Jefferson Urology Associates

Jefferson Urology Associates provides care in the diagnosis and treatment of all urological diseases. We offer state-of-the-art procedures with a focus on minimally invasive techniques. Jefferson Urology Associates are leaders in minimally invasive procedures for urological diseases. Practices are located at Thomas Jefferson Univ. Hospital in Center City and the Methodist Division in South Philadelphia.

We are the full time teaching faculty of Jefferson Medical College. Our cancer specialists are all members of the Kimmel Cancer Center. Our faculty consists of internationally recognized experts in all major fields of urology, including:

- **Endourology**– The use of small fiberoptic scopes to see the lining of the urinary tract from kidney to bladder, used mostly to treat stones and some tumors.
- **Oncology**– Diagnosis and treatment of cancer of the urinary tract of men and women including, kidney, adrenal gland, ureter, bladder, prostate, testis, penis
- **Laparoscopy**– Surgical procedures in which a fiberoptic instrument is inserted through a small incision in the abdomen and used to perform surgery of the kidney, ureters, bladder and prostate.
- **Robotically-assisted laparoscopy**—This procedure is performed for prostate, kidney and bladder surgery.
- **Male factor infertility**– Treatment to reverse low sperm count
- **Pediatric urology**– Treatment of urological problems in children (duPont Hospital for Children faculty)
- **Urinary tract infection**– Treatment of bacterial infection of the urethra, bladder, ureters or kidneys
- **Neurourology and Female Urology**– Treatment of urologic conditions that have a neurological origin such as spinal cord injury and disorders of the lower urinary tract in females such as urinary leakage

We also have the latest in clinical trials to treat a variety of urologic conditions. To learn about our clinical trials visit :

<http://www.jefferson.edu/urology/clinicaltrials/>

Some of the diseases and conditions we care for

Kidney disorders:

- Kidney cancer
- Kidney obstructions
- Kidney stones

Bladder and other disorders:

- Bladder cancer
- Cystocele (fallen bladder)
- Hematuria (blood in the urine)
- Interstitial cystitis
- Neurogenic bladder
- Overactive bladder
- Urinary incontinence
- Urinary tract infections
- Vesicoureteral reflux

Prostate and Men's health

- PSA elevation
- Benign prostatic hyperplasia (BPH)
- Prostate cancer
- Erectile dysfunction /impotence
- Male factor infertility
- Peyronie's disease
- Testicular cancer
- Vasectomy and vasectomy reversal

Minimally invasive procedures offered by our urologists

- **Kidney:** Laparoscopic removal and partial removal, Cryoablation, Radio-Frequency ablation, Pyeloplasty, Endoscopic treatment stones and ureter tumors
- **Ureter:** Stone, Tumor, Stricture and blockage treatment
- **Bladder:** Stone and Tumor Treatments, Laparoscopic prostatectomy, Brachy- and Cryo-therapy
- **Prostate Cancer:** Robotic assisted and Laparoscopic prostatectomy, Brachy- and Cryo-therapy
- **Benign Prostatic Hypertrophy:** Prolieve, Coretherm, Transurethral microwave-thermo therapy (TUMT), Interstitial Laser Coagulation (ILC), Laser Prostate Surgery

About our physicians

The physicians at Jefferson Urology Associates are Jefferson Medical College full-time academic faculty. Each one is board certified or eligible and our subspecialists are all fellowship trained with expertise beyond basic urology training. Additional fellowship training is noted by **.

