Leonard G. Gomella, MD

The Bernard W. Godwin, Jr. Professor of Prostate Cancer
Chairman, Department of Urology

Urology Research Funds

To extend and enhance urological research, education, and care at Jefferson, the university has established the following teaching and research funds:

- The Urology Centennial Fund
- The Benjamin Perkins Bladder Cancer Fund
- The Urology Research and Training Fund
- The Demetrius Bagley, MD
Fund for Research and Education
- The P. Kenneth Brownstein, MD
Fund for Research and Education
- The S. Grant Mulholland, MD
Urology Research and Education Fund

Established in 1904, Thomas Jefferson University's Department of Urology is one of the oldest and largest academic departments of urology in the United States. The faculty includes internationally recognized experts in all major fields of urology including endourology, laparoscopy, oncology, andrology, pediatrics, infection, and neurourology. The Department is regularly cited among the top in the country in *U.S. News and World Report* and other national publications, and its faculty are frequently included in "Top Doctors" listings both locally and nationally.

To continue rising to even greater heights in urological research, education, and care, the university has established the following teaching and research funds.

The Urology Centennial Fund

Established to commemorate the Department's 100th anniversary, the Centennial Fund provides support for new research and educational programs designed to further the mission of research, teaching, and patient care at Jefferson.

The Benjamin Perkins Bladder Cancer Fund

Inspired by internationally recognized horseman Benjamin Perkins Sr., a bladder cancer survivor, the Perkins Fund was established by Eb Novak, owner of New Farm Stable in Marlton, New Jersey, to advance research and treatment of bladder cancer.

The Urology Research and Training Fund

Established to ensure that Jefferson physicians and technicians remain on the cutting edge of urological research, the Research and Training Fund supports the ongoing training of Department team members in the use of new technologies.

The Demetrius Bagley, MD Fund for Research and Education

Named for the long-time Jefferson faculty member and internationally known clinician, the Bagley Fund will support a professorship in urological research and education.

The P. Kenneth Brownstein, MD Fund for Research and Education

Established in honor of one of the Department's most outstanding faculty members, the Brownstein Fund will support a professorship in urological research and education.

The S. Grant Mulholland, MD Urology Research and Education Fund

Named for the former Urology Department chair, the Mulholland Fund provides support for research and teaching fellowships at Jefferson.

For more information on how you can support urological research at Jefferson, or to make a gift to one of these funds today, please return the enclosed card or contact a representative of Jefferson's development office at:
