

Jefferson Moms and Daughters 'Reunite' on Campus

This year's "Take Our Children to Work Day" – run annually by the Department of Human Resources – held special meaning for five Jefferson employees and their 11-year-old daughters who gathered for a unique reunion on campus.

All five girls spent their pre-kindergarten years together at the Jefferson Day Care center while their moms were working at Jefferson.

Eleven years after the girls began day care, their mothers are still working here and came up with a winning idea.

One mom, Carole Ayling, tells the story:

"All of our daughters attended the Jefferson Child Care Center when they were infants up through kindergarten. They are now 11 years old and have not seen each other since they left day care.

"Their moms (and one dad, Robert Ayling, Facilities Services) still work at Jefferson and thought it would be a great idea to reunite the group for 'Take Our Children to Work Day.' The parents have been communicating via email, and each girl was very excited to come back and visit Jefferson, their teacher and each other again.

"All but one girl was born at Jefferson, and even their teacher, 'Ms. Gladys' (Gladys Tilghman), was born here and still works as the Center's Assistant Director!

"Bringing the girls together was an event we all are sure to remember for life!"

Mothers and daughters, from left: Carole Ayling, Blood Bank, and Kristen; Monica Doyle, Marketing, and Shannon; Cindy Wordell, Pharmacy, and Elizabeth; Ursula Gosnay, Jefferson University Physicians, and Kaitlin; Pam Kolb, Hospital Administration, and Amy Feinberg. At right, the girls show their love for "Ms. Gladys."

"Having not seen each other for six years, there was some initial shyness. But after spending time together, they totally reconnected and were having a ball, laughing and truly enjoying each other. The photo session in front of the Bluemle Life Sciences Building was loads of fun. The girls were so comfortable it was almost as though they had never left Jefferson.

"After all the excitement, the moms treated their daughters to ice cream in the Atrium. It was a perfect way to end a perfect day!"

University Honors Doctors Folkman, Cohen at 177th Commencement

Jefferson's 177th Annual Commencement will be at 10:30 a.m., Friday, June 8, at Philadelphia's historic Academy of Music. University President Paul C. Brucker, MD, will deliver the Convocation and confer all degrees.

Thomas J. Nasca, MD, Senior Vice President for Academic Affairs and Dean, Jefferson Medical College (JMC), will present Doctor of Medicine degrees to 210 JMC students.

Jordan J. Cohen, MD

Robert L. Perkel, MD, Clinical Professor of Family Medicine, will administer the Oath of Hippocrates.

Jussi J. Saukkonen, MD, Vice President for Science Policy, Technology Development, and International Affairs and Dean, College of Graduate Studies, will present 14 Doctor of Philosophy degrees and 101 Master of Science degrees to students of the College of Graduate Studies (CGS).

Douglas J. McMaster Jr., Esq., Chairman, Jefferson's Board of

Don Walker Photography

No stranger to Jefferson, Judah Folkman, MD, the 37th annual Rehfuss Lecturer last November, is presented the Rehfuss Medal by Mrs. Shelley Ames Hartz, Foerderer family member. His address – "The Discovery of Angiogenesis Inhibitors: A New Class of Drugs" – drew a standing-room-only audience.

Trustees, will deliver the Opening Proclamation and Rev. J. Barrie Shepherd the Invocation and Benediction. R. Anthony Carabasi III, MD, Professor of Surgery, will be Grand Marshal.

The University will award honorary Doctor of Science degrees to M. Judah Folkman, MD, world-renowned physician and researcher, and to Jordan J. Cohen, MD, President, Association of American Medical Colleges (AAMC).

proclaims the celebratory cake prepared by the hospital's Department of Nutrition and Dietetics. Doctors, employees and visitors had the opportunity to sample cake in the Atrium during this year's thank you to Jefferson physicians. Kicking off the festivities, from left, are Thomas J. Lewis, President and CEO of Thomas Jefferson University Hospital; Melvin L. Moses, MD, President of the hospital's Medical Staff; and Susan J. Silver, President of the hospital's Women's Board. The United States Congress established Doctor's Day in 1958 to recognize the efforts of physicians on behalf of their patients.

Philadelphia Foundation and Jefferson Form Innovative Partnership

Jefferson Donor-Advised Funds Created As First of Its Kind in United States Thomas Jefferson University, Thomas Jefferson University Hospital and The Philadelphia Foundation have announced a groundbreaking philanthropic collaboration designed to help donors reach their charitable giving goals while providing support for Jefferson programs.

