CAMPUS
LIFE

ALIENATION

EDGE

Growth

D
O
R
M

The greatest change that has happened on campuses recently is learning to question what was previously accepted as being true. For instance, the validity of institutions. Why does something exist year after year? Does it serve a purpose? Has it changed to meet the changes around it? The yearbook is a small institution. Why have a yearbook? Its purpose is to record the events of a year on a particular campus and to capture the spirit of the people during these events. If we are to do this truthfully and if we really become involved

PARKING

commuter

EDUCATION

Apathy

Activities

NOXON

in the creation of the yearbook, it is impossible for it to retain its neutrality or keep the same format. Instead it will comment on those events and that spirit. It will criticize, praise and point to possible new directions. This is the policy of the **Analysis 1970**. To the extent that this policy has proven unfair and inarticulate it is my fault, I am the one who formed and guided it. To the extent that this book is visually exciting and broad in its coverage can be credited to the hard work of the staff.

WAR

THE CAMPUS BOOKSTORE

The bookstore carries — upon occasion — all the supplies necessary for the student at Textile — but at prices that make it a profitable operation. Is it really necessary to have a capitalistic campus bookstore?

FOOD SERVICE

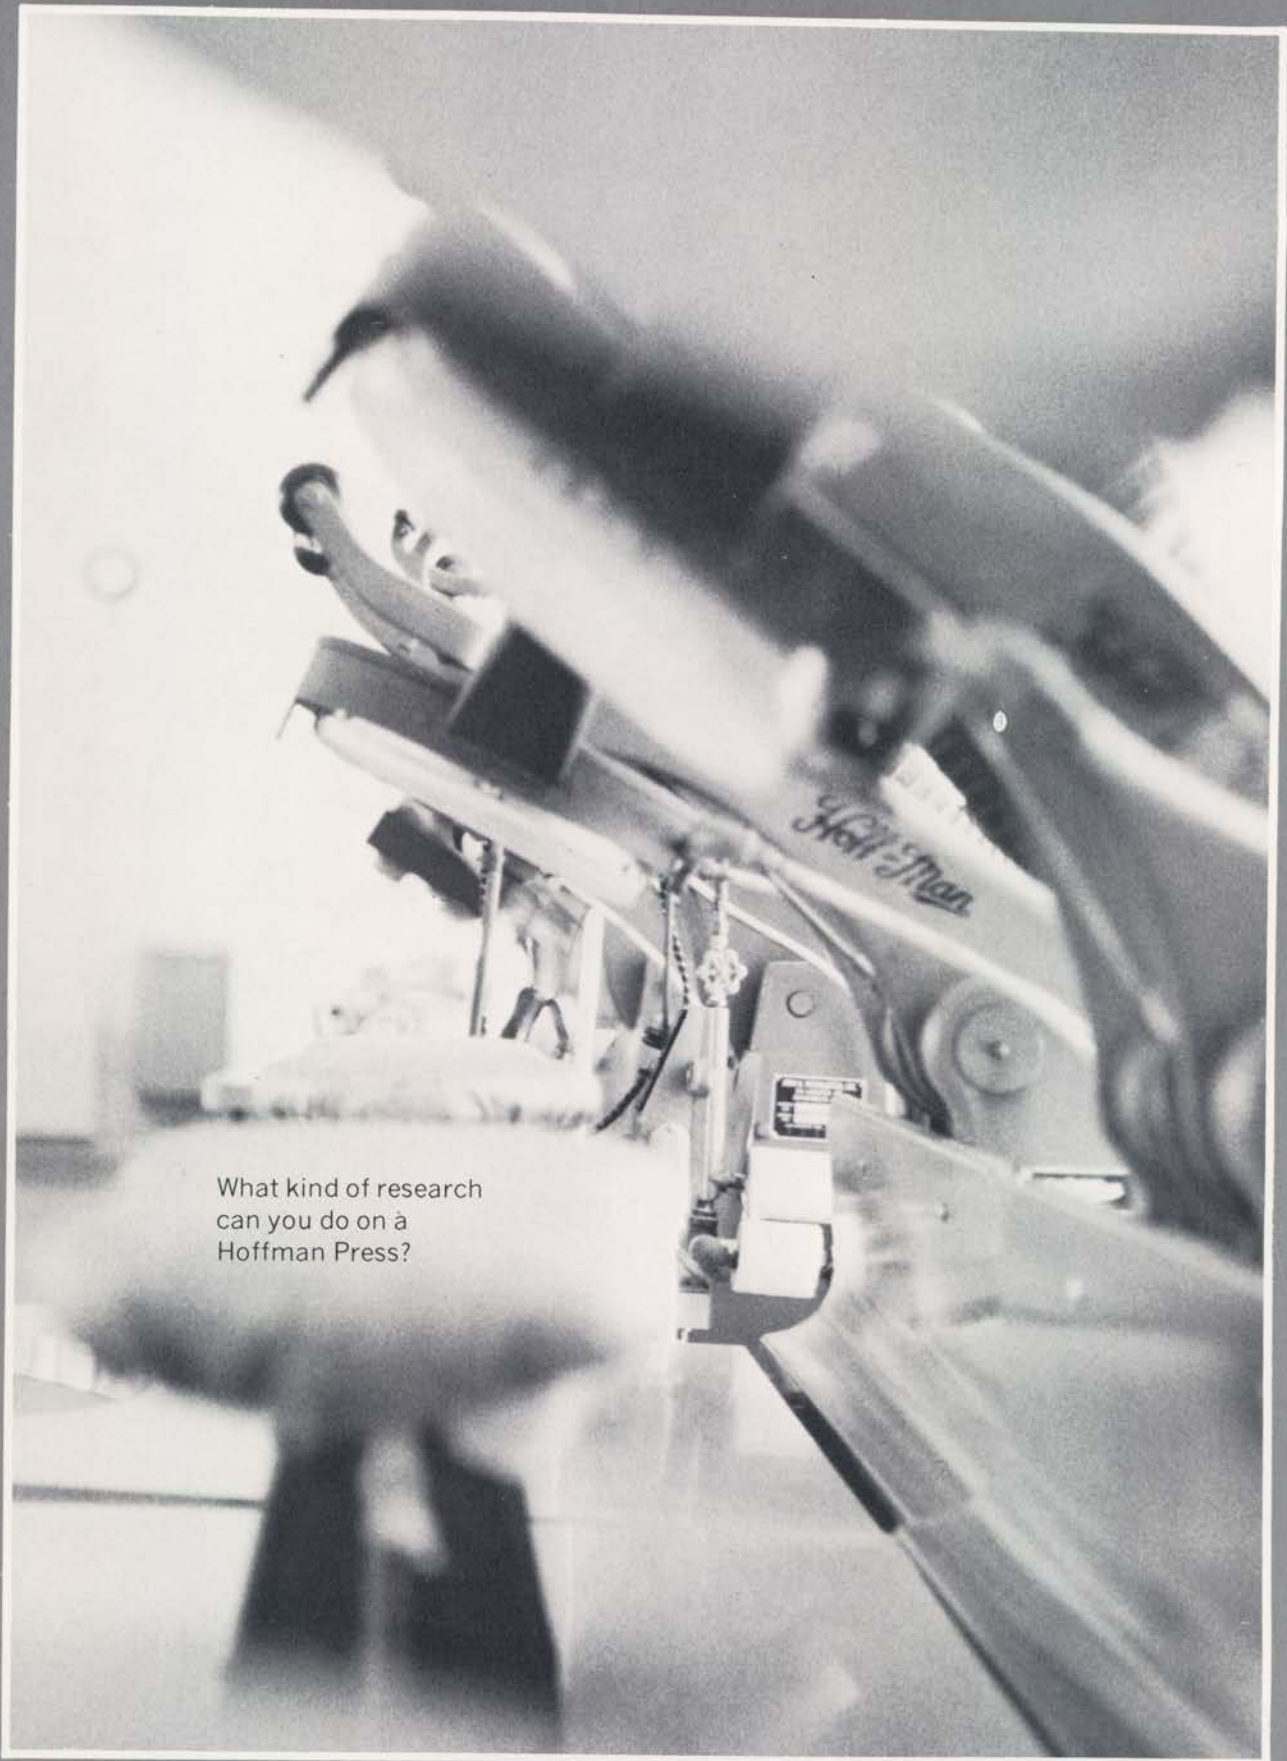

The poor cafeteria service is something everyone talks about but effective action is missing. The portions are small and the prices unreasonably high, for a cafeteria. The quality of the food seems to be going down and the room itself gets dirtier and dirtier.

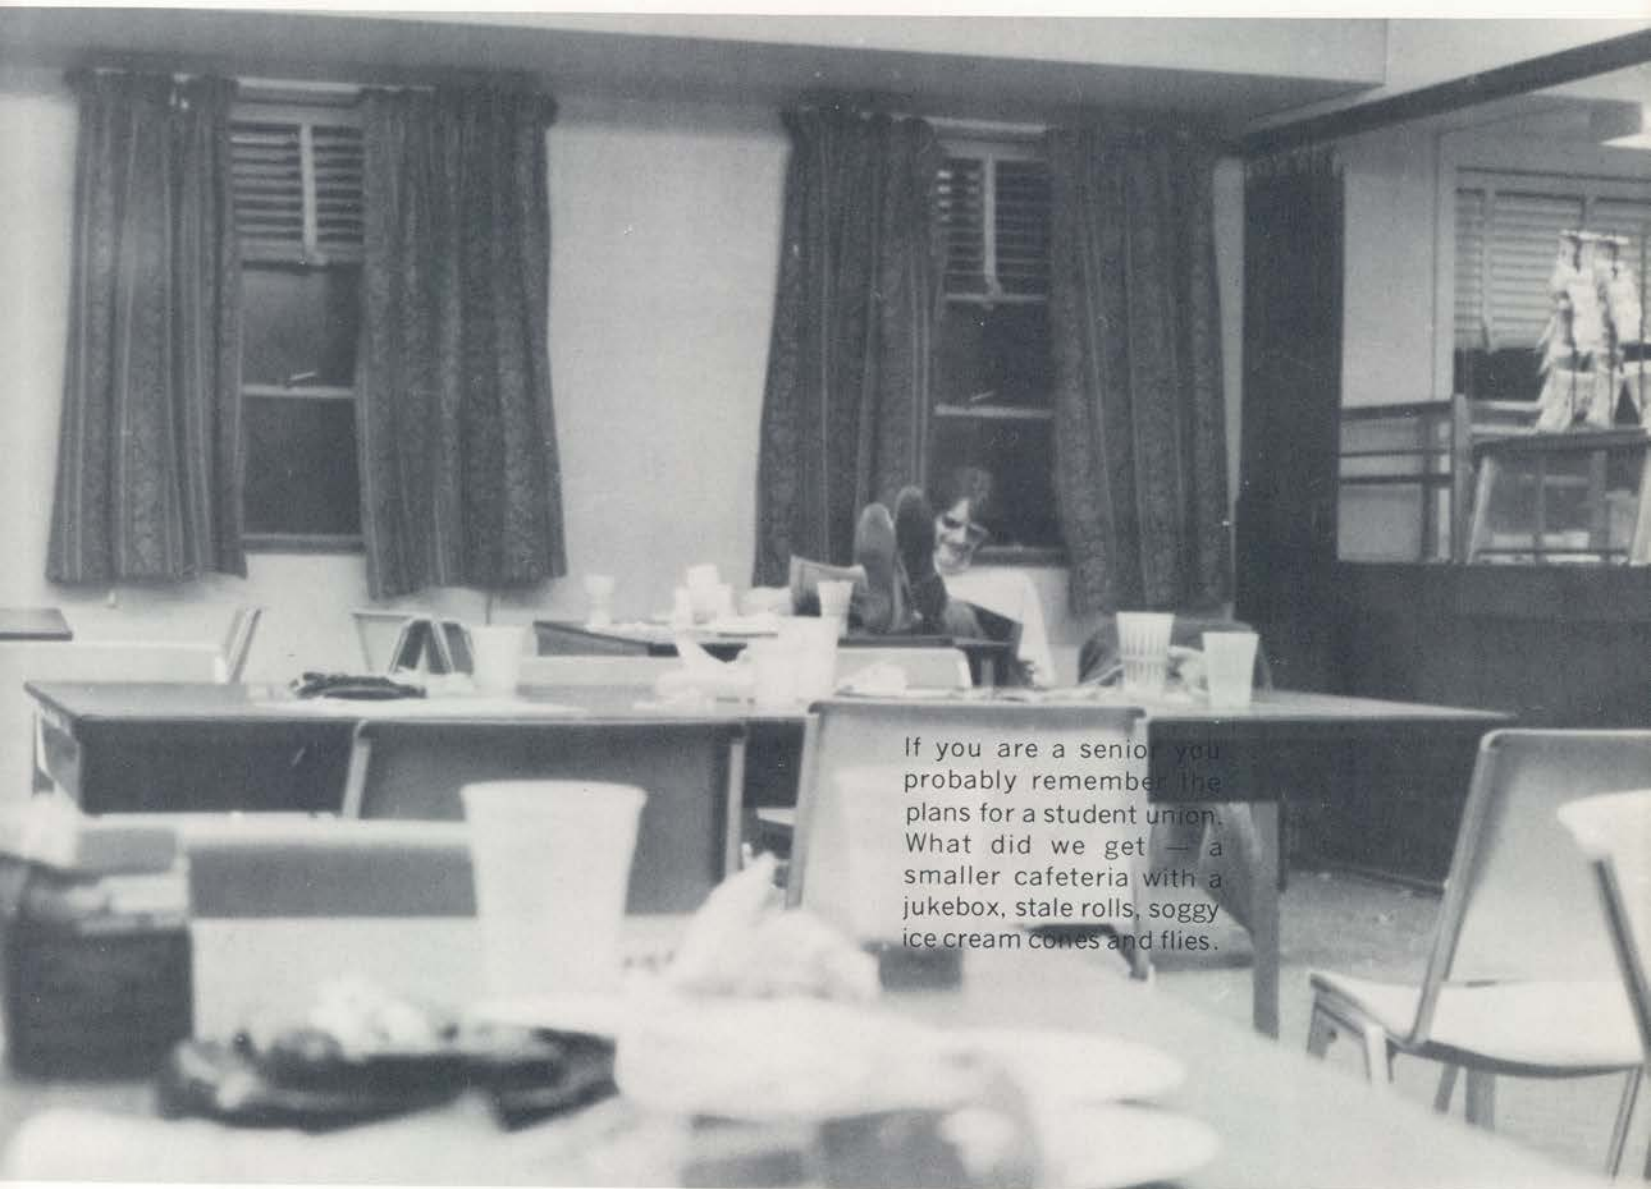

SCHOOL ACQUIRES NEW HOME FOR THE
PRESIDENT AND LAND FOR NEW
RESIDENT CAMPUS.

