

*** = Elective requirement for the class of 2017 and beyond is 8 credits of which a minimum of 50% must be earned from non-independent study, JSP-approved elective offerings.

NOTE: For the Class of 2018 and beyond, the content of Pharmacology I and II, Clinical Diagnosis and Pharmacotherapy I, II and III will be resequenced resulting in new course numbers being assigned. This resequencing is credit neutral relative to the impact on overall credit load.

Credit Hour Policy

Within JSP, credit hours are counted as follows:
1 hour in the classroom per week = 1 credit hour
3 hours in the laboratory per week = 1 credit hour
3 hours in a clinical experience per week = 1 credit hour
In the Advanced Pharmacy Practice Experiences, 40 hours per week X 6 weeks = 6 credit hours

Curriculum Outcomes

Upon completion of the Doctor of Pharmacy program at JSP, students will have and/or exhibit the following in functioning as effective members of the health care team in the provision of patient-centered and population-based care.

- The knowledge, understanding and application of the biomedical sciences, pharmaceutical sciences, social/behavioral/administrative sciences, and clinical sciences.
- The ability to think critically and problem solve.
- Effective communication through both written and verbal means.
- The highest level of professional, legal, and ethical behavior.
- The professional acumen to identify and analyze emerging health-related issues.
- A working knowledge of how legislation, regulations and related programs affect the practice of pharmacy.

Evaluation of Curricular Outcomes

Self-Assessment
Rubrics (presented on subsequent pages) have been developed by the faculty to evaluate the curricular outcomes of written communications, verbal communications, and critical thinking and problem solving. Students will be asked to perform a self-assessment of their personal level of skill in each of these areas, relative to expected level of performance in that particular academic year, at the start of each academic year. The rubrics have been developed such that the expectations are further elevated in each subsequent year of the Program.

Students are encouraged to perform a less formal self-assessment of their abilities related to both curricular outcomes and study skills for discussion with their academic advisor.

Student Evaluations of Courses
In addition to garnering information regarding course delivery and assessment, students provide their own assessment of how well the courses meet their stated objectives related to curricular outcomes. More
information regarding student course evaluations are included in the Section titled General Statements/ Policies Applicable to Program.

Pharmacy Curriculum Outcomes Assessment (PCOA)®
All JSP P3 students take the PCOA® exam on an annual basis. This exam, a 220-item multiple choice web-based electronic assessment, is administered during the Spring semester of each academic year. The exam, developed by the National Association of Boards of Pharmacy (NABP) is composed of the four major content areas identified in the ACPE Accreditation Standards 2007. These areas include: basic biomedical sciences; pharmaceutical sciences; social, behavioral, and administrative pharmacy sciences; and clinical sciences. JSP’s participation in this national exam provides us with benchmarking data and information to identify areas of curricular strength and areas for which improvement may be needed. Each student receives an individual report based on their performance on this exam.

Rubrics
The JSP rubrics evaluating student progress in the skill areas of written communication, verbal communication, and critical thinking/problem solving were developed using an iterative process and with the input of practitioners and faculty. These rubrics will serve to provide students with specific feedback relative to the elements that contribute to the achievement of each of these curricular outcomes. They will serve to provide the faculty in JSP with feedback relative to the effectiveness of the curriculum. The following pages illustrate the rubric that will be used, in whole or in part, throughout the first 3 years of the curriculum.
VERBAL COMMUNICATION – P1
The elements contributing to the curricular outcome of verbal communication will be evaluated using the scale provided. For each element, please place the number in the box that best describes the student’s performance. Identify the student’s overall performance below with commentary as necessary and provide feedback for all elements for which a 0 or 1 is earned.

**General Statements / Policies Applicable to Program**

**Classroom Materials and Handouts**
Blackboard is the repository for classroom-related materials, handouts, and assignments. Such materials and handouts will not be provided by faculty in the classroom; rather, it is the responsibility of the student to electronically access these items and use them in class as they so choose.

**Student Evaluations of Courses and Faculty**
Completion of each Course Evaluation is a component of professionalism. Students are responsible for the timely completion of the evaluation; failure to do so will result in a 2% deduction from the final overall course grade. All evaluations are posted to the class Blackboard page and notification regarding these is sent out by the Associate Dean for Academic Affairs.
It is the professional responsibility of all students to participate in the end-of-semester faculty evaluations as they are posted throughout and at the end of the semester. The feedback provided to course coordinators and faculty is of extreme importance in JSP’s continuous quality improvement. It is expected that students will voice their comments and criticisms in a constructive manner and it should be noted that the expression of criticism or problems through the use of abusive language or disruptive behavior directed toward a class or an instructor is inconsistent with the demeanor aspiring professionals should be seeking to develop.

**Annual Program Requirements**

**Criminal Background Checks**
It is a requirement of JSP that criminal background checks be performed on all students on an annual basis for continued participation in the IPPEs and APPEs.

**Health Insurance Portability and Accountability Act (HIPAA)**
JSP requires that all students complete annual HIPAA training for continued participation in the IPPEs and APPEs. Any student found to be in violation of HIPAA will be subject to disciplinary sanctions that may include program probation through dismissal.

**Fire and Safety Certification**
JSP requires that all students complete annual fire and safety training.

**Annual Health Status Requirements**
JSP requires that all students receive annual PPD placements and influenza immunization for continued enrollment in JSP and continued participation in the IPPEs and APPEs.

**Cell Phone/Personal Electronic Device/Laptop Computer Policy**
Students may carry cell phones and have them turned on during class and while at off-campus sites in the event that the Jeff ALERT system is activated. It is requested, however, that they remain in a silent mode, i.e., vibrate, quiet, etc. in order to minimize any distraction that they may cause. Use of cell phones (e.g., taking phone calls, instant or text-messaging) during class is strongly discouraged as a courtesy to your colleagues and the faculty facilitating learning in the classroom. Instructors reserve the right to prohibit the use of cell phones/pagers during exams or other structured assessments. At these times, other mechanisms of alerting the class regarding emergencies would be implemented. As a courtesy to faculty and peers, if a laptop computer is brought to class, students should refrain from using it for any activities outside of what is required in the classroom. The use of MP3 players while in the classroom is prohibited. Individual instructors have the prerogative to disallow laptops and other personal digital assistants in the classroom.
August 7, 2014

**Internet Access and Email**
Jefferson will issue each student a campus-key (your user name to access restricted content) and an email account. The campus-key will be used to access course content (on Pulse/Blackboard), library resources (Jeffline), Banner (registration, official grades, contact information), and email. All official correspondence from TJU and JSP Schools will be sent to jefferson.edu e-mail addresses. It is the responsibility of all students to check their jefferson.edu e-mail account on a regular basis and outside of scheduled class time. It is recommended that this account be checked daily during the work week. Email is the primary mode of communication for official University and School announcements as well as for course-specific correspondence. It is the policy of TJU Faculty that all e-mail communications with TJU students occur via the student’s Jefferson e-mail address only.

**Weather Emergency Policy**
JSP adheres to the TJU Weather Emergency Policy. A toll-free Jefferson hotline (1-800-858-8806) will provide a recorded message with weather-related information. Announcements are also posted on Pulse.

**JSP Professional Development Award**
A limited amount of funding is set aside each academic year to partially external professional development activities such as travel or participation in professional meetings for eligible students. Information about this award and the application form may be found on the JSP Student Organization page in Blackboard.
ACADEMIC POLICIES AND PROCEDURES
AND OTHER RELATED INFORMATION
ACADEMIC POLICIES AND PROCEDURES
It is the responsibility of the student to be familiar with and observe the academic regulations of the Jefferson School of Pharmacy (JSP) in all matters of course registration, dropping and adding courses, withdrawal from courses and/or the School.

Academic Advising in JSP
Mission Statement:
The mission of the JSP student advisement program is to provide assistance to students toward attainment of academic and professional goals.

General Description:
Student advisement is a shared responsibility among the faculty advisor, student, and JSP Administration.

Faculty advisors serve in this capacity and will have approximately 10-12 students assigned to them. Students should stay with the same faculty advisor until graduation unless they request a change in writing to the Associate Dean for Student Affairs.

School of Pharmacy Responsibilities:
It is the responsibility of JSP to ensure that the faculty provide accurate information and effective advice to students. The School is responsible for:

- providing students, faculty, and other advising staff with accurate information in the Student Handbook and other publications
- maintaining records of students' academic progress and advising conferences
- providing the resources necessary for the maintenance of an effective advisement network

Student Responsibilities:
Students are ultimately responsible for knowing and fulfilling all requirements for graduation, as stated in this Handbook. In order to meet that goal, they are responsible for:

- attending the JSP Orientation program as an entering student
- taking full advantage of the opportunities for student advisement provided by JSP
- conferring with their advisor on a regular basis and keeping in touch with the advisor between scheduled visits.
- knowing the requirements for completion of the JSP Doctor of Pharmacy degree
- maintaining their own personal academic records including the University Catalog of their term of admission, transcripts, degree audits, evaluation of transfer work, and notes of previous advisement sessions

Preparing for the Advisement Session:
In order to make the best use of your time and to best serve you, it is important for you to come to your appointment prepared. Here are some tips to help you plan for your advising appointment:

- **Bring a list of your questions or topics to your advising appointment.** Think about the big picture, don’t just think about what you need to do to get through the semester, think about how your choices will impact your future and your career.

- **Academic advising is more than preparing your schedule for the upcoming semester.** Feel free to discuss academic and other professional matters with your advisor. To get the most out of your advising relationship, get to know your advisor and let your advisor get to know you. Be willing to identify and discuss your difficulties and come up with ideas for addressing them. Then follow up on the plan you and your advisor agree upon. Your advisor is also interested in hearing about your successes!
• **Learn the School of Pharmacy curriculum and policies.** Your advisor is here to help you navigate your way through your education. Ultimately, it is your responsibility to make sure that you are meeting all requirements and policies required by JSP. If you don’t understand something, ask! It is also a good idea to verify rumors that are circulating.

• **Expect referrals from your advisor.** Your advisor works hard to understand the services available to you within the School of Pharmacy. Because advisors try to discuss more than course schedules with students, your advisor can be your resource to navigating the campus. If you feel overwhelmed or you are having any trouble, ask for advice. Your advisor will help you get the support services you need, but he or she won’t know to help if you don’t ask.

**Grading System**
At the close of an academic term, each instructor assigns a letter grade indicating the quality of a student’s work in the course. The following is the grading system used in JSP, including the quality points assigned for use in the calculation of the grade point average (GPA).

<table>
<thead>
<tr>

</tbody>
</table>

** AU Audit  Instructor permission required; no credit awarded.  
** CR Credit  Awarded for successful completion of a challenge examination.  
** H Honors  Awarded to students meeting set criteria in the P4 APPEs.  
** I Incomplete  Awarded only when the student has done course work at a satisfactory level. Failure to remove an incomplete grade prior to the end of the 6th week following the conclusion of the final exam (or as determined by the department if the course is a pre-requisite) will result in a grade of F.  
** IP In Progress  Assigned when course work is scheduled on a continuous basis over more than academic term (e.g., selected clinical practical). The final course grade and credit are awarded in the term of completion.  
** LP Low Pass  Awarded to students meeting set criteria in the P4 APPEs. Receipt of this grade requires the APPE to be repeated.  
** N No Credit  When it is impossible to complete work in a given course, the student may submit a written application for a grade of N, within one academic term, through the instructor to the Dean. If the request is approved, the student will be awarded a grade of N. No credit is awarded.  
** NC No Credit  Did not achieve passing score on a challenge examination.  
** P Pass  Satisfactory completion of a course graded on a Pass/Fail basis.  
** T Transfer Credit  Transfer credit awarded.  
** W/WP/WF Withdrawal  Students who complete an authorized withdrawal by the deadline published in the Academic Calendar receive a grade of W. After the deadline, a student who withdraws receives a grade of WP (Withdrawn Passing) or WF* (Withdrawn Failing), depending upon the level of performance in the course at the time. WF* is calculated in the student’s GPA.  

*An earned grade of F or WF in any IPPE or APPE course IS calculated into the GPA as 1 credit (IPPE) or 6 credits (APPE) of zero quality points.  

**Grade Point Average Calculation**  
The grade point average (GPA) is computed in the following manner:  

1. Multiply the number of Quality Points for each grade by the Credit Hour value assigned to each course attempted.  
2. Divide the sum of these products by the total number of credits attempted.  

The cumulative GPA is based on the grades earned in all courses taken and applied towards completion of the Doctor of Pharmacy degree.  

**Posting of Assessments**  
Each course has its own Blackboard shell on the Pulse Website (courses offered Spring 2013 and earlier) or on Blackboard Learn (courses offered Fall 2013 and beyond). Assessment results, including exam and course grades, will be posted by the course coordinator and/or instructors to the Gradebook on that course’s page. Please see individual course syllabi for further details. Final course grades will be posted to Banner Web.  

**Exam Policies and Procedures**  
1. Personal belongings  
   a. No hats, bags, drinks, or other personal items will be allowed at the exam table or desk. All personal items should be moved to a designated area in the front of the room. Calculators will be provided, if needed.
2. Absenteeism
   a. Students may be excused in the event of an illness or an emergency at the discretion of the course coordinator provided that the course coordinator is notified prior to the scheduled start of the exam.
      i. For any illnesses, the student will be required to show documentation from a medical provider to be eligible for a make-up exam.
      ii. For any emergencies, the student will be required to show documentation at the discretion of the course coordinator.
      iii. If the student does not contact the course coordinator prior to the scheduled exam time, he/she will receive a zero for the assessment at the discretion of the course coordinator.
      iv. Students can contact the administrative assistants to contact the course coordinator directly at 215-503-9000.

3. Lateness
   a. Students are expected to be on time for exams to minimize disruption to the class.
   b. Students who arrive to the exam within the first 25% of the exam time will be allowed to sit for the exam, but will not be allotted any additional time to take the exam, unless by the discretion of the faculty it is considered to have been beyond the control of the student.
   c. Students will not be allowed to enter the exam once 25% of the exam time has elapsed. Students who arrive beyond the allowed time frame will receive a zero.
   d. Students will be required to stay for the first 25% of the exam time, regardless if they have completed the exam early.
   e. The following times will be used for these policies:
      i. 50 minute exam: 15 minutes
      ii. 110 minute exam: 30 minutes
      iii. 170 minute exam: 45 minutes

4. Restroom breaks
   a. Only one student may be allowed to use the restroom at a time.
      i. At the discretion of the course coordinator, the students may or may not be accompanied by a proctor to ensure academic integrity.
      ii. Students will not be allowed to leave the exam for restroom breaks within the first 25% of the exam time (see the late policy for times).

5. Students with disabilities (ADA)
   a. The above policies and procedures apply to students with disabilities unless otherwise stipulated by the accommodation.
   b. Refer to the ADA section of the Student Handbook.

Assessment Review and Request for Regrading

Policy
Students have the right to review graded course assessments and request a re-grade of those assessments. This does not apply to Second Chance Option (See Second Chance Option Assessment Review Policy and Procedure).

Procedure
1. An opportunity to review a graded assessment will be available to the student within 5 business days following the posting of a grade in Blackboard.
2. An opportunity to request a regrade will be available to the student. All requests for regarding of an assessment must be completed within 7 business days after the grade was posted in Blackboard.
3. All re-grade requests must be submitted via e-mail to the course coordinator and specifically indicate what is to be regraded.
4. The student must justify the reason for a regrade request using the required course materials (examples: textbook, other required readings/references for the course as utilized by the faculty, slides, and handouts).
5. Faculty will process all regrade requests after all students have had the opportunity to submit their requests.
6. Once the review and request period have passed no further opportunity to make a request for regrading of that assessment will be available.
7. A regrade has the potential to increase or decrease grades.
8. The Department Chair may extend the Regrade Request Period if the student provides evidence of extenuating circumstances no later than the end of Regrade Request Period.

Repeated Courses
If a student must repeat a course (see JSP Academic Standards below), the initial credits attempted, credits earned and quality points are all included in the GPA. The repeated course grade also appears on the transcript and is averaged into the student’s semester and cumulative GPA.

Admission to a Second TJU Program
A graduate of one program of the University who is admitted to a second program has a cumulative GPA for the second program computed only on the grades earned in courses taken after the completion of the first program.

JSP Academic Progression Standards
- Students enrolled in the Doctor of Pharmacy program must successfully complete all courses which are prerequisites for subsequent courses in the curriculum in order to progress in the curriculum.
- Minimum enrollment for Fall/Spring academic semesters is 9 credits unless an alternative plan is approved by the Office of the Dean in collaboration with the JSP Executive Council.
- The minimum passing grade is a C in all required, letter-graded courses and a Pass in all Pass/Fail courses.
- A student earning an F in any academic course will be dismissed from the program.
- Any student who earns below a C in any letter-graded, required course must either repeat the course in its entirety or participate in the Second Chance option as noted below, if applicable. The student must earn a grade of C or better in order to successfully complete the course and progress.
- If the student earns a grade of less than a C in the same course twice, he/she will be dismissed from the Doctor of Pharmacy program.
- Any student whose cumulative GPA falls below 3.0 will be placed on academic probation. If the student’s cumulative GPA falls below 3.0 for more than two full-time semesters (consecutive OR nonconsecutive) during their tenure in the Doctor of Pharmacy program, he/she will be dismissed from the program.
- Students who are subject to academic probation and dismissal are reviewed by the Office of the Dean prior to any related action being taken.
- A student is determined to be in good academic standing if he/she did not earn an academic probation in the preceding semester. Students who are not in good academic standing may not be eligible to participate fully in extra-curricular student activities such as holding an office in pharmacy organization or student body governance.

Standards Specific to Progression from year P3 to year P4
- Students must earn a 3.0 cumulative GPA by the end of the P3 year in order to progress into the Advanced Pharmacy Practice Experiences of the P4 year.
- If a student fails to meet the 3.0 cumulative GPA by the end of the P3 year, he/she will be dismissed from the Doctor of Pharmacy program.

Consideration for Degree Conference
Candidates for the Doctor of Pharmacy degree must complete all program credits, all competency requirements in the Introductory Pharmacy Practice Experiences (IPPEs) and Advanced Pharmacy Practice Experiences (APPEs) and all other program requirements. All P4 students are required to participate in the pharmacy board exam prep course offered on campus as a program requirement for graduation.

Dismissal from the Doctor of Pharmacy Program
To summarize the above, a student may be dismissed from the Doctor of Pharmacy program for the following reasons:

- Earning a grade of less than a C in the same course twice
- Earning a grade of F in any course or Introductory/Advanced Pharmacy Practice Experience
- Inability to achieve a cumulative GPA of 3.0 by the end of the P3 year
- Exceeding two semesters (consecutive or nonconsecutive) of academic probation stemming from a cumulative GPA of < 3.0

Any student who has been dismissed from the Doctor of Pharmacy Program is eligible to apply for readmission (see Readmission Policy later in this section of the Student Handbook). Any student dismissed from JSP because of academic underachievement, and subsequently readmitted to JSP, must achieve a semester grade point average of 3.00 for the semester in which he or she was readmitted. If the student fails to do so, he or she will be dismissed. Furthermore, if such a student has a cumulative grade point average of < 3.0 at the end of the semester in which he or she was readmitted, he or she must raise the cumulative grade point average to a 3.0 or greater by the end of the following semester or be dismissed.

JSP Second Chance Option

Policy
The Second Chance Option applies only to required letter-graded courses; it does not apply to courses that are identified as Pass/Fail. Any student who earns a grade of less than a C in a letter-graded course may be given another opportunity to demonstrate competency in that course by taking a single comprehensive assessment. A fee of $50/course credit will be billed to the student to cover the administrative and overhead costs. If the student intends to appeal the original final course grade while participating in the second chance option, they must submit both the grade appeal and the second chance option request form within 5 business days of the posting of the original final course grade in Banner. There is no formal grade appeal of the results of the second chance option.

Eligibility to participate requires that:
1. the student has earned a final grade in the course of 59.5-72.4%; and
2. the student has not exceeded the number of Second Chance attempts as outlined here:
   - A student may not invoke the Second Chance Option for the same course more than once.

The maximum grade that the student can receive for the course for which they invoked the Second Chance Option is a C.
- If the student is successful (earning a 72.5% or better), a grade of C will be earned for the course.
- If the student is unsuccessful (earning a 72.4% or less), the original grade earned in the course stands, and the student must repeat the course at JSP the next time the course is offered.

Procedure
1. Each faculty member will identify in their syllabus/course outline the format of the cumulative, Second Chance Option for their course (e.g., multiple choice questions, short-answer format, essay format, a combination, verbal challenge, etc.)
2. Any student invoking the Second Chance Option must file a written request using the Second Chance Option Request Form (available on the JSP Students webpage in Banner) with the Course Coordinator and the Associate Dean for Academic Affairs no later than five business days after the grades are posted by the Registrar’s Office on the student record (Banner Web).
3. The Course Coordinator and the Associate Dean for Academic Affairs will determine whether the student has met the criteria for participation in the Second Chance Option and will notify the student regarding eligibility to participate in the Second Chance Option in a timely manner.

4. For the Fall semester, the Second Chance Option will be administered no later than the Tuesday of the last full week prior to the resumption of Spring classes. For the Spring semester the Second Chance Option will be administered after the conclusion of the semester on a date to be determined by the Dean’s office in conjunction with the Course Coordinator but not later than three (3) weeks from the date that the final grade is entered into Banner Web.

