Department of Medicine Targets Standards of Care

The Department of Medicine has initiated Project CARE -Coordinated Approaches Redesigned for Excellence. Its goal is to improve the care provided for patients at Jefferson for four key diagnoses, by reducing variations and achieving "best practice" benchmarks consistent with national treatment guidelines. The four diagnoses are acute coronary syndrome, congestive heart failure, atrial fibrillation and community acquired pneumonia.

www.Jefferson.edu

Co-chaired by Howard Weitz, MD, Vice Chair for Education, Department of Medicine, and Geno Merli, MD, Vice Chair for Clinical Affairs, Department of Medicine, Project CARE "represents the most important undertaking of the Department of Medicine for this academic year," according to Arthur Michael Feldman, MD, PhD, the Magee Professor and Chair of the Department of Medicine.

The Bard Group, a Boston-based healthcare consulting firm, and I-TRAX, a Philadelphia-based disease management company, have been brought in to guide the project.

Project CARE will engage all members of the Jefferson community. Multidisciplinary

clinical and operational teams will make recommendations to a Steering Committee, composed of senior faculty and administrative leaders in a number of areas.

The second meeting of the Steering Committee took place on November 6, and a retreat on December 16 and 17 will advance efforts to identify and examine issues that will be critical to the process of change. Regular updates will appear in a Project CARE newsletter, as well as through medical grand rounds and other medical center forums.

Farbers Receive 2002 Cornerstone Award At Annual President's Club Dinner

From left, Paul C. Brucker, MD, President of Thomas Jefferson University, Vickie and University Trustee Jack Farber, recipients of the 2002 Cornerstone Award, and Douglas J. MacMaster Jr., Esq., Chairman

of the Board of Trustees, at the annual President's Club Dinner in October

Vickie and Jack Farber were the recipients of the prestigious Cornerstone Award of the Jefferson President's Club at the annual President's Club dinner dance held at The Crystal Tea Room on October 25.

The festivities, attended by nearly 250 people, were hosted by University President Paul C. Brucker, MD, and his wife Joan, to thank major donors to the University and Hospital for their generous support. In addition to awarding the Cornerstone Award to Mr. and Mrs. Farber, Jefferson named 14 donors Fellows of The President's Club in recognition of cumulative giving of \$50,000 or more. Another 14 benefactors became members of The Winged Ox Society, having contributed \$10,000 or more to Jefferson during the last fiscal year.

Speakers Enhance Program

As he thanked the assembled donors for their outstanding generosity, Dr. Brucker emphasized the importance of private philanthropy to Jefferson's future. "It is particularly essential to Jefferson's expansion plans, including the construction of a new state-of-the-art research and medical education building," Dr. Brucker told the dinner guests. "This will be a facility where we will train our students to become the most skilled health professionals as well as conduct the basic clinical research that will translate laboratory discoveries into advanced treatments as quickly as possible."

Dr. Brucker introduced two speakers to the audience, noting that philanthropy's impact on lives is best demonstrated by firsthand accounts from its beneficiaries. They were Rosemary Boccia, a Jefferson Hospital employee and patient who is a cancer survivor, and Lori Shipsky, JMC '05, who is enrolled in Jefferson's special admission Physician Shortage Area Program. Ms. Shipsky has received the Henry C. Stofman MD Scholarship for the past two years. The Stofman Scholarship honors the late Dr. Stofman, GS'58, a Jefferson physician and faculty member.

Cornerstone Award Presented Mr. and Mrs. Farber were honored for their exceptional \$10 million gift this year to establish the Farber Institute for Neurosciences at Thomas Jefferson University. "This extraordinary gift is one of the largest we have continues, page 2

Helping Young Children to 'Reach Out and Read'

What better chance to encourage young children to read than while they and their parents wait to see their pediatrician?

That's the concept of "Reach Out and Read" – an innovative clinical literacy program that distributes books to preschoolers and provides parents with information, support and materials to encourage daily shared reading activities.

J. Lindsey Lane, MD, Associate Professor of Pediatrics, Jefferson Medical College (JMC), is Medical Director of the Reach Out and Read (ROR) program at duPont Hospital for Children, Jefferson's Pediatrics Department. Dr. Lane is also Director, Pediatric Undergraduate Medical Education, JMC.