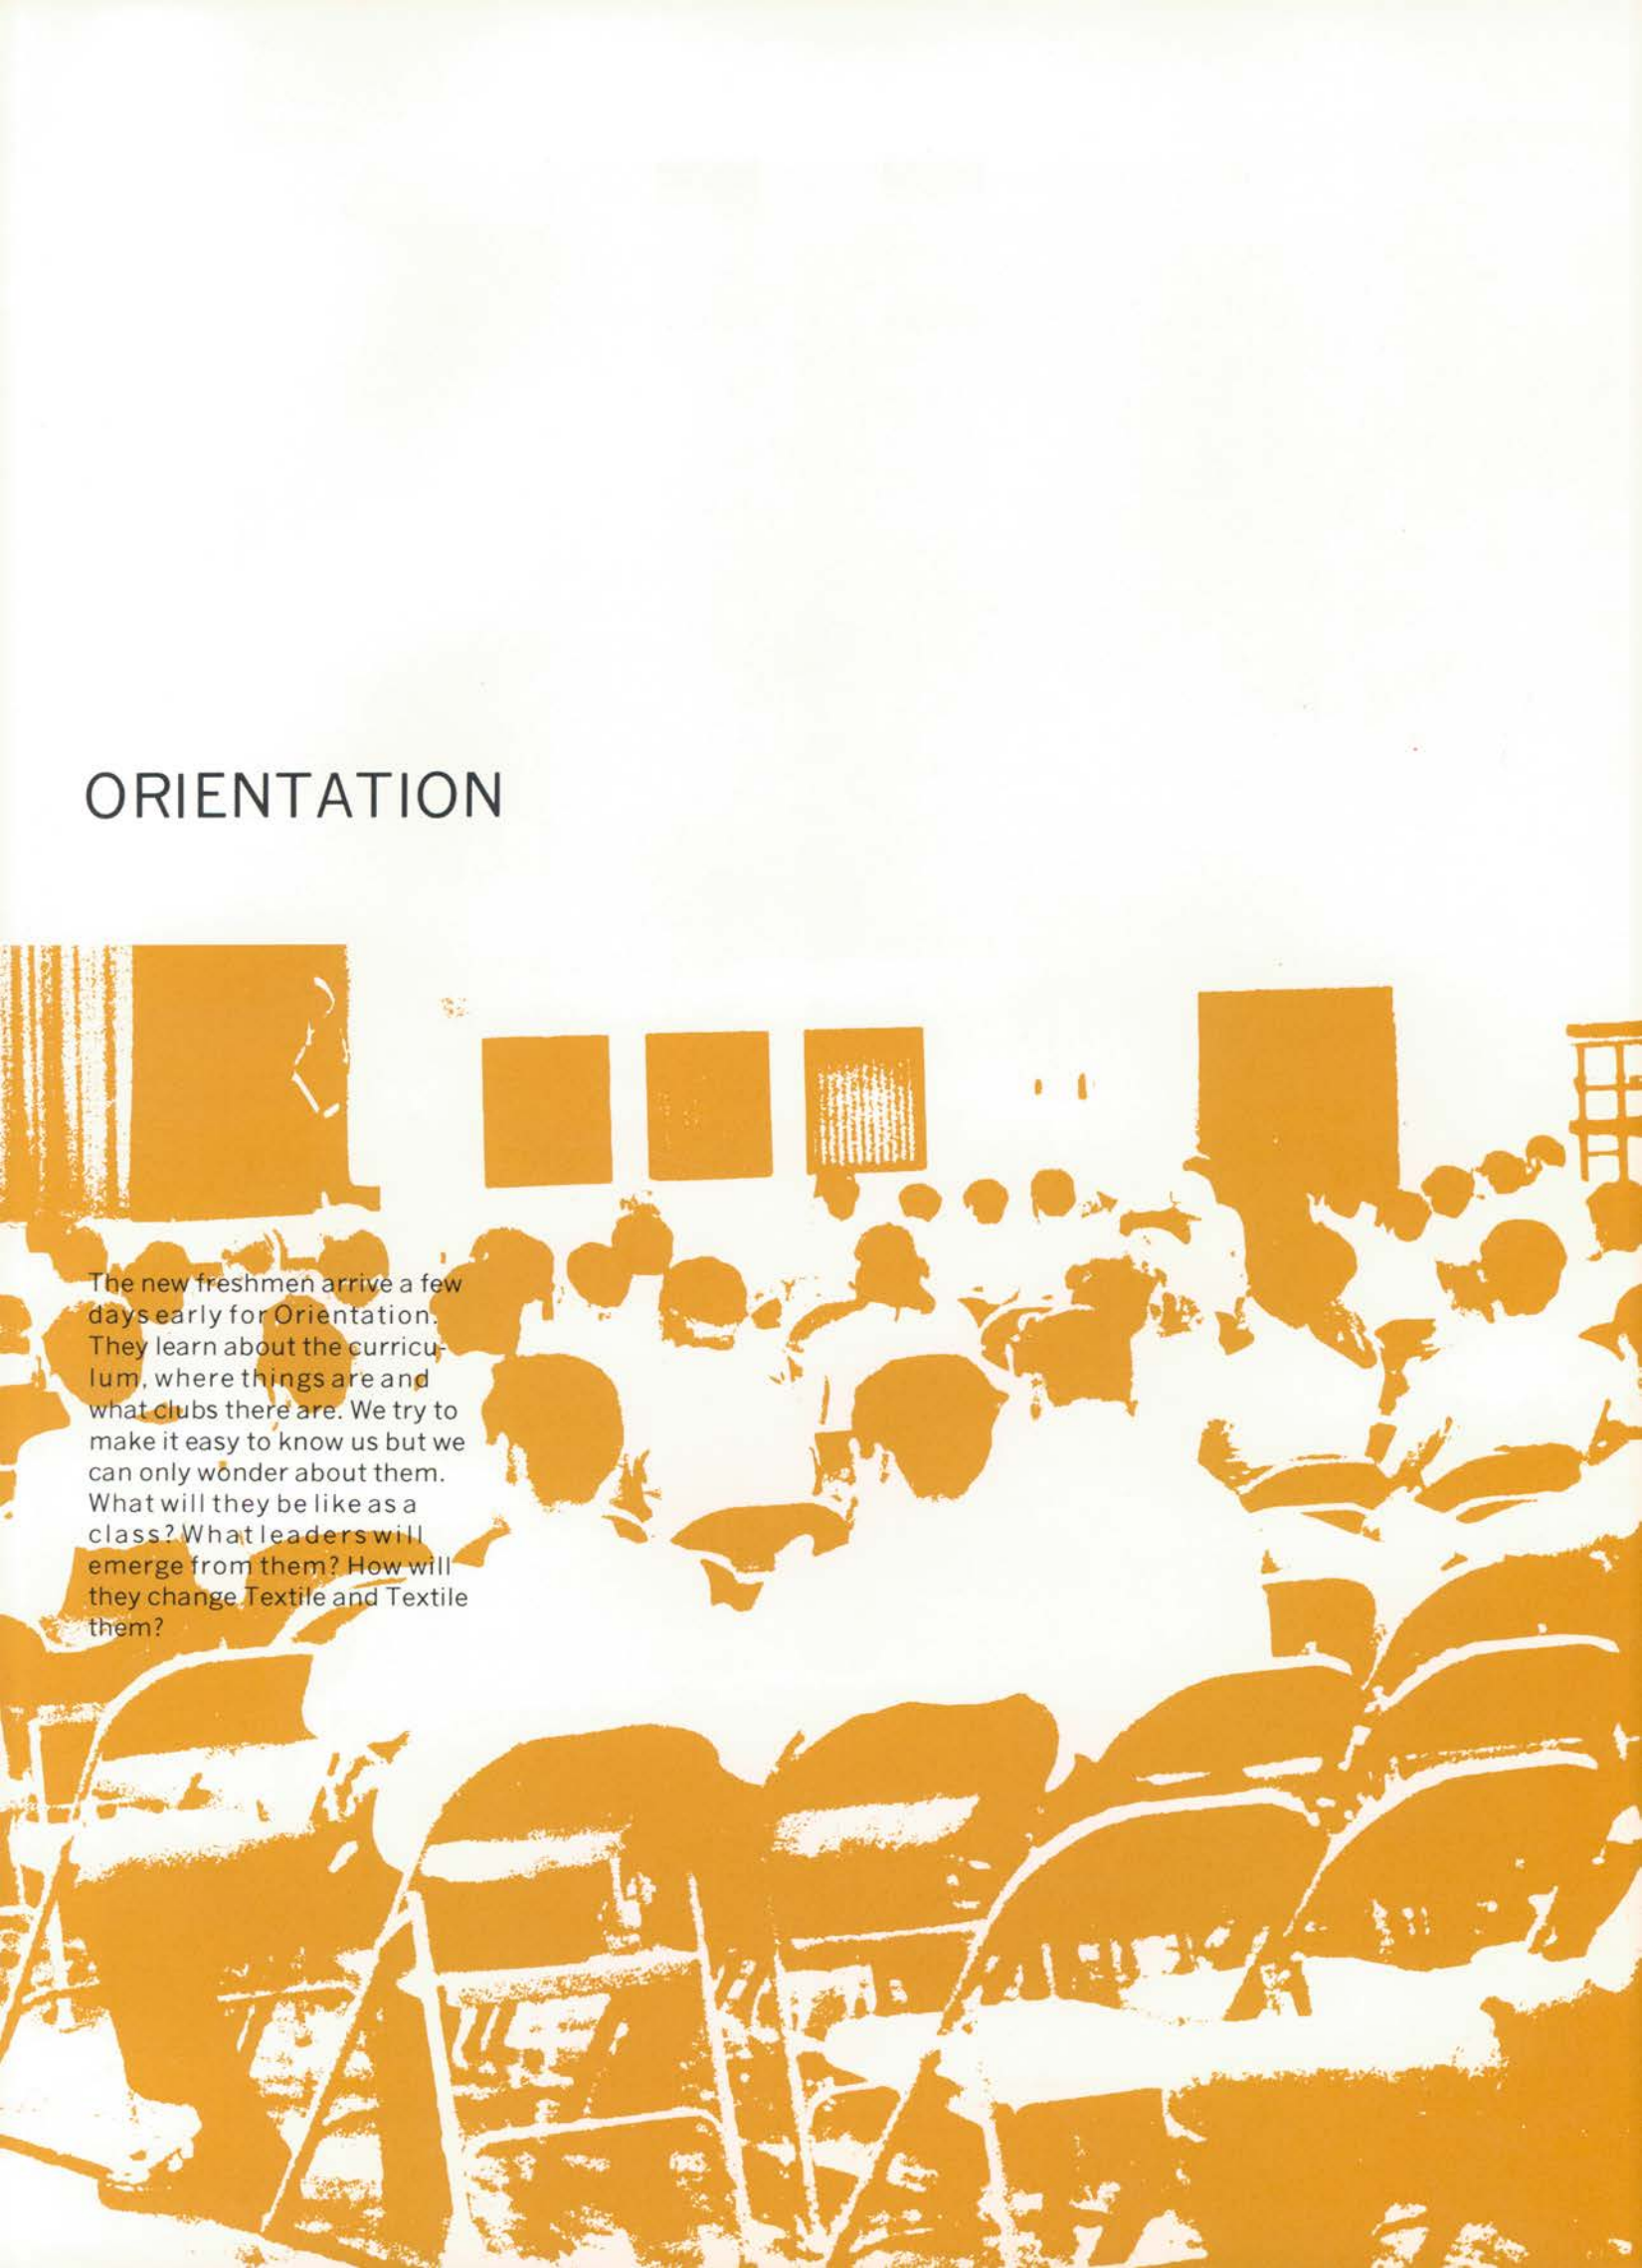

What kind of research
can you do on a
Hoffman Press?

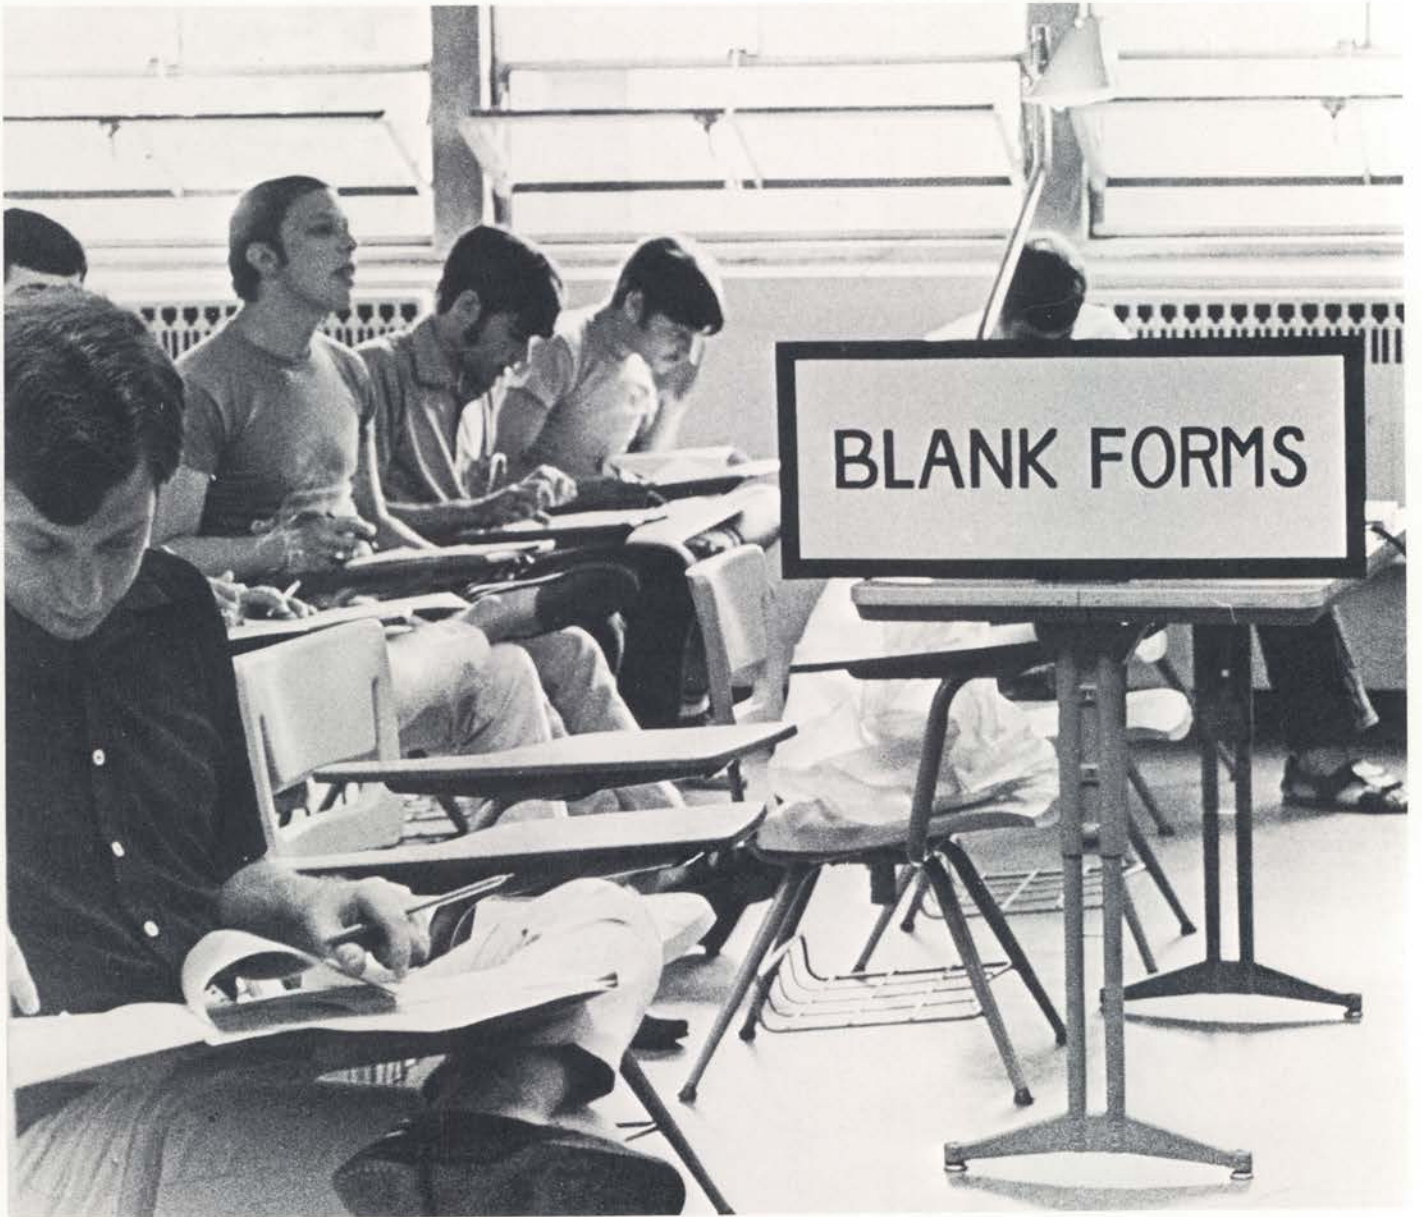

If you are a senior, you probably remember the plans for a student union. What did we get — a smaller cafeteria with a jukebox, stale rolls, soggy ice cream cones and flies.

ORIENTATION

A large group of students, mostly young men, are seated in rows of folding chairs in a room, facing towards the front. The room has a white wall with several windows and a door. The students are dressed in casual attire, including t-shirts and jeans. The scene is brightly lit, suggesting an indoor setting with ample light.

The new freshmen arrive a few days early for Orientation. They learn about the curriculum, where things are and what clubs there are. We try to make it easy to know us but we can only wonder about them. What will they be like as a class? What leaders will emerge from them? How will they change Textile and Textile them?

REGISTRATION

Registration is the day everyone comes back — or be fined ten dollars. The school just started using a computer and it does a good job on regular rosters without electives. Of course many upperclassmen spend hours trying to resolve "basic conflicts" and they would tell you registration is no way to begin a year.

Pity the poor commuter. What is his name? Who cares? Even the cop uses a number.

