

## CUSTOM

CREDITS 12

### INTRODUCTION

A custom minor is a thematic grouping of four courses from any of the Colleges and is appropriate only for courses that are currently delivered at Philadelphia University, i.e. existing faculty & facilities within the University must support the topic of the custom minor. At least 6 credits toward the custom minor must be completed in residence, and the courses utilized for the custom minor, whether in-residence or transfer, must currently exist in the University catalog. A maximum of 3 credits may be delivered as Independent Study or Course-by-Appointment.

### COURSES

The student must have approval to design a custom minor. The “Declaring a Custom Minor” form contains complete details and is available online from the Learning and Advising Center website [www.eastfalls.jefferson.edu/successcenter](http://www.eastfalls.jefferson.edu/successcenter).

If a minor is required by the student’s major, the Program Director reserves the right to identify the topic or individual courses that may not be part of a custom minor, i.e. the proposed custom minor must meet learning outcomes specified for minors within that program.