Dr. Lane cites ROR's three simple steps:

• Trained volunteers read to children in the waiting room, thus promoting a love of books while modeling read-aloud techniques for parents. Many volunteers are students from all three of Jefferson's colleges, working through the student group, SEAL, or Students Educating and Advocating for Literacy. Says Stephanie Miller, Jefferson College of Health Professions '03, SEAL co-coordinator: "Our job is not only to read to the kids, but also to show the parents how to read to their kids, how to make it fun and how to pick books appropriate for their child's age and reading level. SEAL spreads the word to as many Jefferson students as we can, and then we organize and schedule

student volunteers."

Ms. Miller says ROR has also formed partnerships with the Philadelphia Free Library, local adult literacy centers and the Foster Grandparents Program, with the latter program also providing reading volunteers (see photo).

- At each checkup, pediatricians, residents and nurse practitioners stress the importance of shared reading activities to enable their children to reach full potential.
- Children between 6 months and 5 vears receive new, developmentally appropriate books at each healthy checkup, providing a home library

continues, page 3

Donate Children's Books! Give a Child the Gift of Literacy!

The success of the Reach Out and Read program has created a serious need for more children's

SEAL is organizing a year-end book drive. During December, watch for "gift boxes" with SEAL signs at three drop-off points:

Scott Library lobby

3

- Jefferson Alumni Hall lobby
- Gibbon Building (site to be determined)

To help with the drive or volunteer as a reader or for other SEAL activities, contact any SEAL co-coordinator - Ms. Miller at sjm001@jefferson.edu or 570-617-7249, or Melissa.Moncavage@jefferson.edu or Lisa.Cole@jefferson.edu

J. Lindsev Lane, MD. Medical Director of Reach Out and Read (ROR) at Jefferson, reads with 3-yearold Alana Moore and ROR volunteer Joanna Schurr of the Foster Grandparents Program, Behind them are Jeffrey L. Brown and Kelly Kress of AstraZeneca Pharmaceuticals. AstraZeneca employees have funded the purchase of several thousand new books for the ROR program.

Save the Date Now – Hip Replacement Webcast January 15

Save the date! Thomas Jefferson University Hospital's next live Web broadcast will be at 4:30 p.m. on Wednesday, January 15, when Jefferson orthopedic surgeons Richard H. Rothman, MD, PhD, and William J. Hozack, MD, will perform small incision total hip replacement surgery. Visit www.JeffersonHospital.org/webcast today for more information, to download a free copy of RealPlayer and to view replays from our library of prior Webcasts.

Hospital Intranet Adding Sites, Varied Resources for All Employees

The Jefferson Hospital Intranet – tjuh JeffersonHospital.org – continues to add links to numerous sites, putting a variety of resources just a mouse click away for employees.

The Intranet is an initiative of Thomas Jefferson University Hospital and the Information Systems Department. It facilitates access to information needed by hospital employees and staff, in support of the hospital's mission.

In addition to Hospital and Nursing Policies and Procedures, and the Jefferson Telephone Directory, links most recently added to the site include:

- Jefferson Physician Directory
- Jefferson's United Way Campaign
- Building Jefferson's Future (under the "Admin" tab)
- FirstCALL Healthy Exchange: Employee Assistance Program Newsletter
- HealthStream Health Education System (HES) (under the "Admin" tab)
- Service Standards
- Jefferson Health System Intranet

Additional links will continue to be added as they become available.

Holiday Doings

Come to University Choir Concert December 6

The Thomas Jefferson University Choir's winter concert will feature seasonal carols and a performance of Joseph Haydn's *Mass in Time of War* with full orchestra. The Thomas Jefferson University Choir consists of students, nurses, physicians, employees, spouses and other members of the Jefferson family.

Women's Board Sponsoring Jewelry Sale December 5 and 6

The Martha Jefferson Department of the Women's Board of Thomas Jefferson University Hospital is sponsoring its annual Jewelry Sale on December 5 and 6 in the West Atrium (11th Street) of the Gibbon Building. Proceeds benefit patient care. Hours each day are 9 a.m. to 3 p.m.

Amnest

Need a New ID?

In the Holiday Spirit . . . Replace Your ID Free December 9 to 13

The Service Improvement Task Force is sponsoring an ID Amnesty Week when all hospital employees wanting to replace or exchange their ID can have one – free of charge and no questions asked!

Hospital administrators and managers are asked to encourage their staffs to take advantage of this program.

Simply walk into 2210Z of the Gibbon Building between 7 a.m. and 5 p.m. from December 9 to 13 – and walk out with a new ID! Employees having questions should contact Marge Newkirk at

215-955-1621 or Marge.Newkirk@mail.tju.edu

Holiday Stocking Drive to Bring Toys for Kids

Fill a stocking with toys and help the Salvation Army bring a brighter holiday season to hundreds of disadvantaged children through the "Toys for Kids" program. Last year, generous Jeffersonians filled more than 1,000 stockings plus several cartons with toys for local children. The goal this year is 1,500! Pick up stockings at Volunteer Services, 2180 Gibbon Building, 215-955-6222. They must be returned by December 11.

