          (Rain Location - Hamilton Building, 1001 Locust Street, Lobby)
Shared Professional Values of Sidney Kimmel Medical College

As a physician or future physician, I recognize the implicit trust placed in me by patients and society. Therefore, I commit to embodying the highest standards of civility, honesty, and integrity in all aspects of my personal and professional life. These standards include my interpersonal relationships, my academic pursuits, and my medical practice. I will strive to communicate sincerely and effectively with my patients and their families. I will treat everyone compassionately, providing respect and protection of privacy, dignity, and individuality.

As part of the trust that society has placed in me, I will advocate for outstanding patient care. I will endeavor to work effectively with other members of the health care team to provide the safest and highest quality patient care. Because I recognize limitations in my knowledge and skills, I will commit to lifelong learning to improve my ability to care for my patients.

The Hippocratic Oath

I do solemnly swear by that which I hold most sacred:

That I will be loyal to the profession of medicine, just to its members, and generous to its institutions;

That I will lead my life and practice my art in uprightness and honor;

That I will give respect and gratitude to those who have taught me this art;

That into whatsoever house I shall enter, it shall be for the good of the sick to the utmost of my power, I holding myself aloof from wrong, from corruption, from the tempting of others to vice;

That I will exercise my art for the best care of my patients, and I will give no drug, perform no operation for a criminal purpose, even if solicited, far less suggest it;

That whatsoever I shall see or hear of the lives of my patients, which is not fitting to be spoken, I will keep inviolably secret.

These things I do promise upon my honor.
