Hospital medicine career pathway

The Hospital medicine career pathway is intended to provide practical experience and didactic instruction relevant to a career in hospital medicine. Residents in the program will participate in elective rotations, receive instruction in relevant nonclinical topics, and engage in nonclinical activities such as quality and safety initiatives. They will have access to career planning resources and guidance. Interested residents should email Dr. Zavodnick (jillian.zavodnick@jefferson.edu).

Educational Objectives:

By fulfilling the requirements of the hospital medicine track, participants will be able to

- 1. Operate in multiple practice environments within hospital medicine
- 2. Demonstrate the knowledge and skills necessary to be an excellent hospitalist
- 3. Formulate an understanding of the non-clinical aspects of hospital medicine as early preparation for eventual leadership roles

Program Objectives:

Graduates of the HMCP should be highly prepared for a job as a hospitalist and should secure employment in the field. This will be measured by resident self-reported readiness for practice and hospital medicine director satisfaction with graduates.

Requirements:

- Complete 12 weeks core clinical experiences during PGY 2/3
 (Core clinical experiences are green/silver medicine, blue 3&4, Night MAR)
- 2. Complete 12 weeks clinical electives during PGY 1-3; min. 6w from hospital medicine electives
 - a. Hospital medicine electives (2 weeks each)
 - i. Pain and perioperative
 - ii. **Transitions of care** (required; PGY2/3)
 - iii. Acute care models: (PGY2/3)
 - iv. Community (currently Methodist nonteaching) (PGY 2/3)
 - v. Wounds and clots
 - b. Other recommended electives

Palliative care (required), stroke service, general neurology, advanced physical diagnosis, TJUH rheum, TJUH endocrine, JPA inpatient, critical care, inpatient nephrology, inpatient ID, solid tumor inpatient, benign heme inpatient, GI consults, hepatology consults

3. Participate in formal or informal project and present at hospital medicine summit

QI project can count double if a hospital medicine topic; observe a medical unit, committee, outliers or patient progression meeting and report back

4. Complete the non-clinical curriculum

Corporate & legal structure of healthcare organizations (yearly talk)

Medicare: history, perspective, utilization, appeals, post-acute (yearly talk)

Documentation (twice yearly two-part talk)

CMS quality measures (yearly talk)

Billing (online module)

Malpractice (online module)

Inpatient CM (Slide deck)

IRB – attend meeting (during "wounds and clots" elective)

Inpatient insulin management for hospitalists (yearly talk)

Additionally, participants can take advantage of resources on Blackboard (Jefferson.blackboard.com -> login -> organizations -> internal medicine) including:

- Career planning

Sample CVs and cover letters

Job search resources including database of available former residents

Information about lesser known career paths

- Article library
- Book recommendations