Weather Emergencies - Know Your Status, Call 1-800-858-8806

It's time again for all of us to get ready for winter cold, snow and ice.

"Although the last few winters have been relatively mild, we must be prepared for whatever may develop," says Brian P. Bowie, Associate Vice President for Human Resources.

- Department Heads will advise all faculty and employees of their status as either "designated" or "nondesignated" personnel.
- Designated personnel are required to report in the event of a declared weather emergency.
 Absences of designated personnel

during a weather emergency are without pay, but are not charged to an employee's lost-time rate under the attendance policy.

- Nondesignated personnel, while expected to make every effort to report as scheduled, may use a vacation or personal day if transportation or other weatherrelated problems result in lost time during a weather emergency.
- A toll-free Jefferson hotline,
 1-800-858-8806, will provide complete weather-emergency information.
- Students can also obtain weather-

emergency information from the hotline. The dean of each academic division will decide about class cancellation.
Scheduled classes for MD and PhD students will take place regardless of weather conditions.
All third- and fourth-year medical tudents are expected to report for their scheduled clinical

Anyone with questions about the policy may contact the Office of Employee Relations at **215-503-7758**.

assignments.

Mary Ann McGinley, PhD, RN, Honored with PSNA 2002 Administration-Management Award

Mary Ann McGinley, PhD, RN, Senior Vice President and Chief Nursing Officer, Thomas Jefferson University Hospital, is the

recipient of the Pennsylvania State Nurses Association (PSNA) 2002 Administration-Management Award. Dr. McGinley was presented with the award at the PSNA Awards Banquet, part of the PSNA 99th Annual Summit, in Harrisburg.

The PSNA award recipients have "rendered distinguished service to the nursing profession and have improved the quality of patient care for Commonwealth citizens."

Dr. McGinley's award citation read, in part:

"A member of the hospital's executive team, Dr. McGinley participates in the formulation of hospital-wide goals and objectives and recently served as a member of the steering committee for a state of the art information system.

As a result, she was able to extend the boundaries in nursing documentation by successfully introducing an online documentation system."

Transplant Surgeon Joins Jefferson's Program

Transplant surgeon Liise Kayler, MD, has joined Thomas Jefferson University Hospital's Department of

Surgery. She is one of the first women surgeons to

join Jefferson's transplant faculty. Dr. Kayler was also named Assistant Professor of Surgery, Jefferson Medical College.

Dr. Kayler most recently completed a transplant surgery fellowship at the University of Michigan, and before that, a general surgery residency at Maricopa Medical Center in Phoenix, AZ. Her research interests include gender disparities in renal transplantation, strategies to improve vascular access and outcome studies in liver and pancreas transplantation. She has received awards for her research, and is a member of several transplantation and research societies.

President's Club Dinner

continued from page 1

ever received. It launches a major research initiative that will lead us to greater success in the treatment of devastating neurodegenerative diseases such as Alzheimer's and ALS," Dr. Brucker said as he introduced the Farbers. "It gives us the resources to make our vision a reality."

Dr. Brucker thanked the Farbers for their philanthropy as well as their longtime service to Jefferson. Mr. Farber is a University trustee and former Board Chairman; Mrs. Farber is a member of the Women's Board of Thomas Jefferson University Hospital.

Douglas J. MacMaster Jr., Esq., Chairman of the University's Board of Trustees, added that the gift "expresses tremendous faith in Jefferson and a confidence in our future that is inspiring." He presented Mr. and Mrs. Farber with the Cornerstone Award Resolution and the traditional silver replica of Lloyd Lilly's sculpture of Thomas Jefferson.

Mr. MacMaster also acknowledged past Cornerstone Award recipients who were present, including members of the Women's Board of Thomas Jefferson University Hospital (1980); James Stratton, a director of the Percival E. and Ethel Brown Foerderer Foundation (1981 and 1994); Mrs. Gustave G. Amsterdam, widow of Gustave G. Amsterdam, Esq., a Trustee of the University Board, who received the award in 1985; and JMC Alumni Association members (1997).