DORM COUNCIL GETS VISITING HOURS EXTENDED

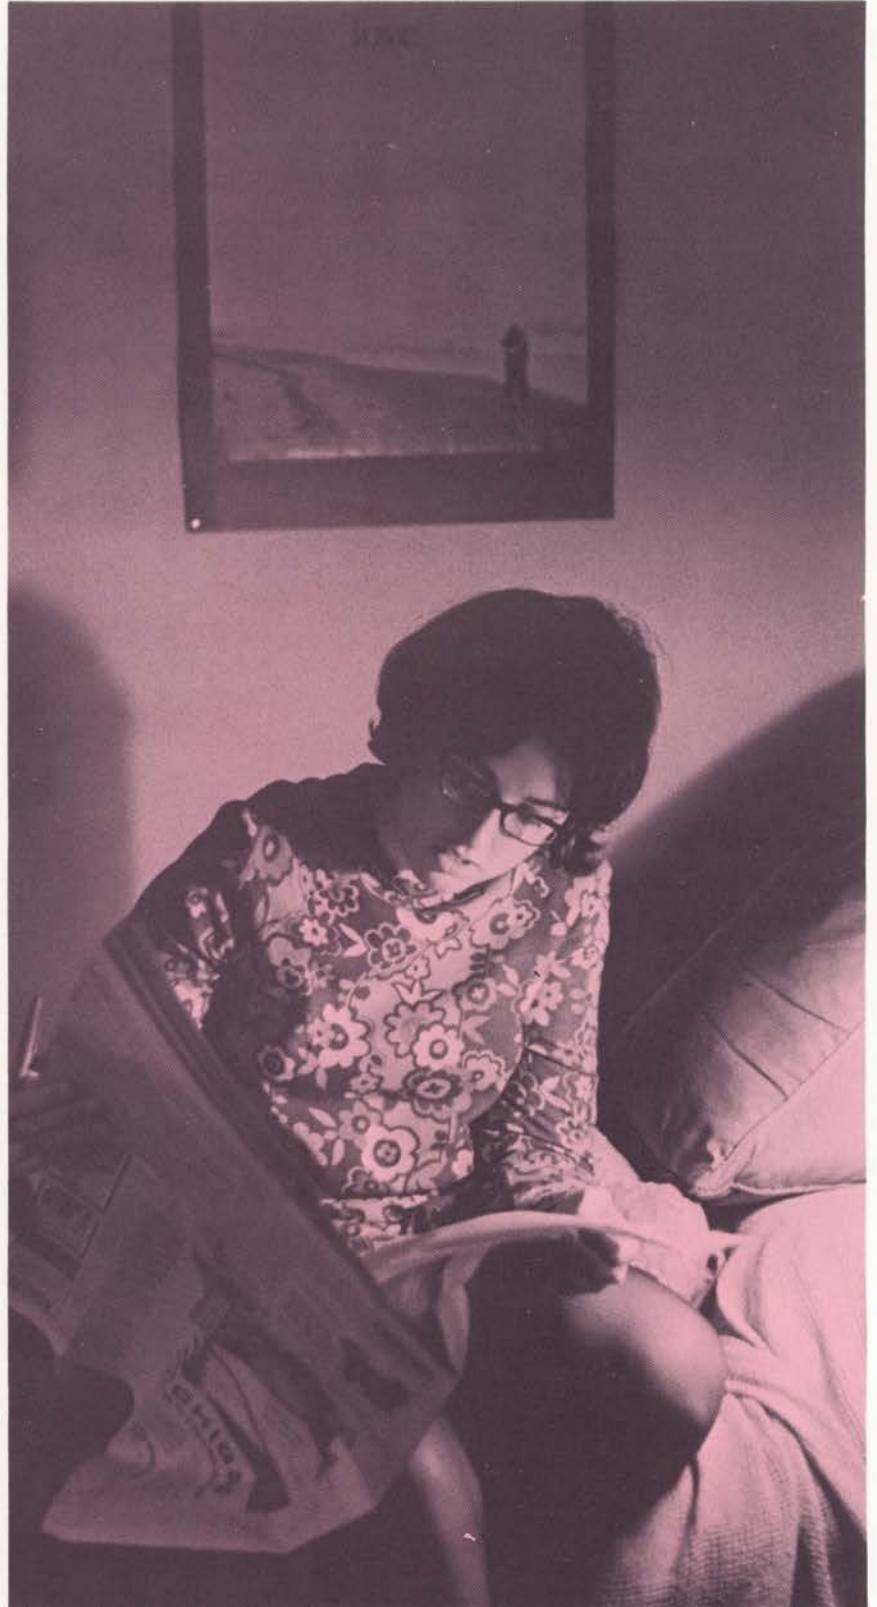

LEFT TO RIGHT: B. Kelner, D. Smaymo, E. Cawley, I. Goldstein, S. Steel, J. Miller, B. Anton.

Living in a dormitory is a different type of existence. It combines the worst aspects of living in a hotel and an army barracks. The Dorm Council was designed to help the dorm student cope with his living facilities. It is a mediator between the students and the Dean of Students. It helps to set up the rules that the dorm is governed by and sponsors entertainment for the dorm students. Its big accomplishment this year has been to get visitation hours reestablished and lengthened. These include week-night visitation hours for women in the men's dorm.

IS TEXTILE COED?

Yes, there are women at Textile and some of them even live on campus. Actually living at school for a coed means that she lives in an apartment about a mile away from school. She is responsible for doing her own cooking and a lot of the cleaning. She must also adjust to living with several other girls in an area that may be lacking a bed only in the kitchen. As is, one of the worst things is the failure of the school to maintain the apartments correctly.

Why do we need more black students?

We need more black students because, with the vast social changes that have taken place in the United States in recent years, education in a virtually all-white institution can no longer be considered a good education. And our students deserve a good education.

The relationships between the races and all of their ramifications form the most pressing domestic issue facing Americans. And it's no longer enough for well-educated Americans to view this issue telescopically. White college students must have the opportunity to get to know black college students through normal classroom and campus activities.

No American educational institution can say that it is doing its job today unless it is providing the opportunity for blacks and whites to come together routinely, to overcome their fears of one another and to learn to understand and trust one another.

It is the function of education to combat ignorance, and the fears that are bred by ignorance. It is the function of education to broaden experience. It is the function of education to expand awareness of the potential of being human.

The purpose of this college is education. And education cannot be defined by classrooms and textbooks. It is much more comprehensive than this. A total college experience means interacting with different kinds of people and thereby becoming aware of our own narrowness of background and outlook and at the same time of our potential to grow out of this narrowness.

Dr. William Brown
— Ad Hoc Committee on the
Admission of Black Students

LEFT TO RIGHT: Juanita Wooten, Cellestine Blanding, Leonard Jones, Rita Doran, Otis Ball, Terry Simmons, Johnathan Lewis.

Motamedi, R. Ludwig, V. Judge, C. Ro-senfeld, M. Breziner, S. Kliner, S. Clarfeld, E. Baraban, R. Kulka, E. Dau, D. Gingras.

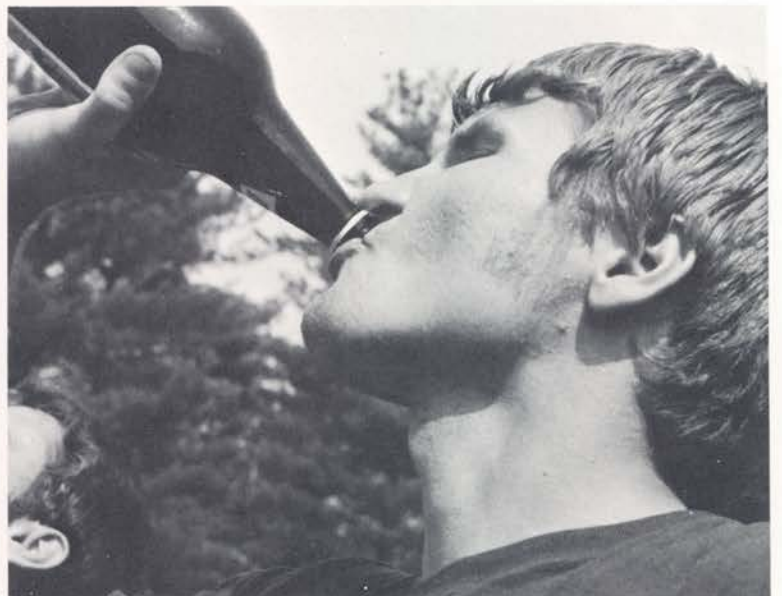

INTERNATIONAL CLUB MEMBERSHIP REACHED A NEW HIGH AS 114 STUDENTS JOINED. A COMBINATION OF LIVELY DISCUSSION AND GOOD FELLOWSHIP PROVED TO BE A WINNING ONE. THIS YEAR THE SERIES OF INTERNATIONAL NIGHTS INCLUDED ETHIOPIAN, ISRAELI, GREEK AND LATIN AMERICAN. THE CLUB ALSO TOOK A RETURN TRIP TO BOSTON. IT ENDED THE YEAR WITH A LARGE BANQUET.

GREEKS

The Greeks provide most of the social life to be had around Textile. This is generally in the form of closed parties and rush functions. The Greek Games were a Textile tradition before the calendar change. This year Orientation included a barbecue sponsored by the Inter-fraternity Council.

ΦΕΠ?

Phi Epsilon Pi has merged with Zeta Beta Tau to form a stronger national fraternity. Here at school though the house at 3007 Schoolhouse Lane and the brothers are still there, just the name over the driveway has changed.

This year Phi Ep continued to have service projects with the Ferman Home for Crippled Children including a Thanksgiving Day Party and a trip to the circus in the spring. They also raised two hundred dollars for Easter Seals which supports the home. Most of the activities, however, are social and center around the house and pledging activities. This includes an average of two parties a month with live bands. Two other very important events are Parent's Day in the Spring and Alumni Day in February.

THE SAILING TEAM COMES OF AGE

Four years of hard work are finally paying off for the Sailing Team. Unlike other sports, most of the members of the Sailing Team have never participated in competition before they came to Textile and it takes years to train a team when you have that kind of material with which to start. This year, however, we had a mature team that was ready to win. They did just that as both the MAISA and MAAWS teams went to the regional championships. The girls came in first at a home regatta early in the fall. Penn's heavier wind overwhelmed the team at the Intercity but Ricardo Wagner did manage to pull out a spectacular win as he led the fleet around the course in the last race.

CROSS-

The Cross-Country season started in high gear early in September only to end in frustration in November. The lack of runners hindered any possibility of victories for the harriers. The team was shut out by Glassboro State and Haverford before winning their only event against Philadelphia Community College. Homecoming on October 18 gave alumni and students the first opportunity to see a triangular cross-country meet as Kutztown and Millersville once again outpointed the undermanned Textile squad. In an attempt to add depth to the team, members of the Swimming and Soccer squads were called to bolster the team. Lebonon Valley, Lincoln, Franklin and Marshall, and Drexel all took the measure of the Young Rams.

Next year's squad will be built around mainstep Sammy Corr and Mike Rapp, both top runners and scorers for the 1969 team. Lew Jacobson and Danny McCreight helped round out the squad. It is understood that a number of high school runners have enrolled at Textile. It is with optimism that plans are being made to build up our Cross-Country team.

SWIMMING TEAM DROWNS IN A SEA OF LOSSES

The Swimming Team concluded their 1969-70 season with no wins against seven losses. This year's team had only four swimmers and two divers, so it was numerically impossible for them to win. There were, however, two good reasons for having a team; namely, John Fegley and Bob Long. They won their events with regularity during the official season and will enter the Middle Atlantic Swimming Championships. In 1968 they won individual medals for backstroke and backstroke.

11 to 1

Murry Issadere
9 to 3

In an unprecedented season the tennis team finished with a record of eleven wins and one loss. They played Lincoln University, Haverford, Saint Joe, Drexel, Delaware Valley, PMC, Trenton, Rutgers, Kutztown, LaSalle, Ursinus and Glassboro; Haverford was the only one not to fall. The team placed sixth in the E.C.A.C. College tournament held at Rider College. Roberto Vulka and Rich McKinley lost in the semi-finals of the doubles tournament to Leigh University after eliminating Fairleigh Dickenson, Temple University, and Fordham University.

SENIOR INTE

Suddenly all the boastful, confident seniors find they have knees of jelly and their bodies have broken out in cold sweat — the time has come for **interviews**. Terror reigns in every heart. "Will you be able to get to the sheet before every space is filled? Will they even look at your portfolio? Surely the interviewer will ask a question

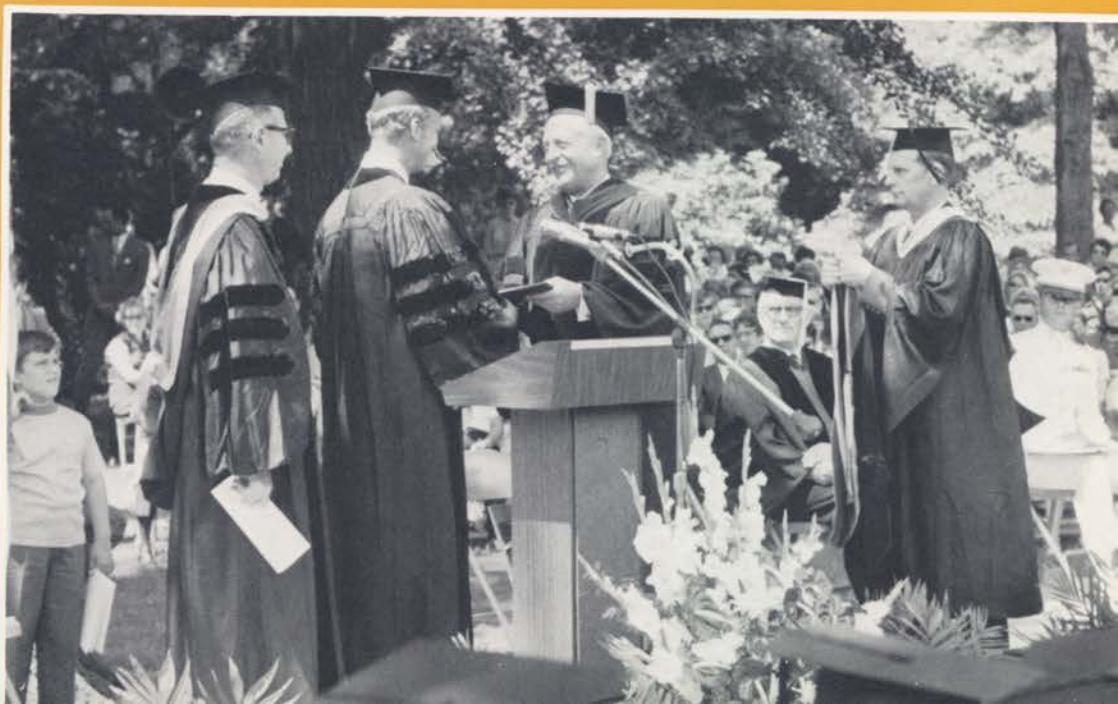

IEWS

ust to trip you up. Will anybody offer
you a job? Where? For how much
money?" All these questions run
through their minds. Interviews are
the beginning of the end; and for all
the talk there is none that does not
wish college was just starting again.

GRADUATION — MAY 23
The President shakes your
hand and says congratulations
But the only thing you can
feel is the diploma.

CURRENT CHESS POPULARITY PHENOMINAL

THE CHESS CLUB IS AN EXAMPLE OF THE EFFECT A SMALL BUT ACTIVE GROUP CAN HAVE ON A CAMPUS. STARTING JUST THIS FALL THE GROUP WAS DETERMINED TO MAKE THE SCHOOL AWARE OF CHESS. ALTHOUGH SCHOOL-WIDE TOURNAMENTS HAVE YET TO BE SET UP, THE CLUB HOPES TO DO SO NEXT YEAR.

IT IS WITH GREAT PRIDE THAT THEIR PICTURE IS PLACED AT THE BEGINNING OF THIS SECTION OF CAMPUS ACTIVITIES. IN THIS WAY WE SALUTE THEM AS AN ACTIVITY WITH REAL PURPOSE.

**FROM THE
EDITOR**

To the Class of 1973: As Editor-in-Chief of the Textile Collegian let me welcome you to Textile on behalf of the staff and editors of our newspaper. The next four years will be the most important ones in your lifetime. Your capacity in our society will weigh directly with your achievements in college. One should strive for a balance between scholastics and extracurricular activities, and the college newspaper is an ideal activity to develop both as a sense of responsibility and self expression. Our paper has grown in the past few years to be the focal point on campus for opinion and reform. You can be a part of our team. If you have any questions as to how to join the staff or what the role of the newspaper is on campus do not hesitate to contact myself or any of the other members of the staff.

Good luck in the next four years, may they be profitable for you.

Allan E. Gore
Editor-in-Chief

one man's opinion

by Ron Magen

"One thing is certain; student apathy at this school is such that it took a good kick in the seat to get a reaction. Action and reaction are the life blood of a college. This being the case, P.C.T. & S. is definitely suffering from tired blood! And GERITOL is not the cure!"

I wrote these words last semester after the occurrence of a certain fiasco. That semester was a restless one. From the beginning—the fouled-up computer registration, trouble with the student council, dissent with and within the administration—it was a rough year.

