START	\$25,820

- **American Association of Medical Assistants**

- The Certified Medical Assistant (AAMA)[®]—or [CMA \(AAMA\)](#)[®]—credential represents a medical assistant who has been credentialed through the Certifying Board (CB) of the American Association of Medical Assistants (AAMA).

- **National Healthcareer Association**

- Having a nationally accredited certification, like the CCMA, can help you stand out. Certification may also be required or preferred for certain job opportunities in the profession.
- 

Tynesha Clark

Philadelphia, PA
CLASS OF 2020

I chose Jefferson because it seemed like a program that will properly prepare me for the medical field. This program focused on building long term technique and not just good grades.

“The best part of my studies is practicing new techniques in lab. Being able to practice our new techniques helps me feel even more confident in myself before I get into the real work environment. “

Teodoro Rios Jr, RMA

Program Director