Special Donors Recognized

University Trustee James Stratton announced the names of the new Fellows, who received gold-headed physicians' canes symbolizing healing. The new Fellows are: Mrs. Gustave G. Amsterdam; Leonard Apt, MD, JMC '45; Abol H. Fotouhi, MD, JMC '41; Mr. and Mrs. Benjamin Frankel; Herbert

Kean, MD; Mrs. Miriam Klein and Mr. Stephen B. Klein; Mr. Leonard I. Korman; Daniel Lieberman, MD; Douglas J. MacMaster Jr., Esq.; Mrs. Katharina T. Paperone; Antonio J. L. Simoes, MD; John E. Stambaugh Jr., MD, JMC '66, PhD, CGS '68; Janet C. Weis; and George G. Willis, MD, JMC '43.

Mr. Stratton also welcomed the following new members of The Winged Ox Society, who received pins in recognition of their generosity: Martha R. Covne; Dr. and Mrs. Jack W. Fink, JMC '54; William M. and Nadine Gibson; Ben Burke Howell, Esq.; Dale E. Johnston, MD, IMC '79; Henry R. Liss, MD, JMC '48; Edward A. Ricketts, MD, JMC '41; Herbert A. Saltzman, MD, JMC '52; Adele K. Schaeffer; Matthew Vegari, MD, N'87; Mrs. Harold Warshaw (widow of Harold Warshaw, MD, IMC '42); Mr. and Mrs. Harry Weiss; and James J. White IV.

Medical Liability Insurance Crisis Continuing

Pennsylvania's hospitals continue to struggle with the medical professional liability insurance crisis, according to a member survey conducted by The Hospital & Healthsystem Association of Pennsylvania (HAP).

The new HAP survey has found that insurance costs are continuing to rise, critical services are being closed, medical residents are fleeing Pennsylvania and hospitals are having increasing difficulty filling physician openings.

"Pennsylvanians' access to the world's best health care remains very much at risk," says Carolyn F.

Rendell Names Task Force

Governor-elect Ed Rendell has named a 28-member task force to craft consensus policies to address Pennsylvania's malpractice insurance crisis. He asked the task force to develop ways to meet shortterm goals by mid-January and to find long-lasting solutions by mid-May. The task force is made up of doctors, lawyers, hospital administrators and insurance executives, and includes two physicians affiliated with Jefferson Health System member hospitals.

Scanlan, HAP President and CEO. "This survey is a snapshot of the crisis as it existed in October. The headlines over the past month tell us that the situation continues to deteriorate."

"The findings of this new survey underscore the gravity of this critical issue," says Thomas J. Lewis, hospital President and CEO.

The HAP survey collected data from 150 hospitals and health systems in Pennsylvania. Among the survey's findings:

- Nearly two-thirds of hospitals report that some physicians are retiring early, curtailing practices or relocating as a result of increasing liability costs.
- One-third of hospitals report closing, temporarily closing, or otherwise limiting the volume of services available due to physicians leaving or because of rising liability insurance costs.
- More than 75 hospital services have been closed over the past 12 months. The most severely impacted specialty services are obstetrics, orthopedics, general surgery and neurosurgery.
- More than half of hospitals report having difficulty recruiting physicians to fill vacant positions because of rising liability insurance costs.
- Nearly two-thirds of medical

teaching programs report that their medical residents are choosing to continue their practices outside Pennsylvania.

- Half of hospitals report that members of their active medical staffs were denied coverage by commercial insurers and were forced to find alternative
- coverage in the past 12 months.

 The total cost of medical liability insurance coverage for Pennsylvania's hospitals has increased 215 percent over the past 12 months, and 25 percent of hospitals reported premium increases exceeding 300 percent.

"We have made significant progress this year with the enactment of three laws that provide structural changes to the state's insurance and tort systems," Ms. Scanlan said.

"But the job is not finished. Our hospitals and physicians still need short-term financial relief, and we will continue to advocate for reforms that fully protect injured patients' rights to be fully compensated for their economic losses while placing reasonable limits on the excessive noneconomic damage awards that threaten to cripple our healthcare delivery system."

In recognition of Latin Heritage Month, the Office of Diversity and Minority Affairs (ODAMA) of Jefferson Medical College (JMC), presented the first Latin Heritage Month Celebration for the Jefferson community. Presenting the second in the Distinguished Lecture Series was, second from left, Iris Reyes, MD, Assistant Professor, Department of Emergency Medicine, University of Pennsylvania Medical Center, speaking on "Cultural Competency in Healthcare: The Latino Patient." Joining her for the event were, at left, Edward B. Christian, PhD, Associate Dean for Diversity and Minority Affairs, JMC; Luz Ortiz, MA, Assistant Dean for Diversity and Minority Affairs, JMC; and Aileen Edwards, MS, Assistant Dean for Diversity and Minority Affairs, JMC. ODAMA also sponsored a Latin Heritage Month Cultural Dinner Dance. All Latin Heritage Month events were open to students, faculty, staff and friends.

