

INTEGRATED PROGRAM SKILLS

The curricula for the BS-HSM/HPM/HSMIS are designed to assure the achievement, not only of stipulated learning outcomes, but also the enhancement of six specific sets of skills. These skills are stressed, as much as possible, in all courses of the curriculum.

- Communication (written and oral)
- Information systems/computer technology
- Critical and systemic thinking
- Incorporation and analysis of ethical and legal issues
- Financial and budgetary analysis
- Leadership principles, including strategic planning, decision making and conflict resolution
