Master of Science in Human Genetics And Genetic Counseling

2017-2018

DRAFT

STUDENT HANDBOOK

*All Policies in this handbook are currently under review and subject to change
Notice of Equal Opportunity

Thomas Jefferson University is committed to providing equal educational and employment opportunities for all persons without regard to race, color, national or ethnic origin, marital status, religion, sex, sexual orientation, gender identity, age, disability or veteran’s status. The consideration of factors unrelated to a person's ability, qualifications and performance is inconsistent with this policy. Any person having inquiries or complaints concerning Thomas Jefferson University's compliance with Title VI, Title IX, the Age Discrimination Act of 1975, the Americans with Disabilities Act, or Section 504 of the Rehabilitation Act is directed to contact their Student Affairs Dean or Human Resources – Employee Relations, who have been designated by Thomas Jefferson University to coordinate the institution's efforts to comply with the these laws. Any person may also contact the Assistant Secretary for Civil Rights, U.S. Department of Education, Washington, D.C. 20202, or the Director, U.S. Department of Education, Office for Civil Rights, Region Three, Philadelphia, Pennsylvania, regarding the University's compliance with the equal opportunity laws.

***

Provisions of this Handbook

The intent of this handbook is to describe the general policies and procedures regarding the Jefferson College of Biomedical Sciences for the 2017 - 2018 academic years. It is not intended to be a binding, irrevocable contract between Thomas Jefferson University and the student. The institution reserves the right to alter without notice its policies, procedures, fees, and academic offerings as is deemed expedient and necessary. Additional general university-wide policies are available on the Thomas Jefferson University Student Handbook website (http://www.jefferson.edu/university/academic-affairs/schools/student-affairs/student-handbooks.html).

For more current information about our graduate programs, consult our Jefferson College of Biomedical Sciences website at: http://www.jefferson.edu/university/biomedical-sciences.html. Thomas Jefferson University is fully accredited by the Commission of Higher Education of the Middle States Association of Colleges and Schools.

The Jefferson College of Biomedical Sciences offers Ph.D. programs in biochemistry and molecular pharmacology; cell and developmental biology; genetics, genomics and cancer biology; immunology and microbial pathogenesis; and neuroscience. An M.D./Ph.D. program is offered jointly by the Jefferson College of Biomedical Sciences and Sidney Kimmel Medical College. The College of Biomedical Sciences also offers M.S. programs in biomedical sciences, cell and developmental biology, human genetics and genetic counseling, microbiology, pharmacology, clinical research and forensic toxicology. Additionally the College offers graduate certificate programs in clinical research and trials: implementation, clinical research: operations, human clinical investigation: theory, infectious disease control, and patient-centered research.

For individuals seeking to complete their basic science requirements in preparation for entrance to medical and other health-professional schools, the Jefferson College of Biomedical Sciences offers a Post-baccalaureate Pre-Professional Program (P4). It is also the administrative home of the Office of Postdoctoral Affairs.

The administrative offices of the Jefferson College of Biomedical Sciences are located on the mezzanine floor of Jefferson Alumni Hall, 1020 Locust Street. The Office of the Dean and Office of Finance and Business Planning reside in suite M-63. The Office of the Post-baccalaureate Pre-Professional Program is in room M-60. The Office of Admissions, Office of Academic Services, and Office of Postdoctoral Affairs are located in suite M-46. The Director of Admissions and staff handle all materials of applicants seeking admission to the College. Enrollment and all academic records of matriculated and non-degree students are administered by the University Registrar and staff, located in the Curtis Building, 1015 Walnut Street. The University Financial Aid Office, located on the 1st floor of the Curtis Building, assists students with student loans and other financial matters.

The Graduate Council has jurisdiction over academic policy, acting on behalf of the Graduate Faculty. Its membership consists of representatives of the graduate degree programs. Under the chairmanship of the Dean, the Council approves new programs and courses, and acts on student requests and petitions regarding academic matters. Each Ph.D. and M.S. degree program is supervised by a faculty committee, headed by a program director.

The Office of Postdoctoral Affairs within the College of Biomedical Sciences oversees matters related to postdoctoral training, including establishment of personnel policies for the postdoc population, coordinating career seminars and extracurricular activities.
Master of Science Program in Human Genetics and Genetic Counseling

Mission Statement

The Jefferson Human Genetics and Genetic Counseling Program’s mission is to provide an integrated approach in the education and training of genetic counselors focused on human genetics, counseling and inherently related ethical, psychosocial, and legal issues. Program graduates will be scholarly, compassionate genetic counselors able to excel in education, research and clinical care.

This mission is in concert with that of the sponsoring institution, as the Jefferson College of Biomedical Sciences within Thomas Jefferson University strives to provide the highest quality graduate education and research training in order to prepare students to make significant contributions to their chosen field through careers within academia, industry, and beyond.

