Jefferson Geriatrics is dedicated to providing comprehensive, coordinated care for older adults. Our doctors are certified in family medicine and geriatric medicine, and see patients 55 years old and up.

Jefferson Geriatrics:

**Meets a Growing Need**
- The population is dramatically aging
- Those age 65 and older currently comprise approximately 13% of the population, but by 2040, are expected to comprise more than 20%. The number of those age 85 and older is expanding even more rapidly

**Provides Comprehensive, Coordinated Care**
- Jefferson Geriatrics is recognized by the National Committee for Quality Assurance (NCQA) as a Level 3 Patient-Centered Medical Home — where a team-based health care delivery model is used to provide comprehensive and continuous medical care
- We provide primary care or consultation services
Thomas Jefferson University Hospital continues to be a regional leader in geriatric medicine. We are dedicated to optimizing the health and quality of life for older persons and those with serious illness by partnering with patients, families and communities.
