

First Destination Report

CLASS OF 2016

This report includes data from undergraduate students who graduated in August 2015, December 2015, and May 2016. Statistics are derived from a survey collection pool of 411 graduates from a total graduating class of 535 (representing a 77% knowledge rate). Response sources include: self-reported survey responses, faculty/staff outreach, and LinkedIn profile verifications. Of the 411 graduates with information provided, **390 or 95%** have reported post-graduation employment in fields related to their career interests or graduate school acceptance. 290 students or 70.5% of graduates responding reported employment; 2 or .5% are completing a year of service; 98 or 24% gained acceptance to graduate school. The remaining 21 or 5% indicated they were still seeking employment at the time of this report.