The Jefferson Donor-Advised Funds is the first partnership of its kind between not-for-profit institutions and a community foundation.

"This innovative joint venture capitalizes on the current trend toward donor-advised funds," says

Thomas Jefferson University President Paul C. Brucker, MD. "We are pleased to be uniting with The Philadelphia Foundation, which has such a distinguished history of commitment to our community, to bring this opportunity to donors."

Donor-advised endowment funds have become increasingly popular in recent years because they are flexible and cost-effective, allowing donors to recommend the charities their gifts will support *after* they have made tax-deductible contributions to the funds. Among the advantages are immediate tax deductions based on the fair market value of the gift; lower managerial costs; direct involvement in

grantmaking decisions; and the opportunity to design, establish and maintain a family philanthropic tradition.

Advancing Our Missions

The Jefferson Donor-Advised Funds is an endowed giving program administered by The Philadelphia Foundation that provides special benefits for donors who want to simplify the management of their charitable giving, support a variety of charitable causes and advance the missions of Thomas Jefferson University and Thomas Jefferson University Hospital.

"Donor-advised funds help foster a culture of giving," says R. Andrew Swinney, President of The Philadelphia Foundation. "This continues, page 2

2001 Commencement Honorary Degree Recipients

M. Judah Folkman, MD

Described as the "father of angiogenesis," Dr. Folkman is the Julia Dyckman Andrus Professor of Pediatric Surgery, Harvard Medical School, Senior Associate in Surgery and Director, Surgical Research Laboratory, Surgeon-in-Chief Emeritus and Chairman Emeritus, Department of Surgery, Children's Hospital, Boston.

Dr. Folkman's decades of pioneering work have created a new and exciting field of cancer

research based on his theory that cancers cannot grow or spread without a blood supply to feed them – a process known as angiogenesis.

In recent years, he and his colleagues, in conjunction with a Maryland biotechnology company, have been developing and are now testing anti-angiogenesis drugs. The first two human clinical trials for one such drug, Angiostatin, are under way at Jefferson. Researchers hope that anti-angiogenesis drugs eventually will halt cancer growth in patients.

Jordan J. Cohen, MD

Clinical Professor, Department of Medicine, Georgetown University, Jordan J. Cohen, MD, has served as President, Association of American Medical Colleges since 1994. Prior to these positions, Dr. Cohen has pursued a long and illustrious career in academic and clinical medicine, including teaching and clinical posts at Harvard Medical School, Brown University, Tufts University, the University of Chicago, New England Medical Center, Boston, and Michael Reese Hospital and

Medical Center, Chicago. From 1988 to 1994, he was Dean, School of Medicine, and Professor of Medicine, State University of New York, Stony Brook, and Medical Staff President, University Hospital, Stony Brook.

He serves or has served in numerous leadership positions in many professional organizations and societies.

Both Dr. Folkman and Dr. Cohen include membership in the National Academy of Sciences and the Institute of Medicine among their many current activities. They are both members of Phi Beta Kappa.

Roger J. Pomerantz, MD, Furthering Research Collaboration with University of Catania, Sicily

Collaborative research between Thomas Jefferson University and the University of Catania, Sicily,

continues to be expanded by joint efforts of Roger J. Pomerantz, MD, FACP, and his research colleagues at Catania.

Dr. Pomerantz, Professor of Medicine, Biochemistry and Molecular Pharmacology, Jefferson Medical College, was invited to be a selected Visiting Professor at the University of Catania.

There, he presented two lectures on HIV-1 pathogenesis and novel

approaches to vaccine design for human viruses as well as conducting numerous rounds and special teaching rounds on clinical infectious diseases, both at bedside and in the classroom. At Jefferson, Dr. Pomerantz is Chief, Division of Infectious Diseases, and Director, Center for Human Virology.

Dr. Pomerantz was awarded the University Medal of Honor of Catania by the Rector of the University for his contributions to biomedical teaching and research.