Overview

During the two years spent as a graduate student in the Human Genetics and Genetic Counseling program, students will learn the principles of genetic counseling and medical genetics and their application to clinical genetics health care. Ultimately, students will acquire the knowledge and clinical skills to function as a competent and caring genetic counselor in a wide range of settings and roles. The curriculum of the program has been designed to provide students with in-depth knowledge regarding principles of human and medical genetics, the psychosocial impact of genetic disorders, and the research process in genetic counseling. Students will obtain basic content through course work and learn to apply the information through clinical rotations and a capstone research project/thesis. In addition, students will gain experience through attendance and presentations in conferences, seminars, workshops and community outreach.
## Curriculum

### YEAR ONE

#### YEAR 1 - FALL
- Intro to Genetic Counseling (1)
- Human Genetics (3)
- Embryology (3)
- Clinical Cardiovascular Genetics (1)
- Medical Genetics I (2)
- Clinical Applications I (2)
- Lab/Clinical Observer Rotation (1)

#### YEAR 1 - SPRING 1
- Pathobiology of Cancer (2)
- Clinical Cancer Genetics (2)
- Medical Genetics II (2)
- Psychosocial Issues in Genetic Counseling (4)
- Clinical Applications II (1)
- Clinical Rotation 1 day/wk (1) - prenatal

#### YEAR 1 - SPRING 2
- Gene Environment Interactions in Birth Defects and Disease (3)
- Metabolic Genetics I (2)
- Applied Statistics for the Biomedical Sciences (2)
- Research Design & Methods For Genetic Counselors (2)
- Clinical Applications III (1)
- Clinical Rotation 2 days/wk - cancer (2)

#### YEAR 1 - SUMMER
- Genetic Counseling Theory and Practice I (2)
- Practical Issues in Genetic Counseling (1)
- Thesis I (2)
- Clinical Rotation 3 days/wk - peds (3)

### YEAR TWO

#### YEAR 2 - FALL
- Thesis II (2)
- Genetic Counselor Workshop and Seminar I (2)
- Genetic Counseling Theory and Practice II (2)
- Metabolic Genetics II (2)
- Genetic Basis of Neurologic and Psychiatric Disease (1)
- Clinical Rotation 3 days/wk (3)

#### YEAR 2 - SPRING 1
- Thesis III (2)
- Genetic Counseling Workshop and Seminar II (2)
- Clinical Rotation 3 days/wk (3)

#### YEAR 2 - SPRING 2 - SUPPLEMENTARY ONLY*
- Thesis*
- Clinical Rotation*
- Board Review Course*
ENROLLMENT INFORMATION

A student is ultimately responsible for meeting all requirements for a degree and for graduation. Mentorship by advisors, faculty, the thesis research committee, and the deans is offered in an advisory capacity only; it is the student who must assure that all course, credit, and graduation requirements are fulfilled. Foreign national students who hold an F-1 or J-1 visa are required to be continuously enrolled in order to maintain lawful immigration status in the United States. Any change in enrollment must be approved by the Program Director and the Office of International Affairs, http://www.jefferson.edu/university/international_affairs.html.

Enrollment / Registration

It is the responsibility of the student to be familiar with and observe the academic policies of the College in all matters including course registration, adding and dropping courses, and withdrawal from courses and/or the College as stated in this Handbook. While the College will maintain student records, it is the student’s responsibility to ensure that his/her academic record is accurate.

To receive credit for a graduate course, students must enroll through the University Office of the Registrar at the time of registration prior to the beginning of each semester. Registration is available online via Banner Web and must be completed by the dates specified. Non-payment of tuition by the specified due date may result in the cancellation of registration.

Each student is also required to obtain an ID card through the Photo ID Center on campus. Refer to the section in the TJU Student Handbook.

Banner Web

The Banner Web information system is available for students and faculty to more conveniently access academic records and process routine academic functions. The Banner Web system can be found at https://banner.jefferson.edu/. Appropriate security features have been built in to maintain confidentiality of this information.

Features that are available through the internet include:

- Application for admission
- Application for financial aid
- Course registration
- Viewing of course schedules
- Viewing of final grades
- Request for transcript
• Payment for tuition charges
• Viewing and updating demographic information

Degree Works

Degree Works is an easy-to-use online set of academic planning tools that assists students and advisors in tracking and planning academic progress and ultimate completion of degree requirements. Degree Works is integrated with Banner curriculum information to provide real-time degree counseling capabilities, giving students meaningful and consistent direction and providing advisors and student record managers with up-to-date curriculum and course completion information as well as identifying outstanding requirements needed for graduation.

http://www.jefferson.edu/university/academic-affairs/tju/academic-services/registrar/degree-works.html

Compliance with University Health Regulations

Upon admission to the Jefferson College of Biomedical Sciences, all students are required to provide to University Health Services a pre-matriculation report of medical history, health evaluation, and proof of inoculation. Appropriate forms are sent to all new students prior to the Fall Semester or prior to matriculation at any other time. The physical examination may be given either by the student’s private physician or at University Health Services at the student’s expense. A student must take care of this matter prior to the time of matriculation. Failure to comply with this regulation will result in the student not being allowed to register for the following semester. See additional policy on Medical Requirements.