**JSP Second Chance Option Assessment Review**

*Policy*
Students have the right to review graded Second Chance Option assessments.

*Procedure*
1. An opportunity to review a Second Chance Option assessment will be available to the student within 48 hours of grading completion.
2. An opportunity to request a regrade of a Second Chance Option assessment will not be available to the student.

**JSP Academic Integrity Policy**
The Administration and Faculty of JSP believe that academic integrity is one of the most important values and behaviors that should be practiced by students during their academic and clinical education. Integrity and honesty are especially valued in the healthcare professions because of their responsibilities to patients.

Because we are committed to educating practitioners who provide the highest quality of health care, the JSP Administration and Faculty are equally committed to mandating and enforcing the practice of academic integrity by all students. The following policy on academic integrity defines dishonesty and describes the procedures for responding to charges of academic dishonesty in the School.

**Forms of Academic Dishonesty**

*Plagiarism*
As stated in the American Medical Association Manual of Style (2014), “In plagiarism, an author documents or reports ideas, words, data, or graphics, whether published or unpublished, of another as his or her own and without giving appropriate credit.”

When a student submits work for credit that includes the words, ideas or data of others, the source of that information must be acknowledged through complete, accurate and specific references, and, if verbatim statements are included, through quotation marks as well. By placing his or her name on work submitted for credit, the student certifies the originality of all work not otherwise identified by appropriate acknowledgments.

Examples of plagiarism include, but are not limited to:
1. Quoting another person’s actual words, complete sentences or paragraphs, or entire pieces of written work without acknowledgment of the source.
2. Using another person’s ideas, opinions or theories, even if they are completely paraphrased in one’s own words, without acknowledgment of the source.
3. Noting the original source of only a part of what is borrowed.
4. Borrowing facts, statistics or other illustrative materials that are not clearly common knowledge without acknowledgment of the source.
5. Copying another student’s essay test answers.
6. Copying, or allowing another student to copy, a computer file that contains another student’s assignment and submitting it, in part or in its entirety, as one’s own.
7. Working together on an assignment, sharing the computer files and programs involved and then submitting individual copies of the assignment as one’s own individual work. Students are urged to consult with individual faculty members if in doubt.

Fabrication
Fabrication is the use of invented information or the falsification of research or other findings with the intent to deceive. Examples include, but are not limited to:
1. Citation of information not taken from the source indicated. This may include the incorrect documentation of secondary source materials.
2. Listing sources in a bibliography not directly used in the academic exercise.
3. Submission in a paper, thesis, lab report or other academic exercise of falsified, invented or fictitious data or evidence, or deliberate and knowing concealment or distortion of the true nature, origin or function of such data or evidence.
4. Submitting as one’s own any academic exercises (e.g., written work, printing, sculpture, etc.) prepared totally or in part by another.

Cheating
Cheating is an act or an attempted act of deception by which a student seeks to misrepresent that he or she has mastered information on an academic exercise that he or she has not mastered. Examples include but are not limited to:
1. Copying from another student’s test paper or allowing another student to copy from a test paper.
2. Using the course textbook or other material such as a notebook brought to a class meeting but not authorized for use during a test.
3. Collaborating during a test with any other person by receiving information without authority, or collaborating with others on projects where such collaboration is not expressly permitted.
4. Using or possessing specifically prepared materials during a test, e.g., notes, formula lists, notes written on the student’s clothing, etc., that are not authorized.
5. Taking a test for someone else or permitting someone else to take a test in one’s place.
6. Tapping pencils or other objects or otherwise signaling in code.
7. Entering any office or opening a file to obtain a test or answer key.
8. Viewing test materials on a secretary’s or faculty member’s desk.
9. Passing quiz/test questions or answers from one student to another, even after the test is completed.
10. Copying a posted answer key without permission.
11. Discussing test questions or answers outside the examination room while the test is in progress.

Academic Misconduct
Academic misconduct is the intentional violation of University policies, by tampering with grades, or taking part in obtaining or distributing any part of an unadministered test. Examples include, but are not limited to:
1. Stealing, buying or otherwise obtaining all or part of an unadministered test.
2. Selling or giving away all or part of an unadministered test including answers to an unadministered test.
3. Bribing any other person to obtain an unadministered test including answers to an unadministered test.
4. Entering a building or office for the purpose of changing a grade in a grade book, on a test or on other work for which a grade is given.
5. Changing, altering or being an accessory to the changing and/or altering of a grade in a grade book, on a test, in a computer, on a “change of grade” form or other official academic records of the University which relate to grades.
6. Entering a building or office for the purpose of obtaining an unadministered test.
7. Continuing to work on an examination or project after the specified allotted time has elapsed.
8. Signing into classes for others.

Academic Dishonesty in Clinical Settings
Academic dishonesty in the clinic is characterized by deliberate, deceitful intention to (1) obtain information from another source and claim as one’s own, (2) fabricate clinical data or information, or (3) misrepresent one’s own actions or the actions of another in order to avoid sanctions. Examples include, but are not limited to:

1. Looking up in a log book, equivalent source or consulting a professional for a diagnosis or treatment plan on an assigned unknown case without authorization from the clinical instructor.
2. Using a correlated histopathologic or clinical diagnosis in lieu of his/her own clinical or technical interpretation.
3. Reporting results without performance of a test or procedure.
4. Providing unauthorized information to other students on clinical assignments.
5. Changing answers on work sheets or patient records after they have been reviewed and/or submitted.
6. Misrepresenting one’s own or another’s identity.
7. Feigning illness or emergency to avoid a clinical rotation or assignment.
8. Signing into rotation for another student when absent.
9. Communicating confidential information to a person not involved in the patient’s care without authorization.
10. Misrepresenting any aspect of patient care or documentation.

Sanctions
Two possible sanctions exist for cases of academic dishonesty. Option A outlines adjudication of cases at the discretion of the faculty. Cases may alternatively be referred directly to the Judicial Board for adjudication under Option B of these guidelines.

Option A
Option A is limited to one or more of the following, by choice of the faculty member:
- a verbal reprimand
- a written reprimand
- a grade of zero for an assignment or examination
- a requirement that the student repeat the work affected by the academic dishonesty
- a statement concerning the action to be sent to the JSP Dean’s Office by the instructor.

No notation of faculty action will appear on the student’s transcript. However, the School may choose to keep documentation in the student’s file and this may be taken into account if the student is involved in another incident of academic dishonesty.

When the instructor chooses to have the student repeat the assignment, the instructor will tell the student the maximum grade that may be assigned for the repeated assignment. For example, it is acceptable for the instructor to assign no more than a minimal passing grade to a repeated assignment, if successfully completed by the student.

The student may contest the instructor’s allegation by requesting a hearing with the TJU Judicial Board. Any such request must be made within five (5) working days from the time the student has been informed of the charge and the instructor’s recommended resolution. The instructor’s initial penalty will be considered in assessing a penalty for a guilty finding by the TJU Judicial Board.

Option B
Option B is direct referral of the charge by the faculty member to the TJU Judicial Board for adjudication. Information concerning procedures for requesting a judicial hearing is found in the Code of Conduct section of this Handbook (see “Judicial System”).

The contents of sections on Academic Dishonesty were taken wholly or adapted in part with permission from “The Academic Honesty & Dishonesty” brochure prepared by the Dean of Students Office, 218 Hullihen Hall, University of Delaware, Newark, Delaware, (302) 831-2117.
Revised June 20, 1997
Clinical Probation and Dismissal
Because patient well-being is a major concern of the University, it is necessary that certain actions be taken when a student's clinical practice poses a potential threat to patient health, welfare or safety. Therefore, students are subject to the School’s regulations governing clinical practice and may be placed on probation by the School and/or recommended for dismissal for unsafe clinical behavior as defined by the School. Unsafe clinical practice is described below. Students who wish to appeal a decision of clinical dismissal for unsafe clinical performance may do so by following the provisions of the Appeal Process for Dismissal Due to Unsafe Clinical Performance.

Unsafe clinical practice encompasses behavior (omission or commission) which threatens or has the potential to threaten the physical, mental, emotional, or environmental safety of patients, family members, other students, faculty members, or other healthcare providers in the patient care setting.

Unsafe clinical practice can include, but is not limited to:

- (1) lack of preparation, unsafe clinical judgment, or deficits in problem-solving ability;
- (2) unsupervised or unauthorized clinical practice or unauthorized presence in a clinical facility;
- (3) violation of any provision within the Pharmacy Act;
- (4) falsification of documentation;
- (5) inappropriate or unauthorized use of equipment, supplies, data, clinical information systems, or communications systems;
- (6) gross interference with the educational process or health care services;
- (7) gross impairment (physical or cognitive) by illicit or prescription drugs, chemicals, or alcohol in patient care settings;
- (8) creating unnecessary risk of exposure to or harm from environmental, chemical- and/or biohazards in patient care settings; and
- (9) verbally abusive, physically threatening or harmful behavior toward patients or other health care providers.
- (10) intentional or unintentional violation of patient confidentiality

Confidentiality of Student Records
Student records are held by the University in joint agreement with the student and the University for the benefit of the student. In such an agreement, the student’s records are the property of the University but may be released upon the written request of the student.

The records of the student are held in trust by the University and are maintained in a confidential manner.

THE FAMILY EDUCATIONAL RIGHTS AND PRIVACY ACT
The Family Educational Rights and Privacy Act (more commonly known as “The Buckley Amendment” or FERPA) is a federal law that affords students certain rights with respect to their education records. These rights include:

1. The right to inspect and review the student's education records within 45 days of the day the University receives a request for access.

   Students should submit to the University Director of Student Records a written request that identifies the record(s) they wish to inspect. The University Director of Student Records will make arrangements for access and notify the student of the time and place where the records may be inspected. If the records are not maintained by the University Director of Student Records to whom the request was submitted, he or she shall advise the student of the correct official to whom the request should be addressed.

2. The right to request the amendment of the student’s education records that the student believes is inaccurate or misleading.
Students may ask the University to amend a record that they believe is inaccurate or misleading. They should write to the University official responsible for the record, clearly identify the part of the record they want changed, and specify why it is inaccurate or misleading.

If the University decides not to amend the record as requested by the student, the University will notify the student of the decision and advise the student of his or her right to a hearing regarding the request for amendment. Additional information regarding the hearing procedures will be provided to the student when notified of the right to a hearing.

3. The right to consent to disclosures of personally identifiable information contained in the student’s education records, except to the extent that FERPA authorizes disclosure without consent.

One exception that permits disclosure without consent is disclosure to School officials with legitimate educational interests. A School official is a person employed by the University in an administrative, supervisory, academic or research, or support staff position (including law enforcement unit personnel and health staff); a person or company with whom the University has contracted (such as an attorney, auditor or collection agent); a person serving on the Board of Trustees; or a student serving on an official committee, such as a disciplinary or grievance committee, or assisting another school official in performing his or her tasks.

A School official has a legitimate educational interest if the official needs to review an education record in order to fulfill his or her professional responsibility.

Upon request, the University, at its discretion, may disclose education records without consent to officials of another school in which a student seeks or intends to enroll.

4. The right to file a complaint with the U.S. Department of Education concerning alleged failures by Thomas Jefferson University to comply with the requirements of FERPA. The name and address of the Office that administers FERPA is:

Family Policy Compliance Office
U.S. Department of Education
400 Maryland Avenue, SW
Washington DC, 20202-4605

The University, at its discretion, may provide directory (public) information in accordance with the provisions of the Act to include: the student’s name, address, telephone listing, date and place of birth, major field of study, academic schedule, participation in officially recognized activities and sports, dates of attendance, degrees and awards received, identification photo, University e-mail address and previous educational institutions attended by the student. Students wanting directory information withheld should notify the University Director of Student Records in writing within two weeks of each year’s initial academic enrollment.

Revisions and clarifications will be published as experience with the law and Jefferson’s policy warrant.

Missed Coursework
Policy
Consistent attendance in class, for all laboratory and clinical experiences, and for all course assessments (including, but not limited to, examinations), reflects professional behavior. It is expected that students participate in all such events. In the case of an emergency (such as an acute debilitating illness or unanticipated family emergency), a student may be excused from participating in such events. Students anticipating or otherwise missing more than 3 days of classes are required to notify the Dean’s Office so that appropriate arrangements can be made to assist in keeping the student up to date with coursework.

Procedure
The student is responsible for being familiar with all of the content included in the course syllabus. Specific procedures regarding missed coursework, outlined by the Course Coordinator, can be found in each course syllabus. Students missing more than 3 days of classes must contact the Deans’ Office.

**Course Attendance**
As noted above in Missed Coursework, consistent attendance in class, for all laboratory and clinical experiences, and for all course assessments (including, but not limited to, examinations), reflects professional behavior. It is expected that students attend and participate in all such events. Please refer to individual course syllabi for attendance policies specific to each course.

**Lecture Recordings**
Select courses delivered in JSP’s Doctor of Pharmacy program utilize the lecture recording system. These courses are not distance learning courses. Lecture recordings are not intended to replace attendance in class. Access to recorded lectures benefits students in several ways. It allows students to give their full attention to the instructor during the lecture rather than trying to quickly transcribe what the instructor is saying. Students can review the lecture as often as they want. Only students enrolled in a course will have access to the recordings. Typically, the recordings and course content in Pulse are kept until students in that class-year graduate. Of note, when course content changes and is updated in subsequent years, such updates are not applied to the original lecture recording postings.

**Course Drop/Add**
Once registered, students may drop or add a course until the deadline published in the Academic Calendar. The Drop/Add period during the Fall and Spring Semesters is normally a two-week period. For Summer Sessions and other accelerated terms, it is proportionately less.

To make a schedule change, the student must complete a Drop/Add form. The Drop/Add form must be received in the University Office of the Registrar by the deadline date.

**Course Withdrawal**
After the conclusion of the Drop/Add period, a student may withdraw from a course by completing a Course Withdrawal Form and obtaining the necessary approvals from the appropriate academic department. A student who withdraws from a course prior to the deadline published in the academic calendar will receive a grade of “W.”

A student who withdraws from a course after the deadline published in the academic calendar will receive a grade of “WP” (withdrew Passing) or “WF” (withdrew Failing), depending upon the level of work at the time of the withdrawal. A grade of "WF" is calculated in the grade point average in the same manner as a failing grade.

NOTE: Students who do not officially drop or withdraw from a course according to the procedures described above but stop attending classes will be responsible for the full payment of tuition and will receive a grade of “F” for the course. Verbal notification to the course instructor does not constitute an official course drop or withdrawal.

**Transfer Credit Policy**
Academic credit may be given for courses successfully completed with a grade of B or better at other academic institutions. Coursework completed prior to matriculation may not apply towards the professional elective courses within the JSP curriculum. In cases where the approval to transfer credits has been granted, no grade will appear on the student’s transcript. Credit hours will be awarded. Transfer credits are not utilized in determining a student’s grade point average. Students are encouraged to discuss transferring course credit with their academic advisor and/or the Associate Dean for Academic Affairs.
Procedure
1. The student must submit a written request to the JSP Associate Dean for Academic Affairs.
2. The request should include the course title, number of credits, course description, and syllabus from the outside institution.
3. The Dean’s office will communicate the decision to approve or deny the credit transfer request to the student within 14 calendar days of receiving the written request.
4. If the decision is made to transfer credit, the student will be asked to produce an official transcript from the outside institution.

Disability Accommodations

Thomas Jefferson University is committed to providing equal educational opportunities to all students, including students with disabilities. Under the law, a person with a disability is defined as an individual who (1) has a physical or mental impairment that substantially limits one or more major life activities (2) has a history or record of such impairment, or (3) is regarded as having such impairment.

A student requesting accommodation for a disability must contact the Assistant Provost of Student Affairs (215-503-6335, 1123 Edison Building) and submit documentation of that disability. The documentation must:

- Be from an appropriate medical professional.
- Identify the disability and symptoms for which an accommodation is sought.
- Describe the functional limitations of the disability and how these limitations limit any major life activity including participation in the courses, programs, services or activities of the college.
- Include the names and scores of any specific testing or medical assessments used to make determinations.
- Include suggested educational accommodations.
- Be less than three years old.

The student must also provide documentation of accommodations (if any) provided at previous academic institutions and must make a written request for specific accommodations based on the foregoing information.

The Assistant Provost of Student Affairs will confer with a representative in the student’s school or department, appropriate campus physical or mental health professionals, other University officials and additional specialists (as necessary) to determine the appropriateness of the requested accommodation and, when necessary, to attempt to identify an alternative reasonable accommodation. The Assistant Provost of Student Affairs will communicate with the student to discuss the requested accommodation and/or to discuss alternative reasonable accommodations.

Students with disabilities are encouraged to submit their documentation early to allow adequate time to arrange accommodations prior to the beginning of classes. It is the student’s responsibility to inform faculty in each impacted course within the first week of class that an educational accommodation has been granted in order that proper arrangements may be made.

In most instances, the reasonable accommodation provided is acceptable to the student. However, if that is not the case, students should follow the Student Grievance Procedure outlined in the Student Handbook. Questions regarding the Disability Accommodation policy should be directed to the Assistant Provost of Student Affairs at (215) 503-6335.

Performance Requirements / Technical Standards

Students enrolling in the Jefferson School of Pharmacy will receive training to prepare them to practice pharmacy in a variety of practice setting, e.g., community, health care systems, clinics, etc. Regardless of
the specific area of practice selected by the student, all students must demonstrate competence in the
areas of intellectual, physical and social tasks that together represent the fundamentals of being able to
provide contemporary pharmaceutical care. Throughout the curriculum students will be evaluated on their
scholastic achievement and ability. In addition, students will be evaluated on their intellectual, physical
and emotional capacities to meet the full requirements of the school’s curriculum.

The following technical standards specify those attributes the faculty considers necessary for completing
pharmacy training, enabling each graduate to subsequently enter clinical practice, residency or fellowship
training. These standards describe the essential functions students must demonstrate in order to fulfill the
requirements of a general pharmacy education, and thus, are prerequisites for entrance, continuation,
and graduation from the School of Pharmacy.

The Jefferson School of Pharmacy will consider for admission any applicant who demonstrates the ability
to perform or to learn to perform the skills listed in this document. Applicants are not required to disclose
the nature of their disability(ies), if any, to the Admissions Committee. However, any applicant with
questions about these technical standards is strongly encouraged to discuss the issue with the Associate
Dean for Student Affairs prior to the interview process. If appropriate, and upon the request of the
applicant/student, reasonable accommodations will be provided.

Certain chronic or recurrent illnesses and problems that interfere with patient care or safety may be
incompatible with pharmacy training or practice. Other conditions that may lead to a high likelihood of
student illness should be carefully considered. Deficiencies in knowledge base, judgment, integrity,
character, or professional attitude or demeanor, which may jeopardize patient care, may be grounds for
course/rotation failure and possible dismissal.

A student must possess aptitude, abilities, and skills in five areas: 1) observation; 2) communication; 3)
sensory and motor coordination and function; 4) conceptualization, integration and quantitative
evaluation; and 5) behavioral and social skills, abilities and aptitude. These are described in detail below.
The program faculty will monitor maintenance of these standards. Students must be able to
independently perform the described functions.

1. OBSERVATION
Students must be able to observe demonstrations and conduct exercises in a variety of areas related to
contemporary pharmacy practice, including but not limited to, monitoring of drug response and
preparation of specialty dosage forms. A student must be able to observe a patient accurately at a
distance and close at hand, noting nonverbal as well as verbal signals. Specific vision-related
requirements include, but are not limited to the following abilities: visualizing and discriminating findings
on drug or fluid monitoring tests; reading written and illustrated material; observing demonstrations in the
classroom or laboratory, including projected slides and video presentations; observing and differentiating
changes in body movement; observing anatomic structures; discriminating numbers and patterns
associated with diagnostic and monitoring instruments and tests, and competently using instruments for
monitoring drug response.

2. COMMUNICATION
Students must be able to relate effectively and sensitively with patients and their caregivers and or
partners, and convey a sense of compassion and empathy. A student must be able to communicate
clearly with, and observe patients in order to elicit information, accurately describe changes in mood,
activity and posture, and perceive verbal as well as nonverbal communication. Communication includes
not only speech but also reading and writing. Students must be able to communicate quickly, effectively
and efficiently in oral and written English with all members of the health care team and to patients or their
care provider. Specific requirements include but are not limited to the following abilities; communicating
rapidly and clearly with the health care team on rounds; eliciting a thorough history from patients; and
communicating complex findings in appropriate terms to patients and their caregivers, partners and
various members of the health care team (fellow students, physicians, nurses, aides, therapists, social
workers, and others). Students must learn to recognize and promptly respond to emotional

August 7, 2014

66
communication such as sadness, worry, agitation, and lack of comprehension of communication. Each student must be able to read and record observations and care plans legibly, efficiently and accurately. Students must be able to prepare and communicate concise but complete summaries of individual encounters and complex, prolonged encounters with patients. Students must be able to complete forms or appropriately document activities according to directions in a complete and timely fashion.

3. SENSORY AND MOTOR COORDINATION OR FUNCTION
Students must have sufficient sensory and motor function to monitor drug response and to prepare and or dispense pharmaceuticals. A student should be able to execute motor movements reasonably required to participate in the general care and emergency treatment of patients. They must be able to respond promptly to urgencies within the practice setting and must not hinder the ability of their co-workers to provide prompt care. Examples of such emergency treatment reasonably required of pharmacists include arriving quickly when called, participating in the initiation of appropriate procedures, and rapidly and accurately preparing appropriate emergency medication.