Previously, Dr. Pomerantz has collaborated with University of Catania professors investigating HIV-1 and Hepatitis C viral infections. In addition, post-doctoral fellows from the University of Catania serve in the Center for

'We Need You,' Sonny Hill Tells Hospital's Trauma Staff

Drawing on his own life experiences and the success of youth programs he created and has led for years, Sonny Hill, long a Philadelphia sports legend and youth mentor, held a noontime gathering of Jeffersonians in rapt attention at a recent brownbag presentation.

Energetic, charismatic and at times playful, Mr. Hill wove humor, sobering reality and stark social perceptions through his extemporaneous remarks.

The second speaker in Thomas Jefferson University Hospital's Violence Prevention Program offered numerous insights and several "back-to-basics" solutions to the growing issue of youth violence.

Calling violence – at all ages – the major social issue today, Mr. Hill praised the work of the hospital's Emergency Trauma Center.

"We applaud you for being on the front line. You must deal with the effects of violence *after* the fact.

"We need you – because without you, where would we be? You are saving lives, so *please* continue what you're doing."

The upsurge in youth violence has grown so severe, hospital emergency departments are stretched thin, especially on weekends. And Mr. Hill fears the problem will grow worse, citing "street" forecasts of increased gang activity.

"These are not gangs like the kind I negotiated with when I was young. If they knew you were on your way

Don Walker Photography

From left, Dr. Christopher, Mr. Hill, Rev. Pamela Bradley, Community Liaison, hospital's Violence Prevention Program, and Paul Kolecki, MD, Attending Physician, Emergency Department.

to play ball, they'd respect that and let you pass. These are a different kind of gang – they do not play fair."

'Simple But Hard' Solutions

To solve social ills, Mr. Hill calls for a "simple, but hard" return to structure and basics. "Simple" because it stresses basic values – saying things like "Thank you, please, Mr., Ms., Mrs., thanks for doing that." "Hard," he implies, because it requires repetition, patience, "people commitment" by many people, and time – lots of time.

"The key is setting good examples for youth to follow. But it requires commitment for the long term." Mr. Hill believes violence – at all ages – is the worst of a list of unresolved social ills harming American society since World War II. He lists, chronologically, education, alcoholism, drugs and AIDS, saying

that all could have been solved had society dealt with each early and head-on instead of denying their reality and impact. Now, violence is the most serious of all.

Still, Mr. Hill remains upbeat and optimistic: "Solutions are actually easy. We make them seem hard by our denial."

About the Speaker And the Program

Currently Sonny Hill serves as executive advisor to the President/CEO of the First Union Complex and to the President of the Philadelphia 76ers, Pat Croce. He is perhaps best known to thousands of Philadelphia youth for creating and running several summer basketball leagues for more than 20 years.

Aimed at curbing and preventing violence in the city, the hospital's Violence Prevention Program is sponsored by the Violence Prevention Partnership and funded by the William Penn Foundation through the hospital's Department of Pastoral Care and Department of Emergency Medicine, whose Director, Theodore A. Christopher, MD, Associate Professor of Surgery (Emergency Medicine), introduced Mr. Hill.

The William Penn Foundation recently awarded a new, three-year grant totaling \$746,946 to the hospital's Violence Prevention Program.

Elaine Z. Francis, PhD Receives CGS Distinguished Alumni Award

Elaine Z. Francis, PhD, CGS '78, was presented the 2001 CGS Distinguished Alumni Award at the College of Graduate Studies Alumni Day program. For 19

consecutive years, this has been the most prestigious honor the college bestows on its alumni.

Dr. Francis has served the federal Environmental Protection Agency (EPA) for more than 20 years – first with the Office of Toxic Substances and then with the Office of Research and Development (ORD). She has earned numerous appreciation awards and medals for achievements during her EPA career. Since January 2000, she has been the National Program Director for EPA's endocrine disruptors research program.

Dr. Francis received a BS in biology from American University in Washington, DC, before earning her doctorate in anatomy from CGS.

Partnership

continues from page 1

unique collaboration between Jefferson and The Philadelphia Foundation, the first of its kind in the United States as far as we know, will serve as a model for other institutions to join forces and create opportunities for expanded giving."

The Philadelphia Foundation, founded more than 80 years ago, manages more than 400 charitable funds established by donors, using revenue generated by these funds to provide grants to local nonprofit organizations, including humanitarian, educational and cultural initiatives.

Participation in The Jefferson Donor-Advised Funds requires a minimum initial gift of \$50,000. Half of the annual income available for distribution automatically supports Jefferson and the remaining half is designated for the donor's individually recommended charities, which may include Jefferson as well.