http://hospitals.jefferson.edu/departments-and-services/university-health-services/

Laboratory Safety Training

Occupational Safety and Health Administration (OSHA) regulations state that all students who will be working in a laboratory setting are required to be trained in proper laboratory safety procedures. The Jefferson Department of Environmental Health and Safety provides this training for all new students following matriculation.

http://www.jefferson.edu/university/facilities_management/safety/environmental_health_safety.html
Clinical Rotations

Clinical Affiliation Agreements or Master Agreement between Jefferson and their clinical sites may specify that certain program policies will be superseded by those at the clinical site.

Policies and Procedures – TBD

Comprehensive List of Clinical Sites -TBD

Credits

Jefferson students in the Jefferson College of Biomedical Sciences pursuing a Master of Science degree in Human Genetics and Genetic Counseling are matriculated into the full time program. However, for national and state statistical reporting purposes, a student is considered a “full-time” student if carrying a course load of nine credits or more per semester. One credit in graduate courses represents one hour of lecture or one day of clinical rotation per week for a minimum of twelve weeks. Six credits are designated for thesis/capstone research project.

Grading System

The following scale, effective the Fall Semester of 1994, gives the suggested numerical equivalent for faculty who wish to do the initial grading by using a numerical scale. Only a letter grade will appear on the official transcript.

<table>
<thead>
<tr>
<th>Grade</th>
<th>Quality Points</th>
<th>Suggested Numerical Equivalent</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>4.0</td>
<td>90 or above</td>
</tr>
<tr>
<td>A-</td>
<td>3.7</td>
<td>87-89</td>
</tr>
<tr>
<td>B+</td>
<td>3.3</td>
<td>84-86</td>
</tr>
<tr>
<td>B</td>
<td>3.0</td>
<td>80-83</td>
</tr>
<tr>
<td>B-</td>
<td>2.7</td>
<td>77-79</td>

<tr>
<td>S</td>
<td>--</td>
<td>Satisfactory/ Pass</td>
</tr>
</tbody>
</table>
Auditing

Auditing a course without registration and receiving a grade is not permitted.

Grade Point Average (GPA)

The grade point average is derived from the grades and credit hours of courses taken. For each course graded A through F, multiply the number of Quality Points (QPTS - see above for 4.0 scale) by the GPA Hour (GPAH - Courses graded A through F) credit value. Add the products of these multiplications for each course and divide that sum by the sum of GPA Hours to arrive at the GPA. Courses for which a student has the designation of S, U, W, or I and grades for transferred courses, are not included in the computation of the grade point average.

Grades are a part of the student’s permanent record. Once submitted and entered on the student’s transcript, no changes will be made to this record, with the exception of entering the final grade to replace an “I” or correcting an inappropriate grade. (Refer to “Change of Grade”.)

Change of Grade

To change a student’s grade of “I” (Incomplete) or to correct a grade, the professor/instructor should complete and sign a Grade Change form, available in the University Office of the Registrar. A student who believes that s/he has received an inappropriate grade should contact the instructor or course coordinator. If the outcome is not satisfactory to the student, further review may be pursued with the Dean of the JCBS. A change of grade may be made within four weeks from the last day or final examination of the course.

Transcripts

Students may review their grades and unofficial transcript on Banner Web at any time. A fee of $5 per transcript will be charged for each official transcript issued. All transcripts must be ordered online at. [http://www.jefferson.edu/university/academic-affairs/tju/academic-services/registrar/resources/transcripts.html](http://www.jefferson.edu/university/academic-affairs/tju/academic-services/registrar/resources/transcripts.html). The college reserves the right to withhold transcripts from students under certain circumstances, such as defaulting on a loan or having financial obligations to the University.

An official transcript, printed on security paper, is identified by the signature of the University Director of Student Records. Alteration or forgery of such a document is a criminal offense.
Family Educational Rights and Privacy Act of 1974 prohibit release of educational records to a third party without the student’s written consent. Upon receipt of the written request by the student and the payment of the fee, the transcript may be released to the third party. If the third party requires the student to submit an official transcript with other materials, the transcript is stamped “Issued to Student”, is enclosed in a sealed envelope with the signature of the Director of Student Records across the sealed flap, and is then given to the student to submit to the third party.

Changes of Schedule: Dropping and Adding Courses

Students who wish to revise their schedules after registration must complete a Drop/Add Form and return it with the signatures of their advisor or program director to the University Office of the Registrar. Students may drop a course before the third class meeting. A course that is dropped does not appear on the student’s transcript.

Students, in consultation with their advisors, are responsible for making certain that any changes in schedule will fulfill requirements for the degree. Students receiving financial aid should also consult with the University Office of Financial Aid regarding the effect that changing their academic schedule may have on their eligibility for aid.