4. INTELLECTUAL-CONCEPTUAL INTEGRATIVE AND QUANTITATIVE ABILITIES
These abilities include measurement, calculation, reasoning, analysis, judgment, numerical recognition and synthesis. Especially important is the appropriate and rapid calculation of dosages in a variety of conditions such as renal or hepatic failure, obesity, cardiac or respiratory arrest, etc. Additionally, calculations involving appropriate dilution or reconstitution of drug products, electrolytes, etc. must be made accurately and quickly. Problem solving, a critical skill demanded of all pharmacists, requires all of these intellectual abilities and must be performed quickly, especially in emergency situations. Students must be able to identify significant findings from history, physical assessment, and laboratory data; provide a reasonable explanation and analysis of the problem; determine when additional information is required; suggest appropriate medications and therapy; develop appropriate treatment plans to improve patient outcomes; develop patient counseling information at a complexity level appropriate to a particular situation; and retain and recall information in an efficient and timely manner. The ability to incorporate new information from peers or teachers, and to locate and evaluate new information from the literature to be used appropriately in formulating assessments and pharmaceutical care plans is essential, as is good judgment in patient assessment and therapeutic planning for disease management. Students must be able to identify and communicate the limits of their knowledge to others when appropriate and be able to recognize when the limits of their knowledge indicate further study or investigation is essential before participating in decision making. Students must be able to interpret graphs or charts describing biologic, economic or outcome relationships.

5. BEHAVIORAL ATTRIBUTES
Empathy, integrity, honesty, concern for others, good interpersonal skills, interest and motivation are all personal qualities that are required. Students must possess the emotional health required for full use of their intellectual abilities; the exercise of good judgment; the prompt completion of all responsibilities attendant to the care of patients; and the development of mature, sensitive and effective relationships with patients and their caregivers and partners. At times this requires the ability to be aware of and appropriately react to one’s own immediate emotional responses and environment. For example, students must maintain a professional demeanor and organization in the face of long hours and personal fatigue, dissatisfied patients, and tired colleagues. Students must be able to develop professional relationships with patients and their caregivers and partners, providing comfort and reassurance when appropriate while protecting patient confidentiality. Students must possess adequate endurance to tolerate physically taxing workloads and to function effectively under stress or with distractions. All students are at times required to work for extended periods, occasionally with rotating shifts. Students must be able to adapt to changing environments, to display flexibility, and to learn to function in the face of uncertainties inherent in the clinical problems of many patients. Students must also develop the skills necessary to instruct and supervise technical personnel assisting with the delivery of pharmaceutical services. Students are expected to accept appropriate suggestions and criticism and if necessary, respond quickly, appropriately and cooperatively by modification of behavior.
Student Complaints, Appeals and Grievances

Students who feel they have been treated unfairly in the academic program or in non-academic disciplinary actions have the right to initiate the appeal process as described by the Grade Appeal Protocol and the Code of Conduct (see Judicial System). Students may also make informal complaints or formal grievances regarding other issues such as academic or non-academic policies or procedures, curricular issues, extracurricular issues, or facilities. In such cases, students are strongly encouraged to provide feedback in a constructive manner and first attempt to resolve their disputes with the appropriate Faculty or Staff. The Dean or the Associates Deans and Faculty Advisors are available to assist students in determining the potential courses of action available to them. (See Student Grievance Procedure) Students also have the right to file complaints related to topics covered by the ACPE Accreditation Standards directly to ACPE (see Complaints Policy for the Accreditation Council for Pharmacy Education).

Grade Appeal Protocol

I. Grade Appeals Board
The Schools of Health Professions, Nursing, Pharmacy and Population Health shall collectively support a Grade Appeals Board.

A. Membership

1. A member of the administration designated by the Provost.
2. Three faculty members each from JSHP and JSN, and one faculty member each from JSP and JSPH. Each school shall designate two alternates. An alternate may serve on the Board in case one of the school’s faculty designees is unavailable.
3. Two students from each school. Each school shall identify two alternates. An alternate may serve on the Board in case one of the school’s student designees is unavailable.

The Board, by a majority vote of its members, will elect one member as Chair at the beginning of the academic year.

B. Responsibilities
A Grade Appeals Hearing Panel, as set forth in Section IV, shall provide a hearing for students who, following the established grade appeal process, wish to present evidence that their level of achievement is, or has been, other than as adjudged by the School.

The Grade Appeals Hearing Panel will also hear appeals of dismissal for unsafe clinical performance. The hearing procedures followed by the Grade Appeals Hearing Panel are set forth below.

II. Basis for Grade Appeal
The grade appeal protocol affords recourse to a student who has evidence or believes that evidence exists to show that an inappropriate final grade has been assigned under the following circumstances:

- Grade was assigned in a capricious or arbitrary way: The faculty member has arrived at the grade without considering all the pertinent facts or has arrived at the grade based on reasoning which is influenced by irrelevant information not in accord with the course syllabus.
- Assignment of a grade inconsistent with criteria used to assign grades to other students: The grade was given using criteria not on the syllabus and different from criteria used to grade all other students in this specific class, with the same instructor, in the same semester.
- Mechanical error occurred in the calculation of a grade: The grade has been inaccurately assigned due to clerical or administrative error.
Reduction of a grade for alleged academic dishonesty does not follow this protocol. It must be appealed to the Judicial Board on Student Conduct.

III. Steps of Grade Appeal and Timeframe for Grade Appeal

1. To begin the Grade Appeal process students must meet with the Assistant Provost for Student Affairs. For a grade appeal, the burden of proof is on the student. The student must identify reasons he/she believes the grade assignment was inappropriate and provide evidence supporting the claim. The student will be able to review all material relevant to the case from his or her department file. To file an appeal the student must compile the following documents, which will be used in each step of the grade appeal process:
   
   a. a signed Notice of Course Grade Appeal (the form is available from the Assistant Provost for Student Affairs and online in the Blackboard organization for Students in the Jefferson Schools of Health Professions, Nursing, Pharmacy, and Population Health);
   b. a detailed written statement explaining the basis for the appeal setting forth one or more of the Bases for Grade Appeal described in Section II of this Protocol. The statement must include a specific account of all alleged procedural irregularities and a chronology of significant events related to the assignment of the grade;
   c. a copy of the course syllabus; and
   d. copies of other pertinent documents and any other evidence that may have a bearing on the grade in question. These may include, but are not limited to, School/Department/University policies, tests, papers, clinical records or evaluations, journals, handouts, correspondence to/from the instructor, course outlines, handouts, logs and any written feedback given by the instructor on written work.

2. The Department Chair/Associate Dean will decide if the student may continue in class during the appeal period and notify the student of the decision in writing. Any instructor recommending that a student should not continue in the class or academic program must clearly document that the student poses a safety risk to others and/or has engaged in disruptive behavior towards other students, faculty, clinical instructors and/or patients.

3. The timeframe for each step of the Grade Appeal process are described in the chart below. **PLEASE NOTE:** The timelines in the grade appeal procedure are mandatory. If, due to extenuating circumstances, the student is unable to follow the timeframe, he/she must submit a written request for an extension from the next person in the process during the specified timeframe. Likewise, a faculty member, course director, or Chair/Associate Dean must submit a written request for an extension from the Dean if there are extenuating circumstances that would not allow the timely completion of their review and decision.
4. Each step of the process must include a written response to the participants. The student has the opportunity to reply to the response in the grade appeal document that is forwarded to the next stage of the process.

5. If the appeal is resolved within the school, either because the student does not file with the next corresponding person or the school finds in favor of the student, a notice of the final outcome should be sent by the school to the Assistant Provost for Student Affairs.

6. It is important to note that, as depicted in the chart, if the appeal is denied by the Dean and the student elects to file the appeal with the Grade Appeals Board, he/she must also submit a proposed list of witnesses who have agreed to testify at the hearing. For each witness the student should include a brief summary of his/her testimony and its relevance to the charge that an inappropriate grade has been assigned.

7. The reviewing authority (Instructor, Department Chair/Associate Dean, Dean, or Hearing Panel) has the right to enact a grade change and will determine the grade upon their decision.
8. If the Department Chair/Associate Dean or Dean is the course instructor the Dean will appoint another faculty member to serve as a replacement in the appeal process. The Department Chair/Associate Dean or Dean will remain as the course instructor.

IV. The Grade Appeals Panel and Hearing

The Grade Appeals Board reserves the right to deny a hearing if the evidence submitted by the student does not clearly demonstrate a basis for grade appeal. The Board Chair will notify both parties in writing of the decision and, if a hearing is granted, the time, date and location of the hearing.

The Board will appoint a Grade Appeals Hearing Panel consisting of the Chair of the Grade Appeals Board, two additional faculty members, two student representatives, and a non-voting representative of the Office of the Provost. None of the members of the Grade Appeals Hearing Panel may be from the academic department from which the Appeal originates. A Board member must withdraw from the proceedings if he/she cannot remain unbiased or if involved with the grade in any capacity. The Chair of the Board shall appoint another representative to maintain the Hearing Panel’s structure in accordance with this Protocol. If the Chair of the Board disqualifies himself/herself, or is disqualified due to a conflict of interest, another member of the Board will be elected by the Grade Appeals Board. The Panel will determine which proposed witnesses may testify at the hearing.

1. Attendance at the hearing is required of the following individuals and is closed to all others:
   a. All members of the Grade Appeals Hearing Panel shall be present and shall serve with full voting rights.
   b. A representative of the Office of the Provost shall serve on the Panel in a non-voting capacity.
   c. The student and course instructor shall be present. If either party is unable to attend due to an extraordinary circumstance such as, but not limited to, severe illness, death in the immediate family or professional obligation that cannot be rescheduled, the Board Chair must be notified immediately. The Hearing Panel will use best efforts to reschedule the hearing within five days of the originally scheduled date.
   d. Witnesses called by either party and approved by the Hearing Panel may be present only for their own testimony.
   e. A non-Board member provided by the Office of the Provost who will take notes of the discussion and prepare a summary of the proceedings.

2. The hearing shall be conducted in the following manner:
   a. The student and course instructor must represent themselves.
   b. The student will have the opportunity to state the nature of the grade appeal in detail and present supporting witnesses and evidence.
   c. The course instructor will be given the opportunity to respond to the student’s statement and present supporting witnesses and evidence.
   d. Hearing Panel members may question the student, course instructor and witnesses.
   e. The student, course instructor and witnesses are excused.
   f. Following a period of closed deliberation, the decision of the Hearing Panel will be determined by a simple majority vote. A written report citing the basis for the decision will be forwarded to the student, the course instructor, and the School Dean within five business days.

V. Appeal to the Provost

1. If the decision of the Grade Appeals Hearing Panel is not acceptable to either party, the student or the course instructor may file a written notice of appeal with the Provost within three days of receiving the decision. The appeal must be based on either a lack of due process or new information not available at the time of the hearing. Such a request shall be granted or denied at the discretion of the Provost, or a
designee appointed by the Provost, based on an analysis of whether the new information is likely to make
a significant and substantial difference in the initial disposition of the case or whether the process
followed was inconsistent with University procedures.

2. If a request for appeal based on new information is approved, the Provost or designee will remand the
appeal to the hearing panel and another hearing will take place. The decision of the reconvened hearing
panel shall be final and binding.

3. If a request for appeal based on lack of due process is approved, the Provost or designee shall meet
with the individual appealing the decision of the Hearing Panel to attempt to resolve the situation. In
advance of the appeal meeting, the Provost or designee may request any additional records or
documentation that he/she feels are relevant to the case. The Provost or designee shall provide a written
decision, which shall be sent to the student, the Dean and the Chair of the Grade Appeals Board within
five business days of receiving the written notice of appeal. The decision of the Provost or designee shall
be final and binding. There is no further university recourse available for the student or course instructor.

Student Complaints and Grievance Procedure
For student grievances other than grades or dismissal due to unsafe clinical performance, students are
encouraged to address the problem at the point closest to the issue. The student is encouraged to
attempt to resolve the dispute directly with the faculty or staff member. If dissatisfied with the outcome,
the student may meet with the Department Chair, then the Associate Dean for Academic Affairs or
Students Affairs as appropriate, then the JSP Dean who will attempt to mediate the situation. All parties
are encouraged to address the issue promptly in writing (within three [(3)] class days whenever possible)
so that resolution of the grievance should require no more than three weeks.

Records of the grievance are kept by the respective faculty and administrative personnel and do not
become part of the student’s permanent record.

Complaints Policy for the Accreditation Council for Pharmacy Education (ACPE)
The following has been taken directly from http://www.acpe-accredit.org/students/complaints.asp

“ACPE has an obligation to assure itself that any institution which seeks or holds a preaccreditation or
accreditation status for its professional program(s) conducts its affairs with honesty and frankness.
Complaints from other institutions, students, faculty, or the public against a college or school of
pharmacy, including tuition and fee policies, and as related to ACPE standards, policies or procedures,
shall be placed in writing in detail by the complainant and submitted to the ACPE office. The complaint
shall be submitted to the institution for response. Requests for confidentiality shall be respected to the
extent any such information is not necessary for the resolution of the complaint.

The Executive Director shall, based upon the complaint, the response, and information from such further
investigation deemed necessary, promptly determine the facts surrounding the issue, determine the
validity of the complaint, and resolve the issue; provided, however, where the Executive Director deems it
necessary or appropriate, the matter shall be considered at the next regular meeting of the Council. The
time frame for resolution is generally within six months. A record of complaints regarding a specific
college or school of pharmacy, including student complaints received or made available, is kept for
consideration on file at the Council office. Such record of complaints is considered during scheduled
evaluations, or a special evaluation, as the case may require.

The procedure shall provide for treatment of complaints in a timely manner that is fair and equitable to all
parties. The complainant shall be advised of the decision or action as soon as possible. When ACPE has
cause to believe that any institution with which it is concerned is acting in an unethical manner or is
deliberately misrepresenting itself to students or the public, it will investigate the matter and provide the
institution an opportunity to respond to the allegations. If, on the basis of such investigation, after notice to
the institution and opportunity for institutional response, ACPE finds an institution has engaged in
unethical conduct or that its integrity has been seriously undermined, ACPE will either:
a. request that the institution show cause, within a stated time period, why adverse action should not be taken, or

b. in extreme cases, immediately discontinue its relationship with the institution by denying or withdrawing preaccreditation or accreditation status.

A complaint against a college or a school of pharmacy must be related to the standards or the policies and procedures of ACPE and must be submitted in writing to the Executive Director. Under existing practices, when a complaint is received, it is submitted to the college or school affected for response. If, thereafter, based upon the complaint and the response, the Executive Director determines that a complaint is not related to the standards or policies, the complainant is so advised in writing with a copy to the school or college, and the matter is treated as resolved.

Anonymous complaints pertaining to accreditation matters are retained and, depending on circumstances, may or may not be forwarded to the school or college involved, depending somewhat on the severity of the complaint. This decision is made by the Executive Director. Where a complainant has threatened or filed legal action against the institution involved, ACPE will hold complaints in abeyance pending resolution of the legal issues and the complainant is so advised.

If the Executive Director finds a complaint to be extremely serious in nature charging egregious conduct that may warrant adverse action by the Council, or involves an interpretation which the Executive Director believes should be made by the Council, the complaint will be submitted to the Council for determination at the next regular meeting. Extraordinary remedies available for complaints covering extreme cases are set forth in paragraphs (a) and (b) above.

ACPE has an obligation to respond to any complaints which may be lodged against it by any institution, student, faculty or third party in respect to the application of ACPE's standards, policies and procedures where the complaining party is directly affected thereby. Any such complaint shall be submitted in writing. The Executive Director shall promptly determine the facts surrounding the issues and shall attempt to resolve the matter in consultation with the Public Interest Panel established pursuant to Article V of the ACPE By-Laws. Complaints which cannot be resolved by the Executive Director shall be considered and resolved at the next regular meeting of the Council. The time frame for resolution is generally within six months."

If you wish to file a complaint, please e-mail: csinfo@acpe-accredit.org (regarding a professional degree program)

**Graduation**

A student must complete the specific total credits and course requirements in the Doctor of Pharmacy program and achieve a cumulative grade point average of at least 3.00 on all attempted work to qualify for graduation from the University.

JSP students are required to complete their course of study within six years of the date of matriculation (exclusive of any time approved for LOA). An extension may be granted in the event of extenuating circumstances, such as a documented medical illness.

**Residence Requirements for Graduation**

A student must earn a minimum of 30 semester credits preceding graduation for a degree to be conferred.

**Application for Graduation**

The official awarding of degrees takes place three times each year: at the Commencement Exercises following the conclusion of the spring semester, in August/September at the conclusion of the summer semester, and in December at the conclusion of the fall semester. Students who expect to meet the requirements for graduation must file an online application with the University Office of the Registrar.
These applications are normally filed during the fall semester but must be received no later than the deadline published in the Academic Calendar.

A student who applies for graduation and then fails to qualify must reapply, indicating the revised date of the completion of graduation requirements. A student who does not qualify for graduation in time for Commencement Exercises may participate in the next academic year’s graduation program.

**Leave of Absence**
When personal circumstances make a temporary absence from the School advisable and when intent to return is evident, a leave of absence may be granted to students who file the Student Status Change Form available in the JSP Dean’s Office. Permission of the School Dean or the Dean’s designee is required. Normally, a leave will be granted for a period from one semester to a full academic year. Students who are subject to dismissal for academic or disciplinary reasons are not eligible for a leave of absence. A student who has been placed on academic probation and is subsequently granted a leave must satisfy the terms of the probation upon returning. If a leave is granted during an academic term, the same procedures and policies pertaining to grading of individual course withdrawals will be in effect. If changes to the Doctor of Pharmacy curriculum impact the course of study for a student who is returning from a leave of absence, that student will be responsible for meeting all requirements of the class with whom they will graduate.

If a leave is granted during an academic term, the same procedures and policies pertaining to grading of individual course withdrawals will be in effect.

Students who fail to return to the School by the date that the approved leave expires will have their status changed from a leave of absence to withdrawal, and they will have to apply for readmission in order to return.

Students considering a leave should first consult with their academic advisor and other appropriate advisors regarding possible effects on their progress toward the degree, financial aid and tuition charges. A leave of absence should be arranged in advance, and the student should follow the same procedure as for withdrawal from the School. Students who have borrowed federal, institutional or private loans are required to complete a federally mandated Exit Interview counseling session. Besides being a federal requirement, it is a very helpful counseling process to ensure that students know the facts and repayment strategies that apply to student loans and to safeguard loans from becoming delinquent during a leave of absence, withdrawal or any other period of non-enrollment or drop in credits to below a half-time status level.

**Medical Leave of Absence**
For medical leaves of absence, students must proceed through University Health Services, which will notify the Office of the School Dean of its recommendation regarding a medical leave. No medical leaves will be reviewed or received without the endorsement of the Director of University Health Services, or other physicians designated by the Director of University Health Services.

Medical leaves will be for a period of up to one year. A leave of more than one year’s duration will be granted only under the most extraordinary circumstances and only after review by the Office of the School Dean. Prior to reentry, which must be applied for prior to the one year anniversary, appropriate medical screening will be arranged by the Director of University Health Services with consultation, if necessary, to provide assurance of the student’s fitness to return to class. All fees associated with any evaluation are the responsibility of the student. This process must be completed 15 days prior to the start of the requested re-entry semester.

**Academic Enrichment / Personal/ Non-Medical Leave of Absence**
A leave of absence for academic enrichment or other personal, non-medical reasons may be entertained by the JSP Associate Dean for Student Affairs. Leaves of absence for academic enrichment and personal, non-medical reasons may be considered from a student in good academic standing and
entertained by the JSP Associate Dean for Student Affairs upon receipt of a written request. The student must supply to JSP Associate Dean for Student Affairs reasons that unequivocally validate the need for a non-medical leave. As a corollary, should such a leave be granted, the JSP Associate Dean for Student Affairs, at the time that the leave is granted, will establish clear stipulations that the student must follow in order to gain reinstatement. Generally, such leaves will be no more than one (1) year in duration. Non-medical leaves do not involve or require action or endorsement by the Director of University Health Services.

**Mandatory Medical Leave of Absence**

The Jefferson School of Pharmacy has an obligation to protect patients, students, faculty and employees from harm caused by the actions of any student.

If remaining in a course or rotation or in pharmacy school is thought to be detrimental to the student, classmates, faculty or to the delivery of patient care,\(^1\) the JSP Dean or the Dean’s designee has the right to temporarily remove a student from JSP, a course, or a rotation, pending medical and/or psychiatric evaluation. Removal from JSP, a course, or rotation, are all subject to review by the JSP Executive Council or the Judicial Board, as appropriate.

The JSP Dean or the Dean’s designee will determine the length of the leave and will require the student to demonstrate fitness to return to school. The Dean’s designee will determine whether restrictions in access to campus, students and email account are necessary during the leave. The Dean’s designee will alert the student, in writing, of any restrictions during his/her leave of absence.

Prior to reentry, appropriate medical screening will be arranged by the student and the Director of University Health Services with consultation, if necessary. Any financial costs that may be incurred are the responsibility of the student. Reentry after a leave for psychological/psychiatric reasons will include an interview by the psychiatrist designated by the Director of University Health Services.

Should the JSP Executive Council direct a mandatory leave of absence, the Executive Council will define the conditions of return, which may include restricting the scheduling of clinical or research rotations at away sites or at Thomas Jefferson University/Thomas Jefferson University Hospitals.