Commenting on the new program,

Robert Neroni Photography

The Jefferson Donor-Advised Funds unites two long-established Philadelphia institutions. Partners in the new collaboration are, from left, Thomas J. Lewis, President and CEO of Thomas Jefferson University Hospital, Paul C. Brucker, MD, President of Thomas Jefferson University, and H. Craig Lewis, Chair of The Philadelphia Foundation's Board of Managers. Not pictured is R. Andrew Swinney, President of The Philadelphia Foundation.

Thomas J. Lewis, President and CEO of Thomas Jefferson University Hospital, says, "The Jefferson Donor-Advised Funds will help provide the resources we need to establish vital patient care initiatives and keep pace with the constant changes and improvements in medical technology and healthcare practices. It is very gratifying to have The Philadelphia Foundation as our philanthropic partner."

Pastoral Care, Patient Services Sponsor Memorial Service

On a recent Sunday, more than 80 family and friends attended a memorial service for deceased loved ones. The service, sponsored by the Pastoral Care and Education and Patient Services Departments, was a first at Jefferson University Hospital and marked the beginning of an annual event. During the service, family members placed mementos of their loved ones and lit a memorial candle in their honor. For many, it was another part of transforming grief and easing pain. To learn more, call Pastoral Care at 215-955-6336.

Active Year for Jefferson Medical College Students 4th Annual JeffHOPE Charity Ball A Glowing Success

The fourth Annual JeffHOPE Charity Ball fundraiser attracted 440 Jefferson Medical College students, faculty and guests for an evening of glowing promise and hope for the future.

The student-run JeffHOPE organization aims to improve the access to health care of Philadelphia's homeless and underserved populations, as well as to educate students, residents and faculty members about poverty and homelessness. In four short years, JeffHOPE has set up and continues to operate five health clinics in different parts of the city, and six education and awareness programs. Highlight of this year's Charity Ball was the presentation of the JeffHOPE Faculty Member Award to Lara Carson Weinstein, MD, Instructor, Family Medicine, and the 2001 JeffHOPE Community Member Award to The Reverend

In front, honored by JeffHOPE, are Lara Carson Weinstein, MD, at left, and The Reverend Deborah Washington. Behind them are JeffHOPE officers, from left, Marc Altshuler, JMC '01, Jonathan Hansen, JMC '01, Angela Majors Taylor, JMC '03, and Pali Dedhiya, JMC '01.

Deborah Washington.

This year's Faculty Award held special meaning for JeffHOPE participants, since the recipient, Dr. Weinstein, helped found JeffHOPE.

Sharing slides of some of her homeless patients, and telling of their care and prognosis, made clear Dr. Weinstein's devotion to JeffHOPE, not only as a founder but in the continuing large role she plays. With her voice wavering as she spoke admiringly of her patients, Dr. Weinstein concluded her remarks as the audience roared a standing ovation, many eyes

JMC Class of 2003 Celebrates Parents' Day

Sponsored by the Alumni Association and Dean's Office, Jefferson Medical College (JMC), each year Parents' Day gives parents and other family members a chance to spend a day with JMC sophomore students and faculty. Among other events, class members select a faculty member and two students to address the gathering.

The Class of 2003 this year chose Wolfgang H. Vogel, PhD, Professor of Pharmacology and Professor of Psychiatry and Human Behavior, JMC, and classmates Courtney W. Bloomer and Angelo M. Ciminiello.

Photos show 1. Dr. Vogel, 2. Mr. Ciminiello and his father, Arcangelo Ciminiello, DDS, 3. Ms. Bloomer, 4. from left, Mr. Ciminiello's fiancée, Amy DeLuke, Mr. Ciminiello's mother, Maria, and Ms. DeLuke's mother, Lynn, 5. another classmate, Venkat P. Chakkaravarthi, standing, and his parents, Navajeevan A. Chakkaravarthi, MD, and Ramona Chakkaravarthi, MBBS, both JMC faculty members.