Our faculty consists of the following physicians:

Leonard G Gomella, MD, FACS**

Chairman, Department of Urology

Bernard W. Godwin, Jr. Professor of Prostate Cancer
Assoc. Director Clinical Affairs, Kimmel Cancer Center

Medical School: Univ. of Kentucky, Lexington 1980

General Surgery: Univ. of Kentucky, 1980-82

Urology Residency: Univ. of Kentucky, 1982-86

Urology Fellowship: Surgery Branch, National Cancer Institute, 1986-88, Urologic Oncology

Specialty: Urologic oncology- prostate, bladder, kidney and testicular cancer; Laparoscopic surgery

Demetrius H Bagley, MD, FACS**

Nathan Lewis Hatfield Professor

Medical School: Johns Hopkins Univ., Baltimore, MD, 1970

General Surgery: Yale Univ., New Haven, CT, 1970-72

Urology Residency: Yale Univ., 1975-79,

Urology Fellowship: Surgery Branch, National Cancer Institute, Bethesda, MD, 1972-75

Specialty: Urologic endoscopy, laser therapy and the treatment of bladder and kidney stones, ureteroscopic treatment of tumors of the ureter and renal collecting system and evaluation of ureteral and renal obstruction.

Gaurav Bandi, MD **

Assistant Professor

Medical School: M.G.M. Medical College, Indore, India 2000

Internship: Robert Wood Johnson, Piscataway, NJ, 2000-2001

General Surgery: Wayne State Univ., Detroit, MI, 2001-2002

Urology Residency: Wayne State Univ., 2002-2006

Urology Fellowship: Laparoscopic, robotic and endoscopic urology, Univ. of Wisconsin, Madison, WI, 2007

Specialty: Minimally invasive urologic surgery. Endoscopic treatment of stones, ureteral obstruction and tumors.

Laparoscopic and robotic surgery, including prostate, kidney, bladder and testes cancer. Laparoscopic donor nephrectomy, general urology.

P Kenneth Brownstein, MD

Director of Development

Medical School: Hahnemann University, 1970
Internship: UCLA Harbor General Hospital, 1970- 71
General Surgery: U. Hospital of San Diego, 1971- 72
Urology Residency: Jefferson, 1972-76
Specialty: General urology

Akil Das, MD, FACS

Physician Director, 833 Chestnut Street Office

Medical School: Hahnemann University
School of Medicine, 1991
General Surgery: Jefferson, , 1991-1993
Urology Residency: Jefferson, 1993-1997
Specialty: Female Urology (minimally invasive techniques for incontinence, laparoscopic surgery, and general urology.

Deborah T Glassman, MD, FACS

Physician Director, 833 Chestnut Street Office

Medical School: New York Univ., 1995
General Surgery: Univ. of Maryland, Baltimore, MD
1995-1997
Urology Residency: Univ. of Maryland, 1997-2001
Specialty: Urologic oncology and general urology.

Larry E Goldstein, MD, MBM, FACS

Instructor

Medical School: Jefferson Medical College, 1973
General Surgery: Univ. of Pennsylvania, 1973-75
Urology Residency: Medical College of Virginia,
Richmond, VA, 1975-78
Specialty: General urology

Irvin H Hirsch, MD**

Clinical Professor

Medical School: Mount Sinai, NY, 1979
General Surgery: Beth Israel Medical Center,
New York, 1979-1981
Urology Residency: Beth Israel Medical Center,
New York, 1981 -1884
Urology Fellowship: Baylor College of Medicine,
Houston, TX, 1985, Male Reproductive Medicine
and Surgery; Urodynamics and Uroprosthetics
Specialty: Benign prostatic hypertrophy (BPH),
erectile dysfunction, prosthetic surgery, microwave
thermotherapy, testosterone deficiency, infertility,
and vasectomy reversal

Scott G Hubosky, MD**

Assistant Professor

Medical School: Stritch School of Medicine,
Loyola Univ. Chicago, IL,
General Surgery: Jefferson, 1999-2001
Urology Residency: Jefferson, 2001-2005
Urology Fellowship: Urologic Laparoscopy, Robotics
and Endourology, Eastern Virginia Medical School
Norfolk, VA, 2005-2006
Specialty: Endourology: laser therapy and the
treatment of bladder and kidney stones ureteroscopic
treatment of tumors of the ureter and renal collecting
system, evaluation of ureteral and renal obstruction
laparoscopic and minimally invasive robotic surgery,