Great at Thomas Cost-savings

Great Ideas at Work

at Thomas Jefferson University Hospital

Cost-savings involve much more than gathering dollars. At Jefferson Hospital, they come from ideas reflecting more efficient ways to do things, teaming up with colleagues to streamline a process and, in

some cases, by contributing "your two cents' worth" when you are asked for your expert opinion.

David Reiter, MD, Professor of Otolaryngology-Head and Neck Surgery, and Associate

Medical Director for the hospital, says:

"I'm pleased to share some very impressive success stories about Jefferson Hospital physicians who have identified ways to help the hospital better curb costs. At the same time these 'fiscal heroes' deliver the outstanding care for which Jefferson Hospital is so

widely recognized.

Spotlighting: Kenneth R. Epstein, MD, MBA, Clinical Associate Professor of Medicine, Jefferson Medical College, and Clinical Director of the hospital's Sickle Cell Program.

Dr. Epstein has effected several changes in the way we provide sickle cell care that have quickly reaped many benefits for both the patients and the hospital. Working with colleagues, he created a Same Day Unit at Jefferson to treat patients in the sickle cell disease program who require treatment for acute painful episodes

These patients would previously have had to either go to the Emergency Department (ED) or stay home untreated. In the Same Day Unit, the patient is evaluated by a nurse practitioner and a hematologist. Patients receive rapid treatment of their pain, allowing a patient to usually go home within several hours.

By providing an outpatient setting for less complicated cases, the hospital has reduced both hospital bed days, thus freeing inpatient beds, and the volume of patients with sickle cell disease coming to our ED.

Not only are patients now receiving direct attention and much more rapid, focused

care, they are happier and better served because they don't have to go through ED triage, and they get to know their caregivers.

Originally, we sought an average daily census of 2 in from 9 to 12 months. We

achieved that after three months.

Now, the projected benefits to clinical outcomes, medical education, research in sickle cell care and hospital finance are all being realized.

"This unit is a roaring success!" says Dr. Reiter.

Says Dr. Epstein in crediting colleagues: "Our accomplishments are due to a true team effort, involving Steven McKenzie, MD, PhD, Cardeza Director; Sharon Millinghausen, RN, MSN, Hospital Vice President, Medical-Surgery, Psychiatry and Women and Children; Samir Ballas, MD, Sickle Cell Center Director; and Gaye Riddick, MSN, CRNP, BC, Sickle Cell Nurse Practitioner, who have been instrumental in making the unit positive experience for patients. At JeffCARE, Jay Sial, Chief Operating Officer, and Ellen Reuben, Director of Managed Care Operations, helped us achieve the payer contracts for sickle cell care."

Reach Out and Read

continued from page 1 of at least 10 new books before they start school.

Adds Ms. Miller: "Through book drives run by SEAL, we obtain many donated, gently-used books for our waiting room volunteers to read and for older children, siblings and children seeing the doctor for a sick visit to take home."

Dr. Lane sums up: "This clinical project establishes a commitment to the importance of family literacy in fostering a child's healthy cognitive development, especially within lower-income urban families.

"By giving out books and concrete advice to parents, we give them the tools to help them spark their child's emerging literacy and better prepare them for school. At the same time, we're involving future healthcare professionals in this important partnership."

For more information about ROR, contact Dr. Lane at **jllane@nemours.org** or **215-955-7800**.

Hospital Launching Web-based Purchasing System

Thomas Jefferson University Hospital will implement a web-based system enabling departments to purchase supplies and services electronically. OmniBuyer will be easily accessed through the web browser of any PC and will completely automate the Request To Purchase (RTP) process, says Ellis Reeder, Director, Supply Chain Optimization, 1890 Gibbon. For more information, contact Mr. Reeder at 215-955-2460.

Tips for Safe Winter Driving

Winter is here! Safely prepare for winter driving by making sure your car battery is in good working order. Gas up frequently, keep a shovel, a traction mat and a bag of sand or kitty litter in the car along with a flashlight, flares, a warm blanket and snacks. And, of course, be sure to buckle-up and remind your passengers to do so as well.

Hospital Provides Wigs for Hair Loss

Thomas Jefferson University Hospital provides wigs for individuals who have hair loss because of cancer treatment, and for financial reasons are unable to purchase one on their own.