JMC AOA Honor Society Hosts ABC News Medical Editor

The Jefferson Medical College (JMC) chapter of the Alpha Omega Alpha (AOA) Honor Medical Society hosted ABC News Medical Editor Timothy Johnson, MPH, MD, as its annual distinguished lecturer. His presentation, entitled "Medicine and the Media," was given to a standing-room-only audience in the Connelly Conference Center of the Bluemle Life Sciences Building. Dr. Johnson, a medical correspondent for "Good Morning, America," "World News Tonight," "Nightline" and "20/20," was invited and introduced by AOA

Chapter President Jamie Leigh Wells, JMC '01, a former intern at ABC News in New York. Dr. Johnson identified the 1950s as the decade in which the current relationship between medicine and media began to take shape, citing as an example President Dwight D. Eisenhower's voluntary communication with the press in 1955 about his heart attack. The relationship became more extensive in the 1960s and '70s in response to an idealized image of physicians and hospitals presented by television programs like "Marcus Welby, MD"

ABC News Medical Editor Timothy Johnson, MPH, MD, standing, center, is flanked by Carmen Campenelli, JMC '01 and AOA Treasurer, left, and Troy L. Thompson II, MD, Professor of Psychiatry, JMC, and AOA Faculty Advisor, right. Seated, from left, are AOA officers Erum Aftab, Vice President, Jamie Leigh Wells, President, and Stephanie Hurley, Secretary, who are JMC '01 students.

and to media surveys indicating that medical stories could boost publications' circulation and television news ratings.

Noting that this has led to increased competition between and within media and medicine, Dr. Johnson advised, "People have to work at finding sources they can trust, and be skeptical of those they can't. On balance, the public is better off today than it was 30 years ago because of all of the information it has access to. Whether that will be the case 30 years from now, I can't say."

Therese McGurkin, RN, MSN, Receives Annual Janet C. Hindson Award

The Department of Nursing presented the fourth annual Janet C. Hindson Award to Therese McGurkin, RN, MSN, to highlight the hospital's Nurses' Week activities.

Ms. McGurkin is a Clinical Nurse Specialist and a former Emergency Department nurse. She currently serves as Co-Chair of the Patient Care Team of the LastWORD Clinical Information Systems Project, and she supports Performance Improvement activities in the Emergency Department, Medical-Surgical care areas, and Women and Children care areas.

She and nine other award nominees - Sheila Ballou, RN, Joann Bobbin, RN, Stephanie Chirico, RN, Kathleen Jaffe, RN, Nora Kramer, RN, Martha Michael, RN, Anita Sermonia, RN, Joyce Stout, RN, and Bernadette Yuknek, RN - were honored in the DePalma

Auditorium on May 8. A Luncheon was also held in their honor on May 11.

In other Nurses' Week activities:

Laughter was plentiful at the keynote speaker sessions as Elaine Lundberg presented "Laugh for the Health of It" and "De-Stressed for Success" to Nursing staff members. Ms. Lundberg, a humor therapist, demonstrated a variety of techniques for using humor to enhance life and work.

Twenty-seven professional posters displaying the talents and innovative care strategies of Jefferson nurses were displayed on the Mezzanine level of the Atrium throughout the week. Staffs of the Jefferson Pharmacy, Jefferson Apothecary and Jefferson Home Infusion Service recognized Jefferson nurses by sponsoring a tasty treat of Philadelphia Tasty-Kakes on the

Hindson Award from Mary Anne McGinley, RN, PhD, Senior Vice President for Patient Services and Chief Nursing Officer, Thomas Jefferson University Hospital. nursing units. To cap off the week, Fran Cunningham, RN, of the Geriatric Psychiatry nursing unit at the Jefferson Hospital for Neuroscience, won the Nurses' Week raffle. She will enjoy a Saturday night stay for two at the Ritz-Carlton Hotel.

Herbal Medicine Explored at Conference June 9

Healthcare providers are invited to "A Practitioner's Guide to Herbal Medicine" to gain a core understanding of herbal medicine, the fastest growing area of alternative healthcare practices in the United States and Europe. The conference at the Bluemle

Life Sciences Building on Saturday, June 9, from 10 a.m. to 6 p.m. is sponsored by the hospital's Center for Integrative Medicine and the College of Health Professions (CHP), Continuing Education (CE) Office. Call 215-503-3131 or go to www.TJU-CE.org

Charles B. Higgins, MD, To Deliver 14th Annual Hodes Lecture June 5

Charles B. Higgins, MD, Professor of Radiology, University of California, San Francisco, will deliver the 14th annual Philip J. Hodes Lecture at 5 p.m., June 5, in Solis-Cohen Auditorium. He will speak on "The Emergence of

Cardiovascular MRI: Diagnostic Efficiency of a Single Noninvasive Test." The event is sponsored by the Department of Radiology, Jefferson Medical College and Thomas Jefferson University Hospital.