**Readmission Policy and Procedure**

**Policy**

Any student who withdraws or who has been dismissed from the Doctor of Pharmacy Program is eligible to apply directly to the JSP Dean’s Office for readmission. If readmitted, the student will begin with the cumulative GPA they had at the time they were dismissed from the Doctor of Pharmacy Program. Following readmission, the student must maintain fulltime status which includes core required courses as stipulated in their Conditions of Readmission. Any student dismissed from JSP because of academic underachievement, and subsequently readmitted to JSP, must achieve a semester grade point average of 3.00 for the first full-time semester in which he or she was readmitted. If the student fails to do so, he or she will be dismissed. Furthermore, if such a student has a cumulative grade point average of < 3.00 at the end of the semester in which he or she was readmitted, he or she must raise the cumulative grade point average to a 3.00 or greater by the end of the following semester or be dismissed. After this point, the cumulative GPA of 3.00 or greater must be maintained or the student will be dismissed. For students matriculating into the JSP Doctor of Pharmacy Program in the Fall of 2011 and beyond, the maximum number of times that a student may be readmitted is twice. They must be able to complete the program in 150% of the allotted time. Their ability to do so will be taken into consideration in the readmission process as applicable.

---

\(^1\) Potential harm/perceived threats may be described as occurring from behavior defined by Thomas Jefferson University, students or patients as threatening, hostile or otherwise inconsistent with the duties and responsibilities of a student. Behavior can also include that which is disruptive to medical treatment, the educational process or student working environments.
August 7, 2014

Procedure
1. Students who withdraw or who are dismissed for academic underachievement may be considered for readmission for the subsequent academic year. Students who wish to apply for readmission should complete the JSP Application for Readmission which includes a narrative identifying any potential contributors to their lack of academic success, to date, and describing any steps they have or are taking to ensure their future academic success. This may include additional coursework at other institutions, working with a counselor or coach to improve their academic skills (e.g., study skills, exam taking, reading comprehension, etc.) or other appropriate interventions. The application for readmission may include attachments such as transcripts from other institutions. The completed Application for Readmission must be submitted to the Deans’ Office.

2. Upon receipt of the Application for Readmission, the Associate Dean for Academic Affairs will review the Application and determine if the student’s eligibility for readmission (i.e., ability to achieve a cumulative GPA of ≥ 3.0 by the end of the second semester following their readmission). If the Associate Dean for Academic Affairs determines that the student is eligible for readmission, they will schedule a meeting with the student to discuss the Conditions of Readmission. These may include but are not limited to re-taking courses in which they have previously performed poorly or taking additional foundation courses. If changes to the Doctor of Pharmacy curriculum impact the course of study for a student who is being readmitted that student will be responsible for meeting all requirements of the class with whom they will graduate unless an exception is included in the terms of readmission.

3. Terms of readmission recommended by the Associate Dean for Academic Affairs will be detailed in a Readmission Conditions agreement. At the next regular meeting of the Executive Council, the Associate Dean for Academic Affairs will provide an update of requests for Readmission, including recommended Conditions of Readmission and recommend an action to the Executive Council. The Executive Council will vote to approve the readmission as requested, approve the readmission with changes to the additional conditions, or deny the readmission.

4. Within one week of the Executive Council meeting the student will be notified in writing, by the Dean, of the readmission decision including the Conditions of Readmission.

5. Following readmission, the student will be subject to the readmission policy stated in the Student Handbook and any terms stipulated in their Conditions of Readmission.

Approved Spring 2010 by JSP Executive Council.
Updated Spring 2011 by JSP Executive Council.

Registration
Prior to each registration period, students are provided with detailed instructions and materials for registration. Students must register for classes according to the schedule published in the Academic Calendar.

Any registration made after the conclusion of the official registration period will require a late registration fee.

Satisfactory Academic Progress Policy - Federal Title IV Programs
Policy Statement
In order to receive payment for any Title IV Financial Aid Program, students must maintain satisfactory progress in their chosen program of study. If a student transfers to another program of study at the University, academic work in the prior program may be considered in determining satisfactory progress.

Students receiving aid for the first time must have been making satisfactory progress prior to receiving Title IV aid.
Students are considered to be maintaining satisfactory progress in their program of study if they successfully complete 70 percent of the credits attempted while receiving Title IV Funds.

The Satisfactory Academic Progress Policy will be applied at the end of each academic term.

Students who do not demonstrate satisfactory progress are not eligible to receive further Title IV Funds until they have re-established satisfactory progress.

To re-establish satisfactory progress, students must successfully complete, without receiving Title IV Funds, at least 70 percent of the attempted credits which fulfill degree requirements during one academic term.

When satisfactory progress is re-established, the Satisfactory Progress Policy will again be applied at the end of the semester. Application of the policy will continue until students complete or terminate their education.

Students who are placed on academic probation are permitted to continue on aid as long as they are making progress in accordance with School regulations. Students are required to complete their course of study in no more than 150% of the standard time frame required by the academic program. An extension may be granted by the Office of Financial Aid in the event of extenuating circumstances. The death of a family member and/or documented medical illness are examples of unusual and extenuating circumstances.

Students who are asked to withdraw from a major but who are permitted to remain in the School taking nonprofessional required courses and/or professional courses in the major with permission of the School may not continue on financial aid.

If students feel that they are not fairly judged or have extenuating circumstances, they may request a review of their individual circumstances by the Director of Financial Aid. In the event that students are not satisfied with a decision made by the Director, they may appeal to the School Dean or his/her designee. A subsequent appeal may be made to the Senior Vice President for Academic Affairs, who will render the final decision.

In the event of highly unusual or extenuating circumstances which result in the student not maintaining satisfactory progress, the Director of Financial Aid may waive or adjust the Satisfactory Academic Progress Policy on an individual basis. The death of a family member and/or documented medical illness are examples of unusual and extenuating circumstances.

Financial Aid may be available to students for the necessary repetition, one-time, of a failed course. When repeated, courses for which a passing grade has been received are not eligible for financial aid funding.

Definitions
Title IV Funds: Any payment originating from the Federal Title IV Financial Aid Programs.
Credits Attempted: A credit will be considered attempted only for those courses in which a student is enrolled and which fulfill degree requirements. Withdrawal from classes or the School after the specified drop/add period does not exclude those credits from being considered as attempted. Required courses that are repeated will be considered in calculation of credits attempted for satisfactory progress. Non-credit, remedial courses or challenge examinations are not aided and are not considered as credits attempted.
Temporary letter grades such as I, IP or NR will be considered at the time the final grade is received. These credits will be evaluated with the other credits the student attempted during the academic term the course was originally intended to be completed.

Successful Completion: A credit will be considered successfully completed if the student receives a letter grade of A+, A, A-, B+, B, B-, C+, C, C-, D+, D, D-, H, P or LP. A credit for which a student receives the grade W, WP, WF, F, U, NC or N will not be considered successfully completed. Graduate students must maintain a minimum Grade Point Average of 3.00.

Satisfactory Progress Table
The following table will be used to measure satisfactory progress for the Federal Title IV Financial Aid Programs.

Financial Aid Refund
Title IV Aid*
For each Title IV aid recipient who withdraws, the school must calculate the amount of Title IV assistance the student has earned. This amount is based upon the length of time the student was enrolled. The School must return any portion of unearned Title IV funds for which the School is responsible.

The School must also advise the student of the amount of unearned Title IV grant aid that he or she must return, if applicable. The student (or parent, in the case of a PLUS Loan) must repay any unearned funds that the School did not return according to the normal terms of the loan.

If a student has completed more than 60% of the payment period, he or she is considered to have earned 100% of the Title IV grant and loan aid received for the payment period. In this case, no funds need to be returned to the Title IV aid programs.

However, if a student withdraws before completing more than 60% of the payment period or period of enrollment, the amount of any Title IV loan and grant aid that the student received for the payment period or period of enrollment must be recalculated to reflect the portion of the payment period that he or she
completed prior to withdrawal. The unearned Title IV loan and grant aid for the percentage of the payment period not completed must be returned to the applicable Title IV aid programs.

* Title IV programs of aid include Federal Pell, Federal SEOG, Federal Perkins, Federal Work Study Program, Federal Direct Grad PLUS and Federal Direct Stafford Loan.

State Grant
Refunds/prorations of state grant funds are calculated according to the specific regulations of the sponsoring state. Programs of financial aid described herein are subject to change due to federal, state, local or institutional regulations or funding.

Student Identification Cards
All TJU students are issued photo identification cards to be carried at all times on campus. Students will be notified of a date and time to have their identification cards made. If a student’s identification card is lost or damaged, replacement cards can be secured for a fee by contacting the Photo ID Center in the Jefferson Bookstore, (215) 955-7942. ID cards may be updated and reprinted if there has been an official name change made with the Registrar’s Office and/or if the initial graduation year has changed.

Student Directory
For the convenience of the University community, the student directory is made available on the University’s website each year. The directory includes local and home addresses, photographs and telephone numbers of all students registered as of the fall academic term. Students should update this on an annual basis.

Students wanting directory information withheld should notify the University Office of the Registrar in writing within two weeks of each year’s initial academic enrollment.

Transcripts
At the end of each semester, active status students can view grades and transcript (a copy of the student’s complete academic record) at Banner Web.

Thomas Jefferson University has authorized the National Student Clearinghouse to provide transcript ordering privileges via the Web, using any major credit card. To request a transcript, please access the following website:  http://www.jefferson.edu/registrar/transcripts.cfm

Routine transcript requests carry a processing charge of $5.00 per copy for currently enrolled students and $10.00 per copy for graduates and former students. Immediate need and special handling requests may incur additional fees. Your credit card will only be charged after your order has been completed. Although transcripts are normally processed within five working days, students should allow for a processing time of 10 working days, particularly during peak periods such as registration, drop-add, grade reporting and commencement.

The University reserves the right to deny transcript requests of students who have not fully satisfied all financial obligations to the University.

Withdrawal from the School
A student may initiate withdrawal from JSP by due notice if not subject to dismissal because of failure or disciplinary action. If a withdrawal is initiated, the same procedures and policies pertaining to grading of individual course withdrawals will be in effect.

In order to withdraw, the student must obtain a Student Status Change Form from the University Office of the Registrar or academic department office. The date that the form is filed, not the date of the last class attendance, is considered the official day of withdrawal.
A student matriculated in the Doctor of Pharmacy degree program who fails to enroll for any academic semester without having been granted a leave of absence will be given an administrative withdrawal at the conclusion of the Drop/Add period for that semester.

A student who withdraws voluntarily from the School must reapply to the Office of Admission to re-enroll. If readmitted, the student is subject to the academic and curricular requirements in place at the time of readmission. NOTE: Students who have been dismissed from JSP and who seek readmission must apply directly to the Dean of the school.

Students who withdraw from JSP prior to the start of a semester will be eligible to receive a full refund of tuition paid in advance. Students withdrawing prior to the end of the drop-add period will be eligible for a refund of 80% of tuition. Those withdrawing after the end of the drop-add period will be considered individually but will receive no more than a 50% refund of tuition. A student withdrawing from JSP may petition the Dean for a higher refund in the case of extenuating circumstances.
CONDUCT POLICIES AND PROCEDURES
CAMPUS VIOLENCE POLICY

PURPOSE
Thomas Jefferson University, Jefferson University Physicians, and TJUH System (collectively referred to in this Policy as “Jefferson”) are dedicated to the well-being and personal safety of students, faculty, employees, patients, and visitors. Jefferson has adopted this zero-tolerance policy which strictly prohibits campus violence. Acts of violence and/or threats of violence, whether expressed or implied toward any individual(s) at the Jefferson campus, are prohibited and will not be tolerated. All reports of such incidents will be taken seriously and will be addressed appropriately. This policy defines prohibited conduct, as well as general procedures and potential responsive steps in the event that campus violence occurs. Education related to violence prevention will begin at orientation and will also be provided as needed.

POLICY
This prohibition against implied or express threats and acts of violence (including domestic violence) applies to all Jefferson personnel, contract and temporary workers, students, and anyone else on Jefferson property. Certain departments have implemented policies or procedures related to violence prevention and response. Those policies or procedures must be consistent with this policy.

All Jefferson personnel, contract and temporary workers, and students who commit campus violence will be subject to disciplinary action up to and including termination of employment or dismissal and will be directed to stay away from Jefferson. Violators may also be subject to criminal prosecution. Jefferson will decide whether its campus violence policy has been violated and whether preventive or corrective action is appropriate.

Additionally, if Jefferson personnel, contract and temporary workers, or students are arrested for a crime of violence or threat of violence under any criminal code provision, Jefferson reserves the right to determine whether the conduct involved may adversely affect the legitimate business interests of Jefferson, or is inconsistent with Jefferson values, and as a result may implement corrective action up to and including discharge or dismissal. Jefferson personnel, contract and temporary workers, and students arrested for such a crime must report the arrest immediately to Jefferson. Failure to do so is a violation of this policy and subjects such persons to disciplinary action, including termination from employment or dismissal.

PROCEDURE

I. Definitions
Campus violence is any conduct that is severe, offensive or intimidating enough to cause an individual to reasonably fear for his/her personal safety or the safety of others or property. Examples of campus violence include, but are not limited to, threats or acts of violence or behavior that causes reasonable fear or intimidation and that occur:

a) On Jefferson campus, no matter what the relationship is between Jefferson and the perpetrator or victim of the behavior; or
b) On any off-campus premises, where the perpetrator is someone who is acting as an employee or representative of Jefferson at the time, or is a Jefferson student, or where the victim is a Jefferson employee or student who is exposed to the conduct because of their affiliation with Jefferson, or where there is a reasonable basis for believing that violence may occur against the targeted employee, student or others at the Jefferson campus.
c) All reported incidents of violence or threats of violence will be taken seriously and investigated. Jefferson will decide whether its campus violence policy has been violated and whether preventive or corrective action is appropriate, up to and including termination or dismissal. Jefferson may consult with law enforcement authorities or other resources, as it deems appropriate, and may require a fitness for duty examination or other professional assessment
through providers chosen by Jefferson to determine whether a perpetrator presents a threat to himself, herself, or others at the campus.

d) Jefferson has created a Threat Response Team (TRT) that is described in Appendix A of this policy. If warranted, Legal, Human Resources, Student Affairs, or Security will notify members of the TRT concerning any given situation. In such circumstances, the TRT will evaluate the incident or situation for assessment and planning purposes.

II. Reporting

a) In the event that an employee believes that a threat or act of violence has been made against that employee or others, the employee must report the details immediately to his/her supervisor, manager, Human Resources and/or Security Department anytime at 215-955-8888. For reporting concerns anonymously, call the Jefferson Security confidential hotline at 215-955-5678. Hospital personnel are responsible for completing an event report in Patient Safety Net anytime an incident of workplace violence occurs which is associated with a patient or family member.

b) In the event that a student believes that a threat or act of violence has been made against that student or others, the student must report the details immediately to his/her dean’s office, and/or Security 215-955-8888. For reporting concerns anonymously, call the Jefferson Security Confidential hotline at 215-955-5678.

c) For an immediate on-campus response to any direct threat, dial "811" from any campus phone. A 9-1-1 call to police may be appropriate first, in the good judgment of the employees or managers involved. Nothing in this policy is intended to prevent quick action to stop or reduce the risk of harm to anyone, including requesting immediate assistance from law enforcement or emergency response resources.

d) Failure to report any threats or acts of violence in violation of this policy is itself a violation of this policy, and may subject Jefferson personnel, contract and temporary workers, students, and anyone else subject to this policy to discipline, up to and including discharge or dismissal.

e) Retaliation against anyone for reporting in good faith an actual or suspected violation of this policy will not be tolerated and will subject the individual engaging in the retaliation to discipline, including termination from employment or dismissal from an academic program. Any complaints about retaliation may be reported in the same manner as violations of this policy are to be reported.

III. Stay Away Orders

Jefferson reserves the right to seek stay away orders against any person who violates this policy to the fullest extent allowed by law. In such situations, Jefferson has an interest in assisting any student or employee who reports incidents of actual or threatened campus violence to obtain a stay away order, including one that may apply to the campus. Jefferson personnel, contract and temporary workers, and students who are targeted by the perpetrator may be asked to work with Jefferson to obtain such an order against that perpetrator. Likewise, Jefferson personnel, contract and temporary workers, and students who have previously sought a stay away order against a perpetrator and/or are protected by an existing stay away order must immediately:

a) Notify Jefferson personnel, e.g., student affairs, your supervisor, or Human Resources, of the existence of any such order and provide a copy of the order to the Managing Director of Public Safety.

b) Notify Jefferson Security of any violations or attempted violations of the order.

c) Notify Jefferson Security of any changes to the order.

d) Notify Jefferson Security of the order being lifted.

IV. Confidentiality and Safety
These provisions on campus violence are intended to protect the safety of all students and employees, and are in no way intended to infringe on a student’s or an employee’s privacy. The primary goal of this policy is to encourage an open, ongoing dialogue with the affected student or employee, and those within the Jefferson community who need to know, so that Jefferson can take reasonable steps to protect campus safety. Jefferson’s goal is to handle all situations with the utmost sensitivity while meeting the goal of campus safety and security.

V. Avoiding Endangerment

Unfortunately, victims of violence may sometimes be uncooperative with Jefferson’s attempts to protect them and others on campus. For instance, victims may decide not to tell Jefferson about threatened or actual domestic violence that may follow the victim onto the campus, or they may engage in behaviors that either provoke or continue the threat of such violence.

These behaviors by the victim endanger not only the victim, but also others at the campus. In such situations, Jefferson reserves the right to take corrective action against a victim of campus violence whose activities or lack thereof increase the risk of threatened or continued acts of campus violence, up to and including termination from employment or dismissal from an academic program.

This aspect of the Jefferson policy is not designed to punish the victim, but is necessary to protect all Jefferson personnel, contract and temporary workers, and students from the increased threat posed by endangering behavior.

Jefferson personnel shall always be observant of the surroundings, including individuals who may exhibit behaviors which are warning signs of potential workplace violence. Examples of some behaviors include: a new/obsessive fascination with weapons, expressing an obsession with one person, withdrawing or becoming isolated, holding a grudge, sudden demonstration of performance or attendance problems, expression of extreme desperation over financial, legal, or relationship issues, or association with hate or extremist groups, to name a few. Jefferson employees shall immediately contact Security, Human Resources, or their immediate supervisor if such behaviors are identified.

VI. Search Policy

Jefferson reserves the right to conduct workplace inspections at anytime, with or without notice, upon reasonable suspicion, for purposes of enforcing this policy.

VII. Examples

Examples of conduct that may be considered threats or acts of violence under this policy include, but are not limited to, the following:

a) Threatening physical or aggressive contact directed toward another individual or engaging in behavior that causes a reasonable fear of such contact.

b) Threatening an individual or his/her family, friends, associates or property with physical harm or behavior that causes a reasonable fear of such harm.

c) Intentional destruction or threat of destruction of Jefferson’s or another’s property.

d) Harassing or threatening physical, verbal, written, or electronic communications, including, phone calls, emails, letters, faxes, website materials, diagrams or drawings, gestures and any other form of communication that causes a reasonable fear or intimidation response in others.

e) Stalking.

f) Veiled threats of physical harm or intimidation or like statements, in any form, that lead to a reasonable fear of harm or an intimidation response.

g) Communicating an endorsement of the inappropriate use of firearms or weapons of any kind.
h) Possessing weapons of any type, whether licensed or not, and particularly firearms, while on campus. The only exception is local, state, and federal law enforcement officers acting in the line of duty. See the Jefferson Policy prohibiting Weapons, Policy No. 119.05.

i) Domestic violence, which is a pattern of coercive tactics carried out by an abuser against an intimate partner (the victim). These coercive tactics can be physical, psychological, sexual, economic, and/or emotional. Where the abuser’s tactics include any of the above-described conduct on Jefferson’s campus, this policy applies. Where such tactics include any of the above-described behaviors off of Jefferson’s campus, this policy applies where the abuser is someone who is acting as an employee or representative of Jefferson at the time, where the victim is an employee, contract or temporary worker, or student who is exposed to the conduct because of their affiliation with Jefferson, or where there is a reasonable basis for believing that violence may occur against the victim or others at the campus. The term “intimate partner” includes people who are legally married to each other, people who were once married to each other, people who have had a child together, people who live together or who have lived together, and people who have or have had a dating or sexual relationship, including same sex couples.

NOTE: Forms of harassment that are verbal or physical conduct showing hostility or aversion toward an individual because of his or her age, race, color, religion, creed, sexual preference or orientation, marital status, gender identity, national origin, ancestry, citizenship, military status, veteran status, handicap or disability or any other characteristic protected by law or that of his/her relatives, friends or associates are addressed in Jefferson Policy No. 200.79.

VIII. Prevention

Jefferson has systems and processes in place to mitigate risks associated with workplace violence including the following:

a) On site campus security force which patrols campus buildings 24/7 and is available as an immediate resource to respond to identified threats. The Jefferson security force works in collaboration with federal, state, and local law enforcement agencies as appropriate.

b) Deploying security technology as a means of prevention including security cameras, panic alarms, and restricting access to key doors through ID card access.

c) Students, faculty, and staff are trained on workplace violence policies and how to prevent and respond to workplace violence incidents should they occur.

d) Periodic risk assessments are completed to assess the potential for workplace violence and guide the organization on how workplace safety and security can be enhanced. This includes the monitoring the frequency of workplace violence incidents and complaints over time.