Max M Koppel, MD, MBA, MPH

Clinical Associate Professor

Medical School: Jefferson Medical College 1957
Internship: Jefferson, 1957-1958
Residency: Jefferson, 1958-1960
Urology Residency: Jefferson, 1960-1965
Specialty: General Urology

Costas D Lallas, MD**

Co-Director of Medical Student Education

Chair of TJUH Robotic Committee

Medical School: Jefferson Medical College, 1998
General Surgery: Duke Univ. Medical Center,
Durham, NC, 1998-1999
Urology Residency: Duke Univ. Medical Center, 1999-2004
Urology Fellowship: Urologic laparoscopy and robotics
Mayo Clinic Arizona, 2004-2005
Specialty: Robotic assisted and laparoscopic surgery,
including cancer of the prostate and kidney and
reconstructive urologic surgeries, and donor nephrectomy

Jeanne V Llenado, DO

Physician Director, South Philadelphia Office

Medical School: Univ. of Medicine & Dentistry of New Jersey
School of Osteopathic Medicine, Stratford, NJ 1996
General Surgery: Univ. of Medicine & Dentistry of New
Jersey, School of Osteopathic Medicine, 1996-1997
Urology Residency: Univ. of Medicine and
Dentistry of New Jersey, School of Osteopathic Medicine,
1997-2001
Specialty: General urology; female urology

Recent Departmental Highlights

Patrick J Shenot, MD**

Vice Chairman of Academic Affairs

Residency Program Director

Medical School: SUNY at Stony Brook, NY, 1991

General Surgery: Jefferson, 1991-1993

Urology Residency: Jefferson, 1993-1997

Urology Fellowship: Neurourology Jefferson, 1997-1999

Specialty: Reconstructive and female urology, neurourology and voiding dysfunction, particularly in the care of spinal cord injured patients. Sacral Nerve stimulation (Interstim).

Edouard J Trabulsi, MD**

Director of Minimally Invasive Urologic Oncology

Co-Director, Multidisciplinary Genito-Urinary Cancer Clinic,

Kimmel Cancer Center

Medical School: SUNY at Buffalo, 1995

General Surgery: Jefferson 1995-1997

Urology Residency: Jefferson, 1997-2001

Urology Fellowship: Memorial Sloan-Kettering Cancer Center, 2001-2003

Specialty: Urologic oncology, including prostate, bladder, kidney, and testicular cancer; Laparoscopic and robotic surgery

Perry R Weiner, DO, FACOS

Vice Chairman of Clinical Affairs

Medical School: New York College of Osteopathic Medicine, 1981

General Surgery: Suburban General Hospital, Philadelphia, 1981-1982

Urology Residency: Philadelphia College of Osteopathic Medicine, 1983-1986

Specialty: Prostate disease: benign prostatic Hyperplasia (BPH) management, prostate brachytherapy, prostate microwave therapy and cryosurgery for prostate cancer, general urology

- Thomas Jefferson Univ. Hospital was ranked in 9 out of 16 categories in this year's *U.S. News & World Report's* "Best Hospitals" list (July Issue, 2007). This included our Department of Urology.
- Philadelphia Magazine (May 2007) again recognized Dr. Demetrius Bagley and Dr. Leonard Gomella as "Top Docs" in Philadelphia.
- We performed a live webcast of a robotic radical prostatectomy, performed by Drs. Lallas, Trabulsi and Gomella, on Thursday, January 19, 2006. Using the *da Vinci*® robot the recorded webcast gives a close-up view of robotic surgery for prostate cancer offered by Jefferson's Kimmel Cancer Center Multidisciplinary Cancer Team. www.jeffersonhospital.org/webcast.
- Jefferson urologists are part of the Kimmel Cancer Center at Jefferson's Multidisciplinary Genitourinary Clinic. This progressive approach gives patients access to multiple cancer experts including surgeons, radiation and medical oncologists and integrative medical specialists during a single visit. One of the first multidisciplinary programs in the US for patients with urinary cancer, the Genitourinary Cancer Program at the Kimmel Cancer Center celebrated its 10th anniversary in 2006.