"His death was so sudden. And I feel awful that my youngest may not remember him. I do not know how to move on. And I don't know what to tell the children." For grief and loss issues, contact FirstCALL.

Months

June is **Hernia Awareness, National Safety, National Scleroderma Awareness and Vision Research month.**
Continues through June 17 - **National Family and Oncology Nursing month.**

Weeks and Days:

JUNE 3: Cancer Survivor Day.
JUNE 3 - 9: National Aphasia Awareness and National Headache Awareness Week.
JUNE 7: Career Nursing Assistants Day.
JUNE 7 - 14: Nursing Assistants Week.
JUNE 11 - 17: National Men's Health Week.
JUNE 11 - 18: National Vascular Nursing Week.
JUNE 18 - 25: National Community Health Nursing Week.
JUNE 27: HIV Testing Day.

BROWN BAG LUNCHES**Tuesday, June 12**

- Lesbian and gay lunch group for staff, students and other members of the Jefferson community, noon. Call Naomi at 5-2578 for location.

- Jefferson Cocaine Treatment Program, Karol Kaltenbach, PhD, Director, Family Center and Assistant Professor of Pediatrics, and Psychiatry and Human Behavior, "Pregnancy and Methadone," noon to 2 p.m., 2nd floor conference room, 1021 S. 21st Street.

CONFERENCES AND SEMINARS**Friday, June 1**

- Kimmel Cancer Center, Research in Progress, noon, 105 BLSB.

Monday, June 4

- Microbiology and Immunology, Hilary Koprowski, MD, Professor, "New Insights into Neurodegenerative Diseases," 9 a.m. to 4 p.m., 101 BLSB. Call 503-1420.

Thursday, June 7

- Family Medicine, Edna G. Kynett Memorial Foundation lecture, Shahbudin H. Rahimtoola, MB, FRCP, MACP, MACC, Professor of Medicine, G.C. Griffith Professor of Cardiology, Dept. of Medicine, University of Southern California, Los Angeles, "Aortic Stenosis in Older People," 10:25 to noon, 105-107 BLSB.

- Kimmel Cancer Center, Michael Levine, MD, Division of Genetics, University of California, "Transcriptional Control of Drosophila and Ciona Embryogenesis," noon, 101 BLSB.

Saturday, June 9

- Center for Integrative Medicine and CHP, Continuing Education Office, Jaclyn Gleber, RDH, EdD, Director, CE Office, CHP, Steven Rosenzweig, MD, FACEP, Director, Hospital's Center for Integrative Medicine, and Clinical Associate Professor of Emergency Medicine, JMC; Simon Mills, MA, FNIMH, MCP, Founder Director, Centre for Complementary Studies, University of Exeter, and Honorary Secretary European Scientific Cooperative on Phytotherapy (ESCOF); and John L. Randall, MD, Alumni Professor of Family Medicine and Dept. Chair, JMC, "A Practitioner's Guide to Herbal Medicine," 10 a.m. to 6 p.m., 1990 Gibbon. Call 1-215-503-3131 or go to www.TJU-CE.org

Sunday, June 10

- Center for Integrative Medicine and CHP, Continuing Education Office, Medicinal Plant Walking Tour, 1 to 4 p.m., Morris Arboretum, Widener Visitor Center in Chestnut Hill. Call 215-247-5777 for directions.

Wednesday, June 13

- Office of Health Policy Forum, Robert Parsons, MD, Regional Medical Director, Renaissance Health Alliance, "The Genesis of the Renaissance Health Alliance," 8:30 to 9:30 a.m., 105 Curtis.

Friday, June 15

- Kimmel Cancer Center, Research in Progress, 105 BLSB.

Reminder to all Jefferson Employees:

As a Delta Dental subscriber, you don't need a card to give to your dentist. Your Social Security number is your Delta ID. (Your Group No. is 2564, Plan is Delta of PA.) Questions? Call 1-800-932-0783 or www.DeltaDental.com

Friday, June 22

- Kimmel Cancer Center, Research in Progress, noon, 105 BLSB.

Monday, June 25