Students who stop attending classes without filing the required Course Drop form will be responsible for the full payment of tuition and may receive a failing grade for the course. Verbal notification to the course instructor or the Registrar’s Office does not constitute an official course drop. Similarly, students who attend classes without properly registering for or adding a course will not receive credit for the course. The addition of a student’s name to the class list by an Instructor does not constitute course enrollment.

Course Withdrawal

After the conclusion of the Drop period, students may withdraw from a course by obtaining the appropriate form from the University Office of the Registrar and securing the signatures of their advisor or program director. A student who is authorized to withdraw from a class prior to the date published in the Academic Calendar will receive a grade of “W” if the student’s performance is at a passing level. If the student is failing at that time, a grade of “F” will be recorded. No credits or quality points are given for either grade, which will remain on the student’s permanent record. However, the grade of “F” is included in the calculation of the student’s grade point average, while the grade of “W” is not.

A student is not allowed to withdraw after the end of the third quarter of the course and will receive the grade or “F” if s/he does not complete the course. For the present purpose, the course begins the first day of that class, which may be later than the first day of the semester.

Students who stop attending classes without filing the required Course Withdrawal form will be responsible for the full payment of tuition and will receive a grade of “F” for the course. Verbal notification to the course instructor or the Registrar’s Office does not constitute an official course withdrawal.
In order to receive credit for a course from which a student has withdrawn, the student must re-register for the course in a subsequent term.

**Failure to Complete a Course**

A student, who has not met all requirements of a course, may be given the grade of “I” (Incomplete). A grade of “I” indicates that the instructor is not prepared to give a grade for the course because the student has not completed all requirements for the course. This grade automatically becomes an “F” if the work is not completed and a grade is not submitted by the instructor within four weeks after the end of the course or the final examination.

**Academic Probation**

In order to be considered making satisfactory academic progress, the student is required to maintain a cumulative grade point average of no less than B (3.0). A student whose grade point average falls below B or who has more than 1 incomplete grade or who fails to make progress toward the degree in accordance with the requirement adopted by the graduate faculty is not meeting standards and will be placed on academic probation. Students on academic probation will regularly meet with program leadership to report their progress. They will have the following semester to make up the deficiency. Students on academic probation who have not been able to obtain a cumulative grade point average of 3.0 or higher after a probationary semester must petition the Graduate Council for permission to continue as a student in the College, or be discharged from the College. The student must submit the petition in writing to the Dean of the College of Biomedical Sciences for consideration by the Graduate Council. The petition should include pertinent, detailed information in support of the request to continue graduate study. The student must also request a written statement from the director of the graduate program; this statement should be forwarded to the Dean.

The Graduate Council will make a decision either to allow the student to continue study in the College or to dismiss the student. In the former case, Council will define a set of recommended conditions under which the student may be allowed to continue study. The decision of the Council will be provided to the student in writing and is final.

**Failure in a Course**

A student who receives a grade of “F” must petition the Graduate Council for permission to continue graduate study. The student must submit the petition in writing to the Dean of the JCBS for consideration by the Graduate Council. The petition should include pertinent, detailed information in support of the request to continue graduate study. The student must also request a written statement from the director of the graduate program; this statement should be forwarded to the Dean.
The Graduate Council will make a decision either to allow the student to continue study in the College or to dismiss the student. In the former case, Council will define a set of recommended conditions under which the student may be allowed to continue study. The decision of the Council will be provided to the student in writing and is final.

The grade of “F” will remain on the student’s permanent record and will be computed in the student’s grade point average. No credit for the course will be earned.

Repeating a Course

A student who has been placed on probation or who receives a grade of “C” in a course that is a requirement of the student’s degree program, may be required to repeat the course. As a general policy, graduate students are encouraged to select courses that increase their scholarship. If a student requires additional exposure to a discipline, taking a new course in that area, rather than repeating a course, is strongly recommended. If a serious deficiency in fundamental knowledge is present, a student may request permission to repeat a basic course in that discipline, subject to the following stipulations:

A course may be repeated only once. The student must obtain prior approval from the student’s advisor, program director, and the Dean. Whenever a course is repeated, no additional hours attempted will accrue, and the latter grade replaces the previous grade in computing the grade point average, and in assignment of academic credit. Both grades remain a part of the student’s permanent academic record.

Transfer of Credits

Credits previously applied to a Master of Science degree may be eligible for transfer into the course requirements for either a master’s or doctoral degree. A student wishing to transfer credits for a graduate course earned at another institution, should submit a written request to the director of the graduate program at Jefferson, accompanied by a course description and a syllabus. A grade of B or better is required in each course for which transfer of credits is requested. An official transcript from the outside institution should be obtained if not already included in the student’s academic file. The student should request from the director of his/her graduate program a written assessment in support of this request for credit transfer. All the above materials should then be forwarded to the JCBS Dean’s Office for review. Grades for courses for which transfer of credits is approved are not recorded on the student’s transcript and are not used to compute the grade point average. When necessary, credits from the other institution will be converted to credit equivalents in the Jefferson College of Biomedical Sciences, as defined in this handbook.