CODE OF CONDUCT / STUDENT RIGHTS, FREEDOMS AND RESPONSIBILITIES

GENERAL STATEMENT

Thomas Jefferson University is a not-for-profit academic health center that exists to provide excellent educational programs and experiences for future health care professionals; to contribute substantially to the research, development, and introduction of improved methods of health care; and to provide high quality health care in a cost-effective manner. For the University to function as a harmonious unit, certain guidelines must be established by which the interactions of individuals within the University may be coordinated. This document outlines the rights, freedoms and responsibilities of all students matriculating at Thomas Jefferson University.

PREAMBLE

In addition to those rights and responsibilities ensured by the Constitution of the United States and those limitations imposed by federal, state and local laws, are special rights and responsibilities acquired by students because they are members of the University community. Besides clarifying these special rights
and responsibilities, this document enumerates the means by which abuse of these rights and responsibilities will be treated by the University.

I. Academic Freedom
Because intellectual development is best fostered in an atmosphere of active engagement in the educational process, each faculty member should encourage free discussion, free inquiry and free expression regarding issues within the domain of the instructor’s course or program. Students are free to take reasoned exception to the data or to views offered in any course of study and to reserve judgment about matters of opinion.

II. Evaluation

A. Students are evaluated on the basis of:
   1. academic and clinical performance,
   2. adherence to professional standards, and
   3. compliance with standards of student conduct articulated by the college or school in which the course was taken.

B. The use of information unrelated to the standards of evaluation is inappropriate. Students may appeal an evaluation that they allege is not based on these criteria. The appeal should take place through the appeal process of that college/school.

C. A faculty member should excuse himself or herself from evaluating a student if the faculty member believes that he or she cannot make an objective evaluation as a result of his or her possession of information unrelated to the standards of evaluation.

III. Protection Against Improper Disclosure
Ordinarily, information obtained from students in the course of counseling, teaching or advisory meetings shall be treated as confidential. Under certain circumstances it may not be possible to maintain confidentiality of such information. Such circumstances include, but are not limited to, situations where a student’s communication indicates potential harm to the student or to another party, or where maintaining the confidentiality would prevent a faculty member from fulfilling his or her responsibility to protect society and the reputation and integrity of the institution. In such situations the faculty member or advisor has the obligation to take appropriate follow-up action, safeguarding, to the extent possible, the confidential nature of the information. In instances of doctor-patient, religious or other privileged interactions, the guidelines controlling those special situations pertain.

IV. Student Records
Thomas Jefferson University complies with The Family Education Rights and Privacy Act (FERPA) in its maintenance of student records. Each college's/school’s policy statement on FERPA is on file and available in the University Office of the Registrar.

V. Student Organizations

A. Students are free to organize and join associations that promote their common interests. Organizations that operate in a manner consistent with the University’s mission, regulations and policies, including its non-discrimination policies, and meet the requirements below may be recognized by the University. If recognized, such organizations may seek funding from University sources. The requirements for recognition are:
   1. The membership policies and actions of a student organization shall be developed only by vote of those persons who are matriculated students of Thomas Jefferson University.
   2. Each student organization that seeks recognition by the University is required to submit to the Office of Student Life and Engagement and/or the appropriate oversight body of its college/school complete bylaws, a statement of purpose, criteria for membership, rules of procedure, a current list of officers and members, and the name of a designated faculty or
administrative staff advisor. Any changes in the preceding modus operandi or advisor must be submitted to the college's/school's Office of Student Life and Engagement within two weeks of the change. Such organizations must annually resubmit for recognition and/or funding.

3. The advisor shall be chosen with his or her consent. Advisors will advise organizations about University policies and procedures. However, the advisor does not have the authority to control the policy of such organizations.

4. Recognized organizations must refrain from:
   a) using the organization for the financial enrichment of any officer, member or affiliate of the student organization
   b) directly or indirectly using University resources for the express benefit of external affiliates
   c) maintaining outside bank accounts (Accounting for such organizations will be through the TJU controller's office or the Office of Student Life and Engagement)
   d) using the name of the University or any of its divisions on private bank accounts
   e) entering or attempting to enter into contractual obligations on behalf of the University or any of its divisions or departments without prior written authorization from the appropriate University senior officer or his or her designee. The organization's advisor may not give such consent
   f) soliciting funds outside of the University without the written approval by the student affairs office of the appropriate college/school.

B. A campus student organization may be affiliated with a parent or corresponding extramural organization, but the campus student organization must:
   1. disclose to the University oversight body such extramural affiliations,
   2. provide the constitution and bylaws of any affiliated organization, and
   3. certify that all conditions for affiliation meet the standards of the University.

C. A student who misrepresents his or her own or a group's relationship with the University or violates any of the College's/School's or the University's rules shall be subject to the sanctions described in the section on Discipline (section XII) in this document.

D. Students groups that are not recognized by the University
   1. may not represent themselves as affiliated with the University or any of its parts
   2. may not receive funds from the University
   3. may use University facilities only if they meet the requirements for use of University facilities by outside parties and meet the requirements stated in section V. A. 4.

VI. Freedom of Inquiry and Expression

A. Students and student organizations may discuss all questions of interest to them; may express their opinions privately and publicly, so long as they make it clear that they speak only for themselves and not for the University or their college/school; and may support causes so long as these activities do not violate civil law or rules, policies and procedures of Thomas Jefferson University or their college/school, or adversely affect the operations of the University.

B. The right of free speech and expression does not include activity that may endanger the safety of any member of this University community or damage any of the University community's physical facilities, nor does it include any activity that disrupts or obstructs the functions of the University or threatens such disruption or obstruction. Moreover, modes of expression, including, but not limited to, electronic transmissions that are unlawful or indecent or that are grossly offensive on matters such as race, color, national and ethnic origin, religion, sexual orientation, sex, age, disability or veteran status are inconsistent with accepted norms of conduct of the University and are subject to the sanctions described in the section on Discipline (section XII).
C. Recognized student organizations may invite speakers on campus as long as the organization:
   1. provides adequate advanced written notice to the pertinent office of student affairs and receives written approval from the same office.
   2. bears the cost of any additional services deemed necessary by the inviting organization and/or by the office of student affairs.
   3. follows institutional procedures.
   4. ensures decorum appropriate to an academic community.
   5. states in all promotional literature and activities that its sponsorship of guest speakers does not imply approval or endorsement of the speakers' views by the University.

VII. Student Publications

A. Publications of recognized student organizations
   Publications written or distributed by organizations that are recognized or financed in any way by the University have editorial freedom but shall be subject to the canons of responsible journalism and review by the organization's advisor. These canons include, but are not limited to, the prohibition of undocumented allegations, the avoidance of libel, respect for the good name of individuals and the University, the requirements of civil law and University policies and procedures. The University retains the right to impose discipline for good cause on the managers, editors and writers of student publications.

B. Publications of unrecognized student organizations
   1. The publications of student organizations that are financially independent and not recognized by any University oversight may not represent themselves as affiliated with the University or any part of the University and may not use the name of the University or any of its parts in the group's communications without prior written authorization by the office of student affairs of the appropriate college/school.
   2. The University views the publications of unrecognized organizations as the product of a group of students who are individually responsible for their own actions and those of the unrecognized group.

C. Distribution of handbills, posters, pamphlets or other written material
   1. The most current University policy regarding distribution of posters and other similar written notices is located on PULSE under University Policies.
   2. Handbills and pamphlets that in any way invoke the name of the University or any of its parts must clearly display the following disclaimer: “Not endorsed by Thomas Jefferson University.” University recognized organizations may distribute materials meeting the preceding guidelines, but only in public areas. Distribution in classrooms or offices is prohibited. Organizations that are not formally recognized by the University may not distribute such materials anywhere on Jefferson property or at any Jefferson event without prior written permission from the appropriate Office of Student Affairs.
   3. The location of indoor distribution of written material may be restricted to preserve safety, security and the orderly conduct of scheduled events.

VIII. Student Participation in Institutional Government
As constituents of Thomas Jefferson University, students are encouraged to express their views, through established channels, on issues of institutional policy and on matters of general interest to the student body. Further, by means of active membership on faculty and administrative committees, the student body participates in the formulation and application of institutional policy as it affects academic and student affairs.

IX. Off-Campus Activities
It is the policy of Thomas Jefferson University to comply with all federal, state and local laws and regulations. The University will not shield from action by civil authorities any employee, student or faculty member involved in an illegal activity. Furthermore, as stated in the University's Search Policy (Policy
August 7, 2014

119.01), the University reserves the right to investigate any campus facilities or personal belongings if it has information to support a reasonable belief that an illicit activity is occurring.

X. Standards of Conduct

A. Students enrolled at Thomas Jefferson University are required to follow a code of behavior consonant with the high standards of the medical and health sciences professions and the reputation of the University. Standards of professional behavior include honesty, integrity, civility and, where possible, assistance to one’s colleagues with problems or in distress. In addition, students shall comply with all rules and regulations duly established within their respective colleges/schools.

B. Misconduct includes, but is not limited to:

1. Dishonesty, such as cheating, committing plagiarism, knowingly furnishing false information or engaging in unethical conduct in research.
2. Forgery, alteration or misuse of documents, records or identification that are pertinent to the student’s role at the University.
3. Abuse, malicious misuse, damage or destruction of University property.
4. Abuse of, assault and battery upon or threat of force or violence against any member of the University community.
5. Theft or misappropriation of, or damage to, any property either temporarily or permanently located on campus.
6. Commission and subsequent conviction of any felony or misdemeanor.
7. Obstruction or disruption of teaching, research, administration, disciplinary procedures or any other authorized activities of the University on campus, or creation or an unreasonable risk of harm to any member of the University community (premises owned or controlled by Jefferson or premises on which students pursue activities in their roles as students of the University).
8. Unauthorized entry into, occupation of or obstruction of any building, structure or part thereof at any time and anywhere on campus.
9. Falsification of or failure to provide personal identification when requested by an authorized official or by a faculty member of the University when such request is consistent with the rules and regulations of the institution.
10. Violation of any other duly established rules and regulations of the University.

XI. Investigation of Misconduct

A. Where appropriate, the University shall investigate allegations of misconduct, as defined above. Such investigations may be performed by appropriate administration authorities including, but not limited to, the Office of Student Affairs, Security and the respective college/school deans or their designees.

B. Where an allegation of misconduct gives authorities reasonable cause to believe that a search is needed, the search will be performed in accordance with the Jefferson Search Policy (Policy 119.01).

C. The University may conduct other forms of investigation as needed before the matter is referred for discipline.

XII. Discipline
The degrees of discipline include, but are not limited to: reprimand, disciplinary probation, suspension and dismissal. Suspension and dismissal are prerogatives of the Dean of the student’s college/school upon the recommendation of the Judicial Board.

The discipline process described in this document is separate from other mechanisms (e.g., the Student Code of Professional Conduct Committee of Sidney Kimmel Medical College) charged to consider allegations of inappropriate conduct in the respective colleges/schools. In the event of a conflict between
Reprimand
Reprimand is a written or verbal admonition to a student for improper behavior that constitutes a minor offense. It may be issued by an administrator or by any member of the faculty of the college/school in which the student is enrolled, or by the Judicial Board. Written reprimands may be reported to the faculty advisor, the School/Department or program chairman, and/or the office of the Dean, as appropriate. The Dean, at his or her discretion, may or may not make a reprimand part of a student's permanent official record, and if so, shall notify the student, allowing the student to attach written comment.

Disciplinary Probation
A student may be placed on disciplinary probation by the Dean upon recommendation by the Judicial Board for not longer than one academic year. During that time the student may remain on campus.

The Judicial Board shall determine the duration of said probation, the conditions governing it and whether it will become part of the student's record.

Suspension
Suspension represents temporary separation from the University for misconduct. Suspension may be for a variable period of time and with certain conditions attached, but in no case shall it exceed one academic year in addition to the year in which the case is decided. Suspension may be invoked only by the Dean upon recommendation of the Judicial Board of the college/school in which the student in question is enrolled. During the procedures of the Judicial Board, the Dean in his or her sole judgment may suspend a student if there is a risk of significant harm to University community or property.

Dismissal
Dismissal for misconduct from any one college/school in the University is mandatory exclusion from all colleges/schools of the University. The dismissal may be permanent or with a right to apply for readmission. Dismissal will be invoked only by the relevant college/school Dean or Dean's delegate following the recommendation of the college's/school's Judicial Board. If the right of application has been allowed, the Dean of the college/school will entertain the application for readmission to the college/school. Under no circumstance shall the student be allowed to apply less than one year following dismissal.

Pending the outcome of an appeal of the decision to dismiss, the student in question may be temporarily separated from the University by the Dean of the college/school in which the student is enrolled.

XIII. Judicial System

A. Judicial Boards on Student Conduct

1. **Definition.** Each College of Thomas Jefferson University shall have a standing faculty-student board designated as the Judicial Board to hear allegations of misconduct as defined in the document on Student Rights, Freedoms and Responsibilities. The Schools of Health Professions, Nursing, Pharmacy and Population Health shall collectively support a Judicial Board. Additional boards may be impaneled by the appropriate body as needed at the request of the College/School Dean or the Provost in situations he or she deems necessary to safeguard in a particular case the student’s rights to a speedy resolution of an alleged infraction. Provision for overlap in the existing Boards shall be made if the infractions being heard are related in a material way.

2. **Board Membership.** For Jefferson Schools: The process of appointment to the Board shall be as follows: Each school dean shall nominate two faculty and two students to be appointed to the Board by the Provost. Board members will be selected from this group to participate in specific hearings (the “Hearing Panel”). In most cases, faculty and students from the same school as the accused will not be selected to participate in that hearing. A member of the University administration shall be appointed to the Board by the Provost.
For Jefferson Colleges: The same process of appointment to the Board shall be followed as that customarily followed for all faculty-student committees of the respective college.

For All Colleges and Schools: Each Hearing Panel shall consist of
a. a member of the University administration designated by the dean of the respective college or the Provost
b. two faculty members of the college or schools
c. two students enrolled in the college or schools

3. Quorum. In all cases, a quorum of the Hearing Panel shall consist of five members, or alternates in the same proportion as previously specified. All decisions of the Hearing Panel of the Board shall require a majority vote of the members present, except for dismissal or suspension, which requires an affirmative vote of at least four of those present.

B. Board Procedure. The Board, by majority vote of the whole Board, shall elect one of its members as chair at the beginning of the academic year. The Board may also designate a secretary to record the discussion and prepare a summary of the proceedings. The chair will be responsible for selecting Board members to serve on each Hearing Panel. Whenever possible, the chair of the Board will conduct the hearing as chair of the Hearing Panel. The summary of Hearing Panel proceedings must be approved by the Hearing Panel and must be prepared for each session.

The Hearing Panel or the accused with the Hearing Panel’s concurrence may call any person whom it deems to possess relevant information concerning the matter before the Hearing Panel.

C. Conduct of Hearing.

1. Initiation of Hearing. The hearing of an alleged offender shall be initiated by a written charge from the College/School Dean or Provost to the chair of the Judicial Board. Ordinarily the initial hearing should take place within 15 business days of the receipt of the charge by the Board.

2. Notice of Offense. The chair of the Board, after consultation with the College/School Dean or Provost shall give written notice of any alleged infraction of student conduct to the alleged offender at least five business days prior to the convening of the Hearing Panel to hear such case. Such written notice shall consist of the following: a list of witnesses, the specific allegations, the basis for the charges, notice that he or she has the right to an advisor as described in Section C.3, and a Waiver form (see C.3, below). In addition, the alleged offender shall be given specific notice of the penalties that may be imposed.

3. Representation at the Hearing. In all cases the alleged offender shall have the right to have present an advisor of his or her own choosing. If the alleged offender desires to appear before the Hearing Panel without legal counsel, he or she must submit to the chair of the Hearing Panel the signed Waiver of the right to counsel no later than 48 hours before the time of the hearing, stating that he or she does so with full knowledge and intent to do so. Under no circumstances is Thomas Jefferson University, or any of its colleges or schools, required to retain counsel on behalf of the alleged offender or pay the cost of any party producing information on behalf of the accused. Should counsel for the alleged offender be present, the chair of the Hearing Panel shall inform the counsel that his or her role is solely that of an advisor to his or her client and may not participate in the hearing.

4. Appointment of Hearing Officer. In any case, the Hearing Panel shall have the right to appoint a Hearing Officer to conduct the examination of witnesses from among the faculty or staff of the respective college or any other person, as it may deem appropriate.

5. Board Review. After the conclusion of the hearing, the Hearing Panel will meet to review all relevant facts and circumstances and reach a decision about appropriate action, if any.
August 7, 2014

D. Disposition of the Hearing Panel’s Decision. The decision of the Hearing Panel shall be communicated to the Dean of the pertinent college/school by the chair of the Judicial Board within seven (7) business days. The Dean, after due consideration of all relevant factors, will take one of the following actions within seven (7) business days:

- Accept the Hearing Panel’s decision and forward it to the student.
- Mitigate the Hearing Panel’s decision in a manner he or she deems appropriate.
- Refer the matter back to the Hearing Panel for additional consideration.

E. Appeal. The alleged offender may appeal the disposition of his or her case to the College/School Dean within ten (10) business days following receipt of the action by the Dean. The appeal must be based on either a lack of due process or new information not available at the time of the hearing. Such a request shall be granted or denied at the discretion of the Dean within five (5) business days after its receipt based on an analysis of whether the new information is likely to make a significant and substantial difference in the initial disposition of the case or whether the due process provided to the student was consistent with University procedures. Should the request be granted, a new hearing will be conducted as described in section XIII C, unless the Hearing Panel decides without a hearing to reduce or eliminate the sanction set forth in its initial decision. The final disposition of the appeal will be made known to the alleged offender in accordance with the time requirements set forth in XIII D above.

F. Appeal to President. Each alleged offender shall have the right to a final appeal to the President of Thomas Jefferson University within fifteen (15) business days of the rendering of a final decision by the Dean. The President may consider claims by the student of arbitrary or capricious behavior, the appropriateness of the penalty and the extent of due process afforded. Upon such appeal, the President may:

1. affirm the decision of the Dean,
2. require the Dean to reconsider the decision or rehear the case,
3. reduce the severity of the penalty.

All decisions of the President are final. In reaching his or her decision, the President may discuss the case with any witness, the alleged offender or any participant in the process.

XIV. Amendment

This document of Student Rights, Freedoms and Responsibilities may be amended by:

A. PRESENTATION of a proposed amendment to a joint committee appointed by the President and composed of student, administrative and faculty representatives from all colleges and schools in the University. The presentation must originate from one or more of the following sources:

1. any student interest group whose proposed amendment is endorsed by ten (10) percent of a college’s or school’s student body matriculated in a degree-granting program, or
2. any faculty group whose proposed amendment is endorsed by ten percent of a college’s or school’s full-time, fully-salaried faculty, or
3. the Dean of a college or school, or
4. the President of the University.

This joint committee will then determine if the proposed amendment is in accordance with the goals of the University and is in the best interest of the University, the faculties and the student body as a whole. The joint committee shall be responsible for making available to the student body the minutes of its meetings. Acceptance by the committee requires two-thirds majority.

B. RATIFICATION by majority vote of each of the college’s and school’s student representative bodies and the appropriate faculty bodies of all colleges and schools, as determined by the Deans of the respective colleges and schools will be necessary before the proposed amendment can be presented to the Board of Trustees of the University for final approval.

XV. Board Approval
All amendments to this document will become official only upon approval by the Board of Trustees. This document was approved by the Board of Trustees on February 2, 1970 and amended on May 6, 1996.

DRUG AND ALCOHOL POLICY

Background and Purpose
Jefferson functions as an academic health care center with a three-fold mission of patient care, education, and research. Jefferson recognizes that continued excellence in these areas depends greatly on the ability of students and employees to execute their responsibilities in a manner reflecting the highest standards of competency and safety.

In compliance with the Drug-Free Workplace Act and the Drug-Free Schools and Community Act, Jefferson maintains a drug-free campus and prohibits the unlawful manufacture, distribution, dispensing, use or possession of illicit drugs or alcohol on its campuses or as part of any university activity. To comply further with the Act, the following information is made available to all students and employees at Jefferson.

Policy Statement
These standards and regulations apply to all students and are designed to prevent substance abuse in Jefferson’s environment.

Prohibited Drugs
For purposes of this section, prohibited drug is any drug made illegal as a matter of federal, state, or local law, which is not legally obtainable as a matter of federal, state, or local law; or one which is legally obtainable but has not been legally obtained. The term includes prescription drugs not legally obtained, prescription drugs that were prescribed for someone else, and other drugs that have been knowingly misused.

- Any student attending class or a clinical assignment under the influence of prohibited drugs or who has a positive drug screen will be subject to disciplinary action, up to and including dismissal.
- Any student, who uses, possesses, manufactures, sells, or distributes prohibited drugs while on Jefferson property or at an off campus clinical site will be subject to disciplinary action, up to and including dismissal.
- Any student, who diverts medication for personal or other use, will be subject to dismissal or disciplinary action, up to and including dismissal.
- In appropriate cases, the student may be referred to law enforcement authorities for prosecution.
- Marijuana is a prohibited drug under this policy, regardless of how it is obtained.