To me, this year is off to a fine start. One of the most notable omens of good was the ease and lack of confusion during registration, a far cry from last fall! The campus has a well-scrubbed appearance, with the scent of fresh paint still lingering in the air. New direction signs and new faces, both faculty and student body, are evident at every turn. The renewal of old friendships, and the making of new ones, make the change from summer laziness to academic industry less painful.

The crop of new students this year is both large and varied. A few upper-classmen have already sallied forth into their masses!

These first few weeks are some of the most difficult of the college life. I have not met many of our new people, but I wish them all well. And I ask every upper-classman to help these people as much as possible.

CIRCLE K TRAINS FOR CHARIOT RACES

Circle K is one of the larger and more active clubs on campus. As a service organization it is responsible for the movies that are shown on campus during the year. This year it also held a four week seminar on drugs and had speakers on birth control and abortion. It hosts the Townhouse Meetings for Student Council and had the concession during the soccer playoffs.

This spring Circle K had a Circle K Week during which there was ping-pong, foul shooting, and dart throwing tournaments.

Circle K's services extend beyond the campus. It takes orphans to professional and Textile games; and this year hosted the Area Circle K Training Conference.

TWO STUDENTS ACCEPTED INTO CROWFOOT THIS YEAR

Crowfoot is the highest academic honor that a student can receive at Textile. To become a member of crowfoot it is necessary that a student must maintain an average of 3.25 for at least five semesters.

Dean Turner
Ben Knox

FIFTEEN STUDENTS ELECTED INTO BLUE-KEY

LEFT TO RIGHT: R. Siedner, D. McCreight, J. Heaton, B. Knox, S. Frumkin, Mr. L. Lupheimer, L. Jacobs, A. Gore.

Textile students were once again honored in **Who's Who Among Students in American Universities and Colleges**. These students were selected by student leaders on campus for their contributions in student publications and extracurricular activities.

LEFT TO RIGHT: M. Brett, B. Honold, J. Owens, R. Siedner, D. Turner, H. McCann, B. Knox, J. Antisavage, L. Jacobs, S. Frumkin, J. Heaton

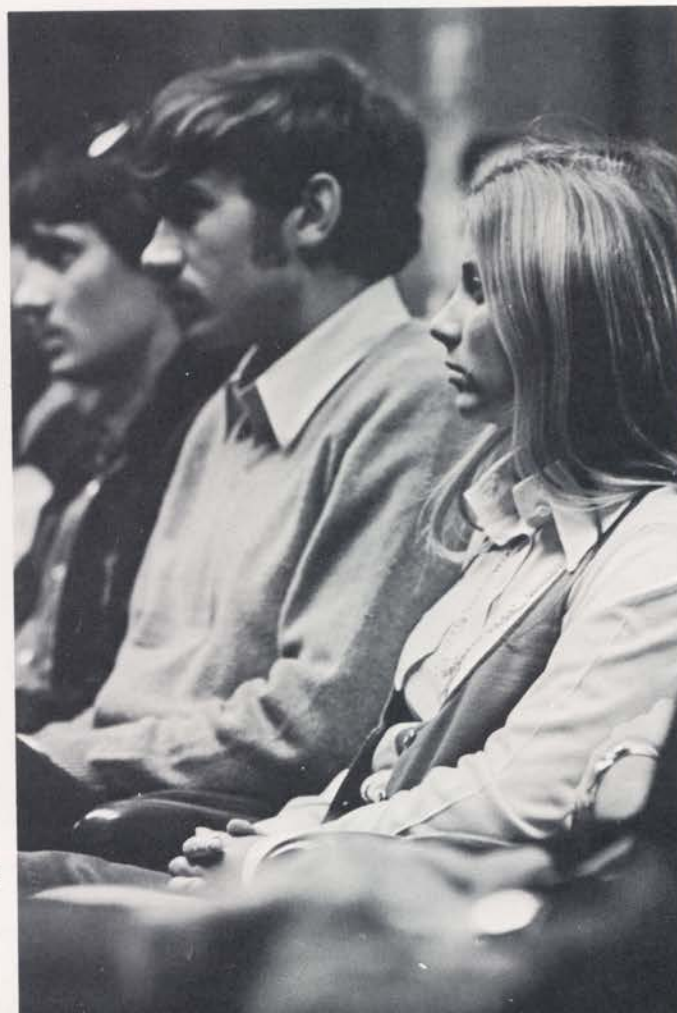

R. Orlando, D. McCreight, J. Parks.

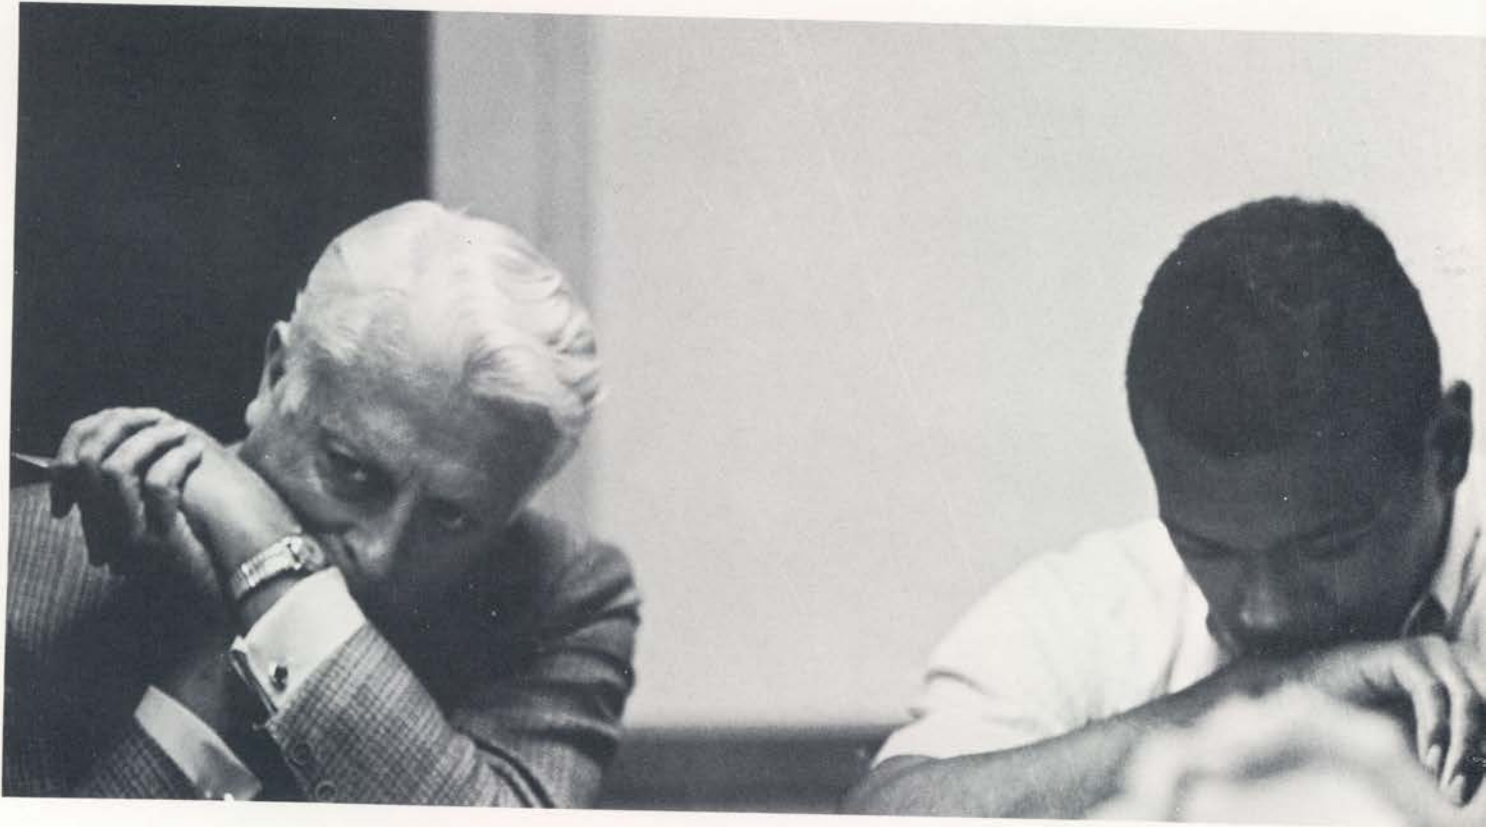

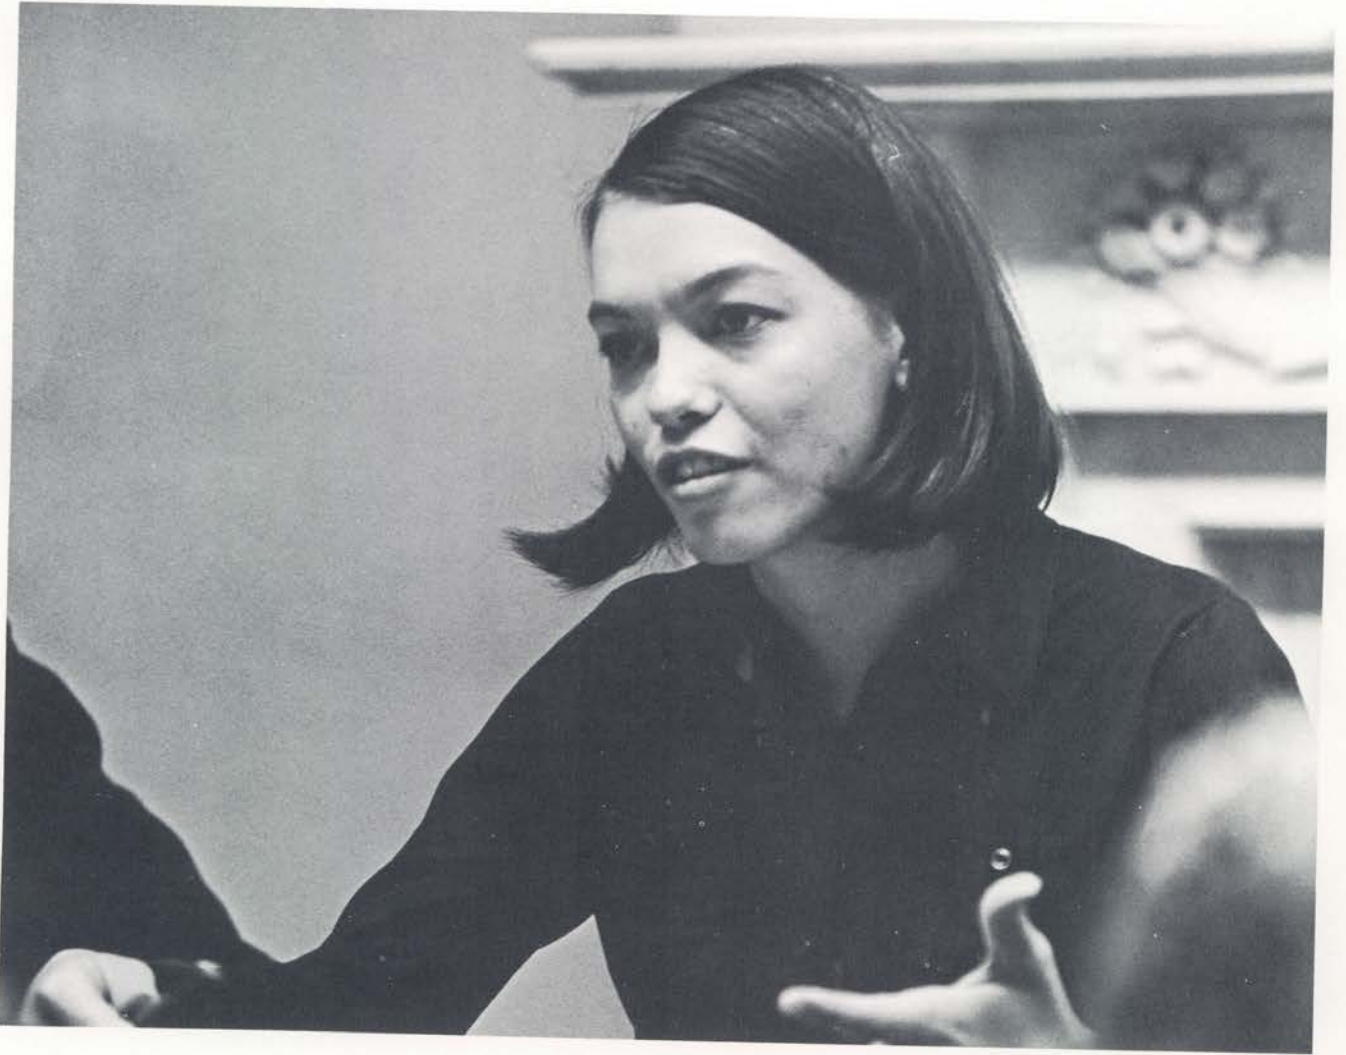

Steve Frumkin and Ben Knox were elected to **Senior Society** last spring. Each year outstanding seniors whose contributions to bettering student life have been outstanding are elected to the society.

LEADERSHIP AT KRISHEIM

A select group of students, faculty and administration retreated for two days to an old mansion in Germantown for the Annual Leadership Conference. What went on there was one of the best exchanges among these groups. Three topics were covered at the conference: Student Leadership, the Academic Program and the Future of the College. Each one was introduced by a speaker and the large group divided into four smaller ones. The talking was endless, everyone became hoarse, but enlightening; binding the people that participated together; generating a hope that Textile can develop into something special. Dr. Murry Miller from Drexel challenged the group to become creative and to crave the type of satisfaction it brings. It was an exhausting but wonderful way to spend a weekend.

STUDENT COUNCIL BECOMES MORE PREDOMINATE BUT EFFORTS FLOP AND DIVIDE CAMPUS

end. We can no longer justify the
men's lives and the money being spent
there. This was the message of
OCTOBER 15. Instead of going to clas-
ses the Committee for Peace asked

