

# Lennox K. Black International Prize for Excellence in Biomedical Research

## 5th Symposium

### *Transformational Discoveries in Cancer*

Thomas Jefferson University, Philadelphia, PA

**November 10–11, 2008**

*Features experts in the field of cervical, breast, prostate, colorectal and GI cancers, cancer vaccines, cancer stem cell and molecular diagnostics.*

**Dr. Barry J. Marshall, AC,  
Nobel Laureate, FRACP FAA FRS**  
Clinical Professor  
University of Western Australia

Thomas Jefferson University, an academic health center and premier research institution in Philadelphia, Pennsylvania, announces the winner of the 2008 Lennox K. Black International Prize for Excellence in Biomedical Research, in recognition of his work on *Helicobacter pylori*.

Dr. Marshall, the keynote speaker at **The Lennox K. Black Award Symposium**, will receive the honor.

The Prize is awarded biennially and recognizes the impact—either accomplished or potential—of pioneering biomedical research on the alleviation of human disease and suffering.

One goal of The Prize is to draw the international scientific research community together in recognition of the ability of the spirit of human inquiry to transcend national boundaries and divisions.

## Session 1 – Breast Cancer

Larry Norton, MD – *Memorial Sloan Kettering*

Thea D. Tlsty PhD

*University of California San Francisco*

Richard Pestell, MD, PhD

*Thomas Jefferson University*

## Session 2 – Cancer Cell Growth Mechanisms

Ronald DePinho, MD

*Dana Farber Cancer Institute*

Craig Thompson, MD

*University of Pennsylvania*

Steven McMahon, PhD

*Thomas Jefferson University*

## Session 3 – Prostate Cancer

Donald S. Coffey, PhD

*Johns Hopkins University*

Donald J. Tindall, PhD

*Mayo Clinic*

Karen Knudsen, PhD

*Thomas Jefferson University*

## Session 4 – GI Cancers

Leonard H. Augenlicht, PhD

*Montefiore Medical Center*

Victor Velculescu, MD, PhD

*Johns Hopkins University*

Scott Waldman, MD, PhD

*Thomas Jefferson University*

## Session 5 – Stem Cells and Cancer

Ron D. G. McKay, PhD

*National Institute of Neurological Disorders and Stroke*

Michael Lisanti, MD, PhD

*Thomas Jefferson University*