Medication
Controlled substances legally prescribed by a licensed physician, as well as some other medications, can influence performance and behavior. For this reason, students should obtain from their physicians information regarding any potential impairment by such medications and refrain from use of medications that may cause impairment. Where impairment potential exists, the student must inform his or her manager or clinical supervisor of the risk. The student may be referred by their manager or clinical supervisor to University Health Services for assessment.

Alcohol
Pennsylvania law forbids a person less than 21 years of age to attempt to purchase, consume, possess, or transport any alcoholic or malt or brewed beverage within the Commonwealth. Violation of this law could result in disciplinary action including suspension or dismissal from the University.
Thomas Jefferson University Policy 117.03 addresses the University’s position regarding possession and use of alcoholic beverages by students on campus.

No student shall report to class or to any clinical assignment under the influence of alcohol or alcoholic beverages. The use, sale, distribution, or possession of open containers of alcohol or alcoholic beverages by any student during academic classroom time or during any clinical responsibilities is prohibited.

Any student in violation of this section will be subject to disciplinary action, up to dismissal.

Counseling
Students may seek assistance for drug addiction and/or alcohol dependence through the Student Personal Counseling Center or through University Health Services. It is student's responsibility to seek and accept assistance before alcohol and drug problems lead to disciplinary action. A student’s decision to seek such assistance will not be used as the basis for disciplinary action, and will not be used against the student in any disciplinary proceeding.

At the same time, alcohol or drug use and/or addiction will not be an acceptable excuse for behavior that violates this or any other Jefferson policy. Furthermore, it will not be an excuse for sub-par academic performance by students.

Drug and Alcohol Screening
Screening for drugs and alcohol may be required of students for the following reasons:
- Pre-employment screening for students electing to take paid or volunteer positions at TJU or TJUH;
- Pre-placement prior to a rotation at an outside site, if required by the outside institution;
- For reasonable suspicion.

Students will sign consent for testing with acknowledgement that the results of the tests may be shared with Jefferson administrators. Refusal to sign the consent or submit to drug and alcohol screening will have the same effect as a positive test result.

Reasonable Suspicion Screening
If a manager, administrator, instructor, or clinical supervisor reasonably suspects that a student is impaired while in class or unfit for duty while on the job, the supervisor must refer the student to University Health Services (UHS) for an evaluation. Please refer to and complete Appendix A to this policy, which includes some common signs of impairment. The results of the evaluation will be shared with Jefferson administrators for further action or referral, if needed. Off hours evaluations will be performed through the Emergency Department. Information regarding the evaluation of suspected impairment done through outside institutions through the course of a student’s placement will be shared with University Health Services and Jefferson administrators.

Awareness/Training
Jefferson will promote awareness of the effects of drug and alcohol abuse through a variety of means, including training programs, articles in Jefferson publications, and the periodic distribution of informational literature on the topic.
**Disciplinary Sanctions**

It is expected that students will comply with all Jefferson policies and the laws regulating alcohol and illicit drugs.

- Students who fail to comply will be subject to disciplinary action as published in the Statement of Student Rights, Freedoms and Responsibilities.

These disciplinary sanctions may include suspension or dismissal and/or the completion of an appropriate rehabilitation program.

PEER-TO-PEER (P2P) FILE SHARING ON UNIVERSITY NETWORKS

File sharing software that copies and distributes songs, videos, games and software without permission of the owner can create both criminal and civil liability for the user of the computer performing those functions. Content owners, such as the Recording Industry Association of America (RIAA), the Motion Picture Association of America (MPAA), and Home Box Office (HBO), use technological means to track file sharing of their intellectual property on the Internet. Recently, content owners have also pursued more aggressive legal strategies such as copyright infringement cases in federal court, as is their right under the law.

Providing or obtaining copyrighted material, e.g., music, movies, videos, or text, without permission from the rightful owner violates the United States Copyright Act and several University policies. While it is true that a number of artists have allowed their creative works to be freely copied, those artists remain the exception. You should assume that all works are copyright-protected except those that explicitly state otherwise. As an individual, you should also be aware that you face liability for damages of up to $30,000 per infringement under the U.S. Copyright Act.

The use of file sharing programs has significant practical implications as well. File sharing is bandwidth-intensive and thus can significantly interfere with all users’ ability to perform University-related work. In addition, the files available through file sharing are often infected with computer viruses.

The University has implemented technology that monitors for the unlawful use of file sharing software. If an artist, author, publisher, or law enforcement agency notifies the University that you are violating copyright laws then the University will investigate the complaint. If appropriate, action will be taken against you in accordance with University policy. In some cases, violations of University policy could result in suspending your network access privileges and/or criminal prosecution under state and federal statutes.

POLICY ON EQUAL OPPORTUNITY; POLICY PROHIBITING SEXUAL HARASSMENT; POLICY ON OTHER FORMS OF HARASSMENT; POLICY PROHIBITING RETALIATION

Individuals and Conduct Covered
These policies apply to all of Jefferson’s students, employees, faculty and applicants. All such individuals are both protected under and restricted by these policies.

Conduct prohibited by these policies is unacceptable in any academic, clinical or workplace setting or in any work-related setting outside the workplace, such as during off-site presentations or seminars, clinical rotations, class meetings, extra-curricular activities, or social activities related to TJU or with TJU students.

---

2 This policy is adopted from TJU Policy No. 102.18. It is restated here, with modification, to apply to TJU students.
Policy on Equal Opportunity
Thomas Jefferson University is committed to providing equal educational and employment opportunities for all persons without regard to race, color, national or ethnic origin, marital status, religion, sex, sexual orientation, gender identity, age, disability, veteran’s status or any other protected characteristic. The consideration of factors unrelated to a person’s ability, qualifications and performance is inconsistent with this policy. Any person having inquiries or complaints concerning Thomas Jefferson University’s compliance with Title VI, Title IX, the Age Discrimination Act of 1975, the Americans with Disabilities Act, or Section 504 of the Rehabilitation Act is directed to contact their Student Affairs Dean or Human Resources – Employee Relations, who have been designated by Thomas Jefferson University to coordinate the institution’s efforts to comply with the these laws. Any person may also contact the Assistant Secretary for Civil Rights, U.S. Department of Education, Washington, D.C. 20202, or the Director, U.S. Department of Education, Office for Civil Rights, Region Three, Philadelphia, Pennsylvania, regarding the University’s compliance with the equal opportunity laws.

Policy Prohibiting Sexual Harassment
Sexual harassment is a form of sex discrimination, and will not be tolerated. The following behaviors are prohibited, whether conducted by a man or a woman:

- To threaten or insinuate, expressly or implicitly, that any student is required to submit to sexual advances or to provide sexual favors in order to participate in a University program or activity
- To make any educational decision or take any action based on a student’s submission to or refusal to submit to sexual advance.
- To engage in unwelcome sexually-oriented or otherwise hostile conduct which has the purpose or effect of interfering unreasonably with another person’s work or academic performance or of creating an intimidating, hostile, abusive or offensive environment. Such an environment can be created by a University employee, another student, or even someone visiting the University, such as a student or employee from another school.

Sexual harassment may include a range of subtle and overt behaviors and may involve individuals of the same or different sex. Depending on the circumstances, these behaviors may include, but are not limited to: unwanted sexual advances or requests for sexual favors; sexual jokes and innuendo; verbal abuse of a sexual nature; commentary about an individual’s body, sexual prowess or sexual deficiencies; leering, catcalls or touching; insulting or obscene comments or gestures; display or circulation in the workplace of sexually suggestive objects or pictures; and other physical, verbal or visual conduct of a sexual nature.

It is important to remember that these prohibitions apply not only to oral and written communications, but also to e-mail, voice mail and Internet communications and searches.

It is no defense to inappropriate behavior that there was no bad intent, that it was only a joke, or that it was not directed at any particular person.

Policy on Other Forms of Harassment
Harassment based on any other protected status is equally prohibited and will not be tolerated. Under this policy, harassment is verbal or physical conduct that denigrates or shows hostility or aversion toward an individual because of his or her age, race, color, religion, creed, sexual preference or orientation, marital status, national origin, ancestry, citizenship, military status, veteran status, handicap or disability or any other characteristic protected by law or that of his/her relatives, friends or associates.

Harassing conduct includes, but is not limited to: epithets, slurs or stereotyping; threatening, intimidating or hostile acts; denigrating jokes and display or circulation in the academic, clinical or work environment of written or graphic material that denigrates or shows hostility or aversion toward an individual or group.

It is important to remember that these prohibitions apply not only to oral and written communications, but also to e-mail, voice mail and Internet communications and searches.

It is no defense to inappropriate behavior that there was no bad intent, that it was only a joke or that it was not directed at any particular person.
Retaliation is Prohibited
Jefferson prohibits retaliation against any individual who reports discrimination or harassment or participates in an investigation of such reports. Retaliation against an individual for reporting harassment or discrimination or for participating in an investigation of a claim of harassment or discrimination is a serious violation of this policy and, like harassment or discrimination itself, will be subject to disciplinary action. This means that management will neither engage in nor tolerate retaliation of any kind against an employee who makes a complaint, serves as a witness or otherwise participates in the investigatory process.

What to Do If You Feel You Have Been Subjected to Discrimination, Harassment or Retaliation
In some situations, a person may not realize that his or her behavior is unwelcome and/or offensive to you. Therefore, you are encouraged to tell the offending party that his or her conduct is unwelcome and/or offensive and request that the conduct stop. If this informal approach proves ineffective, or if it is one with which a person feels uncomfortable, for whatever reason, please follow the procedure set forth below. No student, employee or faculty member is required to directly confront the individual who has made him or her uncomfortable.

If you believe that you may have been discriminated against, harassed by or retaliated in violation of this policy, you should report the alleged violation immediately to the Title IX Coordinator, Jennifer Fogerty, at 215-503-6335 or jennifer.fogerty@jefferson.edu. You also have the option to report the incident to your School Dean, Student Affairs Dean, your Course or Clerkship Director, Human Resources, Employee Relations, or you can call the ComplyLine at (888) 5-COMPLY. Please speak with whichever person you feel the most comfortable, whatever your reasons. All complaints will be investigated promptly, and the existence and nature of your complaint will be disclosed only to the extent necessary to make a prompt and thorough investigation or as may be necessary to take appropriate corrective measures. Further information on reporting and procedures in cases of sexual misconduct can be found in the Student Sexual Misconduct Policy.

Sanctions for Violations of These Policies
Any student, employee, agent or non-employee who, after appropriate investigation, has been found to have unlawfully discriminated against, harassed or retaliated against another person, or to have engaged in inappropriate behavior inconsistent with this policy (even if not unlawful), will be subject to appropriate disciplinary and/or corrective action, up to and including termination of his or her relationship with Jefferson, or dismissal.

SOCIAL MEDIA POLICY
Social media websites are used increasingly by University departments, students and employees, and these communications tools have the potential to create a significant impact on professional and organizational reputations. In light of this, it is important that you are familiar with the University’s Social Media Policy, which is printed below:

Purpose and Policy
Thomas Jefferson University and its affiliated entities (“Jefferson”) respects the rights of its students, faculty, staff, employees, contractors, consultants, temporary employees, guests, volunteers and other members of the Jefferson community (“Jefferson Users”) to use social networking sites (e.g., Face Book, My Space, and You Tube), personal Web sites, Weblogs, and Wikis such as Wikipedia and any other site where text can be posted (“Social Media”).

Use of Jefferson owned or provided computer hardware, software and other equipment which support and facilitate voice mail, electronic mail and access to the Internet (“Electronic Communications”) are the property of Jefferson. Accordingly, Jefferson Users must adhere to the Electronic Communications and Information Policy, Number 102.27, when using Electronic Communications to post text on social networking sites.
If a Jefferson User chooses to identify himself or herself as an employee/student/faculty/guest/volunteer/temporary employee/or other member of the Jefferson community when using Social Media for personal use, others may view the Jefferson User as a representative or spokesperson of Jefferson. In light of this possibility, Jefferson recommends that Jefferson Users not refer to Jefferson.

If the use of Social Media by a Jefferson User relates to the business/mission of Jefferson, this Policy requires the Jefferson User to observe the following guidelines.

To create Social Media related to the business/mission of Jefferson, please obtain prior written approval from your Dean, JUP Executive Director, Hospital Senior Vice President, or Kimmel Cancer Center Director. Please be aware that this type of Social Media is not an open forum and postings must be related to Jefferson’s mission. Assign one or more administrator(s) who are the only person(s) in charge of reviewing and approving content to be posted to the Social Media. To obtain approval for use of the Jefferson name or logo on Social Media, follow the Trademark Policy and include the name(s) of the administrator(s) for the Social Media on the Trademark Request Form.

Jefferson Users should be respectful in all communications related to or referencing Jefferson and its community. Be clear in any references to Jefferson that you are speaking for yourself and not on behalf of Jefferson, unless it is Jefferson created Social Media.

If not otherwise publicly available, obtain the prior written approval of others of whom you wish to cite, reference and/or post a picture.

Jefferson Users should discuss internal matters directly with a manager, Human Resources, or through other appropriate, internal channels, such as the University Ombudsman, or Office of Student Affairs.

Remember that all Jefferson Policies apply to the use of Social Media. Jefferson Users should review the appropriate Code of Conduct, Student Handbook, Operating Policy, Hospital Procedure and/or School/College Bylaw to ensure the use of Social Media is compliant.

Remember that all applicable federal, state or local laws, such as (but not limited to) patient privacy laws or copyright laws, apply to the use of Social Media.

Jefferson Users may not post or disclose confidential or other proprietary information of Jefferson.

Jefferson Users who are contacted by a Social Media page/channel/site for comments or authorization to use Jefferson owned or controlled material, must: (i) contact Public Relations at 5-6300, (ii) follow Public Relations’ policies and (iii) secure the necessary approvals for comments and/or authorization to use Jefferson owned or controlled material.

**Enforcement**

Any Jefferson User found to have violated this Policy may be subject to appropriate disciplinary action, up to and including dismissal.

**Modification of Policy**

Jefferson reserves the right to revise this Policy at any time.

**Interpretation and Administration**

The Office of University Counsel shall be responsible for the interpretation of this Policy and the Office of the University President and the Office of the Director of Communications shall be responsible for the administration of this Policy.
STATEMENT OF PROFESSIONAL CONDUCT/HONOR CODE

Preamble:
The faculty of Thomas Jefferson University affirms its deep commitment to the values and ethical standards of the health professions. These principles involve our conduct with patients and one another where honesty, morality, integrity, civility, altruism, and compassion are the rule. By embracing the values and standards of conduct of health professionals, we maintain our contract with society and the trust that grants us professional autonomy and the privilege of self-regulating our professions.

General Principles of Professionalism in the Health Professions:
At this time when the health professions are beset by an explosion of technology, changes in market forces, serious problems in healthcare delivery, conflicts of interest, and the threat of bioterrorism, the Faculty of Thomas Jefferson University reaffirms its commitment to professionalism. Understanding that at their core, the health professions place the welfare of the patient above self interest, we accept our responsibility to educate future health professionals in the values and ethical standards of medical professionalism. We acknowledge that we can best achieve this by serving as strong role models and advocates while maintaining professional relationships based on mutual respect and concern. We must promote an atmosphere of cooperation and learning, of intellectual openness, honesty, and sincerity in order to constantly protect and redefine and make meaningful our core values and covenant of trust with society.

The Core Values of Thomas Jefferson University:
At Jefferson, we are committed to the highest principles of professionalism. We aspire to be a community that is not only academically and fiscally successful, but also a community of discovery, learning, caring, and sharing. The core values of professionalism guide our actions. At Jefferson:

- Our word is our bond (Integrity)
- We respect each other and all with whom we come into contact (Respect)
- We care about and attempt to ameliorate the suffering and pain of illness; we care about and attempt to ameliorate the trials and tribulations of the Jefferson family (Compassion)
- We are committed to excellence and the life-long pursuit of new knowledge and personal and professional growth (Excellence)
- We aspire to do the right thing, for the right reason, even if it does not serve our personal interests (Altruism)
- We are committed to each other and to those we serve. We work together to achieve our mission and goals (Collaboration)
- We are committed to the prudent use of the resources made available to us by the hard work of the faculty, the tuition of our learners, the support of the public, and the philanthropic giving that sustains us and helps us grow (Stewardship)

Professionalism in the Teacher-Student Relationship:
The Faculty of Thomas Jefferson University is committed to principles of mutual respect and trust between teachers and students. Training future health professionals who are entrusted with the lives of others must be based on faculty members embodying the values of professionalism. A critical part of the values of professionalism in the teacher-student relationship is that faculty members should not use their professional position to engage in relationships outside the professional realm with students or patients. Faculty members should be role models and mentors in their interaction with each other, students, nursing staff and other health professionals, as well as patients. In all of these relationships, faculty members act to enhance the learning experience based on shared professional values.

Shared Professional Values of Thomas Jefferson University:
In entering the health professions, and in the process of crafting future health professionals as students and educators, we recognize the implicit trust that patients and society have granted us. As such, we must commit to embodying the highest standards of civility, honesty, and integrity in all aspects of our personal and professional lives. This must include our interpersonal relationships, our academic pursuits, and our professional practices. We must treat everyone compassionately, and respect and protect his or her privacy, dignity, and individuality.
As part of the trust that society has placed in us, we must advocate for outstanding patient care for all people. Accordingly, we must always recognize those attitudes and values of ours that may limit our ability to do so.

As health professionals, we must also recognize limitations in our knowledge and skills, and accordingly, we must accept our duty to provide and receive constructive feedback with the goal of improving our ability to care for our patients. This eagerness to improve is central to our commitment to excellence, and will be the foundation upon which we build our practice of lifelong learning.

**Faculty Self-Regulation:**
As part of their contract with society, the health professions are given the privilege of self-regulation. As part of self-regulation, faculty must contribute to the spirit and principles of the Thomas Jefferson University Honor Code. The faculty must have individual and corporate responsibility to uphold the Honor Code.

**The Thomas Jefferson University Honor Code**
As Jefferson students and faculty, we seek to establish a community based on honor, integrity and awareness of others. Our commitment to this community begins with our first day of professional or educational association with Thomas Jefferson University when we sign a pledge to uphold the values and rules of the Honor Code that follows:

As faculty members, residents, fellows and students, we pledge to embrace the academic and social integrity on which Jefferson was founded, pursuing honesty, equality and fairness in all aspects of our lives. This includes not seeking an unfair advantage over our peers, teachers, students, residents, fellows or any other member of the Thomas Jefferson University community. These goals are dependent on our personal concern for ourselves and one another, as well as our collective concern for the maintenance of the community standards that are reflected in the Code.

The Honor Code assumes that all faculty, residents, fellows, and students conduct themselves in an ethical and professional manner. Altruism, accountability, commitment to excellence, duty to serve, honor, integrity and respect for others are essential characteristics of a health professional. In addition, the code is dependent on the collective desire of all members of the academic community to prevent and deter violations, rather than on proceedings to impose penalties after violations have occurred. If violations do occur within this system, each member of the community is expected to support and uphold all aspects of the code.

- **Community** - A goal of each member of the University is to foster an environment of trust and cooperation with respect for the work and efforts of others. When we speak of community we imply the student body, the faculty, the staff, and the administration, each of which contributes to the combined concept of community.

- **Academic Integrity** - We seek to enhance our professional knowledge and achieve excellence in our time spent at Jefferson but not at the cost of honesty, integrity and trust, all integral aspects to the development of a health professional.

- **Social Integrity** - Jefferson is dependent on equality among all its members, regardless of race, culture, religion, gender, age, disability or sexual orientation. Every individual should be treated with equal respect by their peers, faculty and staff.

- **Responsibility** - All members of the University must be willing and encouraged to discuss with their peers and all members of the community any action or issue that appears to be unacceptable and take the necessary actions in a timely manner to address the situation. The failure to deal with the breach in professional conduct not only jeopardizes the strength of the code but also puts the observer in direct violation of the code.
August 7, 2014

- **Mediation** - Resources exist for students, faculty members and staff to meet with other people within the Jefferson community to work out any differences and disagreements with the help of a third party. If these efforts fail to reach a resolution, further resources through official University channels can be used to review any disagreement and determine the appropriate course of action.

**STUDENT ALCOHOL POLICY**

**Background**
Thomas Jefferson University does not endorse the use of alcohol at student functions. However, student organizations may decide that it is appropriate to serve alcohol, after carefully considering all circumstances. Any organization or group of students that sponsors an event where alcohol is served must conform to this *Policy*.

**Policy Statement**
The laws of the Commonwealth of Pennsylvania regulate the sale, service, possession and consumption of alcoholic beverages on Jefferson’s Campus. All members of the University community are responsible for knowing, understanding, and obeying these laws, regulations, and ordinances. The University does not have the authority to alter the laws or to secure exemption from them.

- In accordance with Pennsylvania law, no individual under 21 years of age [i.e. legal age] may possess or consume alcoholic beverages in or on University property. Persons 21 years of age or older may possess and consume alcohol within the privacy of their on-campus residences. The University neither condones nor shields from prosecution the actions of those individuals who serve alcohol to persons under the legal age in violation of Pennsylvania law.

The use of alcoholic beverages at social functions for students at Jefferson is restricted to those functions open to members of sponsoring organizations and their invited guests, where the service of alcohol is restricted to areas designated by the authorizing body, as defined below. In all cases, state laws governing the dispensing of alcoholic beverages must be observed.

**Authority to Use Alcohol**
No alcohol is to be consumed by any student in any common campus area without permission to do so from the appropriate authority. Alcohol may not be served at outdoor locations on campus. Exceptions may be made only by the Office of the President. Students seeking to hold a function where alcohol is to be served must obtain written authorization to do so no less than five days in advance of the function, as follows:

a. for those events under the supervision of the Office of Student Life and Engagement, approval must be obtained from the Senior Director of Student Life and Engagement;

b. for the University's Housing facilities, approval must be obtained from the Department of Housing and Residence Life by completing the *Community Lounge Reservation Request Form*; and

c. if an organization desires to serve alcohol at a function held in an area other than those specified above, approval must be obtained from the designated student affairs officer of the college or school with which the organization is associated; and

d. a representative of the authorizing office must be present or on call at the event.

The organization or group must designate one person over the legal age who will not consume alcohol at the function and who will be the sponsor for the function.

**Disciplinary Action**
Any student who violates this *Policy* will be subject to disciplinary action, as outlined in the individual colleges’ catalogs and student handbooks. Violation of this *Policy* may result in suspension or dismissal from the University.
Procedure
If the appropriate authority permits the consumption of alcohol at any student function at Thomas Jefferson University, then the following procedures, as well as any additional procedures required by the sponsoring organization or the University, must be followed.

A. Promotional Literature
   1. The University will not distribute, post, or mail any student function's advertisements that mention alcohol.
   2. The sponsoring organization will post a legible sign at the function stating that individuals under the age of 21 years or those who appear to be intoxicated will not be permitted to consume or possess alcoholic beverages. This poster will be placed in a clear and conspicuous location at all functions where alcohol is served. The poster will read as follows:
      o No one under 21 years of age or who appears to be intoxicated will be served an alcoholic beverage. Any individual requesting alcohol must, prior to being served, show a photograph identification that includes the date of birth. Non-compliant individuals will be asked to leave the premises immediately. This may include anyone over 21 years of age serving alcohol to someone under 21 years of age.

B. Party Procedures
   1. Only those beverages served by the sponsoring organization are allowed at the event.
   2. Non-alcoholic beverages, such as soda, must be made available at no cost to anyone attending the event.
   3. Alcohol will not be sold by the sponsoring organization.
   4. The sponsor will ensure that identification is provided at the point of service of alcohol [please refer to Promotional Literature, item #2].
   5. No one under the age of 21 years will be permitted to serve alcohol.
   6. The sponsoring organization or group will have full discretion to refuse to serve alcoholic beverages to anyone whose age is questionable, or who is suspected of being "under the influence."
   7. The sponsoring organization or group will provide sufficient food for all persons present.
   8. The service of alcohol will be discontinued at least thirty minutes prior to the end of the event.
   9. At any function where alcoholic beverages are served, at least one person will be formally designated by the sponsoring group to be responsible for ensuring adherence to these procedures.

C. Underage Student/Guest Participation
Students or guests under the age of 21 years may be allowed to participate at these functions pursuant to the following procedures:
   1. Underage attendees will not consume or possess any alcoholic beverages anywhere within University property; and
   2. Any attendee who attempts to provide an alcoholic beverage to someone under 21 years of age will be removed from the event and will face disciplinary action, including the possibility of suspension or dismissal from the University.

D. Guest Responsibility
   1. Jefferson students are responsible for their guests at all times.
   2. If a guest violates this Policy or any other rule, or displays unruly/inappropriate behavior, he or she will be asked to leave the event. In that instance, the Jefferson student who brought the "offender" may also face expulsion from the event and/or disciplinary action.

E. In the Event of an Incident
   1. Security will be notified by the event's sponsor if there are problems related to the enforcement of this Policy [e.g. if an individual refuses to leave, or if a disturbance develops].
2. An Incident Report will be written for any alcohol-related incident. These reports will be sent to the designated student affairs officer of the student's college for review and possible disciplinary action.

F. Organizations
A student organization sponsoring an event where alcohol will be served may not use the Jefferson name to advertise alcohol at the event.

Revision Date(s): 09/01/1989, 09/01/1993, 09/01/2005, 1/03/2013

STUDENT SEXUAL MISCONDUCT POLICY

I. Policy Statement

Title IX of the Education Amendments of 1972 prohibits discrimination on the basis of sex in educational programs and activities that receive federal financial assistance. Thomas Jefferson University is committed to providing an environment free of discrimination on the basis of sex, including, but not limited to, sex-based disparate treatment, sexual misconduct and sexual harassment.

II. Scope

The University recognizes that anyone can be a victim or offender of Sexual Misconduct regardless of age, sex, race, religion, disability status, national origin, sexual orientation, gender identity or other protected characteristics. As such, this policy applies to all members of the University community, including students, employees, volunteers, visitors, and any individuals having any official capacity at the University. This policy applies to conduct occurring on University property or at University events or programs that take place off campus; any off-campus behaviors that have an adverse impact on the University or any member of the University community fall under this policy.

III. Consent

Consent to engage in sexual activity must be obtained from each partner and must exist from beginning to end of each instance of sexual activity. Consent must be informed, knowing, and voluntary. Consent is demonstrated through mutually understandable words and/or actions that clearly indicate a willingness to engage in sexual activity. Note that, although consent may in some cases be demonstrated through nonverbal conduct alone, reliance on nonverbal conduct alone as an indication of consent could lead to misunderstandings. It is better to obtain a verbal indication of consent.

Consent is not effective if it results from the use of physical force, intimidation or coercion, or if the person is too incapacitated to provide informed, knowing and voluntary consent. If a partner becomes too incapacitated to consent during the course of sexual activity, there is no longer consent. Silence and/or a lack of resistance do not, by themselves, demonstrate consent. Use of alcohol or drugs shall not diminish one's responsibility to obtain consent, but may diminish one's ability to consent.

Consent to engage in sexual activity may be withdrawn by any party at any time. Withdrawal of consent must also be outwardly demonstrated by words and/or actions that clearly indicate a desire to end sexual activity. Note that, although withdrawal of consent may in some cases be demonstrated through nonverbal conduct alone, reliance on nonverbal conduct alone to withdraw consent could lead to misunderstandings. It is better to verbally withdraw consent by saying "no," "stop" or some other similar verbal communication. Once withdrawal of consent has been clearly expressed, sexual activity must cease. A previous sexual relationship and/or current relationship with a partner, do not, by themselves, imply consent.
IV. Prohibited Behaviors

Sexual Misconduct is the overarching term used by the University to describe behaviors or offenses of a sexual nature that are committed against individuals who do not consent to them. Sexual Misconduct is prohibited under this policy. Instances of Sexual Misconduct include, but are not necessarily limited to, unwanted sexual acts which are committed by coercion, force, intimidation, manipulation or otherwise without consent. The following are examples of behaviors or offenses that are considered acts of Sexual Misconduct:

A. Sexual Assault is any non-consensual sexual act. Sexual Assault includes, but is not limited to, the following when consent is not present:

i. Sexual intercourse (anal or vaginal)

ii. Oral sex

iii. Penetration (anal, vaginal, oral) with an object or body part

iv. Forcible / non-forcible rape or attempted rape

v. Use of coercion, force or manipulation to make someone else engage in inappropriate touching of their or another’s genitals or “private parts” (breasts, buttocks, etc.)

vi. Sexual activity with another person who is not able to give consent due to intoxication, incapacitation, unconsciousness, helplessness, or other inability.

B. Sexual Harassment Sexual Harassment is unwanted verbal, written, physical or other sex-related behavior directed toward another person or group because of that person’s or group’s sex, sexual orientation or gender identity. Sexual harassment may include a range of subtle and overt behaviors and may involve individuals of the same or different sex. Depending on the circumstances, these behaviors may include, but are not limited to: unwanted sexual advances or requests for sexual favors; sexual jokes and innuendo; verbal abuse of a sexual nature; commentary about an individual’s body, sexual prowess or sexual deficiencies; leering, catcalls or touching; insulting or obscene comments or gestures; display or circulation in the workplace of sexually suggestive objects or pictures; and other physical, verbal or visual conduct of a sexual nature.

Sexual harassment is a form of sex discrimination, and will not be tolerated. The following behaviors are prohibited, whether conducted by a man or a woman:

i. “Quid Pro Quo” is to threaten or insinuate, expressly or implicitly, that any student is required to submit to sexual advances or to provide sexual favors in order to participate in a University program or activity or to make any educational decision or take any action based on a student’s submission to or refusal to submit to sexual advance.

ii. Hostile Environment is to engage in unwelcome sexually-oriented or otherwise hostile conduct which has the purpose or effect of interfering unreasonably with another person’s work or academic performance or of creating an intimidating, hostile, abusive or offensive environment. Such an environment can be created by a University employee, another student, or even someone visiting the University, such as a student or employee from another school.
iii. **Stalking** is a type of Sexual Harassment in which a person directs a course of conduct at another specific person that would cause a reasonable person to fear for his or her safety or the safety of others, or suffer substantial emotional distress. Examples of stalking behavior include repeatedly calling, e-mailing or texting someone, especially after being asked to stop; physically following a person; threats, intimidation or intrusive behavior; always “showing up” or being visible where the other person is, etc.).

1. **Cyber-Stalking** is a specific type of Stalking in which electronic media such as the internet, social networks, blogs, cell phones, texts, or other similar devices or forms of contact are used to pursue, harass, or to make unwanted contact with another person in an unsolicited fashion. Some examples of Cyber-Stalking include, but are not limited to, unwelcomed/unsolicited emails, instant messages, and messages on on-line bulletin boards. It also includes, but is not limited to, unsolicited communications about a person, their family, friends, co-workers, or sending/posting unwelcomed and unsolicited messages with another username.

C. **Sexual Exploitation** is an act of Sexual Misconduct in which a person exploits or takes advantage of another person in a sexual manner without consent. Examples of Sexual Exploitation include, but are not limited to, the following:

i. Recording (audio or video) or photographing sexual activity without the knowledge and consent of all parties involved

ii. Electronically transmitting (posting online, texting, emails, etc.) sounds or images of sexual activity without the knowledge or consent of all parties involved

iii. Voyeurism (spying on others who are engaged in an intimate or sexual act)

iv. Going beyond consent (having consensual sex but allowing other people to watch without the knowledge of the consenting party)

v. Prostituting another person

vi. Public indecency (exposing yourself without consent)

vii. Knowingly exposing an individual to a sexually transmittable infection or virus without his or her knowledge.

D. **Relationship Violence (or Dating Violence)** is abusive or coercive behavior toward a party to a current or former intimate relationship (including, for purposes of this policy, parties to a marriage or civil union). The behavior is often, but not always, used to maintain power and/or control over a relationship partner. Relationship Violence can take many forms including, but not limited to, sexual abuse, threats, physical violence, verbal, mental, or emotional abuse, blackmail, social sabotage, psychological manipulation and stalking.

V. Procedures

1. **Reporting** - The University encourages victims of sexual violence to report what occurred so victims can get the support they need and the university can respond appropriately. *It is important to note that different employees on campus have different levels of responsibility to maintain a victim’s confidentiality.*
A. **Non-Confidential Reporting** - Some employees are non-confidential and are required to report all of the details of an incident to Campus Security and the Title IX Coordinator. Reporting an incident to the following people generally obligates the university to investigate:

   i. Campus Security (811 or 215-955-8888)

   ii. Title IX Coordinators

      1. Medical College: Dean Charles Pohl (157 Jefferson Alumni Hall, 215-203-6988, charles.pohl@jefferson.edu)

      2. Graduate School of Biomedical Sciences: Dean Gerald Grunwald (M63 Jefferson Alumni Hall, 215-503-4191, gerald.grunwald@jefferson.edu)

      3. Students in the Jefferson Schools (Health Professions, Nursing, Pharmacy, and Population Health): Jennifer Fogerty (1123 Edison, 215-503-6335, jennifer.fogerty@jefferson.edu)

   iii. School Deans or Associate Deans

   iv. Housing and Residence Life staff (including RA’s)

   v. Full-time faculty

   vi. University Administrators with significant responsibility to student and campus activities

   vii. Human Resources (if involving a faculty or staff member).

B. **Confidential Reporting** – Some employees may talk to a victim in confidence, and only report that an incident occurred without revealing any personally identifying information. If a victim wants to maintain confidentiality the University will be unable to conduct an investigation or pursue disciplinary action. Reporting to the following people will not trigger an investigation without the victim’s consent:

   i. Student Personal Counseling Center (215-503-2817)

   ii. Pastoral Care Program (215-955-6336).

C. **Anonymous Reporting** – Victims also have the option of anonymous reporting. If an anonymous report is made the identity of the victim will not be known, but the university’s ability to respond will be limited.

   i. Campus Security 24-hour recorded phone line (215-955-8678)

   ii. Human Resources ComplyLine (888) 5-COMPLY.

2. **Confidentiality** – The University has a strong desire to assist students who are victims of Sexual Misconduct, and strongly encourages students to report incidents of Sexual Misconduct. The University will make every reasonable effort to preserve an individual’s privacy and protect the confidentiality of information it receives in connection with a report of Sexual Misconduct. The information reported will be shared only with individuals who assist or are otherwise involved in the investigation and/or resolution of the complaint, or who otherwise have a need to know about the complaint and/or its resolution.
Victims should know, however, that the University may have an obligation to investigate allegations of Sexual Misconduct. Allegations reported to Non-confidential employees will be reported to Campus Security and the appropriate Title IX coordinator, which will ordinarily lead to an investigation. If a victim discloses an incident to a Non-confidential employee but wishes to maintain confidentiality or requests that no investigation or disciplinary action occur, the Title IX Coordinator must weigh that request against the University’s obligation to provide a safe, non-discriminatory environment. The Title IX Coordinator will consider a range of factors, including:

A. The increased risk that the alleged perpetrator will commit additional acts of sexual misconduct, such as
   i. Whether there have been other complaints against the same person
   ii. Whether the alleged perpetrator has a known history of arrests or violence from a previous school
   iii. Whether the alleged perpetrator threatened further sexual misconduct
   iv. Whether the sexual misconduct was committed by multiple perpetrators
B. Whether the sexual violence was perpetrated with a weapon
C. Whether the victim is a minor
D. Whether the University possesses means to obtain relevant evidence (for example security cameras or physical evidence)
E. Whether the victim’s report reveals a pattern of perpetration at a given location or by a particular group.

If the Title IX Coordinator determines that it can respect a victim’s request for confidentiality, the University will consider non-specific remedial action, such as increasing monitoring, security and/or education and prevention efforts.

If the Title IX Coordinator determines that it cannot maintain a victim’s confidentiality, the victim will be informed prior to the start of an investigation. The Title IX coordinator will provide security and support during the investigation, as described in V.4, Retaliation and V.6, Academic Accommodation and Interim Measures.

3. Amnesty – The University recognizes that a Sexual Misconduct victim who has been drinking or using drugs at the time of the incident may be hesitant to report it due to a fear of discipline for his/her own conduct. Consistent with the University’s desire to assist victims and to encourage students to report incidents of Sexual Misconduct, an individual who in good faith reports Sexual Misconduct under this policy will not be subject to disciplinary action by the University for his/her own consumption of alcohol or drugs at the time of the incident, provided that the individual’s conduct did not and does not place the health or safety of any other person at risk.

4. Retaliation or Intimidation is when someone engages in action(s) or omission(s) intended to punish, seek retribution against or otherwise adversely affect a person who, in good faith, makes an allegation or report of Sexual Misconduct, participates or cooperates in an investigation into an allegation of Sexual Misconduct or participates or cooperates in the University’s process for addressing allegations and/or incidents of Sexual Misconduct, including participation in any mediation or hearing related to allegations of Sexual Misconduct. Retaliation and intimidation is prohibited. It constitutes a serious violation of this policy and, like Sexual Misconduct itself, will be subject to disciplinary action, up to and including dismissal.
5. **Sexual Assault Response** – A student who is a victim of sexual assault should call 811 (Campus Security) or 911 (Philadelphia Police Department). When a report of a sexual assault is made to University personnel on an emergency basis, Campus Security or other University personnel will escort the victim to a place of safety and will identify, secure and maintain the scene of the alleged assault or offense, as appropriate. If there is a need to preserve evidence the Philadelphia Police Department will be contacted. Evidence of a sexual assault should be preserved as soon as possible, even if the reporting student is unsure about reporting or filing criminal charges.

If a sexual assault has occurred it is important for the victim to seek medical attention as soon as possible to check for internal injuries, receive preventative treatment, and gather forensic evidence. The victim will be informed of the availability of immediate medical and/or psychological assistance available, including treatment for emergent injuries at the Thomas Jefferson University Hospital (TJUH) Emergency Department. Forensic medical examinations are not administered at TJUH. However, TJUH will arrange transport to the Philadelphia Sexual Assault Response Center (PSARC), where a Sexual Assault Nurse Examiner will conduct an exam. If not an emergent situation requiring the close proximity of the TJUH Emergency Room, victims have the option of going directly to PSARC at 300 E. Hunting Park Avenue, Philadelphia, PA 19124, 215-425-1625. PSARC provides forensic medical evaluation, injury documentation, forensic photography, pregnancy prevention, sexually transmitted infection prevention, HIV prevention, follow-up care, and court testimony. Victim advocacy and counseling is available through Woman Organized Against Rape (WOAR). WOAR has a 24-hour hotline (215-985-3333) and will arrange for a counselor to meet with you before, during, or after any forensic medical examination. For more information on assistance available, see Section VI.1 – Campus/Community Services.

In all circumstances, the victim shall be informed of the procedures for filing criminal charges via the Philadelphia Police Department. If the victim chooses to have police notified, security will immediately notify the Philadelphia Police and assist the victim in the filing of the charges if requested. The Title IX Coordinator (detailed in V.1, Reporting) will be notified in order to maintain coordination of a University investigation and campus services.

6. **Academic Accommodations and Interim Measures** – When a report of sexual misconduct is made academic accommodations and interim measures of protection for the parties involved may be provided, if necessary. Interim measures of protection may include separating the parties, placing limitations on contact between the parties, housing reassignment, or interim suspension. Students will also have access to academic support services and may be given the option to withdraw from a class or take a leave of absence.

7. **Investigation** - The University has a responsibility to investigate allegations of Sexual Misconduct independently of any criminal justice proceedings that may take place. The University's investigation will be thorough, prompt, and impartial. The first step of an investigation will usually be a preliminary interview of the person reporting the crime (complainant); the University will use the information gathered to evaluate the next steps that need to occur and, if necessary, provide for the safety of the University campus community. The investigation may include such things as interviews of the parties allegedly involved (including any witnesses) and gathering of any physical evidence and other relevant information. The complainant and the alleged offender will be given equitable rights during the investigative process.

8. **Resolution** of allegations that a student committed Sexual Misconduct will vary according to the findings of the investigation, and may include No Further Action, Formal Meeting, or a Judicial Board Hearing. Regardless of the type of resolution, TJU will not require a party to abide by a nondisclosure agreement, in writing or otherwise, that would prevent the redisclosure of information related to the outcome of the proceeding.
A. **No Further Action.** If, upon investigation, the Title IX Coordinator determines that the allegations are unfounded, the representative will so inform the complainant and alleged offender in writing. If either party is unsatisfied with the decision to take no further action, he/she may file a written notice of appeal within three days of receiving the decision. Students can file an appeal with the Provost of Thomas Jefferson University; the Provost, or a designee appointed by the Provost, shall meet with the individual appealing the decision to attempt to resolve the situation. The Provost or designee shall provide a written decision, which shall be sent to both parties within five business days of the meeting. The decision of the Provost or designee is final and binding.

B. **Formal Meeting.** If, upon investigation, it is determined that a policy violation has occurred that does not require a Judicial Board Hearing to resolve, the Title IX Coordinator will hold a meeting with the offender to formally advise him/her that his/her behavior constitutes a violation of University policy and must stop immediately. A formal meeting may involve sanctions including, but not limited to, a verbal or written reprimand. The sanctions of disciplinary probation, suspension and dismissal cannot be issued in a formal meeting. Both the complainant and alleged offender will be notified, in writing, of the outcome of a formal meeting. If either party is unsatisfied with the result of a formal meeting, he/she may file a written notice of appeal within three days of receiving the decision. Students can file an appeal with the Provost of Thomas Jefferson University; the Provost, or a designee appointed by the Provost, shall meet with the individual appealing the decision to attempt to resolve the situation. The Provost or designee shall provide a written decision, which shall be sent to both parties within five business days of the meeting. The decision of the Provost or designee is final and binding.

C. **Judicial Board Hearing.** For allegations of student Sexual Misconduct for which No Further Action or a Formal Meeting are not, in the University’s discretion, appropriate responses, the judicial system, to include a Judicial Board Hearing, will be utilized. The judicial system is described in Section XIII of the Code of Conduct found in the student handbook. Please note that the standard of evidence in a Judicial Board Hearing for Sexual Misconduct is preponderance of evidence. As detailed in Section XII of the Code of Conduct, possible sanctions include, but are not limited to: reprimand, disciplinary probation, suspension and dismissal. The University will inform, in writing, the complainant and alleged offender of the outcomes of a Judicial Board Hearing. The complainant or alleged offender may appeal the outcome of his or her case as described in Section XIII.E of the Code of Conduct.

9. **Non-Student Violations** - Any TJU employee or agent who is found to have violated this policy will be subject to appropriate disciplinary and/or corrective action under applicable policies, up to and including termination of his or her employment or other relationship with Jefferson.