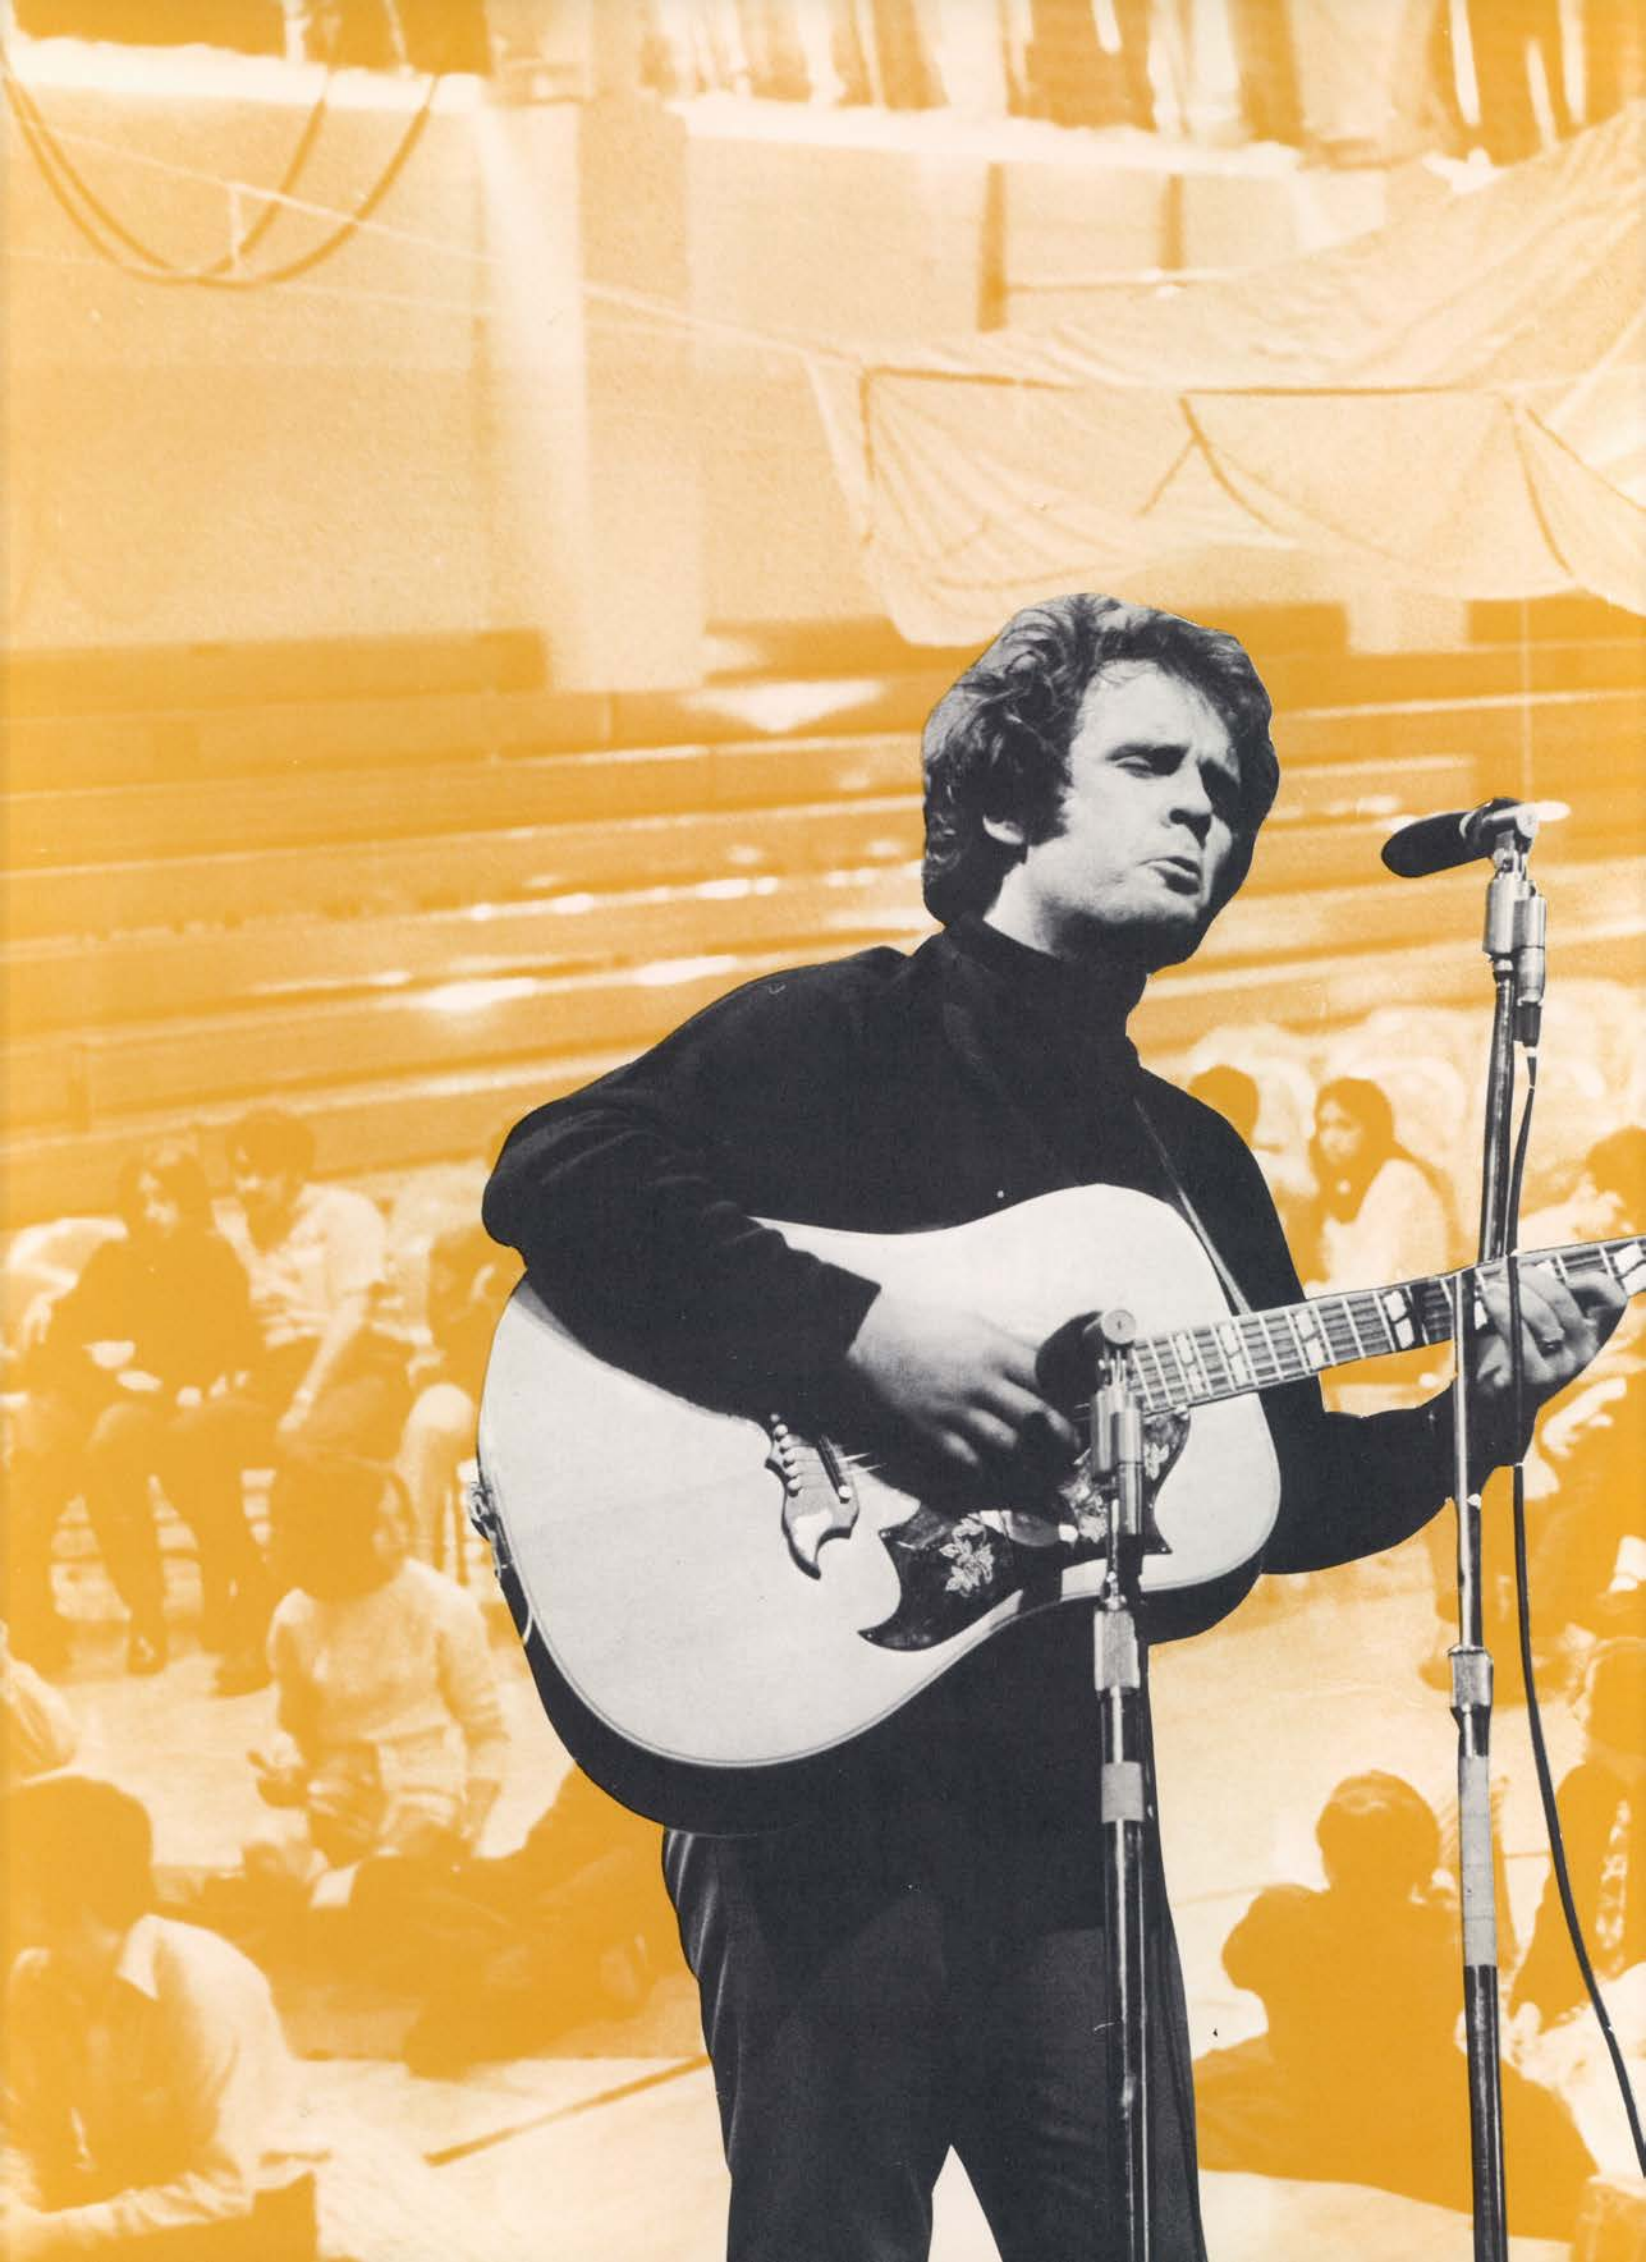

The war must

everyone
to think about
Viet Nam and to listen to speakers.
The strike was very successful but
not too many showed up for the spea-
kers. A

... quiet
... group, to the dis-
... appointment of somebody
... who asked the police to patrol the
... campus, applauded Mitch Gilbert of
WDAS, Spencer Cox from the American
Civil Liberties Union and Dr. Elvin
Smith of Temple University. Dr.
Brown took the platform to explain

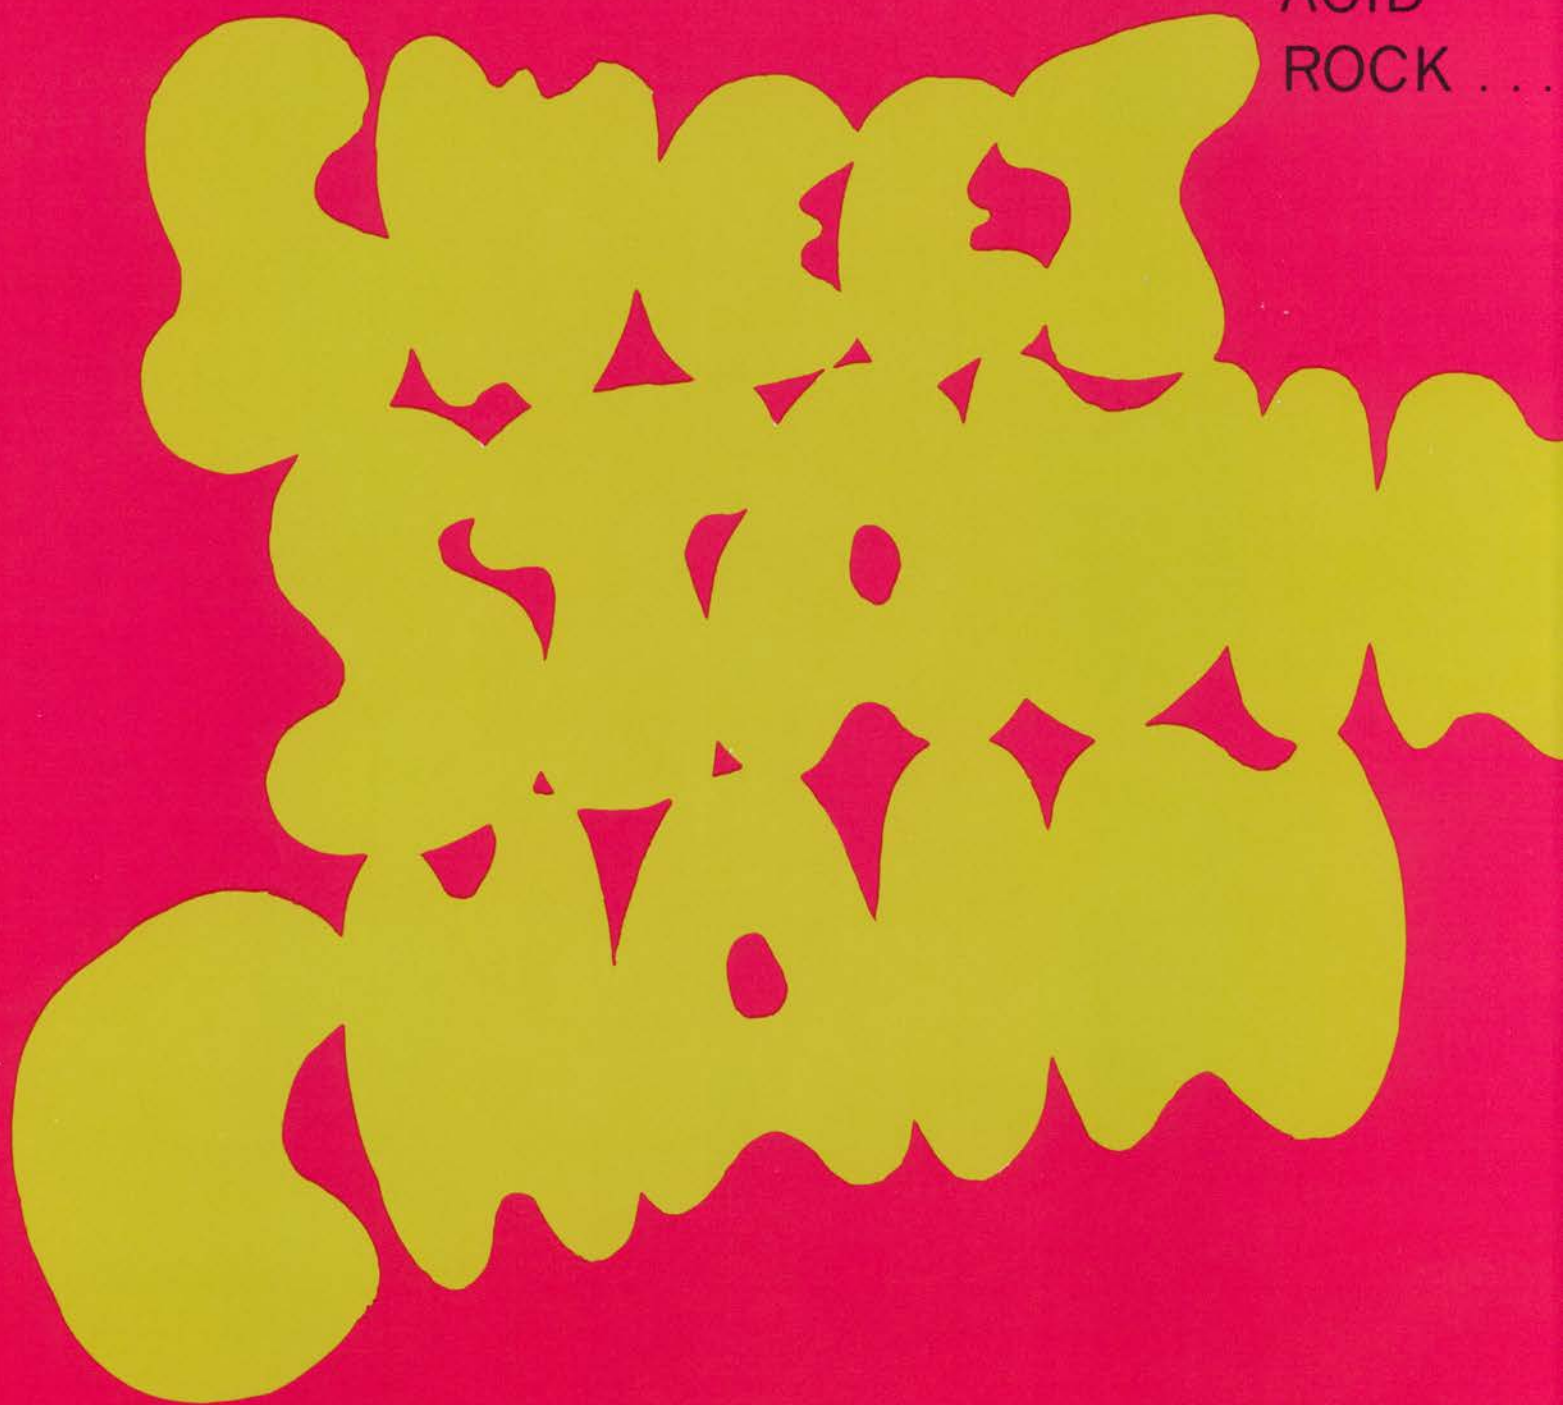

the
... "new Pa-
triotism" in one
of the best speeches of the
day. The memorial service ended the
day in sadness and hope as balloons
for the Viet Nam dead floated upward
and the doves were freed.