A maximum of 18 graduate course credits earned at another graduate college may be transferred to meet, in part, the 54 credit formal course work requirement for the PhD degree. For coursework taken at JCBS as part of a regular MS program, this limit is increased to 28, exclusive of courses such as research or clerkships, that are not eligible for transfer. Extension of the limit beyond 18 credits to 28 credits shall be at the discretion of the student’s PhD graduate program, and a letter of support from the Program Director is required, along with the student’s own letter requesting the
credit transfer. Unless otherwise specified to suffice for required courses that are part of the PhD curriculum, these transferred credits shall be considered as “elective” courses. Students transferring from an MS to a PhD program are still subject to all credit and required course requirements of the College and their respective PhD Program.

Nine (9) didactic semester hours may be applied toward course requirements for Master of Science degree programs in the basic sciences.

Graduate course credits previously applied to an undergraduate degree will not be considered for transfer towards a graduate degree.

**Change of Student Status**

Any change in student personal data information or student status requires completion of the appropriate form which may be obtained in the University Office of the Registrar or may be available via the Banner Website.

**Leave of Absence**

A student in good standing asking for a leave of absence from the College is required to submit a written request to the director of the graduate program indicating the effective start and end dates and reasons for the leave. The student should also request a letter of support for the leave from their research advisor and their program director. The student should forward the request, accompanied by the above letter(s), to the Dean’s office for final approval. The student will receive a written confirmation or denial of the request for a leave. By a prescribed date, as noted in the confirmation letter, the student must notify their research advisor, program director, the Dean’s office and the University Registrar of his/her intention to return to graduate study. A leave of absence may be granted for a maximum of one year. The student, however, may return to graduate study prior to the designated end of the leave, provided due notice is given to, and approval obtained from, the student’s research advisor, program director, the Dean, and to the University Registrar. Throughout the leave period, it is the student’s responsibility to stay in touch with and keep their advisor, program director, and the dean’s office informed of their status and intent to return from their leave of absence. If the student does not return to graduate study by the end of the leave, the College may administratively withdraw the student from his/her graduate program. A leave will not be granted to students with outstanding financial obligations to the University.

For medical leaves of absence students must proceed through University Health Services, which will notify the Office of the Dean of its recommendation regarding a medical leave. No medical leaves will be reviewed or received without the endorsement of the Director of University Health Services, or other physicians designated by the Director of University Health Services.

Medical leaves will be for a period of up to one year. A leave of more than one year’s duration will be granted only under the most extraordinary circumstances and only after review by the Office of the Dean. Prior to reentry, which may be applied for prior to the one year anniversary, appropriate
medical screening will be arranged by the Director of University Health Services with consultation, if necessary, to provide assurance of the student’s fitness to return to graduate study.

 Withdrawal from the College

Students wishing to withdraw from the College must do so in writing, specifying an effective date, to the Dean. Proper notification must also be made to the student’s advisor and program director. The official date of withdrawal is normally the date approved by the Dean. The student will receive written notification of the decision for withdrawal from the Dean’s office.

 Graduation

Candidates for the degree of Master of Science must have successfully completed all course credits and other requirements of the program, and have a cumulative grade point average of B (3.0) or higher on all work attempted. Candidates for a Master of Science degree in the basic sciences must submit one bound copy of their thesis to the Jefferson College of Biomedical Sciences.

All financial commitments to Thomas Jefferson University must be fulfilled prior to graduation, including payment of late library fines, housing fees, and tuition. The student’s diploma will be withheld until the above criteria are met.

It is the policy of the Jefferson College of Biomedical Sciences not to award honors to graduates with the doctor of philosophy or Master of Science degree.

 Graduation: Diploma; Cap, Gown, and Hood

Each student expecting to graduate in a given year should complete an Application for Degree Certificate by the date specified by the University Office of the Registrar prior to the final semester of degree completion. All students eligible for graduation will be notified concerning graduation materials by the Registrar’s Office. These materials include an Application for Degree Certificate which must be completed and submitted by the date published in the Academic Calendar, order forms for the diploma and cap and gown for Commencement Exercises, and information about the ceremony and rehearsal times. The cap, gown, and hood become the property of the graduate. Their cost and that of the diploma are fully covered by the Jefferson College of Biomedical Sciences. The cost of replacing a diploma lost or damaged by the alumnus/a is the responsibility of that alumnus/a. Request for replacement diploma should be made to the University Office of the Registrar along with circumstances concerning the loss or damage of the original diploma. Any questions regarding graduation may be directed to Jefferson.Graduation@jefferson.edu
Fees and Expenses

The Board of Trustees reserves the right to amend or add to the regulations concerning fees and method of payment and to make such changes applicable to present as well as future students.

