

## **PEDI-SCI MEASURE OF PARTICIPATION - PMoP (V2)**

### **Parent Respondent: Participation Compared to Friends (age 16-21)**

#### **Directions:**

For each question, think about WHAT YOUR CHILD DOES AND WHAT YOUR CHILD'S FRIENDS DO and choose one of the answers below that best describes your child:

My child doesn't do it, because he/she can't = your child cannot do it.

My child does it a lot less than his/her friends = your child does it, but his/her friends do it a lot more.

My child does it a little less than his/her friends = your child does it but his/her friends do it a little more.

My child does it as much as his/her friends = there is no difference between my child and his/her friends.

- If your child attends school, answer all items (1-12).
- If your child is home schooled or does not attend school, answer items 1-9. Do NOT answer items 10-12.