IT WAS HOMECOMING WEEKEND
SO EVERYONE WENT HOME

.... HOT
ACID
ROCK

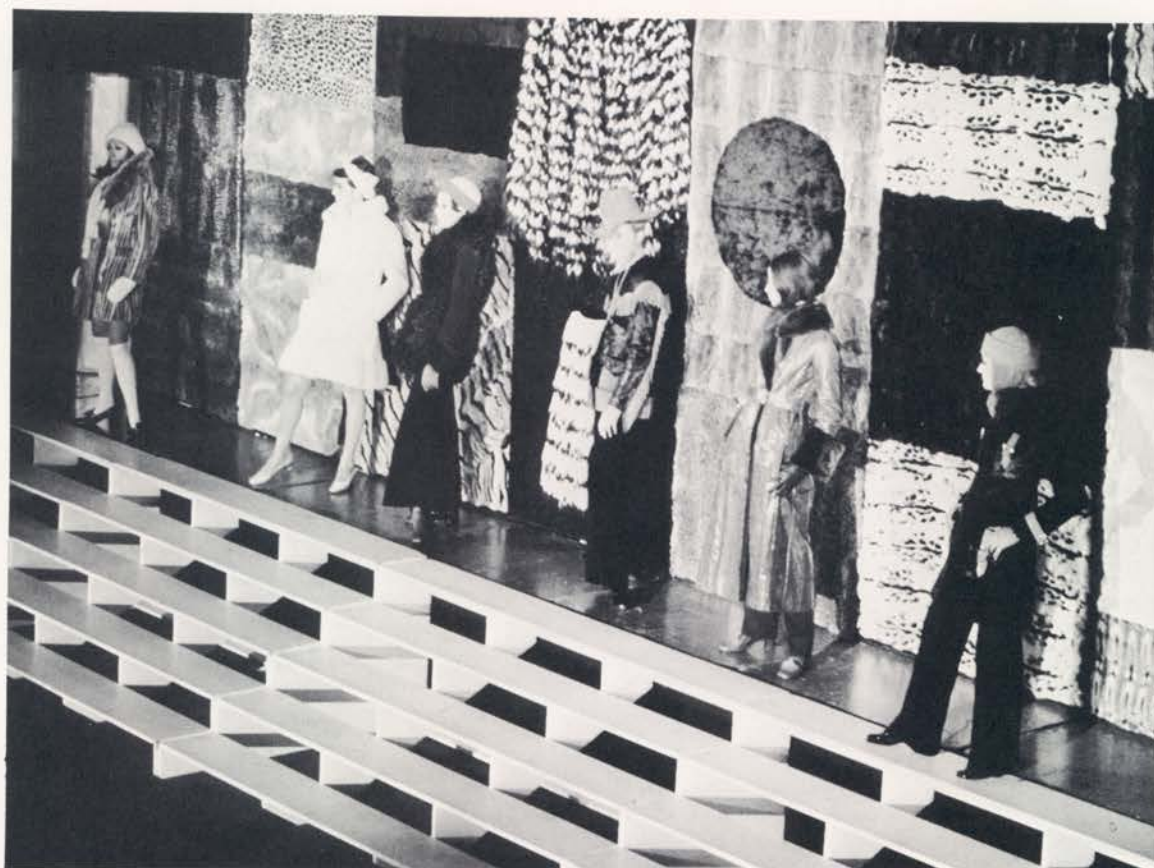

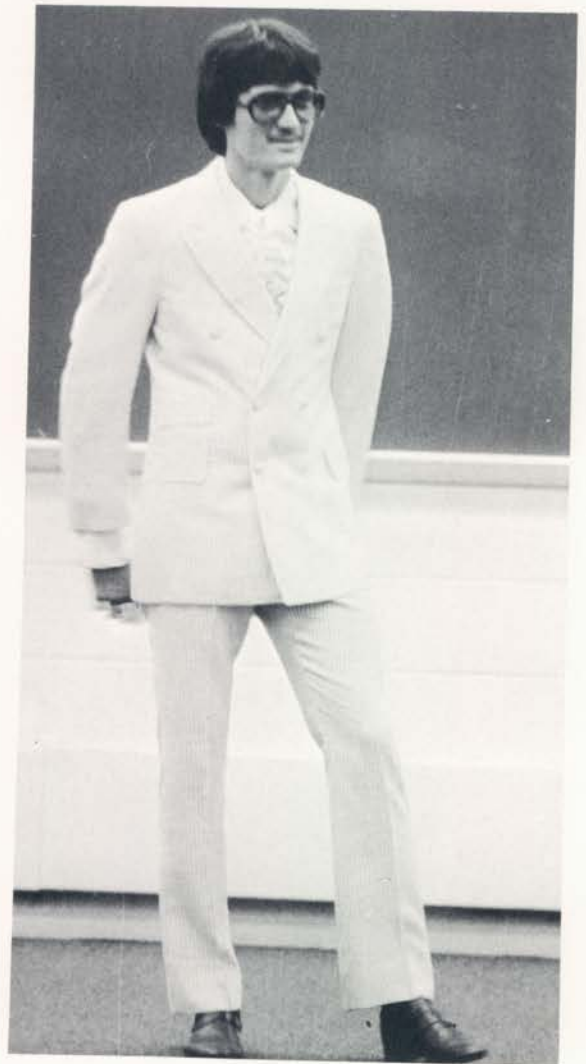

...TRADITIONAL
QUEEN ...

FASHION AND TEXTILE

Whether its going on a field trip to a New York fashion show, or the body covering exhibit in the library, or the fashion show of clothes made by students, Textile is very much aware of fashion and the creativity attached to it.

PHOTOGRAPHY CLUB

Photography combines technology and artistry. Without both the creativity of the photographer is bound, with them the results can be very interesting. Still it is creativity that adds the spark to make a "good" photo glow with lasting pleasure for the observer. The following pages display some of the work of Textile's Photography Club and salute the technical skill, artistic eye, and creativity of the people behind the camera.

Goldberg

This year there are two design contests being held at the school. The J. P. Stevens contest has been held for two years. It has three areas; print design, fabric design and free design. It is open to Textile Designers and Engineers. Judging takes place late in the spring semester.

This year a second contest was initiated. It is sponsored by Mrs. Ruth Priest Pollitz in memory of her husband. This contest is open only to fabric designers and must be applicable to a finished fabric. Judging for this contest takes place early in March. The winners of this year's contest were: 1st prize, James Factor; 2nd prize, Mordechai Moncarsz; 3rd prize, Julia Devinsky; Honorable Mention, Arlene Levin and Audrey Bernheimer; Freshman 1st prize, Elaine Mason; 2nd prize, George Schagerl.

ENTER AND LAUGH

Last spring the Drama Club proved that plays could be successful at Textile, with its production of **Enter Laughing**. It was hoped that drama would be a continuing activity at Textile. However, this fall saw no production.

LEFT TO RIGHT: A. Wexler, T. Mason, L. Linehan, S. Levitsky, K. Archer, D. Firth, C. Rosenfeld, N. Mandell.

INDEPENDENT STUDY

RESEARCH IN CHEMISTRY

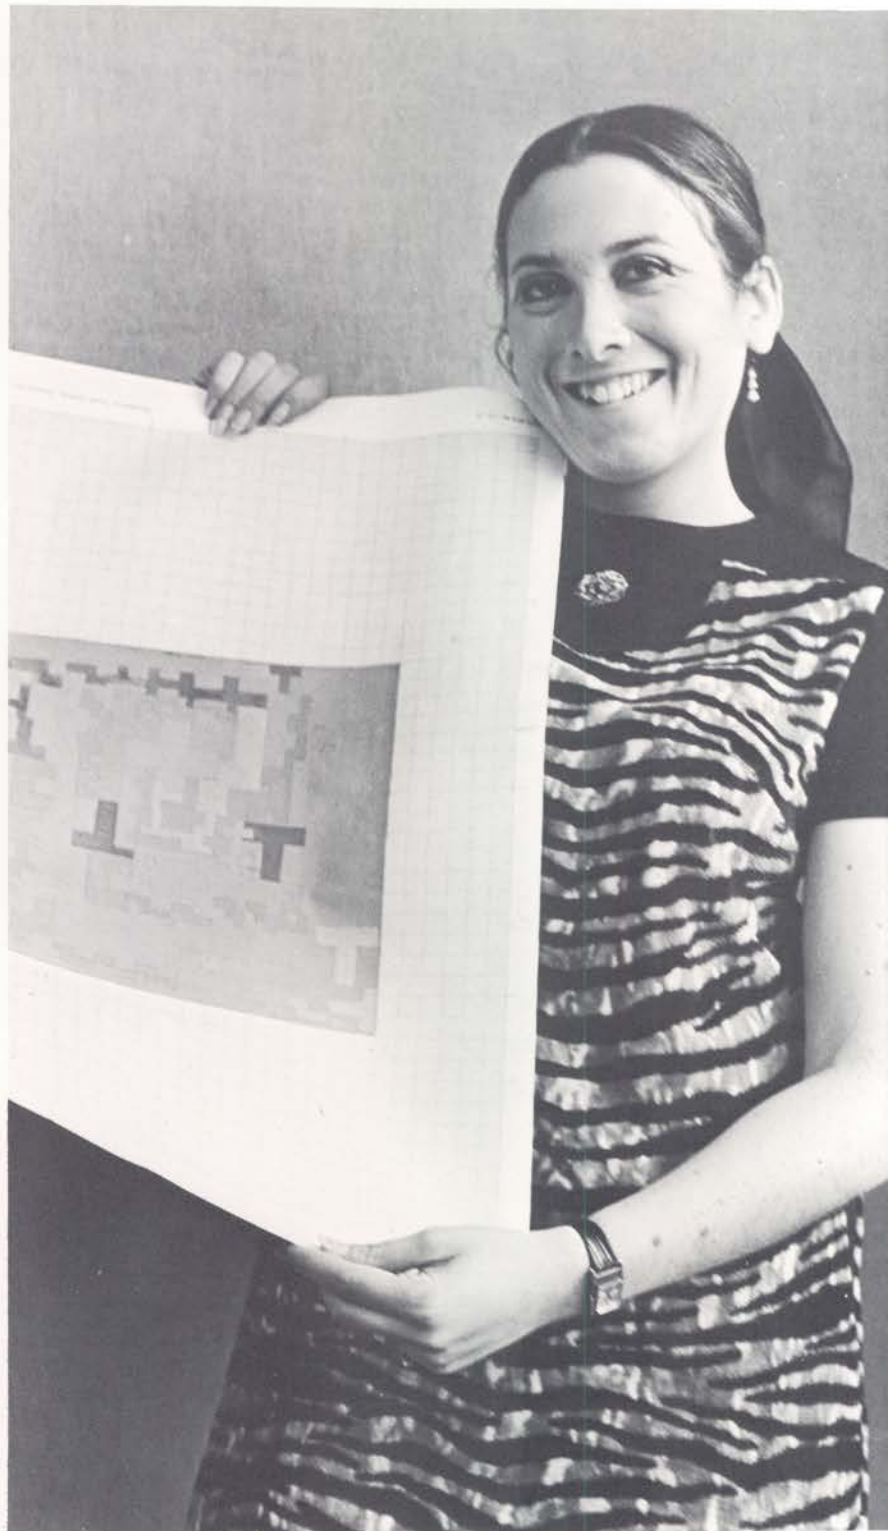

Every student at some time must come to realize that the essential part of being a student is individual confrontation with knowledge. To encourage this Textile has initiated programs of independent study and senior research. Independent study is available to any senior in any subject in which he has shown exceptional interest and aptitude. Senior research, while an elective for this year's seniors, will become a part of the required curriculum in Chemistry, Textile Engineering, and Textile Design next year. There are presently about thirty seniors involved in the two programs. Far from being easy these programs require interest, dedication, and time unequalled by any previous course taken by most of the students. It is probably also the most rewarding because unlike many other courses these require the student to be really involved. On this page and the next we show some of the students and their work.

SENIOR RESEARCH IN DESIGN

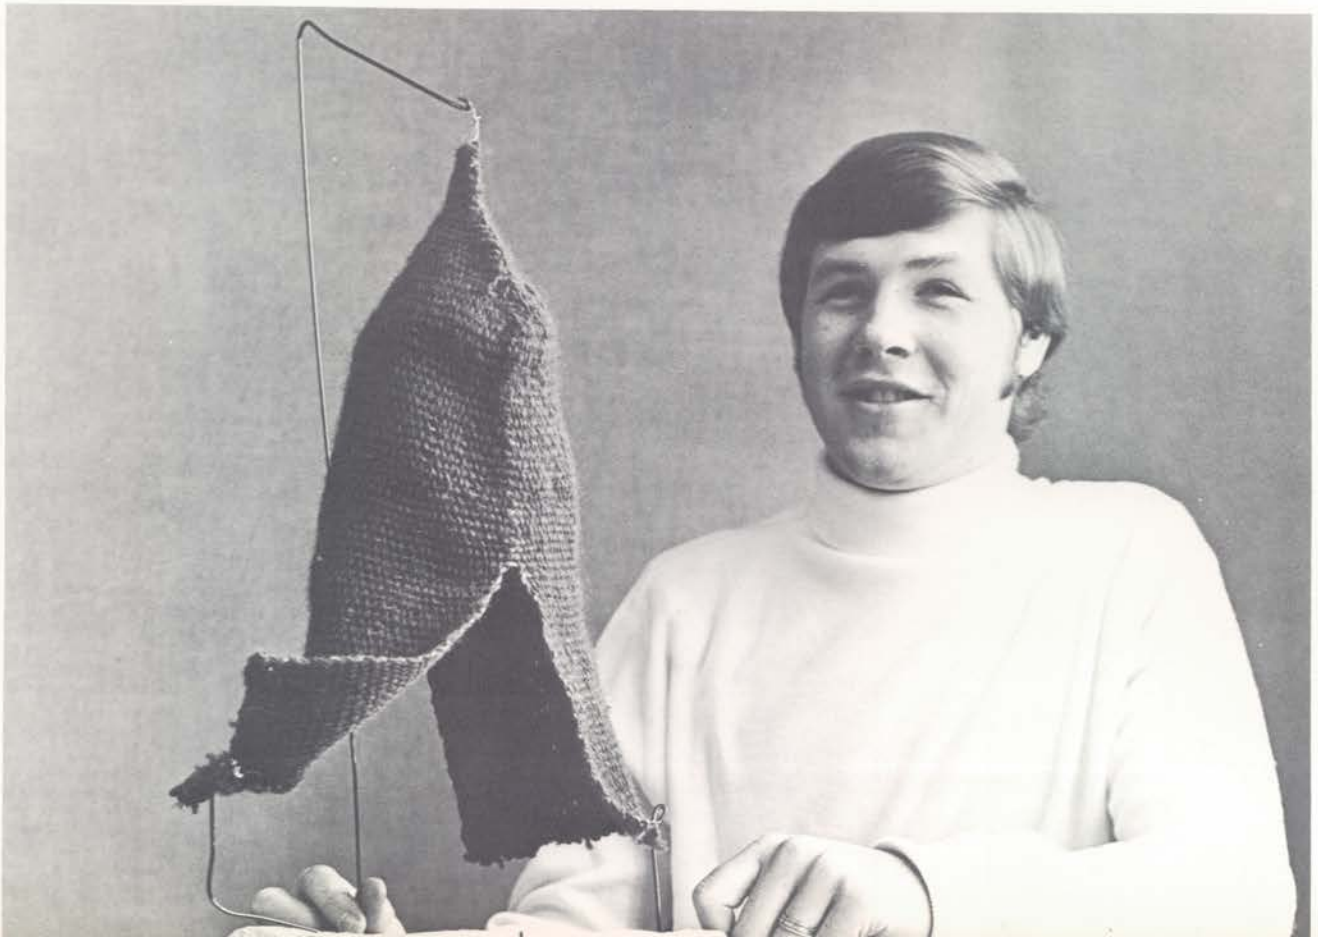

About half of the senior design class took senior research in design. This allowed them to investigate design and fabrication techniques not covered in their required courses. Eva Smayo did a project using macrame, Neil Mandel hooked a rug, and Cheryl Rosenfeld explored color effects.