Graduate Student Fees

The comprehensive fee covers all fees for graduate students matriculated in full-time programs including tuition, laboratory use, and graduation costs. Students matriculated in part-time programs and all students who take courses on a non-degree basis will be charged tuition fees on a per-credit basis. The maximum tuition that a matriculated student is charged each academic year will not exceed the comprehensive fee for a program at the same degree level. More information about tuition fees is contained on the JCBS website: http://www.jefferson.edu/university/biomedical-sciences.html.

Payment of Fees

Payments of all fees, including tuition, may be made by cash, check, bank draft, or money order at the University Tuition and Cashier’s Office, telephone: 215-503-7669. Thomas Jefferson University Curtis Center Room 925 E 601 Walnut Street Philadelphia, PA 19106. On-line payment of either check or credit card (Visa or MasterCard) can be made through Banner Web. All payments are due by the date indicated on the invoice. Any course enrollments will be automatically dropped if payment or satisfactory payment arrangements are not completed by the semester’s due date. A student may re-enroll in classes once their financial obligation is met and they pay a $50 re-enrollment fee. The University offers an extended payment plan through Tuition Management Systems.

Any student, who fails to complete registration, including the payment of all financial obligations due the University, shall be deprived of the privileges of the College. Payment of all outstanding financial obligations must be completed in order to receive credit and grades for the semester in which s/he is currently enrolled and to be permitted to enroll for the following semester. Should the student default on any tuition payment, it will result in submission of the account to a collection agency. All attorney’s fees, collection costs, and charges necessary for the collection of any amounts not paid when due will be the responsibility of the student.
Jefferson College of Biomedical Sciences Awards

Several awards and scholarships are offered through the College. Some of these awards are described below. Specific details of these and other awards are available in the Finance Office of the Jefferson College of Biomedical Sciences located in M-63, Jefferson Alumni Hall.

Jefferson College of Biomedical Sciences Alumni Thesis Prize

This award, made possible through the support of the Jefferson College of Biomedical Sciences Alumni Association, is given to a candidate for the Doctor of Philosophy or Master’s degree for an important original contribution to scientific literature.

Jefferson College of Biomedical Sciences Alumni Travel Fellowships

These awards are used to assist graduate students attending national or other major scientific meetings related to their program of study or a career/professional development opportunity. Applications for these funds are available on the College’s website under Student Resources, Policies & Guidelines.

Foerderer Grants for International Study

The Foerderer Foundation has approved grants for Thomas Jefferson University students to use for a study abroad experience. Students in the Jefferson College of Biomedical Sciences have the opportunity to present a study plan and apply for funding to supplement a partial personal contribution to the costs. Applicants must submit a proposal including the objectives and outcomes of the experience, designated faculty mentors both here and abroad, and a description of the site. If you have questions or need access to resources for developing a study plan, contact the Office of International Affairs for assistance.

Rieders Faculty Prize in Graduate Education

This annual award recognizes outstanding performance by a JCBS faculty member engaged in the education of graduate students at the doctoral or Masters Level including lecturing in didactic courses, research training in the laboratory setting, or other aspects of student mentorship.
Standards and Policies

Academic Integrity Policy

The Administration and Faculty of the Jefferson College of Biomedical Sciences believe that academic integrity is one of the most important values and behaviors that should be practiced by students during their studies. Because we are committed to training future scientists and educators who perform the highest quality of research, the College Administration and Faculty are equally committed to mandating and enforcing the practice of academic integrity by all students. The following policy on academic integrity defines dishonesty and describes the procedures for responding to charges of academic dishonesty in the College.

Forms of Academic Dishonesty

Plagiarism

As stated in the American Medical Association Manual of Style, “in plagiarism, an author passes off as his or her own the ideas, language, data, graphics or even scientific protocols created by someone else, whether published or unpublished.”

When a student submits work for credit that includes the words, ideas or data of others, the source of that information must be acknowledged through complete, accurate and specific references, and, if verbatim statements are included, through quotation marks as well. By placing his or her name on work submitted for credit, the student certifies the originality of all work not otherwise identified by appropriate acknowledgments.

Examples of plagiarism include, but are not limited to:

1. Quoting another person’s actual words, complete sentences or paragraphs, or entire pieces of written work without acknowledgment of the source.

2. Using another person’s ideas, opinions or theories, even if they are completely paraphrased in one’s own words, without acknowledgment of the source.

3. Noting the original source of only a part of what is borrowed.

4. Borrowing facts, statistics or other illustrative materials that are not clearly common knowledge without acknowledgment of the source.

5. Copying another student’s essay test answers.

6. Copying, or allowing another student to copy, a computer file that contains another student’s assignment and submitting it, in part or in its entirety, as one’s own.
7. Working together on an assignment, sharing the computer files and programs involved and then submitting individual copies of the assignment as one’s own individual work. Students are urged to consult with individual faculty members if in doubt.

Fabrication

Fabrication is the use of invented information or the falsification of research or other findings with the intent to deceive. Examples include, but are not limited to:

1. Citation of information not taken from the source indicated. This may include the incorrect documentation of secondary source materials.

