

## Historic Preservation

12 credits

This minor provides a foundation in the field of historic preservation. Courses cover contemporary practice and fieldwork, sustainability issues, building conservation, methods of archival research, standards for documentation, American architectural traditions, as well as design considerations in the adaptive reuse of historic structures.

### Required Courses

	<u>Course Title</u>	<u>Prerequisites</u>
ARST-221/MHP-621	Issues in Contemporary Preservation	None

### **Choose three of the following:**