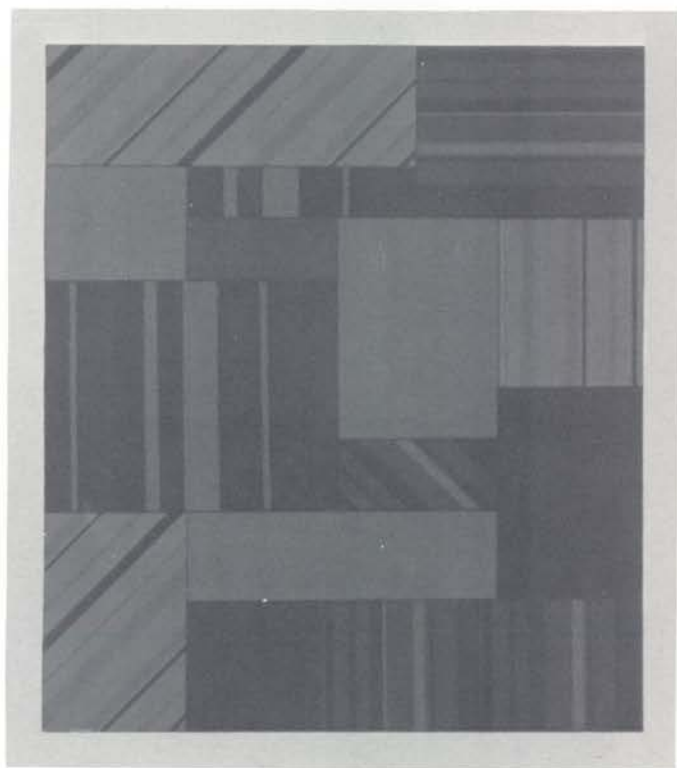

Linda Drazen and Ken Archer both did projects involving three dimensional weaving but achieved entirely different results.

SPRING MAID STRIKES AGAIN

HELLO
SEPTEMBER
1966

GOOD-BY
MAY
1970

This year's senior class is not a close knit group. Nor are they to be remembered for their great campus leadership. Rather their accomplishments are being members of successful sports teams and starting new activities and clubs.

During the time that we have been here there have been many innovations. The library and ARC have been opened. New property has been bought to enlarge the campus — someday. All curriculums have been revised. Participation in national contests and honor organizations have been increased.

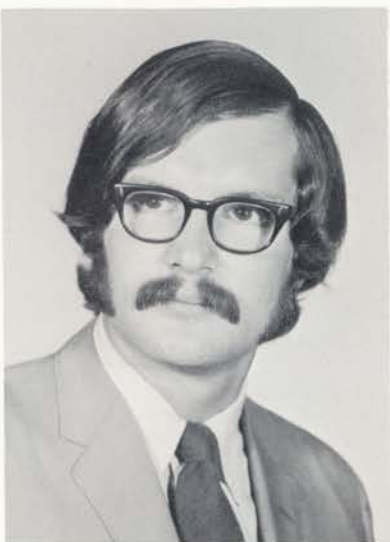

The senior class, as it has come to associate itself with the college, would like to think that some of these changes came about because of its efforts. Probably this is not true. We must remember that: As many clubs have gone out of existence as have been started. The programs were conceived before we came and it will be years before they are fully established. That the alienation which we felt as freshmen is felt by the freshmen today too. And the involvement we have on campus now is no different from the classes that have graduated. Taken as a class we are no different from the rest. The difference comes only as the group is broken down and individual experiences and friendships are recalled.

FACULTY FUNNIES

BELOW: David Timmons, Marketing; Robert Stafford, Weaving; Samuel Gorell, Apparel; Harry Pure, Physical Education; Lawrence Barden, Dean of the Evening College; Henry Cohen, Data Processing. **UPPER RIGHT:** Lee Snyder, Chairman of Humanities Department; Charles Dewees, English. **LOWER RIGHT:** Grant Smith, Mathematics; Donald Flathman, Director of Institutional Advancement. **FAR RIGHT:** James Stickler, Psychology; Harry Tafe, Marketing.

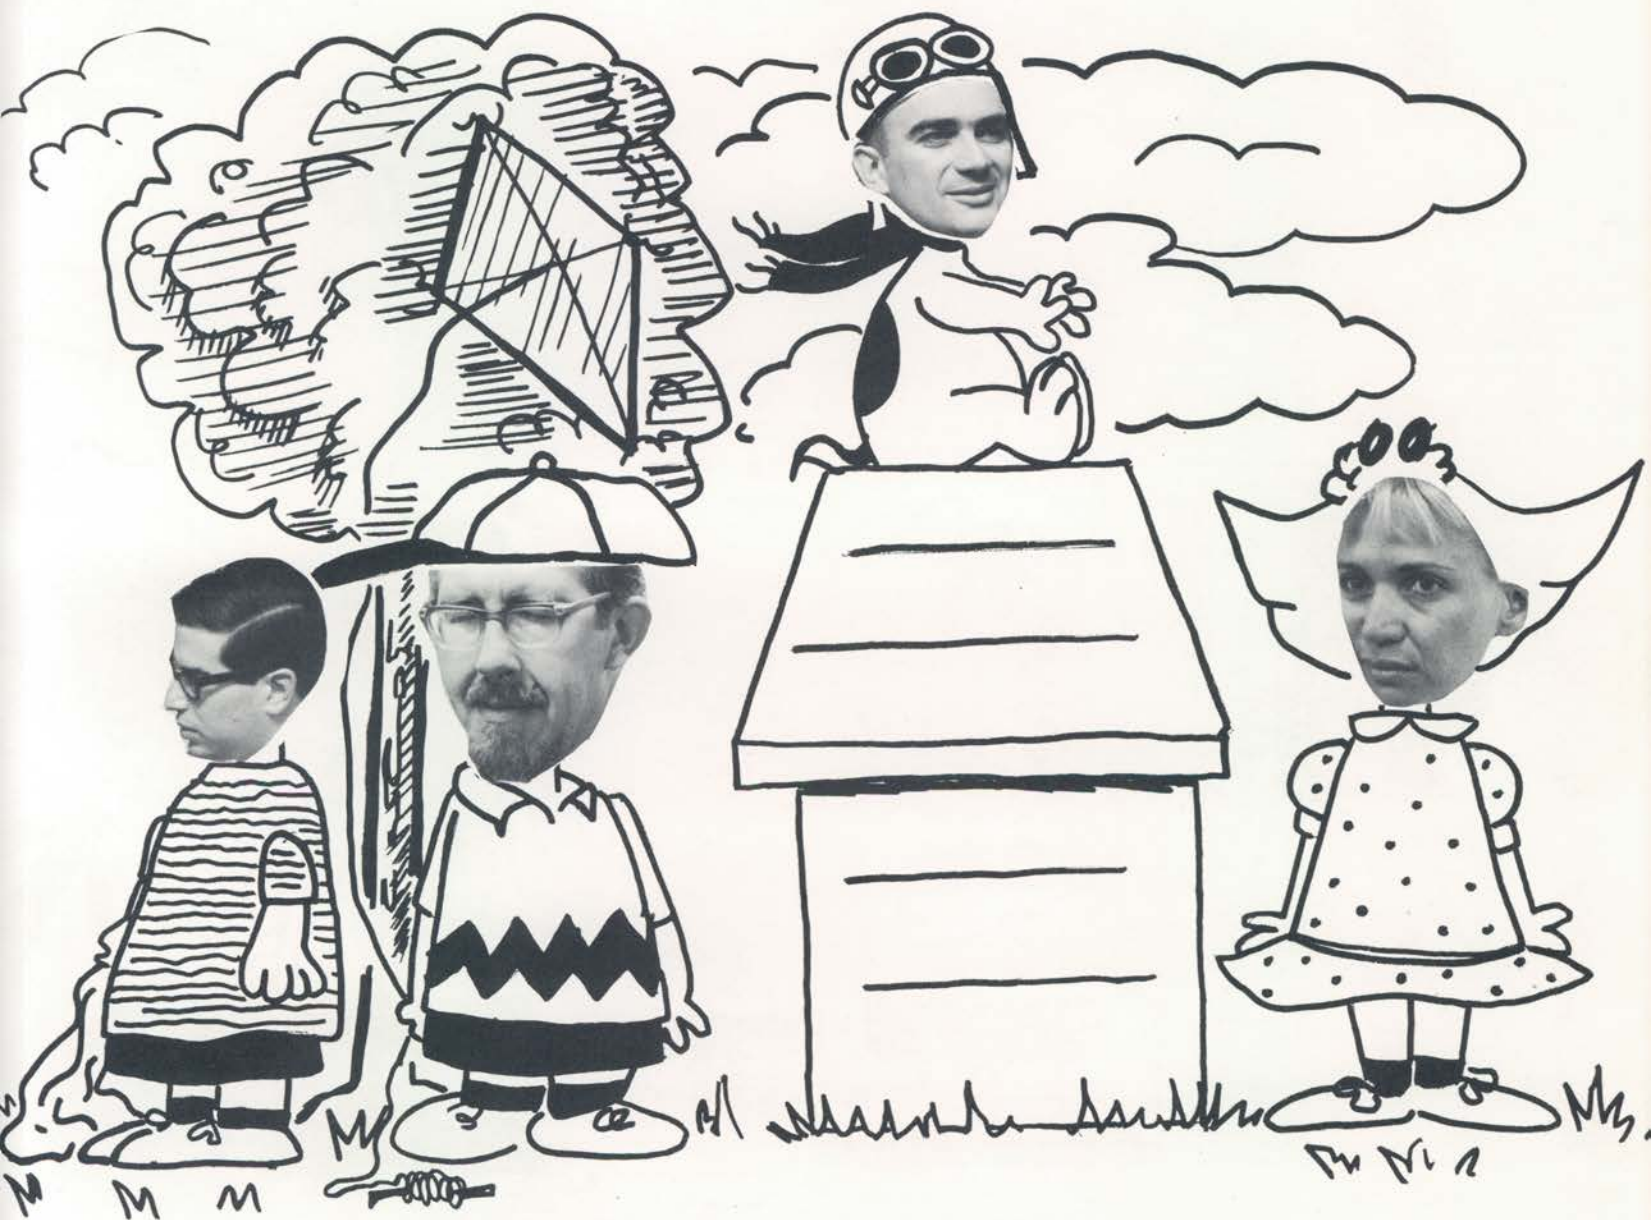

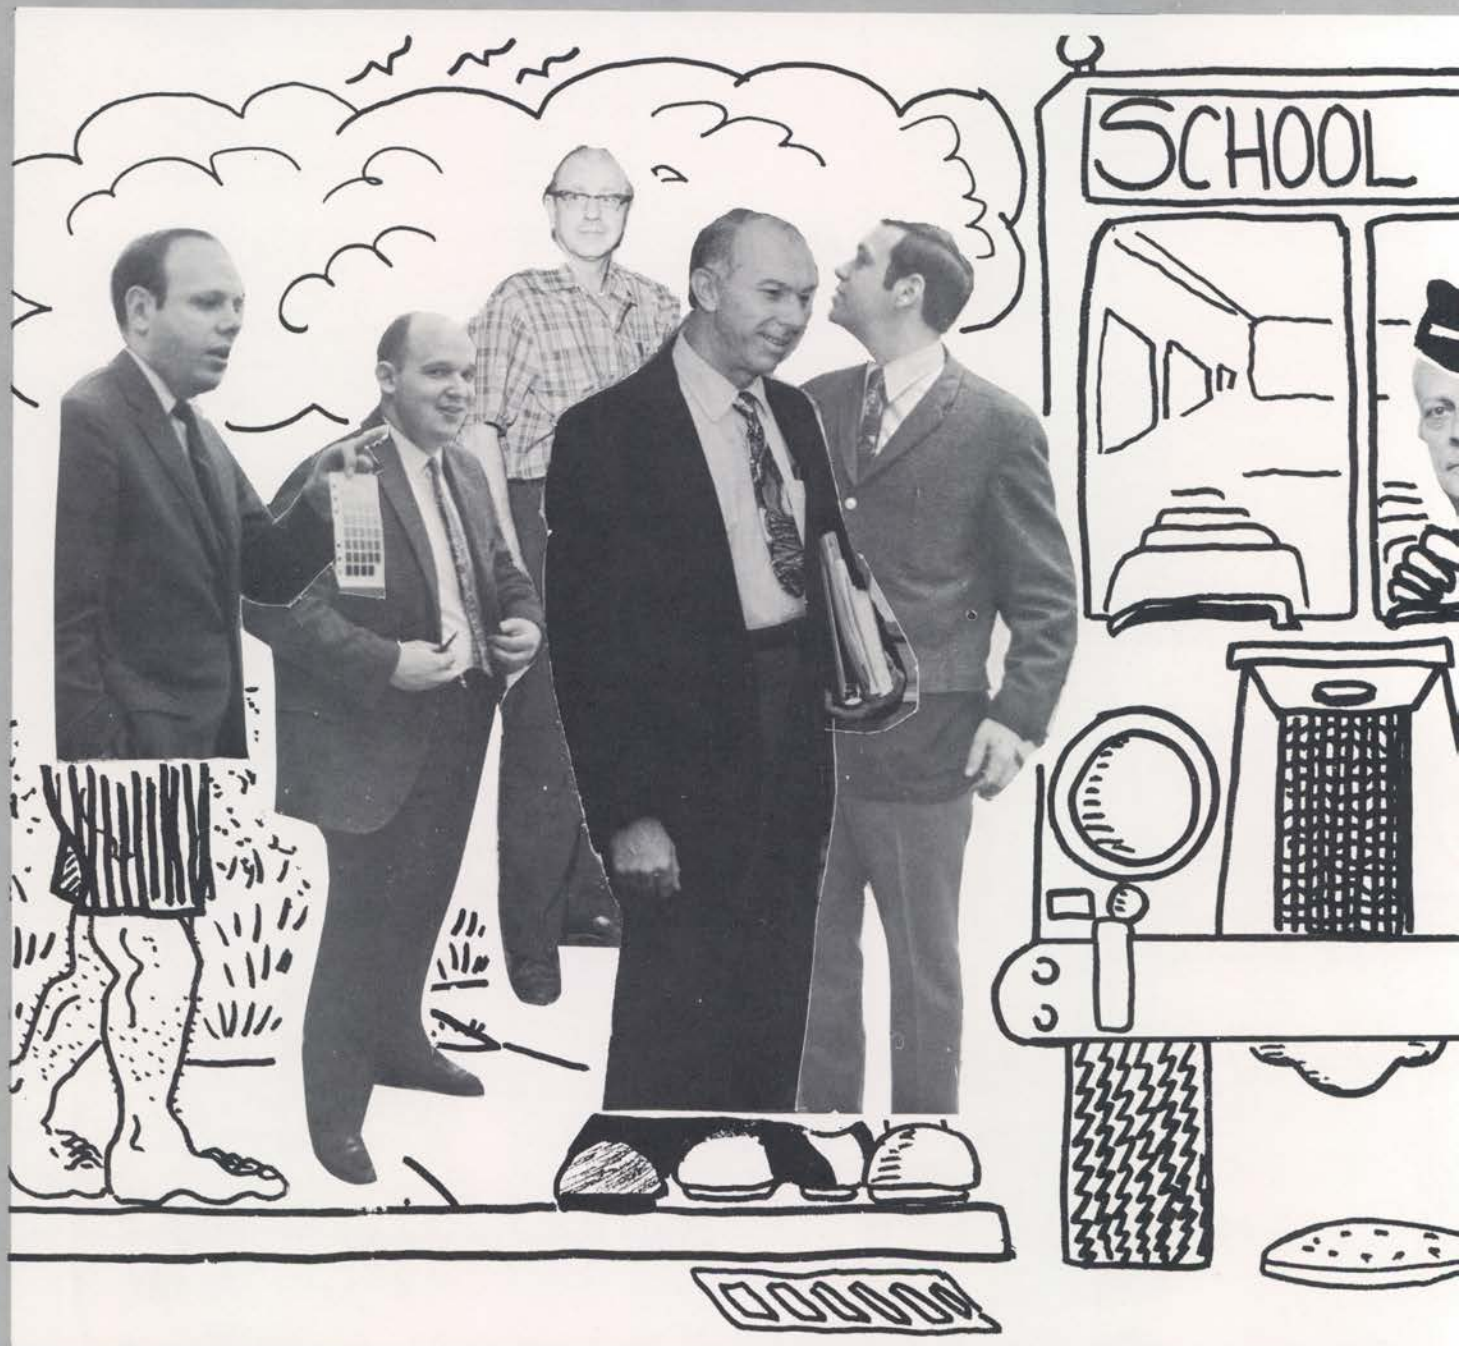

LEFT TO RIGHT: Thomas W. Mahoney — History, Diane L. Norten — Political Science, Walter S. Chyzowych — Physical Education, Joseph B. Seitchik — Law, John F. Gall — Chemistry, Herbert M. Ma-

gee — Physical Education, Morey Kaplan — Chemistry, Philip Elkin — Management.

LEFT TO RIGHT: Steven B. Zelikof — Statistics, William G. Wolfgang — Textiles, Francis Zeglan — Chairman, Textiles, Barbara Pressman — Law.

LEFT TO RIGHT: Kenneth K. Griffin — Textiles, Herbert J. Brandt — Textiles, Clifford Munz — Knitting, Horace Townsend, Jr. — Market-

ing, Frederick Lochetto — History, Bertrand W. Hayward — President, Felix G. Mimo — Economics.

LEFT TO RIGHT: William Hughs — Chairman, Chemistry, Wilfred A. Frisby — Reference Librarian.

