

Science Communication Series

2022-2023

This series of lectures and hands-on workshops aims to share ideas and tools to help researchers become better science communicators. You can attend any of them individually or participate in activities to earn a micro-credential/badge for your CV.

December 7 | BioRender 101 | This powerful tool allows researchers to create robust graphics. If you attended this session, you can submit a graphic and receive points. (Recording available)

January 19 @ 3pm | JCLS Science Slam Introduction & Training @ 105 BLSB | Learn what a Science Slam is and receive basic training on creating a 5 minute presentation for the JCLS Science Slam competition.

January 26 @ 5pm | Research as Art Reception @ JAH Eakins Lounge | Science can be beautiful. Join your peers for a reception to celebrate the great research being done throughout Jefferson.

January 31 @ 1pm, 105 BLSB & @ 5:30pm, Connelly Auditorium, Hamilton | Dr. Britt Wray | Join us @ 1pm for a discussion group on sci comm with this special invited scientist and author & join us again @ 5:30pm for her keynote presentation on her book, "Generation Dread."

February 15 @ 10am | BioRender 201 | BioRender training specialist Sydney Burniston is back to show advanced ways to use this powerful graphics tool that is available to all of Jefferson.

March 15 @ 10am | BioRender Pathways | BioRender training specialist Sydney Burniston is back to show advanced ways to create beautiful cellular pathways with this powerful tool.

March 16 @ Time & Location TBD | Science Editing and Reviewing Basics hosted by PSERT | Gain and improve your editing and reviewing skills for scientific writing.

March 23 @ 6pm | JCLS Science Slam Competition @ Venture Café, University City Science Center | Participate in or attend and be part of a judging group for this sci comm competition.

April (Date TBD) | BizBio Sci Comm Career Panel | Learn from professionals about sci comm fields that MS and PhDs can step into and how to prepare a writing sample to get the job.

For the badge: Attendance at events = 1 point Submission of assignments = 3 points

This compilation series is brought to you by: Jefferson's College of Life Sciences, Department of Marketing and Communications, Graduate Student Association, Jefferson Postdoc Association, Jefferson Humanities & Health, Jefferson Business & Biotech Group and Office for Professional Writing, Publishing, and Communication.