10. **Timeframe** - Once a report of sexual misconduct is made, an investigation of the report shall be initiated within seven calendar days. The investigation shall be concluded as quickly as possible, typically within fifteen calendar days or a reasonable amount of time required to complete a thorough investigation. If the matter is forwarded to a judicial board hearing, the timelines outlined in Section XII of the Code of Conduct apply. The timeframe from initial report to finding should not exceed sixty calendar days.

VI. **Campus/Community Services and Education**

1. Campus/community services are available for immediate and ongoing support. These services include, but are not limited to:

   A. **The Student Personal Counseling Center** (SPCC) offers a variety of counseling and support services to help students in times of need (215-503-2817). Students can also call 215-955-HELP for counseling, health services, and support group information at Jefferson.
B. **Women Organized Against Rape** (WOAR) is Philadelphia’s only rape crisis center and can be reached through a 24 hour hotline at 215-985-3333. WOAR provides free counseling and offers support during forensic rape examinations and any future court proceedings.

C. **Philadelphia Sexual Assault Response Center** (215-800-1589) is a private, not-for-profit center whose mission is to provide expertise in the assessment and evaluation of sexual assault victims in Philadelphia. The center is staffed 24 hours a day, 7 days a week by on-call, specially trained and experienced Sexual Assault Nurse Examiners who provide forensic rape examinations. PSARC cares for victims regardless of their cooperation with law enforcement. PSARC is located at 300 E. Hunting Park Avenue, Philadelphia, PA 19124. In an emergency, call 215-425-1625 to reach the on-call sexual assault nurse examiner.

D. The **Rape, Abuse, and Incest National Network** (RAINN) operates the National Sexual Assault Hotline at 1.800.656.HOPE and offers online support, such as online counseling and assistance finding a local counseling center, at www.rainn.org.

E. The **National Domestic Violence Hotline** (800-799-7233) has highly trained expert advocates available 24 hours a day to talk confidentially with anyone experiencing domestic violence, seeking resources or information, or questioning unhealthy aspects of their relationship.

2. Educational programs are provided by the Department of Security, Department of Housing and Residence Life, Office of Student Affairs, and the Student Personal Counseling Center. The first program occurs during orientation and then ongoing programming is provided both in-person and online. An online training providing an overview of the Sexual Misconduct policy is available on the Thomas Jefferson University website. All programming is advertised widely on campus and designed to promote awareness of and prevent Sexual Misconduct.

**TOBACCO FREE ENVIRONMENT**

**Purpose**
To set forth the policy for maintaining a tobacco-free environment to promote the safety, health, and wellness of all patients, employees, volunteers, faculty members, medical staff, students, vendors, and visitors of Thomas Jefferson University, Jefferson University Physicians and Thomas Jefferson University Hospital System. Together, Thomas Jefferson University, Jefferson University Physicians and Thomas Jefferson University Hospital System are referred to in this Policy as “Jefferson.”

**Scope**
The Tobacco-Free Environment Policy applies to all Jefferson patients, visitors, vendors, students, volunteers, medical staff and employees within (1) fifty (50) feet of the entryway to or exit from any property owned, rented or leased by Jefferson, or (2) fifty (50) feet of driveways, canopies, archways, arcades, and air intakes of any property owned, rented or leased by Jefferson, or (3) the Lubert or Bluemle Plazas (i.e., the entirety of the plaza areas adjacent to the Scott and Hamilton buildings and the Bluemle Life Sciences building), or (4) parking areas owned, rented or leased by Jefferson (including inside employees' personal vehicles). The areas referred to in this paragraph are also referred to collectively in this Policy as the “Jefferson Campus.”

The Hiring Policy applies to anyone hired on or after July 1, 2014.

**Policy**
As an academic medical center and leader in the health care community, Jefferson recognizes that smoking is a health hazard. Thus, Jefferson has adopted a policy for the maintenance of a tobacco-free environment and a tobacco-free hiring policy. All tobacco use is prohibited on the Jefferson Campus.
An applicant will be asked to attest that he/she is currently and has been a non-tobacco user for the previous ninety (90) days.

An applicant may reapply when he/she can truthfully attest that he/she is currently a non-tobacco user and has been a non-tobacco user for the previous ninety (90) days.

Procedure

I. Definitions

A. Smoking is defined as the use of or carrying of a lighted cigarette, cigar, pipe, or other tobacco product. It means inhaling, exhaling, burning, or carrying any lighted or heated cigarette, cigar, or pipe.

B. Tobacco Products/Smoking Material: Refers to all smoke and tobacco products, such as cigarettes, cigars, pipes, water pipes (including bongs and hookahs), electric cigarettes, and smokeless tobacco products, such as chewing, snuff, or dipping tobacco, or any other smoking product determined by Jefferson.

II. Tobacco-Free Environment

A. Guidelines

1. Smoking or the use of tobacco products/smoking material is not permitted anywhere on the Jefferson Campus.
2. Patients are informed of this policy upon registration, arrival, or as soon thereafter as is reasonably possible.

B. Notification

1. Signage prohibiting smoking shall be posted to notify individuals visiting the Jefferson Campus of this Tobacco-Free Environment Policy.
2. All Jefferson employees, volunteers, faculty members, medical staff and students shall be made aware of and have access to a copy of this policy.
3. The Department of Human Resources shall advise all job applicants during the application process and remind new employees of this policy during orientation.

C. Enforcement

1. All employees, faculty members, and students share in the responsibility of adhering to this policy and ensuring that the policy is enforced.
2. Security personnel will be trained on the enforcement of this policy.
3. Information will be made available about options for smoking cessation to employees who do smoke.
4. Patients and visitors who are found using tobacco on the Jefferson Campus will be informed of the Tobacco-Free Environment policy and asked to extinguish/remove their tobacco product. Non-employed individuals, such as volunteers, volunteer faculty members or other volunteer members of the medical staff found to have violated this policy may be subject to action up to removal from the Jefferson Campus and/or removal from the medical staff.
5. Employees observed smoking or using tobacco products/smoking material anywhere on the Jefferson Campus will be in violation of this policy and subject to disciplinary action up to termination.
6. Students observed smoking or using tobacco products/smoking material anywhere on the Jefferson Campus will be in violation of this policy and subject to disciplinary action up to dismissal.
7. Retaliation against anyone who acts to support the enforcement of this policy is prohibited and will result in disciplinary action up to termination of employment or dismissal from an academic program.
III. Hiring Policy

1. Effective July 1, 2014, Jefferson will not hire tobacco or nicotine product users.
2. Job applicants will be informed of the policy when applying for a job and will be required to sign an acknowledgement form indicating that they have not been a tobacco user for the previous ninety (90) days and will not use tobacco during their employment.
3. An applicant may reapply when he/she can truthfully attest that he/she is currently a non-tobacco user and has been a non-tobacco user for the previous ninety (90) days.

USE OF THE SCHOOL’S NAME

No student organization or individual student may enter into any contractual agreement using the name of the organization or of the School without prior approval through the Dean of the School.

USE OF THE UNIVERSITY LOGO

Use of the University logo is dictated by University Policy. Guidelines regarding the logo’s use are described on the Creative Services website - http://creative.jefferson.edu/logos/. Any variation from the standards in the policy requires approval according to the policy. Misuse of the University Logo may result in disciplinary action.

WEAPONS POLICY

Policy

Thomas Jefferson University, Jefferson University Physicians, and TJUH System (collectively referred to in this Policy as “Jefferson”) prohibit all persons who enter any Jefferson property from carrying a handgun, firearm, or prohibited weapon of any kind on to any Jefferson property regardless of whether or not the person is licensed to carry the weapon.

This policy applies to all Jefferson employees, contract and temporary employees, students, visitors on Jefferson property, and customers and contractors on Jefferson property, regardless of whether or not they are licensed to carry a concealed weapon. The only exceptions to this policy will be on-duty law enforcement officers, or other persons who have been given written consent by Jefferson to carry a weapon on the property.

All Jefferson employees and students are also prohibited from carrying any weapon while in the course and scope of performing their job for Jefferson, whether or not they are on company property, and whether or not they are licensed to carry a firearm. Employees may not carry any weapon covered by this policy while performing any task on Jefferson’s behalf. The only exception to this policy will be persons who have been given written consent by Jefferson to carry a weapon while performing specific tasks on Jefferson’s behalf. This policy also prohibits weapons at any Jefferson sponsored function, such as parties or picnics.

Purpose

The purpose of this policy is to ensure the safety and protection of all staff, faculty, students, patients, and visitors to the Jefferson campus.

Definitions

Firearms, explosives, knives, and other weapons are prohibited. Any questions about whether an item is covered by this policy should be directed to the Jefferson Security Department’s 24-hr Response Center at 215-955-8888 or the Methodist Hospital Security Office at 215-952-9238 for clarification. Each person will be held directly responsible for making sure beforehand that any potentially covered item possessed is not prohibited by this policy.
Jefferson property covered by this policy includes, without limitation, all Jefferson owned or leased buildings and surrounding areas such as sidewalks, walkways, driveways, plazas, and parking lots and garages under Jefferson’s ownership or control. Jefferson vehicles are also covered by this policy at all times regardless of whether or not they are on Jefferson property at any time.

**Procedures**

Violations: Failure to abide by all terms and conditions of the policies described above may result in discipline up to and including termination or dismissal. Further, carrying a weapon on to Jefferson property in violation of this policy will be considered an act of criminal trespass and will be grounds for immediate removal from Jefferson property and may result in prosecution. When the person carrying the weapon leaves the facility, the weapon will be returned. The weapon will be confiscated if there is no other alternative, however, the protocol would be to notify the police and have them secure the weapon.

This policy shall not be construed to create any duty or obligation on the part of Jefferson to take any actions beyond those required of an employer by existing law.

If a person becomes aware of anyone violating this policy, he/she should report it immediately to the Jefferson or Methodist Security Department.

At Methodist Hospital any person who is in possession of a weapon will be informed of the Hospital policy. If there is no other alternative, the weapon will be turned over to the Security Department for safekeeping. A property receipt will be issued. When the person leaves the facility, the weapon will be returned.

**Jefferson Security Department**

Although the University’s security personnel are certified and meet the standards consistent with Pennsylvania Act #235, any possession and use of firearms are prohibited and not authorized as a type of security equipment. Under special circumstances, the University’s President, or Vice President for Facilities may authorize a Security Officer or Supervisor to carry a firearm.

Security Managers and Supervisors and uniformed officers are authorized but limited to carry the following weapons while on duty: a baton (nightstick); an authorized Oleoresin Capsicum (OC) spray, and issued handcuffs.

Methodist Hospital Security Officers are not permitted to carry any weapons while on duty. Officers that are Pa. Act 235 certified must carry handcuffs.

**Tenants of the University's On -Campus Housing Facilities**

Residential tenants are prohibited to carry or possess in any campus unit any weapon. Refer to tenants Campus Housing Agreement.

ANY INDIVIDUAL WHO IS NOT WILLING TO COMPLY WITH THE CONDITIONS IN THIS POLICY WILL BE CONSIDERED TO BE TRESPASSING ON PRIVATE PROPERTY, WILL BE ASKED TO LEAVE THE PREMISES, AND UNDER PENALTY OF LAW MAY BE PROSECUTED FOR DEFIANT TRESPASSING AND ANY OTHER RELATED WEAPONS OFFENSE. THERE ARE NO EXCEPTIONS – INCLUDING PERSONS HOLDING VALID LICENSES TO CARRY A FIREARM.
PROFESSIONAL DEVELOPMENT
PROFESSIONAL DEVELOPMENT
It is expected that all JSP students, faculty, and administrators will exhibit behavior consistent with the highest level of professionalism. The American College of Clinical Pharmacy has defined the traits of professionalism to include responsibility, commitment to excellence, respect for others, honesty and integrity, and care and compassion. These are defined in a White Paper published in *Pharmacotherapy*.  

TRAITS OF PROFESSIONALISM

- **Responsibility** - Responsibility focuses on what one can do and should do; it defines the pharmacist’s duty and moral obligation. Pharmacists have responsibilities to individual patients, to health care professionals, to society, and to the profession.

- **Commitment to excellence** - Excellence is a conscientious effort to exceed ordinary expectations. It implies first a commitment to lifelong learning.

- **Respect for others** - To respect others is to hold in high regard their feelings, opinions, and values. For pharmacists, this should apply to individual patients and their families, other health care professionals, colleagues, coworkers, and others with whom they come in contact.

- **Honesty and Integrity** - Pharmacists must uphold the highest standards of behavior and refrain from actions that would violate one’s personal or professional codes. Displaying honesty and integrity means that pharmacists are truthful, fair, trustworthy, dependable, and honest.

- **Care and Compassion** - To care and to be compassionate are at the very center of the fiduciary relationship between the patient and the pharmacist. Caring, in the most basic terms, means to attend to the needs of others and to have personal concern for the well-being of another.

CODE OF ETHICS FOR PHARMACISTS

A code is adopted by a profession to regulate that profession. An ethical code may be styled as a code of professional responsibility that may dispense difficult issues of what behavior is “ethical”. The following Code of Ethics for Pharmacists was adopted by the American Pharmacists Association, October 27, 1994.

Preamble

Pharmacists are health professionals who assist individuals in making the best use of medications. This Code, prepared and supported by pharmacists, is intended to state publicly the principles that form the fundamental basis of the roles and responsibilities of pharmacists. These principles, based on moral obligations and virtues, are established to guide pharmacists in relationships with patients, health professionals, and society.

I. A pharmacist respects the covenantal relationship between the patient and pharmacist.

Considering the patient-pharmacist relationship as a covenant means that a pharmacist has moral obligations in response to the gift of trust received from society. In return for this gift, a pharmacist promises to help individuals achieve optimum benefit from their medications, to be committed to their welfare, and to maintain their trust.

II. A pharmacist promotes the good of every patient in a caring, compassionate, and confidential manner.

A pharmacist places concern for the well-being of the patient at the center of professional practice. In doing so, a pharmacist considers needs stated by the patient as well as those defined by health science. A pharmacist is dedicated to protecting the dignity of the patient. With a caring attitude and a compassionate spirit, a pharmacist focuses on serving the patient in a private and confidential manner.

III. A pharmacist respects the autonomy and dignity of each patient.

A pharmacist promotes the right of self-determination and recognizes individual self-worth by encouraging patients to participate in decisions about their health. A pharmacist communicates with patients in
terms that are understandable. In all cases, a pharmacist respects personal and cultural differences among patients.

IV. A pharmacist acts with honesty and integrity in professional relationships. A pharmacist has a duty to tell the truth and to act with conviction of conscience. A pharmacist avoids discriminatory practices, behavior or work conditions that impair professional judgment, and actions that compromise dedication to the best interests of patients.

V. A pharmacist maintains professional competence. A pharmacist has a duty to maintain knowledge and abilities as new medications, devices, and technologies become available and as health information advances.

VI. A pharmacist respects the values and abilities of colleagues and other health professionals. When appropriate, a pharmacist asks for the consultation of colleagues or other health professionals or refers the patient. A pharmacist acknowledges that colleagues and other health professionals may differ in the beliefs and values they apply to the care of the patient.

VII. A pharmacist serves individual, community, and societal needs. The primary obligation of a pharmacist is to individual patients. However, the obligations of a pharmacist may at times extend beyond the individual to the community and society. In these situations, the pharmacist recognizes the responsibilities that accompany these obligations and acts accordingly.

VIII. A pharmacist seeks justice in the distribution of health resources. When health resources are allocated, a pharmacist is fair and equitable, balancing the needs of patients and society.

THE OATH OF A PHARMACIST – Approved by the APhA House of Delegates, 2007

“I promise to devote myself to a lifetime of service to others through the profession of pharmacy. In fulfilling this vow:

- I will consider the welfare of humanity and relief of human suffering my primary concerns.
- I will apply my knowledge, experience and skills to the best of my ability to assure optimal outcomes for my patients.
- I will respect and protect all personal and health information entrusted to me.
- I will accept the lifelong obligation to improve my professional knowledge and competence.
- I will hold myself and my colleagues to the highest principles of our profession’s moral, ethical, and legal conduct.
- I will embrace and advocate changes that improve patient care.
- I will utilize my knowledge, skills, experiences, and values to prepare the next generation of pharmacists.

I take these vows voluntarily with the full realization of the responsibility with which I am entrusted by the public.”

INTERN LICENSURE INFORMATION
Students are encouraged to access the website for the National Association of Boards of Pharmacy website at http://www.nabp.net/
Scroll down to ‘Boards of Pharmacy’ in the left-hand column to find the links to all of the state boards of pharmacy in the United States, Canada, Australia, and New Zealand. Each state has its own requirements for internship and licensure. Please research the state(s) where you anticipate seeking licensure following graduation to see the requirements of that state. For example, in the state of Pennsylvania, an internship license is required and 1,500 registered, documented hours are necessary prior to being eligible to sit for the North American Pharmacist Licensure Examination (NAPLEX) and Multistate Pharmacy Jurisprudence Examination (MPJE). Of the 1,500 hours, 750 hours are granted through the student’s participation in the experiential component of the pharmacy school curriculum.

**STUDENT PARTICIPATION IN INSTITUTIONAL GOVERNANCE**

In an effort to provide an exceptional educational experience at the JSP, students will be solicited to participate in several standing committees within the School. In addition, opportunities may arise where students are recruited to participate in University-wide committees and task forces. The standing JSP committees and a brief description of their responsibilities are as follows:

**Committee on Educational Philosophy and Policy**
- This Committee shall consider proposed curricular changes in the School and make recommendations to the Executive Council on such proposals; encourage and monitor changes in program objectives, courses, and methods of instruction and degree requirements; and provide a forum for discussion of educational philosophy and policy issues that arise within the School. The Committee shall also consider proposed changes in the School's general academic policies regarding admission to the School, academic achievement and progression and make recommendations to Executive Council on such proposals.

**Committee on Student Affairs**
- The duties of the Committee shall be to monitor student welfare through attention to academic and personal counseling, evaluate recruitment activities, review criteria for admissions and make recommendations to the Faculty or Committee on Admissions, coordinate nominations for student awards, refer student grievances to the appropriate body, make recommendations regarding student workload, and serve as the liaison body between the School and the student body, including recognized student organizations.

**Committee on Admissions**
- The committee will recommend to Faculty or Committee on Educational Philosophy and Policy the criteria, policies and procedures for admission to the pharmacy professional degree program, including the process for interviews with applicants. The committee will select students who have the potential for success in the professional degree program and the profession of pharmacy. In conjunction with the Committee on Evaluation and Outcomes, the Committee on Admissions will review data correlating the admissions criteria, policies and procedures with student achievement in the professional degree program and performance in professional practice.

**Committee on Evaluations and Outcomes**
- The duties of the committee shall be to oversee evaluation of the programs of instruction as well as the School of Pharmacy Assessment Plan, faculty and students’ professional achievement and satisfaction, interpret data collected, and provide feedback to the appropriate committees and individuals for decision-making.

**STUDENT PHARMACY ORGANIZATION INFORMATION**

**Student Body Governance (SBG)**

The purpose of this organization shall be to enhance the student’s experience both professionally and socially, and to provide a channel of communication between the student body and the
Field of Membership
Any matriculated student in the Jefferson School of Pharmacy shall be eligible for participation in the JSP Student Government. Membership is discontinued upon graduation or loss of academic standing in the Jefferson School of Pharmacy.

AMCP

APhA-ASP
The American Pharmacists Association’s (APhA) Academy of Student Pharmacists (ASP) unofficially began in 1921 when students from the University of North Carolina petitioned the APhA Council to be recognized as an APhA student branch. Since then, the student section of APhA has gone through a steady evolutionary process. After the first student branch was recognized, many other schools and colleges of pharmacy began to form their own student branches.

At the 2004 Annual Meeting in Seattle, Washington, APhA-ASP celebrated 35 years as an official academy of APhA. During the meeting, the 2004 APhA-ASP House of Delegates voted in favor of a proposed resolution to change the Academy’s name to the American Pharmacists Association - Academy of Student Pharmacists, in order to better define the professional role of student pharmacists and to emphasize students’ commitment to the profession of pharmacy. In April 2009, the JSP chapter received its chapter charter at the APhA annual meeting.

APhA-ASP Mission Statement
The mission of the American Pharmacists Association Academy of Student Pharmacists is to be the collective voice of student pharmacists, to provide opportunities for professional growth, and to envision and actively promote the future of pharmacy.

APhA-ASP Faculty Co-Advisors: Nicholas Leon, PharmD, BCPS, BCACP, E-Mail: Nicholas.leon@jefferson.edu and Emily Scopelliti, PharmD, BCPS, E-Mail: Emily.Scopelliti@Jefferson.edu

ISPOR

JSP-SSHP
In 1942, hospital pharmacists established the American Society of Hospital Pharmacists, affiliated with APhA. In 1995 the name was changed to American Society of Health-Systems Pharmacists (ASHP). The name reflects changes in the industry and diversification beyond inpatient care into ambulatory care and home care. Today ASHP’s membership has grown to ~ 31,000 members. The Student Society of Health-Systems Pharmacy (SSHP) was developed to educate members about career options in hospital and health-systems, provide career and professional development, and create opportunities to network.
JSP-SSHP Mission Statement
The mission of the Jefferson School of Pharmacy student society is to make students aware of pharmacy practice in health systems; provide information to students about career directions in and credentials needed for pharmacy practice in health systems; and encourage membership and participation in the respective regional affiliate or Pennsylvania state society of ASHP as a student upon graduation.