LEFT TO RIGHT: H. Lawrence Laupheimer — Director of Placement, Joanne L. Neel — History, Dezoe Doszpoly — Director of Library.

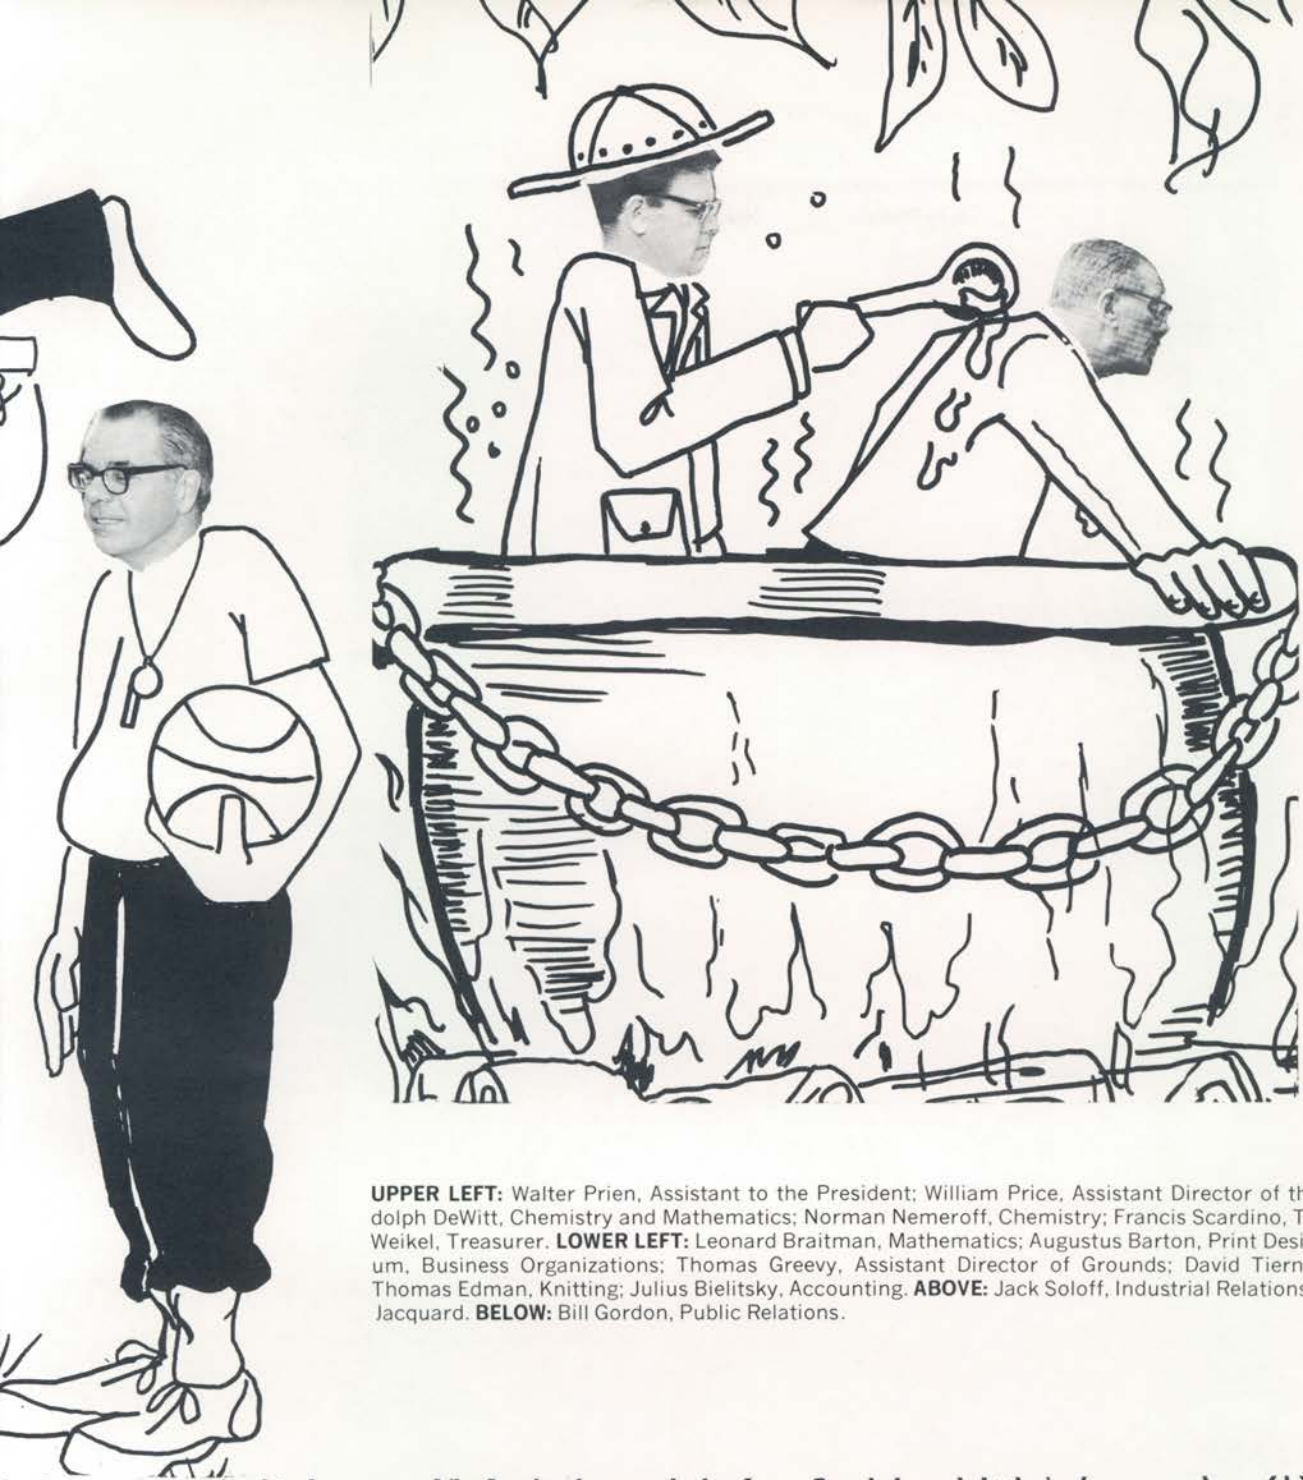

LEFT TO RIGHT: George J. Gradel — Chemistry, Carl B. Bedell — Mathematics, Harry W. Woodcock — Physics, Robert T. Ross — Asst. Dean Eve Col, Jack D. Raskin — Chairman, Business, Lawrence L. Aquilino — English, William R. Brown — English, Wayman G. Blakely — Mathematics, Steven Spivak — Textiles, Gerald Marvin — Audio Visual, Benedict Ratay — Weaving, Bruce D. DeBruhl — Dean of Students, Paul Siminuk — Weaving, Jacquard, Virginia Washleski — Weaving.

LEFT TO RIGHT: Mary White — Nurse, G. Carter Pierce — Social Science, John Winkler — Admissions, Robert Trotta — Physics, Christian Kulczytzki — Humanities, John D. Vorlicek — Design, Harold Libros — Sociology, Gordon A. Marwine — Physics.

UPPER LEFT: Walter Prien, Assistant to the President; William Price, Assistant Director of the Library; Randolph DeWitt, Chemistry and Mathematics; Norman Nemeroff, Chemistry; Francis Scardino, Textiles; Richard Weikel, Treasurer. **LOWER LEFT:** Leonard Braitman, Mathematics; Augustus Barton, Print Design; Robert Bokum, Business Organizations; Thomas Greevy, Assistant Director of Grounds; David Tierney, Economics; Thomas Edman, Knitting; Julius Bielitsky, Accounting. **ABOVE:** Jack Soloff, Industrial Relations; Roy Kiscaden, Jacquard. **BELOW:** Bill Gordon, Public Relations.

FAR LEFT: Mott Linn, Director of Admissions; Joseph Robert Wagner, Jacquard; Stuart Borrowsky, Accounting. **UPPER LEFT:** George Oughton, Finishing; Harry Birkby, Dyeing. **LOWER LEFT:** Edward Dowden, Chemistry; Mendel Trachtman, Chemistry. **ABOVE:** Robert Rhoads, Dean of Academic Affairs; Margaret Goutman, Textiles; William Brokaw, Economics; Stasia Brokaw, Textiles.

LEFT TO RIGHT: Walter Harris Harris, Head, Physical Plant; Harry Hassan, Data Processing; Soon W. Park, Circulation Librarian; Virginia Manley, Serials Librarian.

LEFT TO RIGHT: Paul Kerstetter, Registrar; Goltekin Celikiz, Chemistry; Donald Partridge, Dean of the College; Judith Williams, Institutional Advancement.

Groton, Mass. 01450

Now that the professors are no longer around . . .

Whom do you turn to for help in solving problems? Well, if it's wet processing problems, put the name Tanatex down in your little black book. And don't hesitate to call for help as often as anything puzzling comes up.

You're undoubtedly delighted at completing your **formal** education. And you have our heartiest congratulations and best wishes for success.

But now the serious education begins* — your discovery of the competitive, on-the-job facts of life. And you can make no better

start than discovering the problem-solving potential of Tanatex.

As a matter of fact, the Tanatex continuing series of Technical and Procedure Bulletins is probably one of the most valuable post-graduate courses of study you can take.

"Enroll" for it now. Drop us a card and we'll put you on the list to receive the Bulletins Immediately. What's more, we'll send you a binder of the previous issues covering plant-proven formulae and procedures for a wide range of textile wet processing applications you'll be handling every day in the years ahead.

Head and Shoulders above Everything...

Three Great Plant-Tested Products....

- **CONTROL SELVAGE EDGE-CURL WITH DURA SET S:** Excellent for making an artificial selvage on knits and other constructions where edge-curl must be prevented for satisfactory handling during wet processing and mechanical handling. This product is readily applied by the wheel-type spotting devices or similar equipment. Effective on fabrics of all fibers. Does not cause tendering—even those that are critical, like acetate tricot, for example. *DURA SET S* is quite durable to soaping-off and scouring operations.

- **DURA BEAU® FINISH CP:** A body-building agent for use in conjunction with softeners and lubricants on crimped and texturized synthetic fibers—and fabrics of spandex blends. It will not impair stretch properties. Mildly anionic in type.

- **DURA BEAU® FINISH #34:** For cotton and cotton/polyester knits. Adds loftiness of hand and lubrication essential to wearing comfort as well as prevention of needle-cutting. The finish is characterized by exceptional whiteness and whiteness retention. Perfect for underwear fabrics and similar utilizations. Nonionic in type, it readily lends itself to variations by combination.

Write on plant letterhead (or phone) for more information or no-charge test samples.

Scholler

PIONEERS IN THE BETTER FINISHES THAT MAKE THE BETTER FABRICS... SINCE 1907

Manufacturers of Textile Finishes, Resins, Softeners, Detergents, Oils and Specialties
SCHOLLER BROTHERS, Inc., Collins & Westmoreland Streets, Philadelphia, Pa. 19134 • IN CANADA: Scholler Brothers, Ltd., Ontario

CROMPTON & KNOWLES SERVES THE TEXTILE INDUSTRY FROM FIBER TO FINISH:

C & K TEXTILE MACHINERY GROUP

Specializing exclusively in serving the textile industry, the Textile Machinery Group at Crompton & Knowles provides complete line capability in both wovens and non-wovens. Available from this single source is all the equipment you need from fiber opening to fabric finishing. This single-source capability can cut your planning and installation time and costs — and reduce the time between a "go" decision and an integrated, operational line. You get the finished product more efficiently because Crompton & Knowles has full knowledge of the functional range of every link in the production chain.

Crompton & Knowles Worcester Division: Worcester, Mass.; Charlotte, Burlington, Mooresville, N.C.; and Pawtucket, R.I.
James Hunter Machine Company: North Adams, Mass.; Mauldin, S.C.;
Gardena, Calif.; Dallas, Texas
Winsor & Jerauld: Providence, R.I.; Charlotte, N.C.

ALSO SERVING THE TEXTILE INDUSTRY

In addition to our Textile Machinery Group, other groups within the Crompton & Knowles organization also make important contributions to the textile industry:

C & K PLASTICS MACHINERY GROUP

Extrusion systems for synthetic fiber and yarn production, monofilament and multifilament fiber extrusion lines for all thermoplastic materials. Complete film to fiber systems for the manufacture of slit/split polyolefin yarns.
Davis-Standard/Goulding Division: Pawcatuck, Conn.

C & K CHEMICALS GROUP

Textile Dyes: High-quality, colorfast dyes for natural and all man-made fibers. Dyeing assistants and dye fixatives for cellulosic and polyamide fibers. Leveling agents for polyamide and acrylic fibers.
Ahhouse Division: Reading, Pa.; Mauldin, S.C.; Montreal, Canada

Corrosion Resistant Equipment Design and fabrication of plastic and fiberglass tanks, piping and ventilating equipment to dyeing and finishing plants.

Beehe Plastics Division: Fall River, Mass.; Dallas, Texas

C & K PACKAGING MACHINERY GROUP

Packaging Machinery: Designers and manufacturers of standard and special packaging machinery for wrapping, bundling, pouch and strip packaging, cartoning case packing, multi-packing, and roll wrapping.
Wrap-King Division: Aganam, Mass. Redington Division: Bellwood, Illinois

**For fiber preparation, finishing, or anything in between, Crompton & Knowles
can serve you best. Write to us, outlining your specific requirements:**

Do you seek...

CHALLENGE?

GROWTH?

CREATIVITY?

We offer YOU, the college graduate, the opportunity for challenge, growth, and creativity in the following fields: Research and Development • Merchandising • Engineering • Marketing • Sales • Quality Control.

We are a prominent corporation involved in the imaginative development, design, and manufacture of textiles... recognized as innovators of new concepts and techniques.

If you are a person who wants to belong to a team constantly searching for new vistas and ideas, contact: Mr. Allen Schusterman, Director of Personnel, M. LOWENSTEIN & SONS, INC., 1430 Broadway, New York, N.Y. 10018 Telephone: (212) 695-5000 • Ext. 394.

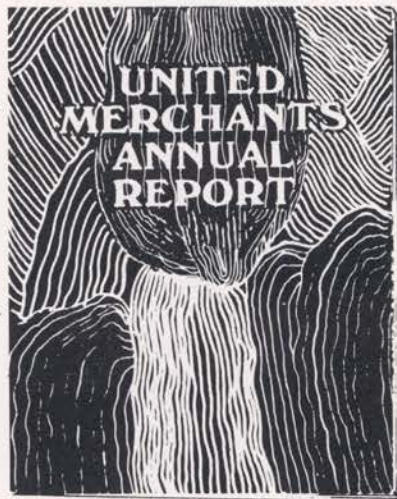

M. LOWENSTEIN & SONS, INC.

FASHION IN FABRICS

We are interested in those interested in our annual report

49 manufacturing plants
in the U.S. and abroad

Employing more than
36,000 people

Sales volume
over \$700 million

Factoring volume
nearing \$800 million

Write or phone for your copy. It will give you the facts about a diversified company with a solid growth record. If you like the atmosphere and close personal relationships of a small company, but want the vast resources and opportunity for individual growth and development of a large

company, then sit down and talk with us. We'll supply the careers in sales, administration, data processing, credit and finance, retailing accounting and manufacturing. You supply ambition, drive, maturity plus the innovativeness that leads to new solutions for old problems.

How to improve the running properties of your yarns

Treat them with a Laurel experience-proved lubricant and you'll get optimum performance in processing. You can choose the right lubricant from products in three different groups: wax emulsion yarn lubricants, coning oils and solid-state wax disks.

Laurel Wax Emulsion Yarn Lubricants impart lubrication, softness, improved appearance, and proper conditioning to natural and synthetic spun yarns, and certain blends. WAX EMULSION WG is a concentrated paraffin-wax-based material. HYDROCOP P is a concentrated paste emulsion of 100% saponifiable waxes. EMULSION 450 SPECIAL is a low viscosity, pumpable emulsion, readily dispersible in cold water and easily removed from equipment.

Laurel Coning Oils are general-purpose blends of lubricants, antistatic agents and silicones for use on all synthetic filament and spun yarns. This group includes: YARN LUBRICANT OT; YARN LUBRICANT OTS, similar to OT but recommended for heavy-duty, maximum lubrication; and YARN LUBRICANT 201, which minimizes crocking and is very effective on certain spun polyester yarns such as Type 60 series Dacron.

Laurel also makes a complete line of wax disks that improve the running properties of all types of natural, synthetic and blended yarns and thread and can be used on practically all types of automatic winders and twisting equipment.

For more information on any of the products mentioned above, or for help in solving a textile processing problem, write . . . or call us at 215-423-5300.