2. Listing sources in a bibliography not directly used in the academic exercise.

3. Submission in a paper, thesis, lab report or other academic exercise of falsified, invented or fictitious data or evidence, or deliberate and knowing concealment or distortion of the true nature, origin or function of such data or evidence.

4. Submitting as one’s own any academic exercises prepared totally or in part by another.

Cheating

Cheating is an act or an attempted act of deception by which a student seeks to misrepresent that he or she has mastered information on an academic exercise that he or she has not mastered. Examples include but are not limited to:

1. Copying from another student’s test paper or allowing another student to copy from a test paper.

2. Using the course textbook or other material such as a notebook brought to a class meeting but not authorized for use during a test.

3. Collaborating during a test with any other person by receiving information without authority, or collaborating with others on projects where such collaboration is not expressly permitted.

4. Using or possessing specifically prepared materials during a test, e.g., notes, formula lists, notes written on the student’s clothing, etc., that are not authorized.

5. Taking a test for someone else or permitting someone else to take a test in one’s place.

6. Exchanging information, e.g., through electronic (text messaging) or physical (tapping pencils or other objects) means.

7. Entering any office or opening a file to obtain a test or answer key.

8. Viewing test materials on a secretary’s or faculty member’s desk.
9. Passing quiz/test questions or answers from one student to another, even after the test is completed.

10. Copying a posted answer key without permission.

11. Discussing test questions or answers outside the examination room while the test is in progress.

Academic Misconduct

Academic misconduct is the intentional violation of University policies, by tampering with grades, or taking part in obtaining or distributing any part of an unadministered test. Examples include, but are not limited to:

1. Stealing, buying or otherwise obtaining all or part of an unadministered test.

2. Selling or giving away all or part of an unadministered test including answers to an unadministered test.

3. Bribing any other person to obtain an unadministered test including answers to an unadministered test.

4. Entering a building or office for the purpose of changing a grade in a grade book, on a test or on other work for which a grade is given.

5. Changing, altering or being an accessory to the changing and/or altering of a grade in a grade book, on a test, in a computer, on a “change of grade” form or other official academic records of the University which relate to grades.

6. Entering a building or office for the purpose of obtaining an unadministered test.

7. Continuing to work on an examination or project after the specified allotted time has elapsed.

8. Signing into classes for others.

Sanctions

Two possible sanctions exist for cases of academic dishonesty. Option A outlines adjudication of cases at the discretion of the faculty. Cases may also be referred directly to the JCBS Judicial Board for adjudication under Option B of these guidelines.

Option A

Option A is limited to one or more of the following, by choice of the faculty member:

• a verbal reprimand

• a written reprimand

• a grade of zero for an assignment or examination
• a requirement that the student repeat the work affected by the academic dishonesty

• a statement concerning the action to be sent to the Dean by the instructor

No notation of faculty action will appear on the student’s transcript. However, the College may choose to keep documentation in the student’s file and this may be taken into account if the student is involved in another incident of academic dishonesty.

When the instructor chooses to have the student repeat the assignment, the instructor will tell the student the maximum grade that may be assigned for the repeated assignment. For example, it is acceptable for the instructor to assign no more than a minimal passing grade to a repeated assignment, if successfully completed by the student.

The student may contest the instructor’s allegation by requesting a hearing with the Judicial Board. Any such request must be made within five (5) working days from the time the student has been informed of the charge and the instructor’s recommended resolution. The instructor’s initial penalty will be considered in assessing a penalty for a guilty finding by the Judicial Board.

Option B

Direct referral of the charge by the faculty member to the Judicial Board for adjudication. Information concerning procedures for requesting a judicial hearing is found on the TJU Student Handbook website under University Policies, Code of Conduct/Students Rights, Freedoms & Responsibilities.

Grievance Policy

For student grievances other than grades or dismissal due to unsafe clinical performance, students are encouraged to address the problem at the point closest to the issue. In Jefferson Institute of Emerging Health Professions, the student is encouraged to attempt to resolve the dispute directly with the faculty or staff member. If dissatisfied with the outcome, the student may meet with the appropriate Program Director, then the appropriate Associate Director, who will attempt to mediate the situation. If the student is still dissatisfied with the outcome, he/she may meet with the Institute Director. The Director is the final authority in hearing student grievances. All parties are encouraged to address the issue promptly in writing (with three (3) class days whenever possible) so that resolution of the grievance should require no more than three weeks.
Harassment Policy

Harassment based on any other protected status is equally prohibited and will not be tolerated. Under this policy, harassment is verbal or physical conduct that denigrates or shows hostility or aversion toward an individual because of his or her age, race, color, religion, creed, sexual preference or orientation, marital status, national origin, ancestry, citizenship, military status, veteran status, handicap or disability or any other characteristic protected by law or that of his/her relatives, friends or associates. Harassing conduct includes, but is not limited to: epithets, slurs or stereotyping; threatening, intimidating or hostile acts; denigrating jokes and display or circulation in the academic, clinical or work environment of written or graphic material that denigrates or shows hostility or aversion toward an individual or group.

