

Job Summary

A Postdoctoral Fellow position is available to study emerging viruses in the Laboratory of Dr. Schnell, Sidney Kimmel Medical College, Thomas Jefferson University, Philadelphia, PA. Our laboratory is focused on the development of several vaccines, including filoviruses, Lassa virus, SARS-CoV-2, as well as rabies virus and related lyssaviruses. The successful candidate is expected to run her/his research project independently and assist in the supervision of Ph.D. and Master students as well as research associates. Work with animals is required for all projects. Candidates should have a Ph.D. or M.D. and previous experience in molecular virology and immunology. Previous work in BSL3 and/or ABSL3 is a plus.