Sexual harassment is a form of sex discrimination, and will not be tolerated. The following behaviors are prohibited, whether conducted by a man or a woman:

• To threaten or insinuate, expressly or implicitly, that any student is required to submit to sexual advances or to provide sexual favors in order to participate in a University program or activity.

• To make any educational decision or take any action based on a student’s submission to or refusal to submit to sexual advance.

• To engage in unwelcome sexually-oriented or otherwise hostile conduct which has the purpose or effect of interfering unreasonably with another person’s work or academic performance or of creating an intimidating, hostile, abusive or offensive environment. Such an environment can be created by a University employee, another student, or even someone visiting the University, such as a student or employee from another school.

Sexual harassment may include a range of subtle and overt behaviors and may involve individuals of the same or different sex. Depending on the circumstances, these behaviors may include, but are not limited to: unwanted sexual advances or requests for sexual favors; sexual jokes and innuendo; verbal abuse of a sexual nature; commentary about an individual’s body, sexual prowess or sexual deficiencies; leering, catcalls or touching; insulting or obscene comments or gestures; display or circulation in the workplace of sexually suggestive objects or pictures; and other physical, verbal or visual conduct of a sexual nature.

If you believe that you may have been discriminated against, harassed by or retaliated in violation of this policy, you should report the alleged violation immediately to the appropriate Title IX Coordinator, Assistant Provost Jennifer Fogerty, at 215-503-6335 (for Jefferson Colleges of Health Professions, Nursing, Pharmacy, and Population Health), Senior Associate Dean Charles Pohl at 215-203-6988, (for Sidney Kimmel Medical College) or Dean Gerald Grunwald at 215-503-4191 (for
Jefferson College of Biomedical Sciences). You also have the option to report the incident to your School Dean, Student Affairs Dean, your Course or Clerkship Director, Human Resources, Employee Relations, or you can call the ComplyLine at (888) 5-COMPLY. Please speak with whichever person you feel the most comfortable, whatever your reasons. All complaints will be investigated promptly, and the existence and nature of your complaint will be disclosed only to the extent necessary to make a prompt and thorough investigation or as may be necessary to take appropriate corrective measures. Further information on reporting and procedures in cases of sexual misconduct can be found in the Student Sexual Misconduct Policy.

**HIPPA Privacy Policy**

The purpose of this policy is to set forth the responsibility of Jefferson personnel to comply with the privacy provisions set forth in the Standards for Privacy of Protected Health Information of HIPPA. It is the policy of Jefferson to maintain compliance with the Privacy Rules. Jefferson is committed to best practices concerning patients’ rights to privacy and confidentiality, and will safeguard the creation, collection, use, storage, disposal and disclosure of Protected Health Information (“PHI”). This Policy applies to all PHI, regardless of the form in which it is created or maintained (oral, written, or electronic). Questions concerning this Policy should be directed to the TJU/JUP Privacy Officer (215-955-8585).
Medical Requirements

Requirements for start of program:

- Completed Pre-Matriculation Physical Evaluation form
- Physical examination within 12 months preceding matriculation
- Proof of immunity documents as either a positive IgG antibody OR documentation of 2 varicella vaccines
- Dose of Tdap vaccine (tetanus, diphtheria, pertussis) highly recommended with in the preceding 5 years
- Hepatitis B immunity as documented by at least 3 doses of vaccine and a positive hepatitis B surface antibody
- Tuberculosis screening – Choose one from options below
  1. Interferon Gamma Release Assay (IGRA) blood test, i.e. Quatiferon –TB Gold or T-Spot no more than 3 months prior to matriculation
  2. For those with positive results, a chest x-ray performed within the 6 months preceding matriculation is required
- Any student living on campus must provide either documentation of a meningococcal vaccine or a signed declination
- Seasonal influenza vaccine is mandatory for all students. Free flu vaccine will be provided by University Health Services during the fall semester.

Criminal Background Checks and Drug Testing

Participation in clinical experiences and rotations is a required part of the curriculum and a requirement for graduation. A clinical site may require a criminal background check and/or child abuse check in order to permit participation. Clinical sites may deny a student’s participation in a clinical experience or rotation because of a felony or misdemeanor conviction, failure of a required drug test, or inability to produce an appropriate health clearance, which would result in delayed graduation or in the inability to graduate from the program. All students will be required to undergo Criminal Background Checks in order to proceed with patient care.
Student Affairs

The Office of Student Affairs offers support to students in a variety of ways. Academic Support Services and the Student Writing Center offer workshops and one-on-one consultations to help guide students through their academic career. Students needing accommodations can contact us to facilitate the Disability Accommodations process. The office also provides policy guidance to students, including the Grade Appeal process, the Judicial Board process, or a Title IX complaint. Here’s the link:
